Independent Auditor's Report

The Mayor and the Council of the Government of the District of Columbia
Inspector General of the Government of the District of Columbia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, the budgetary comparison statement, each major fund, and the aggregate remaining fund information of the Government of the District of Columbia (the District), as of and for the year ended September 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the District of Columbia Water and Sewer Authority and District of Columbia Housing Finance Agency, both discretely presented component units of the District, were not audited in accordance with *Government Auditing Standards*. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government of the District of Columbia as of September 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison statement for the general and federal and private resources funds for the year then ended in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1.F to the basic financial statements, the District passed the *Clarification of Personal Property Tax Revenue Reporting Act of 2011*, resulting in a change in an accounting principle relating to recognition of property tax revenues. Also, as discussed in Note 1.R to the basic financial statements, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, effective October 1, 2010.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2012 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying management's discussion and analysis on pages 23 through 40 and the required supplementary information on pages 127 through 130 are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, the other supplementary information presented in the financial section, and the statistical section, as listed in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The statements and schedules described as other supplementary information have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.
