## INDEPENDENT AUDITOR'S REPORT

Board of Trustees

District of Columbia Police Officers and Firefighters' Retirement Fund

We have audited the accompanying statements of net assets of the District of Columbia Police Officers and Firefighters' Retirement Fund (the Fund), a pension trust fund of the Government of the District of Columbia (the District), as of September 30, 2007 and 2006, and the related statements of changes in net assets for the years then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in note 1, these financial statements only present the Fund and do not purport to, and do not, present the financial position of the Government of the District of Columbia as of September 30, 2007 and 2006, and the changes in its financial position for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the District of Columbia Police Officers and Firefighters' Retirement Fund as of September 30, 2007 and 2006, and the changes in its net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The information on schedules 1 and 2 and the management's discussion and analysis are not a required part of the financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit this information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The information on schedules 3 through 5 is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion thereon.

Washington, D.C.  
February 20, 2008

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
(Amounts expressed in thousands)

---

This discussion and analysis provides an overview of the financial activities of the District of Columbia Police Officers and Firefighters' Retirement Fund (the "Fund") for the fiscal year ended September 30, 2007. This discussion and analysis should be read in conjunction with the financial statements, the notes to the financial statements, and the supplementary information provided in this report.

The District of Columbia Retirement Board (the "Board" or DCRB) is an independent agency of the District of Columbia Government. The Board is responsible for managing the assets of the Fund and the assets of the District of Columbia Teachers' Retirement Fund. As authorized by DC Code, the Board combines the assets of the two Retirement Funds into a single investment portfolio (the "Total Fund"). The Board allocates the investment returns and expenses, and the administrative expenses of the Board, between the two Retirement Funds in proportion to the dollar value of funds managed. The Board maintains financial records of contributions, distributions, withdrawals, investment earnings, investment expenses, and administrative expenses for each fund, and produces financial statements for each fund.

Effective October 1, 2005, the Board was assigned the responsibility for administering the DCRB pension benefits for retirees, survivors and beneficiaries under the plan. The related administrative expenses are borne by the Fund as described above.

Effective October 1, 2005, the Board entered into a Memorandum of Understanding (MOU) with the United States Department of the Treasury (the "U.S. Treasury") to administer DC Police Officers and Firefighter pension benefits that are the financial responsibility of the Federal government (pre1987 benefits). The U.S. Treasury reimburses the Board for expenses incurred to administer the Federal retirement plan.

DCRB and ODCP are collaborating on the split retirement benefit calculations for retirees with service before and after the June 30, 1997. This project will result in the financial reconciliation of pension liabilities between the two trusts, projected to be completed in fiscal year 2008. A detailed description of the relationship between the US Treasury Office of DC Pensions (ODCP) and DCRB regarding the administration and payment of split benefits is included in the notes to the financial statements.

## **OVERVIEW OF THE FINANCIAL STATEMENTS AND SCHEDULES**

The financial information presented in this report includes two financial statements, the notes to the financial statements, and supplementary information.

*The Statements of Net Assets* show the amount of assets, liabilities, and net assets held in trust for pension beneficiaries as of the end of the current and prior fiscal years.

*The Statements of Changes in Net Assets* show the additions to and reductions in the Fund's net assets during the current and prior fiscal years. The statements present the major sources of funds added and uses of funds deducted.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
(Amounts expressed in thousands)

*The Notes to the Financial Statements* contain disclosures and discussions which support the data presented in the financial statements. The notes present information about the creation and administration of the Fund, significant accounting policies, and investments. The notes are an integral part of the financial statements and should be considered in conjunction with any review of the financial statements.

*The Supplementary Information* includes additional information on the Fund's financial condition and trends, including information on employer contributions, actuarial assumptions, investments, and Fund additions and deductions for the last 10 fiscal years.

**FINANCIAL HIGHLIGHTS**

The Fund's financial highlights for fiscal year 2007 are:

- Net Assets held in trust for pension benefits as of September 30, 2007 were \$2,853,608 an annual increase of \$543,397 (23.52%).
- The Investment Income net of investment expenses for fiscal year 2007 was \$400,432, a return of 16.8%.
- The District of Columbia government made a timely contribution of \$140,100 to the Fund for fiscal year 2007, which satisfied its statutory obligation.
- The Fund's share of administrative expenditures for fiscal year 2007 was \$4,037, equivalent to 14 basis points on Fund assets under management.

