MESSAGE FROM THE CFO

The District of Columbia is a single unit of government that provides many of the same services typically provided by and shared between state and local levels of government in the fifty states. Typical local level revenue sources used by the District include the real property tax, personal property tax, deed transfer and recordation taxes, traffic fines, and a variety of other taxes and fees. D.C. also uses many state level revenue sources, including the individual income tax, the general sales and use tax, motor vehicle license fees, business net income taxes and various excise taxes. The District levies 16 taxes and a great number of fees in support of General Fund revenue each year. With over \$6 billion generated by the General Fund, our taxpayers are an important investor in the nation's capital city.

The District's principal local revenue producers are the individual income tax, real property taxes, sales tax and gross receipts taxes. The real property tax, which is generally administered by local jurisdictions, is the largest source of tax receipts for the District government, accounting for 27.3 percent of its total local source General Fund revenues in fiscal year 2011. Several property tax relief options are available to eligible property owners. The most widely used is the Homestead Deduction Program. For owner-occupied residences of five units or less, the homestead program provides a \$67,500 deduction from the assessed value. Other property tax relief measures include a 10 percent cap on the annual growth of real property tax liability for homeowners and the Senior Citizen Homestead Tax Relief Program, which allows certain senior citizens a 50 percent reduction in property taxes.

The individual income tax, which is administered by state governments, is the second largest source of tax revenue for the District, providing 20.6 percent of the total local source General Fund revenues for fiscal year 2011. Because the individual income tax is progressive, the rate of increase for income tax revenues is greater than the rate of increase in income subject to the tax. Personal income tax credits include out-of-state tax credit, credit for child and dependent care expenses, D.C. police and government employees first time homebuyer credit, D.C. low income credit, property tax credit, and D.C. earned income tax credit.

The District's third largest revenue producer, the sales and use tax, is based on taxable sales in the District, which include most retail items, construction materials, and utilities used by business entities. Groceries, prescription and non-prescription drugs, disability appliances, and dry cleaning and laundry services are exempted from sales and use tax collections. The sales and use tax is generally administered by state and local

governments. This tax provided 16.1 percent of the District's fiscal year 2011 local revenue.

Although the District has features of a complete state/local revenue structure, it does not have the mix of economic activity of a typical state or city revenue base. Industry, which enhances the tax bases of most major cities and states, is largely lacking in the District.

The federal presence in the District further compounds the disparity between the revenue-raising capacity of the District and that of many state and local governments. Some of the revenue implications due to the extraordinary federal presence include: (1) a narrower property tax base because of the substantial amount of federally owned tax-exempt property in the city; (2) a reduced income and sales tax base because of the tax-exempt status of the federal government, which is the city's largest employer; and (3) a less diversified economic base because of the limited size and totally urban nature of the District. Federal actions that limit the District's tax revenues include: (1) prohibition of taxation of non-resident income earned in the District; (2) exemptions granted for land held by foreign governments; and (3) congressional limitations on the height of buildings in the District, which restrain economic development.

Details concerning the various taxes used by the District are presented in this publication for the purpose of taxpayer education and to enhance citizens' awareness of their tax responsibilities.

INTRODUCTION

Each year the Office of Revenue Analysis in the Office of the Chief Financial Officer receives numerous requests from citizens, legislators and the general public for statistics relating to District tax collections, tax burdens and tax rates.

D.C. Tax Facts presents a brief summary of information on the District's tax structure, tax rates, legal references and other comparative tax data. Tax rates used in this publication are those in effect as of January 1, 2012. More detailed information on these subjects may be obtained on line from other publications of this office, including: (1) *A Comparison of Tax Rates and Burdens in the Washington Metropolitan Area*, and (2) *Tax Rates and Tax Burdens in the District of Columbia: A Nationwide Comparison*. These publications are available on the Internet at WWW.CFO.DC.GOV.

The primary source for the 2011 revenue numbers presented in this report is the District of Columbia Comprehensive Annual Financial Report (CAFR).

