

(AT0) OFFICE OF CHIEF FINANCIAL OFFICER

MISSION

The Office of the Chief Financial Officer (OCFO) provides financial management services to the government and the people of the District of Columbia to sustain long-term fiscal and economic viability.

BACKGROUND

In accordance with the independent status of the District's Chief Financial Officer, the OCFO exercises independent control and management oversight over the District's financial systems, including SOAR, ITS, CFOSolve, and all other related and subsidiary systems. The OCFO is charged with the responsibility for maintaining and operating the District's independent financial systems to support the Mayor, the Council, and Congress. In recognition of the need to limit capital borrowing and curtail the increase in the overall level of Debt Service, the OCFO has made the commitment to maintain the current approved funding level.

CAPITAL PROGRAM OBJECTIVES

The OCFO maintains the integrity and reliability of the District's financial systems by maintaining independence in its relationships with program staff and assuring that systems modifications are transparent and auditable. This is accomplished by ensuring the financial systems can be maintained and supported by the OCFO workforce. This is a core function and cannot be outsourced to outside vendors or other parts of the government.

RECENT ACCOMPLISHMENTS

Highlights of our achievements include the District receiving and maintaining the first AAA rating the major rating agencies, the unprecedented 11th year budget surplus, and the Comprehensive Annual Financial Report (CAFR) submitted with an unqualified opinion and no material weaknesses.

Elements on this page of the Agency Summary include:

Funding Tables: Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

Additional Appropriations Data (\$000): Provides a summary of the budget authority over the life of the project. The table can be read as follows:

Original 6-Year Budget Authority: Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

Budget Authority Thru FY 2018 : Represents the lifetime budget authority, including the 6 year budget authority for FY 2013 through 2018

FY 2013 Budget Authority Revisions: Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

6-Year Budget Authority Thru 2018 : This is the total 6-year authority for FY 2013 through FY 2018 including changes from the current fiscal year.

Budget Authority Request for 2014 through 2019 : Represents the 6 year budget authority for 2014 through 2019

Increase (Decrease) : This is the change in 6 year budget requested for FY 2014 - FY 2019 (change in budget authority is shown in Appendix A).

Estimated Operating Impact: If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

FTE Data (Total budget in FTE Table might differ from actual budget due to rounding): Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

Facility Location Map: For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AT0-CSP08-INTEGRATED TAX SYSTEM MODERNIZATION

Agency: OFFICE OF CHIEF FINANCIAL OFFICER (AT0)
Implementing Agency: OFFICE OF CHIEF FINANCIAL OFFICER (AT0)
Project No: CSP08
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Developing scope of work
Useful Life of the Project: 10
Estimated Full Funding Cost:\$54,920,000

Description:

This project will completely modernize and refine the District's tax systems to bring them in line with industry best practices and add new functionality in the areas of compliance, collections, case management, individual, business and property tax collection; and processing and accounting. The tax system modernization will be achieved in stages to replace individual components starting with the case management module, real property system, and eventually the core tax management system.

This project represents a modernization of the Integrated Tax System (ITS). The current system will require a technology refresh, particularly on the reporting and middle-ware tools, to take advantage of web-based technologies that were not available when the system was installed. This will require replacement of the SAND and the Crystal server-based systems currently in use for report and query building as well as supporting platform software and related applications. This investment will allow the core underlying system to remain in place, while simplifying maintenance requirements and allowing for further consolidation of servers and reduced bandwidth requirements.

Justification:

The first phase is to replace the real property tax module, to address and reduce the risk of fraud and mismanagement by leveraging superior internal controls and industry best practices implemented in the replacement system. In addition, the new case management system will provide intelligent case analytics; and review and analysis abilities that will result in increased tax compliance and collections, further resulting in increased revenues. The implementation of the Phase 1 will result in the capture of new tax revenue that will be recognized as Paygo transfers from the general fund to the capital fund in the amount of \$11.5 million in FY2014 - FY2016. This capital budget will help to offset the project costs.

Progress Assessment:

The project is currently in the planning phase and high-level designs of all the different projects within the modernization initiative are being developed. The District's project manager for this effort has been hired. Currently, requirements are being collected for the case management and real property tax system modules.

ELC-EQ940-MAJOR EQUIPMENT ACQUISITION

Agency: OFFICE OF CHIEF FINANCIAL OFFICER (AT0)
Implementing Agency: EQUIPMENT LEASE - CAPITAL (ELC)
Project No: EQ940
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost:\$6,500,000

Description:

This project is for the master lease of major information technology equipment as a part of a normal technology refresh program. OCFO is replacing larger capital-intensive equipment such as high-speed printers and redundant servers on an ongoing basis. The procurement includes purchasing high-performance servers to accommodate next-generation financial systems, leveraging new technologies, and adding massive storage systems to accommodate high volumes of data and reporting. Tasks include replacing outdated equipment past its useful life, adding new servers to accommodate new systems, implementing SAN technology to provide flexible storage capacity, implementing best practices in managing infrastructure, implementing a web-based ticket tracking system, and implementing security hardware and software to ensure security of the District's financial information.

Justification:

OCFO is replacing larger capital-intensive equipment such as high-speed printers and redundant servers on an ongoing basis. The procurement includes purchasing high-performance servers to accommodate next-generation financial systems, leveraging new technologies, and adding massive storage systems to accommodate high volumes of data and reporting.

Progress Assessment:

This is an ongoing project and major equipment is being procured and deployed on an ongoing basis.