**FINANCIAL ANALYSIS**

**Net Assets**

A summary of the net assets held in trust for pension benefits as of September 30 is presented below:

	<u>2007</u>	<u>2006</u>	<u>Increase (Decrease)</u>	<u>Percent</u>
Investments, net of accrued interest receivable and liabilities	\$ 2,870,329	\$ 2,321,164	\$ 549,165	23.66%
Capital assets, net	15	51	(36)	-70.59%
Contributions receivable	1,052	955	97	10.16%
Due from (to) District	(3,844)	109	(3,953)	-3626.61%
Due from other agencies	11	-	11	100.00%
Due to Federal government	(13,955)	(12,068)	(1,887)	15.64%
Net Assets	<u>\$ 2,853,608</u>	<u>\$ 2,310,211</u>	<u>\$ 543,397</u>	23.52%

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
(Amounts expressed in thousands)

**Changes in Net Assets**

The Fund experienced the following additions and reductions during the fiscal years as follows:

	<b>2007</b>	<b>2006</b>	<b>Increase (Decrease)</b>	<b>Percent</b>
Employer contributions	\$ 140,100	\$ 117,500	\$ 22,600	19.23%
Employee contributions	27,489	25,142	2,347	9.33%
Net investment income	400,432	212,089	188,343	88.80%
Total Additions	<u>568,021</u>	<u>354,731</u>	<u>213,290</u>	60.13%
Benefit payments	20,587	15,795	4,792	30.34%
Administrative expenses	4,037	1,817	2,220	122.18%
Total Deductions	<u>24,624</u>	<u>17,612</u>	<u>7,012</u>	39.81%
Net change in net assets	<u>\$ 543,397</u>	<u>\$ 337,119</u>	<u>\$ 206,278</u>	61.19%

**TOTAL FUND INVESTMENT ANALYSIS**

The Total Fund (combined assets of Teachers, Police Officers and Firefighters) returned 16.8% during fiscal year 2007, outperforming the Asset Allocation Benchmark by 130 basis points (16.8% versus 15.5%) and the Board's actuarial assumed rate of return of 7.25% by approximately 955 basis points. The Total Fund's strong performance relative to the Asset Allocation Benchmark for fiscal year 2007 can be attributed primarily to the outperformance of the domestic equity segment, as this segment outperformed its benchmark, the Russell 3000 Index, a broad-based U.S. equity index, by 150 basis points (18.0% vs. 16.5%). In addition, the Total Fund's slight overweight positions in the domestic equity and international equity segments contributed positively to performance, as equity markets delivered strong returns during the fiscal year.

As of September 30, 2007, the Total Fund's assets equaled \$4.41 billion, an increase of approximately 22% from the total asset value at the end of fiscal year 2006, after payment of all benefits and other administrative expenses and obligations. Over the long-term, the Total Fund has slightly underperformed the Total Fund Benchmark, with the Total Fund returning an annualized 7.9% for the 10-year period ended September 30, 2007, versus 8.3% for the Total Fund Benchmark. However, it should be noted that the performance of the Total Fund exceeded the Board's actuarial assumed rate of return (7.25%) for the 3-year, 5-year, and 10-year periods ended September 30, 2007, by approximately 645 basis points, 655 basis points, and 65 basis points, respectively, on an annualized basis. Since its inception in October 1982, the Total Fund has earned an annualized return of 10.8%.

Public equity markets continued to perform well during fiscal year 2007, as world stock markets rallied for the fifth straight year. In the U.S., the Russell 3000 Index rose 16.5% during the period. Non-U.S. equity markets outperformed U.S. stocks for the sixth consecutive year, with

## MANAGEMENT'S DISCUSSION AND ANALYSIS

(Amounts expressed in thousands)

the MSCI ACWI ex-US Index increasing 30.5% during the 12-month period ended September 30, 2007. Fixed income was again the worst performing asset class during fiscal year 2007, with the Lehman Brothers U.S. Universal Bond Index returning 5.3%. Towards the end of fiscal year 2007, the markets were hit with widening concerns over declining home prices and sub-prime mortgages that had proliferated in recent years. Fortunately, the Total Fund was only minimally impacted by this credit crisis during fiscal year 2007, as sub-prime mortgages accounted for less than 0.5% of the Total Fund as of September 30, 2007.

During fiscal year 2007, the Board maintained its strategic asset allocation targets, which had been established in fiscal year 2003 following an asset/liability study conducted by the Board's general investment consultant, Watson Wyatt. This study was updated by Watson Wyatt in fiscal year 2005, and asset class targets remain as follows:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Target Allocation Range</b>
Domestic Equities	40%	35-45%
International Equities	20%	15-25%
Fixed Income	25%	20-30%
Private Equity	10%	7-13%
Real Estate	5%	2-8%

As of September 30, 2007, all asset classes were within their respective target allocation ranges, with the exception of fixed income and private equity. It is expected that the fixed income segment, which was less than 1% below the lower end of its target range, will be brought into line with its target allocation within the first few months of fiscal year 2008, following receipt of the annual employer contribution to the retirement funds. Due to the difficulties involved in deploying large amounts of capital expeditiously in private equity, it may take several more years until the Board reaches full exposure to this asset class. Thus, U.S. public equities will be used as a proxy for exposure to private equity until this strategy can be fully implemented.