District of Columbia revenues (including non-tax revenues) totaled \$6,286,932,000 in FY2011. Details concerning the various taxes used by the District are presented in this publication for the purpose of taxpayer education and to enhance citizens' awareness of their tax responsibilities.

INCOME TAXES

CORPORATION AND UNINCORPORATED BUSINESS FRANCHISE TAXES

GENERAL LIABILITY:

The corporation franchise tax is imposed on corporations carrying on a trade, business or profession in the District or receiving income from District sources. Effective July 1, 1981, financial institutions became subject to the corporation franchise tax. Prior to this date these institutions were subject to a gross earnings tax.

Whoever engages in a trade, business or profession in the District of Columbia must register. Failure to register may result in a fine of not more than \$500 and a civil penalty of \$50 for each and every separate day that such failure to register continues.

The tax on unincorporated businesses is imposed on businesses with gross income over \$12,000. A 30% salary allowance for owners and a \$5,000 exemption are deductible from net income to arrive at taxable income. No person other than a corporation shall engage in or conduct a trade, business or profession, which is excluded from the imposition of the District of Columbia tax on unincorporated businesses and whose gross income for the calendar year is expected to exceed \$12,000, without first making application for a trade and business license. A person who fails to obtain a trade or business license may be fined not more than \$300 for each day that such failure continues.

Generally, persons exempt from filing an unincorporated business franchise tax return include trade, business, or professional organizations having a gross income not in excess of \$12,000 for the taxable year, and trade, business, or professional organizations which by law, customs, or ethics cannot be incorporated, such as doctors and lawyers. Federal conformity is maintained pursuant to Public Law 105-100. It continues the District's limited conformity with the Internal Revenue Code (IRC) of 1986 as amended through August 20, 1996.

D.C. Code Citation: Title 47, chapter 18.

PRESENT RATES: (January 1, 2012)

The franchise tax rate is 9.975 percent of taxable income, 9.5 percent rate plus surtax equal to 5 percent of the base rate.

INDIVIDUAL INCOME TAX

GENERAL LIABILITY:

The tax is imposed on every resident, defined as any individual who is domiciled in the District at any time during the tax year, or who maintains an abode in the District for 183 or more days during the year.

On June 11, 1982, D.C. Law 4-118, the District of Columbia Individual, Estates, and Trusts Federal Conformity Tax Act, which adopted the federal definition of income and made other modifications to the D.C. income tax, became law. Provisions of this legislation are effective for tax years beginning after December 31, 1981.

Further conformity to federal provisions was made pursuant to D.C. Law 5-32, the District of Columbia Income and Franchise Tax Conformity Act of 1983; the Conformity Act of 1984; the Income and Franchise Tax Conformity and Revision Amendment Act of 1987.

Under current District law (DC Law 13-175) federal changes in income and deductions are adopted automatically. The latest conformity legislation is Public Law 105-100. It maintains the District's limited conformity with the Internal Revenue Code (IRC) of 1986 as amended through August 20, 1996.

ESTATE TAX

GENERAL LIABILITY:

The estate tax is imposed on the estate of every decedent who died while still a resident of the District, and on the estate of every nonresident decedent owning property having a taxable situs in the District at the time of his or her death.

The District's estate tax is no longer in conformity with the federal estate tax. In response to the Federal Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 the District changed its conformity with the federal estate tax. The Federal legislation gradually eliminated the federal estate tax over the next several years, with full repeal taking effect in year 2010. However, the estate tax elimination is only temporary with the full estate tax scheduled to return in 2011.

District law, however, stipulates that existing District estate tax laws are automatically decoupled from the recent and forthcoming federal estate tax law changes. For example, while the federal threshold was \$2 million in FYs 2006 and 2007, the District threshold was \$1 million. Furthermore, when the federal threshold was raised to \$3.5 million in FY 2009, the District threshold remained \$1 million. Hence, some District estate tax payers may be required to file and pay District estate taxes even when no federal filing or tax is due.

There is no inheritance or gift tax in the District of Columbia.

