(FA0) METROPOLITAN POLICE DEPARTMENT

MISSION

The mission of the Metropolitan Police Department is to safeguard the District of Columbia and protect its residents and visitors with the highest regard for the sanity of human life. We will strive at all times to accomplish our mission with a focus on service, integrity, and fairness by upholding our city's motto, Justitia Omnibus - Justice for All.

BACKGROUND

MPD's capital program is categorized into two primary programs: fleet and technology. Facilities programs are under the management of the Department of General Services.

MPD's fleet program is a part of the citywide Short-Term financing program. MPD maintains approximately 1,640 vehicles in the fleet, including 935 marked cruisers, 480 unmarked cruisers, and 225 specialty/support vehicles. The Department funds the replacement cycle of patrol cars, motorcycles, and the related equipment required to operate these vehicles.

MPD's technology program seeks to modernize and automate the police force. Maintaining the replacement schedule for computers, establishing paperless records, and consolidating criminal databases are key to improving efficiency. Refreshing the citywide camera network is critical for observing and monitoring high-crime areas. The inventory of computers includes approximately 2,000 desktops and 850 laptops (deployed in the field). The criminal databases consist of more than 30 data sources. The citywide camera network includes 167 cameras.

CAPITAL PROGRAM OBJECTIVES

1. Maintain the fleet of police vehicles according to an established replacement cycle.

2. Maintain current IT investments and continuously identify and implement new technology solutions to achieve greater efficiency, automation of police operations, and enhanced community safety.

RECENT ACCOMPLISHMENTS

- During FYs 19 and 20, MPD has replaced over 320 aging vehicles.
- Due to the operational impact of limited bandwidth via cellular connectivity, MPD installed wireless point-to-point links from eighty-seven crime camera location to directly connect to the OCTO citywide network for improved performance.
- During FY19, MPD added fifteen Crime Cameras to the CCTV network using capital funds.

Elements on this page of the Agency Summary include:

• Funding Tables: Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

• Additional Appropriations Data (\$000): Provides a summary of the budget authority over the life of the project. The table can be read as follows:

• **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

• Budget Authority Through FY 2025 : Represents the lifetime budget authority, including the 6-year budget authority for FY 2020 through FY 2025.

• **FY 2020 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

• 6-Year Budget Authority Through FY 2025 : This is the total 6-year authority for FY 2020 through FY 2025 including changes from the current fiscal year.

+ Budget Authority Request Through FY 2026 : Represents the 6-year budget authority for FY 2021 through FY 2026.

• Increase (Decrease) : This is the change in 6-year budget requested for FY 2021 - FY 2026 (change in budget authority is shown in Appendix A).

• Estimated Operating Impact: If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.

• FTE Data (Total budget in FTE Table might differ from actual budget due to rounding): Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan, and the percentage of the agency CIP budget from either expense category.

• Facility Location Map: For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

UC0-BAR01-BIDIRECTIONAL AMPLIFIERS FOR RADIO COVERAGE

| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
|-------------------------------------|--|
| Implementing Agency: | OFFICE OF UNIFIED COMMUNICATIONS (UC0) |
| Project No: | BAR01 |
| Ward: | |
| Location: | DISTRICT-WIDE |
| Facility Name or Identifier: | COMMUNICATION INFRASTRUCTURE |
| Status: | New |
| Useful Life of the Project: | 7 |
| Estimated Full Funding Cost: | \$3,248,786 |
| | |

Description:

District of Columbia public safety first responders require on-demand, secure, and reliable radio communications throughout major events and disasters, including critical periods leading up to, during, and immediately following a major natural or manmade disaster. This will ensure that police have continuity of coverage as officers' transition between in-building and outside work. Working in a 24x7 environment it is critical that officers are always connected.

Justification:

MPD Districts require radio communication inside District buildings where the current City-wide radio system does not support. Also, MPD Districts face a potential degradation of radio service due to the new and expansion of office buildings in the District. This could lead to difficulty associated with radio waves' ability to penetrate the building (basement, hardened building) to support two-way radio communication.

This scope purchases and installs bidirectional amplifiers and/or distributed antenna systems as applicable to supplemental in-building radio coverage without negatively impacting the City-wide radio systems.

MPD District watch commanders and administrative staff need to actively communicate with the field patrol officers to coordinate 911 related emergency responses. Without adequate radio coverage in these buildings, coordinated MPD response to 911 events could be limited and at-risk during emergency.

Implementation of the proposed equipment will not impact existing radio services. The equipment will be installed and tested for clear uninterrupted radio communications between MPD personnel in the building and personnel in the field.