During fiscal year 2007, the Board took important steps in moving toward its target private equity and real estate allocations. The Total Fund's actual allocation to private equity increased during the fiscal year from 2.5% to 3.8%, as Pantheon, the Board's discretionary private equity advisor and fund-of-fund manager, made additional capital commitments to private equity partnerships. An investment in the Pantheon Global Secondary Fund was also funded at the beginning of fiscal year 2007. Regarding real estate, the Board reached its target allocation during fiscal year 2007, as exposure to real estate increased from 3.7% to 5.2%. The Board made investments in several real estate funds during the year, including PRISA, PRISA II, and Carlyle Realty Partners V.

The Board made several changes to its roster of investment managers during the fiscal year. Within the U.S. equity segment, the Board conducted a search for a mid-cap growth manager to replace Brown Capital, selecting Mazama Capital, with funding to occur in early fiscal year 2008. In order to add alpha through more active management, the Board also funded an enhanced equity index fund managed by Western Asset. Within the international equity segment, the Board selected and funded the LSV Emerging Markets Fund in order to increase the segment's exposure to emerging markets, consistent with the segment's benchmark, the MSCI

## MANAGEMENT'S DISCUSSION AND ANALYSIS

(Amounts expressed in thousands)

---

ACWI ex-US Index. The Board also conducted a search for a new core international equity manager, selecting Goldman Sachs to replace Capital Guardian, with funding expected in early fiscal year 2008. Within the fixed income segment, the Board terminated Hughes Capital, splitting Hughes' allocation between the segment's two other managers, PIMCO and Western Asset.

The Board continued to rebalance its managers' portfolios during fiscal year 2007 in accordance with the Board's rebalancing policy. Variances from investment style targets were rebalanced as needed in a manner that maintained the overall integrity of the asset class structure but was not disruptive to the managers.

### ADDITIONAL INFORMATION

These financial statements present the finances of the Fund in accordance with accounting principles generally accepted in the United States of America. Questions about these financial statements or other inquiries should be addressed to the Executive Director, District of Columbia Retirement Board, 900 7<sup>th</sup> Street, NW, 2<sup>nd</sup> Floor, Washington, DC 20001.

**(Dollar amounts in thousands)**

**NOTE 1: ORGANIZATION**

The District of Columbia Police Officers and Firefighters' Retirement Fund (the Fund) was established in 1979 by the District of Columbia Retirement Reform Act (the Reform Act, Pub. L. 96-122, D. C. Code § 1-701 et seq.). The Fund holds in trust the assets available to pay pension benefits to police officers and firefighters of the District of Columbia Government. The Reform Act also established the District of Columbia Retirement Board (the Board) and the District of Columbia Teachers' Retirement Fund (the Teachers' Fund).

The National Capital Revitalization and Self-Government Improvement Act of 1997 (the Revitalization Act, Title XI of the Balanced Budget Act of 1997, Pub. L. 105-33) transferred significant assets and liabilities of the Police Officers and Firefighters Fund and the Teachers' Retirement Fund (collectively, the District Retirement Funds) to the Federal Government.

Concurrently, the District of Columbia Retirement Protection Act of 1997 (the Retirement Protection Act, Subtitle A of the Revitalization Act) transferred to the Federal Government the liability for retirement benefits for employee service credit earned prior to July 1, 1997, by participants of the District Retirement Funds. The assets transferred to the Federal Government and the assets of the Fund managed by the Board are components of the same single employer defined benefit pension plan.

The Council of the District of Columbia (the Council) enacted the Police Officers, Firefighters, and Teachers Retirement Benefit Replacement Plan Act of 1998 (September 18, 1998, D.C. Law 12-152, § 101, 45 DCR 4045; D.C. Code § 1-901.01 et seq.). This Act (the Replacement Act) established the pension benefits for employee service earned after June 30, 1997, and provided for full funding of the benefits on an actuarially sound basis.

The Board is an independent agency of the District of Columbia Government (the District) that is responsible for managing the assets of the District Retirement Funds. Although the assets of the funds are commingled for investment purposes, each Fund's assets may only be used for the payment of benefits to the participants of that Fund and certain administrative expenses.

The Fund is included in the District's Comprehensive Annual Financial Report as a pension trust fund.