INSURANCE PREMIUMS TAX

GENERAL LIABILITY:

The tax is imposed on the gross insurance premiums received for insuring against risks in the District, less premiums received for reinsurance assumed, returned premiums and dividends paid to policyholders. All domestic and foreign insurance companies are liable for the tax, which is in lieu of all other taxes except real estate taxes and fees provided for by the District's insurance law.

REAL PROPERTY TAX

GENERAL LIABILITY:

All real properties, other than residential owner-occupied and expressly exempted properties, are subject to taxation at 100% of estimated market value. The current District of Columbia property tax uses four classifications of property: Class I—improved residential real property; Class II—commercial property; Class III—improved vacant property; and Class IV—improved blighted property.

The assessed value for each Class I owner-occupied residence (including condominiums) which qualifies as homestead is reduced by a \$67,500 homestead deduction. This exemption will be indexed annually (by the CPI), beginning October 1, 2012. The assessed value of residential real property owned by a cooperative housing association is reduced by 60% (but the exemption may not exceed \$67,500 multiplied by the number of units occupied by the shareholders). Owner-occupied residential properties are also subject to a 10% property tax cap whereby the property tax paid on the property is limited to at most 10% more than the tax paid the previous year. First-time homeowners may be eligible for abatement of real property taxes for a period of five years under the First Time Homebuyers Lower Income Home Ownership Tax Abatement program. Owners of certified historic buildings may benefit from a special tax program for at least twenty years. The District also has a property tax relief "circuit-breaker" program for qualified homeowners and renters, which provides a tax credit for those with low and moderate income, the elderly, blind and disabled. For qualified retired senior homeowners, the District allows a 50 percent reduction in the amount of real property taxes that would otherwise be payable. In addition, a property tax deferral program allows qualified homeowners to defer a portion of their taxes.

District law limits the estimated amount of total real property taxes collected from all residential properties (Class I) by limiting the annual growth in total real property taxes from all residential properties, by way of a calculated tax rate. If, just before the start of the fiscal year, it is estimated that actual Class I revenue will exceed the targeted growth amount, the residential tax rate is to be lowered to achieve only the statutorily specified revenue amount.

District law states that beginning in FY 2009, Class II properties would be subject to a split tax rate structure. The tax rate for the first \$3 million in assessed value for Class II properties in FY 2009 was set at \$1.65 per \$100 of assessed value and the tax rate for assessed value greater than \$3 million remained at \$1.85 per \$100 of assessed value. Additionally, legislation limits the growth in total Class II revenue to 10 percent annually beginning in FY 2010. If, just before the start of the fiscal year, it is estimated that actual Class II revenue will exceed the targeted growth amount, the tax rate for the first \$3 million of assessed value is to be lowered to achieve only the statutorily specified revenue amount for all of Class II properties. Beginning in FY 2009, the tax rate for the assessed value greater than \$3 million is to remain \$1.85 per \$100 of assessed value indefinitely.

D.C. Code Citation: Title 47, Chapters 7 - 14.

The District's Real Property Tax Year is October 1 through September 30.

**RECORDATION AND TRANSFER TAX
ECONOMIC INTEREST TAX**

GENERAL LIABILITY:

Recordation Tax

The recordation tax is imposed on the recording of all deeds to real estate in the District. The basis of the tax is the amount of consideration given for the property, including cash, property other than cash, mortgages, liens and security interest in non-residential property. Where there is no consideration or where the consideration is nominal, the tax is imposed on the basis of the fair market value of the property.

D.C. Code Citation: Title 42, Chapter 11.

Economic Interest Tax

Economic interest tax is triggered by either one of the following two elements: 1) 80% or more of the assets of the entity consist of real property located in the District of Columbia; or 2) more than 50% of the gross receipts of the entity are derived from ownership or disposition of real property in DC. The consideration is not always equal to the assessed value of the property. The consideration is what is paid for the interest being transferred. If there is no tangible consideration, then the tax basis will be the assessed value of the property owned by the corporation.

