MWCOCG’s overarching mission is to make “Region Forward” a reality by being a discussion forum, expert resource, issue advocate, and catalyst for action.

In the District’s budget, the MWCOCG agency represents the District’s annual payment to MWCOCG.

Program Description

The District's payment to the Metropolitan Washington Council of Governments is reflected as one program in the District's financial system. However, MWCOG operates through the following 9 programs:

Transportation Planning – provides transportation planning for the metropolitan Washington area through the Transportation Planning Board, in cooperation with the area's local governments and federal, state, and regional agencies responsible for funding and implementing highway, bridge, transit, and other projects. Transportation planning is a key part of the Region Forward initiative.

Commuter Connections – coordinates programs aimed at alleviating road congestion and reducing vehicle emissions through ride-matching services, employer outreach, telecommuting programs, integrated ride-share information kiosks, and mass marketing campaigns, to encourage alternatives to driving alone.

Metropolitan Planning and Economic Development – assists local governments in developing the planning databases and analytic tools needed to analyze regional economic and demographic change. The program provides MWCOG member jurisdictions with analyses of current and projected growth trends and provides data to the Transportation Planning Board as it develops transportation plans for the region. This work also is related to the efforts of the Region Forward Coalition, an advisory body whose membership includes area government officials and stakeholder groups representing businesses, nonprofits, and community-based organizations.

Housing Opportunities and Community Management – covers an array of issues that are important to the policy developments of area local governments and their housing authorities. The program provides data on the region's housing stock, Section 8 housing, homelessness, and housing affordability. Both the Region Forward Coalition and the Human Services and Public Safety Policy Committee help direct this work.

Child Welfare – facilitates regional foster care and adoption initiatives to help area children lead happy, healthy, and productive lives.

Public Safety, Health and Homeland Security – coordinates regional programs and policies on a broad range of issues, including law enforcement, fire safety, public health, and emergency preparedness. The program helps to keep the region safe and healthy by supporting innovative regional policies and programs, developing regional mutual aid agreements, providing technical assistance and training to public safety and health officials, and developing public education and prevention measures. The National Capital Region Emergency Preparedness Council, an advisory body at MWCOG, is responsible for oversight of regional homeland security programs in partnership with Maryland, Virginia, and the federal government. The National Capital Region Homeland Security Program Management Office (PMO) at MWCOG engages regional leaders, emergency planners and first responders, and other subject matter experts in the identification of regional goals and objectives and the capabilities and the projects necessary to achieve them.

Water Resources Planning and Management – facilitates efforts to clean the region's waterways including the Chesapeake Bay, the Anacostia River watershed, and the Potomac River. The program includes water quality management policy, technical analysis, storm water management, water health issues, drought coordination, and water-related homeland security planning. The Chesapeake Bay and Water Resources Policy Committee and the Anacostia Watershed Restoration Partnership also help guide this work program.

Environmental Resources – provides support to local government programs in the region that address solid waste management, recycling, energy, airport noise, pollution, and alternative fuels. The Climate, Energy and Environment Policy Committee guides this work program.

Air Quality Planning – supports the Metropolitan Washington Air Quality Committee, which is certified to prepare federally mandated plans to clean the region's air. This program also tracks pollution levels on a daily basis through the Air Quality Index, provides seasonal forecasts, and organizes public education campaigns.