**DISTRICT OF COLUMBIA**  
**POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEARS ENDED SEPTEMBER 30, 2007 AND 2006**  
**(Dollar amounts in thousands)**

**NOTE 2: FUND ADMINISTRATION AND DESCRIPTION**

*District of Columbia Retirement Board* - The Board consists of 12 trustees, three appointed by the Mayor of the District, three appointed by the Council of the District, and six elected by the active and retired participants. Included are one active and one retired representative each from the police officers, firefighters, and teachers. Each of the six representatives of plan participant is elected by the respective groups of active and retired employees. In addition, the District's Chief Financial Officer or his designee serves as a non-voting, ex-officio trustee.

Since its inception, the Board has operated under a committee system which provides a two-tiered process for fiduciary review and analysis. In this manner, the Board, consistent with its fiduciary duties, reviews all issues brought before it. The Board has six standing committees: Benefits, Emerging Enterprise, Fiduciary, Investment, Legislative, and Operations. (The function usually associated with an Audit Committee is performed by the Operations Committee.) To implement its policies, the Board retains an executive director and other staff who are responsible for the day-to-day management of the District Retirement Funds.

*Other Entities involved in Plan Administration* - The District of Columbia Police Officers and Firefighters' Retirement and Relief Board makes findings of fact, conclusions of law, and decisions regarding eligibility for retirement and survivor benefits, determines the extent of disability, and conducts annual medical and income reviews. The Board of Police and Fire Surgeons determines medical eligibility for disability retirement.

*Benefits Calculation* - The DCRB Benefits Department receives the retirement orders for retirement benefit calculations for all active plan members found eligible for retirement by the District of Columbia Police Officers and Firefighters' Retirement and Relief Board, and carries out the day-to-day processing of retirement benefits. DCRB also processes employee requests for refunds of contributions.

*Eligibility* - A participant becomes a member when he/she starts work as a police officer or firefighter in the District. Police cadets are not eligible to join the Fund.

Retirement and disability benefit provisions for District of Columbia police officers and firefighters are established by the "Policemen and Firemen's Retirement and Disability Act" (D.C. Code § 5-701 et seq. (2001 Ed.)).

**NOTES TO FINANCIAL STATEMENTS**  
**YEARS ENDED SEPTEMBER 30, 2007 AND 2006**  
**(Dollar amounts in thousands)**

**NOTE 2: FUND ADMINISTRATION AND DESCRIPTION (Continued)**

*Members Hired Before February 15, 1980*

Members are eligible for optional retirement with full benefits at any age with 20 years of departmental service, or for deferred retirement after age 55 with five years of departmental service. The annual basic retirement benefit equals 2.5% of average base pay, which is defined as the highest consecutive 12 months of base pay, multiplied by departmental service through 20 years; plus 3% of average base pay multiplied by average base pay times departmental service over 20 years; plus 2.5% of average base pay multiplied by years of creditable service; however, the aggregate annual basic retirement benefit may not exceed 80% of the beneficiary's final annual pay. Members terminated after five years of police or fire service are entitled to a deferred pension beginning at age 55. Benefits are also provided to certain survivors of active, retired, or terminated vested members. Retired members receive the same percent increase in benefits granted to active participants in the schedule rate to which the member would be entitled if in active service.

Members with permanent, service-related disabilities who have less than 26 years and eight months of service receive benefits equal to two-thirds (2/3) of average base pay. Members with 26 years and eight months to 28 years of service receive 2.5% of average base pay multiplied by the number of years of service. Members with more than 28 years of service receive benefits equal to 70% of average base pay.

Members with permanent, nonservice related disabilities who have years of service between 5 to 20 years of service receive benefits equal to 40% of average base pay, between 20 to 35 years of service receive benefits equal to 2% of average base pay multiplied by the number of years of service during that 15 year period and more than 35 years of service receive benefits equal to 70% of average base pay.

*Members Hired Between February 15, 1980 and November 10, 1996*

Members are eligible for optional retirement with full benefits at age 50 with at least 25 years of departmental service, or after 55 with five years of departmental service. The annual basic retirement benefit equals 2.5% of average base pay, which is defined as the highest consecutive 36 months of base pay, multiplied by the number of years of creditable service through 25 years; plus 3% of average base pay multiplied by the number of years of departmental service over 25 years; plus 2.5% of average base pay multiplied by the number of years of creditable service; however, the aggregate annual basic retirement benefit may not exceed

**YEARS ENDED SEPTEMBER 30, 2007 AND 2006**  
**(Dollar amounts in thousands)**

**NOTE 2: FUND ADMINISTRATION AND DESCRIPTION (Continued)**

80% of final salary. Members separated from the Police or Fire Department after five years of departmental service are entitled to a deferred pension beginning at age 55.