SALES AND USE TAX

GENERAL LIABILITY:

The District of Columbia has five tax categories that fall under the general sales and use tax. The retail sales tax rate of 6.0% is imposed on all tangible personal property sold or rented at retail in the District and on certain selected services. Grocery-type foods, prescription and non-prescription drugs, disability appliances and residential utility services are among items exempt from the sales tax. Construction materials and business purchases of public utility services are among those included. The other rate categories apply to goods and services as indicated below.

The use tax is imposed at the same rate on property sold or purchased outside the District and then brought into the District to be used, stored or consumed. Vendors subject to the jurisdiction of the District are required to collect and pay the use tax. When the vendor is not subject to the jurisdiction of the District, or when the purchaser brings the property into the District, the purchaser is required to pay the tax.

D.C. Code Citation: Title 47, Chapters 20 and 22.

PRESENT RATES: (January 1, 2012)

A four-tier rate structure is presently in effect:

- 6% Retail rate for tangible personal property and selected services, food sold in vending machines
- 10% Restaurant meals, liquor sold for consumption on and off the premises, rental vehicles, prepaid telephone cards, tickets sold for baseball games, merchandise sold at the baseball stadium, tickets sold for events at the Verizon Center and merchandise sold at the Verizon Center.
- 14.5% Transient accommodations
- 18.0% Parking motor vehicles in commercial lots, rolled tobacco products usually used for smoking, chewing or as snuff, made in whole or in part with tobacco, except for cigarettes, premium cigars or pipe leaf tobacco products.

Note: The following portions of the sales tax go to the Convention Center Fund: 1% from restaurant meals and 4.45% from transient accommodations. The 18% parking in commercial lots tax is dedicated to WMATA.

TOLL TELECOMMUNICATIONS TAX

GENERAL LIABILITY:

The tax is imposed on telecommunication companies, including wireless telecommunications providers, for the privilege of providing toll telecommunication service in the District. The service charge is on any sound, vision or speech communication for which there is a toll charge that varies in amount with the distance or elapsed transmission time of each individual communication or the transmission or reception of any sound, vision or speech communication that entitles a person upon the payment of a periodic charge that is determined as a flat amount or upon the basis of a total elapsed transmission time, to an unlimited number of communications to or from all or a substantial portion of persons who have telephone or radio telephone stations in a specified area outside the local telephone system area in which the station that provides the service is located.

The items clearly omitted from this tax are anything to do with equipment sales, rental, maintenance, repair or charges.

D.C. Code Citation: Title 47, Chapter 39.

PRESENT RATE: (January 1, 2012)

- 10% of gross charges – residential
- 11% of gross charges – non-residential

Note: 1% of non-residential is dedicated towards financing construction of new baseball stadium through the life of the bonds (2036).

BASEBALL GROSS RECEIPTS TAX

GENERAL LIABILITY:

The Ballpark Omnibus Financing and Revenue Act of 2004 requires that a Ballpark Fee must be paid by certain persons on June 15th of every District fiscal year until the bonds issued to build the ballpark are re-paid. To determine if an entity is subject to the Ballpark Fee, that person must compute its annual District gross receipts for its most recent taxable year ending before June 15th.

The persons subject to the Ballpark Fee are persons that have income of \$5,000,000 or more in annual District gross receipts and either are subject to filing franchise tax returns (whether Corporate or Unincorporated) or are employers required to make unemployment insurance contributions.

An entity granted exemption from the DC Franchise Tax pursuant to DC Code 47-1802.01, is not subject to the Ballpark Fee, unless it has unrelated business taxable income. A tax exempt entity with unrelated business taxable income must pay the Ballpark Fee if \$5,000,000 or more of its annual DC Gross Receipts are attributable to any unrelated business taxable income for its most recent calendar or fiscal year.

LOTTERY

GENERAL LIABILITY:

Every year, the District of Columbia Lottery and Charitable Games Control Board transfers the net proceeds of receipts from lottery gaming to the General Fund. The proceeds are equal to gross receipts net of payouts and administrative costs. Games included as part of the DC Lottery are DC 3, DC 4, DC 5, Race2Riches, DC Fast Play, Powerball, Mega Millions, Hot Lotto, DC Scratchers, and DC Keno. The transfer is based primarily on ticket sales and prize payout.

