Despite the on-going challenges presented by the global pandemic, the District ended FY 2021 in a strong financial position.

- Clean Audit Opinion (25th Consecutive)

- No Material Weaknesses or Significant Deficiencies (No YELLOW BOOK REPORT for the 7th Consecutive Year)

- District actions, Federal Stimulus, and Federal Reserve actions limited the pandemic’s impact on the District’s economy. Covid-19 continues to impact employment and business activity, particularly the leisure and hospitality sector (restaurants, hotels).

- Compared to FY 2020, individual income taxes increased 11.2%, corporate franchise taxes increased 16.4%, real property taxes increased 2.7%, and deed taxes grew by 22.3%. Sales taxes decreased by 1.6%. Nontax revenue also declined due to reduced traffic fines (less traffic from commuters and residents) and low interest rates affecting interest income.

- Ratings for General Obligation Bonds and Income Tax Bonds remained strong (AAA rated)

- Pension and Retiree Health Care Trust remained fully-funded with increased net positions

- Federally and locally mandated reserves (working capital/liquidity) are full at 60 days

- Surplus provides $283.2 million to the Housing Production Trust Fund for affordable housing and $283.2 million to the PAYGO (cash) Capital Fund for infrastructure, as required by law.