Members with permanent, service-related disabilities receive 70% of base pay multiplied by percentage of disability, with a minimum benefit of 40% of base pay. Members with permanent, nonservice-related disabilities with more than 5 years of service receive 70% of base pay multiplied by percentage of disability, with a minimum benefit of 30% of base pay.

Benefits are also provided to certain survivors of active, retired or terminated vested members. Members who retired after February 15, 1980 receive annual benefit increases proportional to changes in the Consumer Price Index.

***Members Hired on or After November 10, 1996***

Members are eligible for retirement at any age, with at least 25 years of departmental service or after age 55 with five years of departmental service. The annual basic retirement benefit equals 2.5% of average base pay, which is defined as the highest consecutive 36 months of base pay, multiplied by credited service; however, the aggregate annual basic retirement benefit may not exceed 80% of the final pay. Members separated after five years of departmental service are entitled to a deferred pension beginning at age 55. Benefits are also provided to certain survivors of active, retired, or terminated vested members. Members receive annual benefit increases proportional to changes in the Consumer Price Index, but not more than 3%.

Members with permanent, service-related disabilities receive 70% of base pay multiplied by percentage of disability, with a minimum benefit of 40% of base pay.

Members with permanent, nonservice-related disabilities with more than five years of service receive 70% of base pay multiplied by percentage of disability, with a minimum benefit of 30% of base pay.

**DISTRICT OF COLUMBIA  
POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED SEPTEMBER 30, 2007 AND 2006  
(Dollar amounts in thousands)**

**NOTE 2: FUND ADMINISTRATION AND DESCRIPTION (Continued)**

*Participant Data*

For the years ended September 30, 2007 and 2006, the number of participating employees was as follows:

	<u>2007</u>	<u>2006</u>
Retirees and beneficiaries receiving benefits (post 6/30/97)	1,125	1,051
Active plan members	5,550	5,256
Vested Terminations	234	244
Total Participants	<u>6,909</u>	<u>6,551</u>

*Contributions*

Fund members contribute by salary deductions at rates established by D.C. Code § 5-706 (2001 Ed.). Members contribute 7% (or 8% for Police Officers and Firefighters hired on or after November 10, 1996) of annual gross salary, including any differential for special assignment and longevity, but excluding overtime, holiday, or military pay.

The District is required to contribute the amounts necessary to finance the plan benefits of its employees through annual contributions at actuarially determined amounts in accordance with the provisions of the Replacement Act. The amount of the District contributions for fiscal years 2007 and 2006 equaled the amounts computed by Fund's independent actuary.

Contribution requirements of Fund members are established by D.C. Code § 5-706 and requirements for District of Columbia government contributions to the Fund are established at D.C. Code § 1-907.02 (2001 Ed.), which may be amended by the Council. Administrative costs are paid from investment earnings.

**NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Basis of Accounting* - The financial statements are prepared using the accrual basis of accounting.

Employee contributions are recognized by the Fund at the time compensation is earned by fund members. Employer contributions to the Fund are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the retirement plan's commitment.

**POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEARS ENDED SEPTEMBER 30, 2007 AND 2006**  
**(Dollar amounts in thousands)**

**NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Method Used to Value Investments* - Investments are reported at fair value, and reflect transaction costs, such as brokerage commissions and other costs normally incurred in a sale, if such costs are determinable or estimable. Short-term investments (whose maturities do not exceed 13 months at the time of purchase) are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at the current exchange (Spot) rate. Collateralized mortgage obligations are stated at fair.

The fair value of real estate investments is based on independent appraisals, when available, and the fair value of limited partnership interests in real estate investments is based on reported estimated fair values. Investments that do not have established market values are reported at estimated fair value.

*Actuarial Data* - The Fund uses the Aggregate Actuarial Cost method to determine the annual employer contribution. Any excess of the actuarial present value of projected benefits of the group included in an actuarial valuation over the sum of the actuarial value of assets plus the actuarial present value of employee contributions is allocated on a level basis over the earnings or service of the group between the valuation date and assumed exit date.

This allocation is performed for the group as a whole, not as a sum of individual allocations. The portion of the actuarial present value allocated to a valuation year is called the normal cost. The actuarial accrued liability is equal to the actuarial value of assets.

*Use of Estimates* - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Board to make estimates and assumptions that affect the reported amounts of assets, liabilities, additions and deductions to net assets held in trust for pension benefits and disclosure of contingent assets and liabilities at the date of the financial statements and during the reporting period. Actual results could differ from those estimates.