SPECIAL PURPOSE NON-TAX REVENUE

GENERAL LIABILITY:

Special purpose non-tax revenues, often times referred to as “Other” or “O”-Type or dedicated revenues, are funds generated from fees, fines, assessments or reimbursements that are dedicated to the District agency that collects the revenues to cover the cost of performing the function. The “dedication” of the revenue to the collecting agency is what distinguishes this revenue from the general-purpose non-tax revenues. The legislation that creates the fee, fine or assessment must stipulate its purpose-designation and must also state whether any unspent funds are to retain designation at the conclusion of the fiscal year or revert to general-purpose funds. Unspent revenue in certain funds cannot revert to general purpose funds. Dedicated revenues limit the use of the District’s General Fund revenue by earmarking a portion of the revenue for special purposes. Prior to Fiscal Year 2002, dedicated non-tax revenues were not considered local revenues and as such were reported with private grants in the Comprehensive Annual Financial Report (CAFR). Beginning with the Fiscal Year 2004 proposed budget, they have been included in the General Fund along with non-dedicated local revenues.

PART V -- FILING AND PAYMENT DATES, FY 2012

FILING AND PAYMENT DATES FY 2012

Alcoholic Beverage Tax

The tax is due by the 15th day of each month on the preceding month's sales.

Cigarette Tax

Payment is made by the purchase of stamps.

Estate Tax

Returns and tax are due 10 months after death of decedent. A District of Columbia Estate Tax Return must be filed if a Federal Estate Tax Return is required to be filed. Generally, the amount of the tax is the credit for state death tax allowed on the federal return.

A penalty of 5% per month, but not more than 25% in the aggregate, of the tax due is imposed for the failure to timely file the return or pay the tax. Interest is assessed on any tax not paid by the due date at the rate of 10% compounded daily per statute.

Income Taxes:

Corporate and Unincorporated Business Franchise Taxes

Corporate returns are due and payment of the tax must be made on or before the 15th day of the third month following the close of the taxable year. Unincorporated business franchise tax returns are due and payment of tax must be made on or before the 15th day of the fourth month following the close of the taxable year. A penalty of 5%, but not more than 25% in the aggregate, is imposed for failure to timely file returns. Interest is imposed for any tax not paid when due at the rate of 10% compounded daily per statute until the tax is paid.

Individual Income Tax

Calendar year returns are due on or before April 15 of the succeeding year while fiscal year returns are due on or before the 15th day of the fourth month following the close of the fiscal year.

The penalty for failure to file a return on time is 5% of the tax due, but not more than 25% in the aggregate. Interest at the rate of 10% compounded daily per statute is charged from the due date of the return to the date the tax is paid.

FILING AND PAYMENT DATES--Continued

The penalty for failure to file in a timely manner a declaration of estimated tax is 5% per month of the estimated tax, but not more than 25% in the aggregate. Interest is imposed for failure to pay any installment when due at the rate of 10% compounded daily per statute.

Employers must withhold District individual income taxes from employees who are subject to the tax. If such withholding is less than \$50 per month, the employer must remit the tax by the last day of the month following the close of the tax year; if withholding is \$50 or more per month, it must be remitted by the 20th day of the following month.

The penalty for failure to file the withholding tax return or to pay the tax when due is 5% of the tax withheld during the reporting period, but not more than 25% in the aggregate. Interest is charged for late payment at the rate of 10% compounded daily per statute from the due date of the return to the date the tax is paid.

Insurance Tax

If tax liability is less than \$1,000, the tax must be paid before March 1 of the succeeding calendar year. If tax liability is \$1,000 or more, at least 50% of tax must be paid by June 1 of the calendar year in which the taxable income is received. The remainder is due on or before March 1 following the close of the calendar year. A penalty of 8% per month of the tax due is charged for failure to timely pay the insurance tax.