AM0-BRM09-EVIDENCE IMPOUND LOT RENOVATION

| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
|------------------------------|--------------------------------------|
| Implementing Agency: | DEPARTMENT OF GENERAL SERVICES (AM0) |
| Project No: | BRM09 |
| Ward: | 8 |
| Location: | 5001 SHEPHERD PARKWAY SW |
| Facility Name or Identifier: | EVIDENCE IMPOUND LOT |
| Status: | Ongoing Subprojects |
| Useful Life of the Project: | 30 |
| Estimated Full Funding Cost: | \$6,850,000 |

Description:

The Department of General Services (DGS) in coordination with the Metropolitan Police Department (MPD, will utilize the funds in this project account to pay the design, renovation, relocation, project management, and commissioning costs associated with the MAJOR RENOVATION of the MPD Evidence Impound Lot.

Justification:

Completion of this important renovation will increase the overall capacity, security, and accountability of the evidentiary vehicles and equipment that are being stored on the facility. In addition – DC Government is under an EPA decree to clean up and properly pave the facility because it contributes to containments in the adjacent water ways. This project will bring DC into compliance.

Progress Assessment:

On-going project

UC0-FDA01-FIRSTNET DISTRIBUTED ANTENNA SYSTEM DEPLOYMENT

| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
|-------------------------------------|--|
| Implementing Agency: | OFFICE OF UNIFIED COMMUNICATIONS (UC0) |
| Project No: | FDA01 |
| Ward: | |
| Location: | DISTRICT-WIDE |
| Facility Name or Identifier: | COMMUNICATION INFRASTRUCTURE |
| Status: | New |
| Useful Life of the Project: | |
| Estimated Full Funding Cost: | \$735,000 |

Description:

District of Columbia public safety first responders require on-demand, secure, and reliable network operations throughout major events and disasters, including critical periods leading up to, during, and immediately following a major natural or manmade disaster. This is to ensure that police have continuity of coverage as officers' transition between in-building and outside work. Working in a 24x7 environment it is critical that officers are always connected.

Justification:

As part of AT&T's commitment letter to the District government when Mayor Bowser officially opted into FirstNet back in December 2017, AT&T vouched to spend \$3 Million in its FirstNet (public safety priority and preemption cell service). The goal was to provide better coverage in District buildings that the District prioritizes – this mainly means they will install indoor small cell solutions. OCTO worked with FEMS, MPD, OUC and DGS to compile a list of sites that public safety prioritizes for this improved indoor coverage. Most of these are FEMS engine companies. The primary use case for FEMS is to better ensure seamless cellular coverage on the FirstNet network to reduce potential for loss of signal to vehicles in bay, and hence to optimize 911 dispatch response. However, the second predominant set of locations are MPD facilities including police stations and substations. The use case for police is for continuity of coverage as officers transition between in-building and outside work.

The AT&T indoor small cell deployment covers thirty-six District locations. This ask covers extending the FirstNet distributed antenna system deployment to MPD locations not covered under the \$3million program.

FA0-FAV04-MARKED CRUISERS - MPD

| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
|-------------------------------------|--------------------------------------|
| Implementing Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
| Project No: | FAV04 |
| Ward: | |
| Location: | DISTRICT-WIDE |
| Facility Name or Identifier: | MPD VEHICLES |
| Status: | Ongoing Subprojects |
| Useful Life of the Project: | 5 |
| Estimated Full Funding Cost: | \$29,273,000 |

Description:

This project funds the needed MPD vehicle replacements for the marked cruiser vehicles. To provide critical public safety service for the District, MPD must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used, they naturally age, and their condition deteriorates with continued use and additional mileage, thus driving up the costs to maintain the vehicle and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for MPD to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District's fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type which are needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

Progress Assessment:

Ongoing project

FA0-FAV01-MOTOR CYCLES, SCOOTERS & TRAILERS - MPD

| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
|-------------------------------------|--------------------------------------|
| Implementing Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
| Project No: | FAV01 |
| Ward: | |
| Location: | DISTRICT-WIDE |
| Facility Name or Identifier: | MPD VEHICLES |
| Status: | Ongoing Subprojects |
| Useful Life of the Project: | 5 |
| Estimated Full Funding Cost: | \$1,230,000 |

Description:

This project funds the needed MPD vehicle replacements for the fleet of motor cycles, scooters, trailers, and similar vehicles. To provide critical public safety service for the District, MPD must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used, they naturally age, and their condition deteriorates with continued use and additional mileage, thus driving up the costs to maintain the vehicle and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for MPD to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District's fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type which are needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

Progress Assessment:

Ongoing project

AM0-PL110-MPD SCHEDULED CAPITAL IMPROVEMENTS

| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
|-------------------------------------|--------------------------------------|
| Implementing Agency: | DEPARTMENT OF GENERAL SERVICES (AM0) |
| Project No: | PL110 |
| Ward: | |
| Location: | DISTRICT-WIDE |
| Facility Name or Identifier: | VARIOUS |
| Status: | Ongoing Subprojects |
| Useful Life of the Project: | 10 |
| Estimated Full Funding Cost: | \$32,453,000 |