*Investment Expenses* - The District of Columbia Appropriation Act authorized Fund earnings to be used for investment expenses incurred in managing the assets and administering the Fund. The total investment expenses borne by the Fund was and \$ 8,170 in 2007 and \$ 7,143 in 2006, respectively.

**NOTE 4: INVESTMENTS**

The Board is authorized to manage and control the investment of the District Retirement Funds' assets. The Board broadly diversifies the investments of the

District Retirement Funds so as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so, as required by D.C. Code § 1-741(a)(2)(C), (2001 Ed.).

*Master Trust* - The Board has pooled all of the assets under its management (the Investment Pool), as is authorized by D.C. Code § 1-903(b), (2001 Ed.), with a master custodian under a master trust arrangement (the Master Trust). Using an investment pool, each Fund owns an undivided proportionate share of the pool. District and employee contributions are deposited in the respective Retirement Fund for which the contribution was made, and benefit payments and employee contribution refunds are withdrawn from the Fund in which the recipient participates. Investment performance and administrative expenditures are allocated between the two Funds based upon their proportionate equity in the pool.

The fair values of investments of the Investment Pool as of September 30, 2007 and 2006 are as follows:

	<b>2007</b>	<b>2006</b>
Investments held by Board's agent in Board's name:		
Cash and cash equivalents	\$ 148,521	\$ 147,585
Equities (of which \$381,826 and \$304,375 in 2007 and 2006, respectively, are on securities loan with securities and other collateral)	3,336,620	2,675,639
Fixed income securities (of which \$82,020 and \$102,106 in 2006 and 2005, respectively, are on securities loan with securities and other collateral)	600,779	505,903
Payable on investment transactions	(152,552)	(118,558)
Options and Swaps	5,263	-

(Dollar amounts in thousands)

**NOTE 4: INVESTMENTS (Continued)**

**Interest Rate Risk** - As a general rule, the risk and return of the Board's fixed income segment of the portfolio is compared to the Lehman Brothers Universal Index. To mitigate interest rate risk, the fixed income segment is expected to maintain a weighted average duration (sensitivity to interest rate changes) within +/-2 years of the duration of the Index.

**Credit Risk** - Unless specifically authorized otherwise in writing by the Board, fixed income managers invest in investment grade instruments rated in the top four rating categories by a recognized statistical rating service.

**Currency Risk** - As a general policy, investment managers with authority to invest in issuers denominated in a foreign currency may reduce exposure to currency risk by systematically hedging foreign currency positions back to U.S. dollars through the forward currency markets. Since the forward exchange rate is seldom equal to the spot exchange rate, forward hedging gains and losses may arise.

As of September 30, 2007, the Investment Pool held investments that are denominated in a currency other than the United States Dollar, as summarized below:

	Asset Class					Total
	Cash	Equities	Fixed Income	Options	Swaps

**Securities Lending Transactions** - District statutes and the Board's policies permit the Retirement Funds to participate in securities lending transactions by relying on a Securities Lending Authorization Agreement, which authorizes the master custodian to lend the Board's securities to qualified broker-dealers and banks pursuant to a form of loan agreement.

During 2007 and 2006, the master custodian, at the direction of the Board, loaned certain of the Retirement Funds' equity and fixed income securities for which it received collateral in the form of United States and foreign currency cash, securities issued or guaranteed by the United States government, the sovereign debt of foreign countries and irrevocable bank letters of credit. This collateral could not be pledged or sold unless the borrower defaulted on the loan. Borrowers were required to deliver and maintain collateral for each loan in an amount equal to (i) at least 102% of the market value of the loaned security in the United States; or (ii) 105% of the market value of the loaned securities in the case of loaned securities not denominated in United States dollars or whose primary trading market was not located in the United States.

**DISTRICT OF COLUMBIA**  
**POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEARS ENDED SEPTEMBER 30, 2007 AND 2006**  
**(Dollar amounts in thousands)**

**NOTE 4: INVESTMENTS (Continued)**

The Board and the borrowers maintained the right to terminate all securities lending transactions on demand. The cash collateral received on each loan was invested, together with the cash collateral of other qualified tax-exempt plan lenders, in a collective investment pool (the Quality D Fund). The Quality D Fund does not meet the requirements of Securities and Exchange Commission Rule 2a-7 of the Investment Company Act of 1940, and accordingly, the master custodian has valued the Fund's investments at fair value for reporting purposes.

The Quality D Fund is not registered with the Securities and Exchange Commission. The master custodian, and consequently the investment vehicles it sponsors (including the Quality D Fund), are subject to the oversight of the Federal Reserve Board and the Massachusetts Commissioner of Banks. The fair value of the Funds' position in the Quality Fund is not the same as the value of the Retirement Funds' shares.