Motor Vehicle Fuel Tax

Reports and tax are due by the 25th day of each month on the preceding month's sales or dispositions.

Motor Vehicle Registration Fee

Under the staggered motor vehicle registration system, motorists will pay their registration fees upon assumption of ownership of the vehicle or by an assigned day of the year.

Personal Property Tax

The return, accompanied by the tax payment, is due on or before July 31 of each year on the tangible personal property remaining cost (current value) as of July 1. A penalty of 5% per month, but not more than 25% in the aggregate, is imposed for failure to timely file returns. Interest at the rate of 10% compounded daily per statute is charged until the tax is paid.

FILING AND PAYMENT DATES--Continued

Real Property Tax

The assessment year begins on January 1 and ends on December 31. Property owners receive notices of proposed assessments on or before the following March 1 and have until April 1 to appeal such assessments before the Assessment Division. If the assessor and the property owner, or party of interest, do not resolve a disputed value, the property owner may proceed to the Board of Real Property Assessments and Appeals (BRPAA). BRPAA will not accept an appeal unless there has first been an appeal to the Assessment Division.

The tax may be paid in full or in two equal installments. One-half the tax is payable on or before March 31 and the other half tax is due on or before September 15. A 10% penalty is imposed for late payment of real estate tax bills. Interest at the rate of 10% compounded daily per statute is charged from the date the tax is due until the date the tax is paid.

Public Utility Tax

Returns are due by the 20th day of each month on the preceding month's gross receipts. A penalty of 5% per month, but not more than 25% in the aggregate, is charged for failure to file return or pay taxes on time. Interest is charged at the rate of 10% compounded daily per statute until the tax is paid.

Recordation Tax

The deed recordation tax is due when the deed is recorded. Each deed must be accompanied by a return before it can be recorded. The penalty for failure to make and file a correct return is 5% per month, but not more than 25% in the aggregate. Interest at the rate of 10% per year compounded daily is charged on any recordation tax not paid when due.

Real Property Transfer Tax

The transfer tax is due when the deed is recorded and each deed must be accompanied by a transfer tax return. A penalty of 4% of the tax due is imposed for failure to file the transfer tax return. Interest is charged at the rate of 1.25% per month.

FILING AND PAYMENT DATES—Continued

Economic Interest Transfer

The economic interest transfer tax is triggered by two elements. These elements are 1) 80% of the assets of a corporation consist of real property located in the District of Columbia, and 2) more than 50% of the controlling interest of the corporation is being transferred. If these two elements are met then the tax rate is 2.9% of the consideration. The consideration is not always equal to the assessed value of the property. The consideration is what is paid for the interest being transferred. If there is no tangible consideration, then the tax basis will be the assessed value of the property owned by the corporation. The tax is due at the time of recordation.

Sales and Use Taxes

Monthly returns and tax are due by the 20th day of each month following the reporting period. If the due date falls on Saturday, Sunday or a legal holiday, the return is due on the next business day. To avoid a delinquency notice, a return must be filed even if no sales were made or no sales or use tax is due.

An annual return is due on or before January 20th. To avoid delinquency notices, a return must be filed even if no sales were made or no sales or use tax is due.

A penalty of 5% per month, but not more than 25% in the aggregate, is charged for failure to file sales and use tax returns or to pay sales and use taxes on time. Interest is charged at the rate of 10% compounded per statute until the tax is paid.

There is a 20% penalty on any understatement of taxes due if the understatement exceeds either 10% of the tax determined to be due or \$2,000, whichever is the greater. (Understatement of taxes is the difference between the amount shown on the original or amended return and any greater amount of tax determined to be due as a result of an audit or review.)

Toll Telecommunications Tax

Returns and tax are due by the 20th day of each month on the preceding month's charges. An annual return must be filed on or before 30 days after the end of the tax year.

A penalty of 5% per month, but not more than 25% in the aggregate, is charged for failure to file tax returns or to pay toll telecommunications taxes on time. Interest is charged at the rate of 10% compounded per statute until the tax is paid.