Description:

The Department of General Services (DGS) in coordination with the Metropolitan Police Department (MPD), will utilize the funds in this project account to pay the design, renovation, relocation, project management, and commissioning costs associated with the RENOVATION PROJECTS that are reviewed/approved by the Chief of Police on an annual basis. The renovation projects occur across the entire MPD facilities inventory (30 locations) and includes: Demolition, Abatement, Concrete/Masonry, Thermal Moisture Protection, Framing, Drywall, Painting, Fire Suppression, Plumbing, HVAC, Electrical, Site Infrastructure, Physical Security/Force Protection Installations, Detention Area Upgrades, Roofing, Conveying, and Main Distribution Frames upgrades.

Justification:

The vast majority of MPD facilities were constructed over 30 years ago and the building systems and components are beyond the lifecycle capacity. As those systems and components fail, or Facility Condition Assessments require, they must be replaced and upgraded to ensure continuous operation in support of the MPD mission which operates on a 24/7/365 basis.

TO0-NWI01-NETWORK & WIFI UPGRADE FOR IMPROVED PUBLIC

| SAFETY | |
|------------------------------|--|
| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
| Implementing Agency: | OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0) |
| Project No: | NWI01 |
| Ward: | |
| Location: | DISTRICT-WIDE |
| Facility Name or Identifier: | INFORMATION TECHNOLOGY |
| Status: | New |
| Useful Life of the Project: | |
| Estimated Full Funding Cost: | \$2,500,000 |
| | |

Description:

District of Columbia public safety first responders require on-demand, secure, and reliable network operations throughout major events and disasters, including critical periods leading up to, during, and immediately following a major natural or manmade disaster. They need ubiquitous and immediate access to applications and systems—wherever they are.

Requirement for LAN and Wireless network access are constantly changing to meet today's and future demands. To support this demand, network equipment must be upgraded at critical facilities.

Justification:

MPD is requesting upgraded Network capabilities and ubiquitous WiFi coverage to support public safety technology and applications used by their sworn personnel. This will improve user access and application performance on the network and provide them with the ability to maintain and increase network uptime to at least 5 9's (99.999), minimize hardware downtime along with improving their network security posture. This will pave the path to roll out new applications in support of critical public safety services.

Progress Assessment:

In multiple phases

AM0-BRM11-POR & TEST FIT OF MPD PATROL DISTRICTS

| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
|------------------------------|--------------------------------------|
| Implementing Agency: | DEPARTMENT OF GENERAL SERVICES (AM0) |
| Project No: | BRM11 |
| Ward: | |
| Location: | DISTRICT-WIDE |
| Facility Name or Identifier: | VARIOUS |
| Status: | New |
| Useful Life of the Project: | 10 |
| Estimated Full Funding Cost: | \$500,000 |

Description:

Chief Newsham has prioritized the establishment of a redevelopment plan for the four MPD District's that require modernization/replacement. The MPD facilities being targeted for this effort include 5th District/4th District/3rd District/2nd District. The first step in completing the development plan is to preform Program of Requirement studies and then to preform feasibility analysis of each of those studies on the current site/or adjacent DC Gov owned properties. These studies will be key in developing detailed MPD programming requirements, cost estimates, and site selection guidelines. These studies can be used by DGS Capital Construction or other DC Government redevelopment agencies to help foster NEW/Modernized MPD facilities.

Justification:

2D/3D/4D/5D each have aging infrastructure that impacts officer morale and wellness. In order to create a redevelopment plan for each of these facilities, MPD is requesting a Program of Requirement (POR) study and test fit for each. These studies will be key in developing detailed MPD programming requirements, cost estimates, and site selection guidelines.

FA0-FAV03-UNMARKED VEHICLES - MPD

| Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
|-------------------------------------|--------------------------------------|
| Implementing Agency: | METROPOLITAN POLICE DEPARTMENT (FA0) |
| Project No: | FAV03 |
| Ward: | |
| Location: | DISTRICT-WIDE |
| Facility Name or Identifier: | MPD VEHICLES |
| Status: | Ongoing Subprojects |
| Useful Life of the Project: | 5 |
| Estimated Full Funding Cost: | \$6,963,000 |
| | |

Description:

This project funds the needed MPD vehicle replacements for the fleet of unmarked vehicles. To provide critical public safety service for the District, MPD must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used, they naturally age, and their condition deteriorates with continued use and additional mileage, thus driving up the costs to maintain the vehicle and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for MPD to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District's fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type which are needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

Progress Assessment:

Ongoing project