There was no involuntary participation in an external investment pool by the Quality D Fund and there was no income from one fund that was assigned to another fund by the master custodian during 2007 or 2006.

During 2007 and 2006, the Board did not restrict the amount of the loans that the master custodian made on its behalf. There were no failures by any borrowers to return loaned securities or pay distributions thereon and there were no losses resulting from a default of the borrowers or the master custodian during 2007 and 2006.

The Quality D Fund invests cash collateral from loans of U.S. and non-U.S. equities, U.S. corporate fixed income securities, U.S. Government securities and sovereign debt. It had a weighted average maturity of 55 days and an average expected maturity of 514 days. Because the loans were terminable at will, their duration did not generally match the duration of the investments made with cash collateral. Investments are restricted to issuers with a short-term credit rating not lower than A1/P1, or long-term ratings not lower than A-/A3, or the equivalent thereof. The Quality D Fund may invest in other investment vehicles managed by the master custodian provided they conform to fund guidelines.

On September 30, 2007 and 2006, the Board had no credit risk exposure to borrowers.

**POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEARS ENDED SEPTEMBER 30, 2007 AND 2006**  
**(Dollar amounts in thousands)**

**NOTE 4: INVESTMENTS (Continued)**

The collateral held and the market value of securities on loan for the Board were \$543,784 and \$526,687 respectively, as of September 30, 2007, and \$426,228 and \$413,922, respectively as of September 30, 2006. During 2007 and 2006, the Master Trust's gross earnings from securities lending transactions totaled \$26,764 and \$21,017 respectively. The income (net of amortization and accretion), the net realized/unrealized gain attributable to discount and premium, and the net increase in net assets resulting from operations totaled \$28,643, \$667, and \$29,310 respectively, in 2007, and \$22,099, \$962, and \$3,062, respectively, in 2006. The Fund's share of the net income on securities lending transactions totaled \$815 and \$605 in 2007 and 2006, respectively.

*Derivative Investments* – Derivatives are generally defined as contracts whose value depends on, or derives from, the value of an underlying asset, reference rate, or index. Structured financial instruments are also defined as derivatives, such as mortgage-backed securities, asset-backed securities, and floating rate notes. Derivative investments generally contain exposure to credit risk, market risk, and/or legal risk. Credit risk is the exposure to the default of another party to the transaction (counterparty), or to the creditworthiness of derivative securities, such as mortgage-backed, asset-backed, floating rate, and stripped securities. Market risk is the exposure to changes in the market, such as a change in interest rates, currency exchange rates, or a change in the price or principal value of a security. The Board believes that all contracts entered into are legally permissible in accordance with the policy of the Board.

During 2007 and 2006, the Retirement Funds, in accordance with the policy of the Board, and through the Retirement Funds' investment managers who have full discretion over investment decisions, invested in various derivative instruments either to increase potential earnings or to hedge against potential losses. These derivatives included asset-backed securities (ABS), collateralized mortgage-backed securities (CMOs), mortgage-backed pools and securities, floating rate notes, structured notes, stripped/zero coupon bonds, inflation index bonds, forward mortgage-backed security contracts (TBAs), foreign currency forward and futures contracts, equity index futures, bond futures, bond options, currency options, swaps, swaptions and warrants.

The Retirement Funds used ABS, CMOs, mortgage-backed pools and securities, floating rate notes, structured notes, stripped/zero coupon bonds, and TBAs

**DISTRICT OF COLUMBIA**  
**POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEARS ENDED SEPTEMBER 30, 2007 AND 2006**  
**(Dollar amounts in thousands)**

**NOTE 4: INVESTMENTS (Continued)**

primarily to increase potential returns. ABS and mortgage-backed pools and securities offer higher potential yields than comparable duration U.S. Treasury notes with higher credit and market risks. CMOs also offer higher potential yields than comparable duration U.S. Treasury notes, with higher market risks, although the market risks may be higher or lower than comparable mortgage-backed pools. Market risk for asset-backed and mortgage-backed pools and securities is managed by monitoring the duration of the investments. Credit risk is managed by monitoring credit ratings, the underlying collateral for each security and any related guarantee. These and all other risks mentioned herein are monitored and managed by the Retirement Funds' external investment managers who purchase such securities and notes on behalf of the Retirement Funds.

Floating rate notes (securities which pay an interest rate tied to an index) are subject to market risk to the extent of the movement of the underlying index in relation to market rates. A downward movement in the underlying index would negatively impact the interest income received on the security. Upward movements in interest rates do not adversely affect floating rate notes as they do fixed rate notes, allowing floating rate notes to function as a hedge against upward changes in interest rates.

The Retirement Funds invested in structured notes with step-up coupons that offer higher yields than comparable U.S. Treasury notes in exchange for higher market and/or credit risks. Securities with step-up coupons pay interest according to a pre-set series of interest rates which start at one rate and then step-up to higher rates on specific dates. The Retirement Funds also invested in stripped/zero coupon bonds, which are purchased at a discount and do not pay any interest.

TBAs (sometimes referred to as "dollar rolls") are used by the Retirement Funds as an alternative to holding mortgage-backed securities outright to raise the potential yield and to reduce transaction costs. The selected TBAs used are used because they are expected to behave the same in duration and convexity as mortgage-backed securities with identical credit, coupon and maturity features. Credit risk is managed by limiting these transactions to primary dealers. Market risk for this type of security is not significantly different from the market risk for mortgage-backed securities.

Foreign currency forward, futures contracts and foreign currency options are generally used by the Retirement Funds for defensive purposes. These contracts hedge a portion of the Retirement Funds' exposure to particular currencies on occasion when significant adverse short-term movement in exchange rate levels is expected.

**DISTRICT OF COLUMBIA**  
**POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEARS ENDED SEPTEMBER 30, 2007 AND 2006**  
**(Dollar amounts in thousands)**

**NOTE 4: INVESTMENTS (Continued)**

Foreign currency forward and futures contracts can pose market risk when the maximum potential loss on a particular contract is greater than the value of the underlying investment. Market risks arise due to movements in the foreign exchange rates underlying the contracts used by the Retirement Funds. Credit risk is managed by limiting transactions to counterparties with short-term credit ratings of A1 or P1 or by trading on organized exchanges. Market risk for currency options is limited to the purchase cost. Credit risk is managed by limiting transactions to counterparties with investment grade ratings or by trading on organized exchanges.

Equity index futures were also used by the Retirement Funds in order to gain exposure to equity markets in a more efficient and liquid manner than directly investing in all of the underlying equity securities. Equity index futures may pose market risk when the maximum potential loss on a particular contract is greater than the value of the underlying investment. Market risks arise due to movements in the equities markets underlying the contracts used by the Retirement Funds. The notional amounts of the contracts are not included in the derivatives holdings disclosed. Credit risk is managed by dealing with member firms of the futures exchanges.

Exchange-traded and over-the-counter bond futures and options are used by the Retirement Funds to gain exposure to fixed income markets in a more efficient and liquid manner than by purchasing the underlying bonds. Market risk for these options is limited to purchase cost. Credit risk is managed by limiting transactions to counterparties with investment grade ratings or by trading with member firms of organized exchanges.

Warrants are used by the Retirement Funds to gain equity exposure and to enhance performance. Warrants are often distributed by issuers to holdings of common stock and bonds, and are held for the same fundamental reasons as the original common stock and/or bond holdings. Market risk is limited to the purchase cost. Credit risk is similar to the underlying equity and/or bond holdings. Again, all such risks are monitored and managed by the Retirement Funds' external investment managers who have full discretion over such investment decisions.

The Retirement Funds also holds derivative instruments indirectly by participating in pooled, commingled, or short-term funds that hold derivatives. Information regarding any risks associated with these holdings is not generally available.

**DISTRICT OF COLUMBIA**  
**POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND**  
**SCHEDULE OF REVENUE BY SOURCE AND EXPENSES BY TYPE**  
**LAST TEN FISCAL YEARS**  
**(Unaudited)**  
**(\$000s)**

The Revitalization Act of 1997 made significant changes to the administration of the Fund. Therefore, comparisons of pre-Revitalization Act information to post-Revitalization Act information may not be meaningful.

**DISTRICT OF COLUMBIA  
POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND  
SCHEDULE OF INVESTMENT INFORMATION  
YEAR ENDED SEPTEMBER 30, 2006  
(Unaudited)**

At September 30, 2004, the Fund's investments were maintained under a master trust agreement along with assets of the District of Columbia Teachers' Retirement Fund. A schedule of investments held under the master trust agreement at September 30, 2004, is available for inspection at the offices of the District of Columbia Retirement Board, 900 7<sup>th</sup> Street, NW, 2<sup>nd</sup> Floor, Washington, DC 20001.

**DISTRICT OF COLUMBIA**  
**POLICE OFFICERS AND FIREFIGHTERS' RETIREMENT FUND**  
**SCHEDULE OF FIVE PERCENT REPORTABLE SERIES OF TRANSACTIONS**  
**YEAR ENDED SEPTEMBER 30, 2006**  
**(Unaudited)**

Each transaction with State Street Bank and Trust Company as disclosed in this schedule represents a "reportable transaction" as that term is defined by D.C. Code § 1-903.06(b)(3), (2001 Ed.).
