

(FA0) METROPOLITAN POLICE DEPARTMENT

MISSION

The mission of the Metropolitan Police Department (MPD) is to safeguard the District of Columbia and protect its residents and visitors with the highest regard for the sanity of human life. We will strive, at all times, to accomplish our mission with a focus on service, integrity, and fairness by upholding our city's motto, Justitia Omnibus - Justice for All.

BACKGROUND

MPD's capital program is categorized into three primary programs: fleet, technology and facilities. Facilities programs are managed by the Department of General Services.

MPD's fleet program is a part of the citywide Short-Term financing program. MPD maintains approximately 1,640 vehicles in the fleet, including 935 marked cruisers, 480 unmarked cruisers, and 225 specialty/support vehicles. The Department funds the replacement cycle of patrol cars, motorcycles, and the related equipment required to operate these vehicles.

The goal of MPD's technology program is to maintain the most up-to-date technology and data-infrastructure systems. This mission encompasses the rehabilitation, replacement, and upgrade of the IT network, CCTV technology and other related capital eligible items.

CAPITAL PROGRAM OBJECTIVES

1. Maintain the fleet of police vehicles according to an established replacement cycle.
2. Maintain current IT investments and continuously identify and implement new technology solutions to achieve greater efficiency, automation of police operations, and enhanced community safety.
3. Coordinate with DGS to prioritize capital spending for facilities occupied by MPD.

RECENT ACCOMPLISHMENTS

- During FY21, MPD has ordered 201 vehicles
- Updated MPD Evidence Management Solution into a single solution with Disaster Recovery
- Launch Cloud Based Data Warehouse Modernization Project (Planning/Implementation)
- Replaced five first generation CCTV Trailers
- Refreshed 16 CCTV PODSS units
- Launch Digital Evidence Management Solution for CCTV
- Kicked off Enterprise Service Bus and API Gateway project with OCTO

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - › **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - › **Budget Authority Through FY 2028 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2023 through FY 2028.
 - › **FY 2023 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - › **6-Year Budget Authority Through FY 2028 :** This is the total 6-year authority for FY 2023 through FY 2028 including changes from the current fiscal year.
 - › **Budget Authority Request Through FY 2029 :** Represents the 6-year budget authority for FY 2024 through FY 2029.
 - › **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2024 - FY 2029 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-BRM19-7TH DISTRICT HQS RENOVATION

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: BRM19
Ward: 8
Location: 2455 ALABAMA SE
Facility Name or Identifier: MPD 7TH DISTRICT HEADQUARTERS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$33,000,000

Description:

The Seventh District covers much of the Southeast quadrant of the city, including the neighborhoods of Anacostia, Barry Farm, Naylor Gardens and Washington Highlands. The district is home to such notable landmarks as Fort Stanton Park, the Frederick Douglas Home and Bolling Air Force Base. Over the course of the last decade, MPD has added the largest amount of employees to the 7th District to address the calls for service and community policing efforts. The current facility has been remodeled several times over the course of the last decade to address the additional staffing and unit configurations that are deployed out of the 7th District. Beyond the size constraints, the building M/E/P systems are beyond the end of the lifecycle usefulness and the roofing system/exterior envelope needs to be replaced.

The project is for MPD to prioritize Design/Bid/Build a new facility above the existing parking lot.

Justification:

The MPD 7D Headquarters is in need of modernization.

Progress Assessment:

This project is ready to move forward once the funding is secured.

FA0-WAM40-DATA WAREHOUSE & ANALYTICS MODERNIZATION

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: WAM40
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 20
Estimated Full Funding Cost: \$1,086,000

Description:

Modernize our data warehouse architecture. This includes but is not limited to curating more data in real-time or near real-time. We plan on doing this by building a data lake of almost all structured data as well as metadata for the unstructured data such as BWC, LPR, etc. Once this data is readily available, it can be easily and quickly integrated into our dimensional models and data marts for analysis and reporting.

Justification:

This project continuation will improve and optimize MPD Cloud Data Lake environment for data analytics and reporting. The MPD Data Lake is the backbone of all MPD data aggregations, reporting, and compliance. By continuing to build capabilities in a robust cloud environment MPD can better serve our stakeholders, partners, constituents and support MPD investigations and patrol in the deterrence and solving of crime in the District.

Progress Assessment:

Project is ongoing. MPD data silos will be bridged by data analytics engines that can provide cross platform responses to individual queries. Both structured and unstructured data will be readily available for assessment.

FA0-FAV04-MARKED CRUISERS - MPD

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: FAV04
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: MPD VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$50,390,000

Description:

This project funds MPD vehicle replacements for the fleet of motor cycles, scooters, trailers, and similar vehicles. To provide critical public safety service for the District, MPD must have a fleet of fully functional vehicles in good working order and operational at all times. As vehicles are used they naturally age, their condition deteriorates with continued use and incur additional mileage. This results in driving up the costs to maintain the vehicles and keep them in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for MPD to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District's fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours, and the anticipated ongoing maintenance costs trends. This project represents the need and timing of the vehicle replacements. These vehicles are needed to have a fully functional fleet that is in good condition and available to serve the needs of the agency in providing service to the District.

Progress Assessment:

Ongoing project

AM0-PL110-MPD SCHEDULED CAPITAL IMPROVEMENTS

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PL110
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$41,153,000

Description:

The Department of General Services (DGS) will utilize this project to fund the design, renovation, project management, and commissioning costs associated with the small capital projects that are reviewed and approved by the Chief of Police on an annual basis. Such renovation projects occur across the entire MPD facilities inventory (30 locations) and may include capital eligible costs for: Abatement, Concrete/Masonry, Thermal Moisture Protection, Framing, Drywall, Fire Suppression, Plumbing, HVAC, Electrical, Site Infrastructure, Physical Security/Force Protection Installations, Detention Area Upgrades, Roofing, Conveying, and Main Distribution Frames upgrades.

Justification:

Continuing to implement small capital projects across multiple MPD sites will further improve security, safety and working conditions.

Progress Assessment:

Ongoing project

Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$5,350,000

Description:

The Metropolitan Police Department has developed a Closed-Circuit Television (CCTV) system to support public safety operations in the nation’s capital during major events, emergencies, and to help combat crime in District of Columbia neighborhoods. The CCTV system monitors public spaces only, with a focus on critical installations that have been identified as potential terrorism targets or for crime reduction based on data on calls for police service, reported crimes and other public safety indicators, as well as recommendations from Advisory Neighborhood Commissions and civic or citizen associations. This funding increase is to increase the refresh cycle rate so that MPD can maintain functional and industry leading technology.

Justification:

At the current funding levels MPD can replace 25 of the 300 fixed CCTV units, and one of the 22 mobile trailer units per year. This puts the CCTV program on a 12-year refresh cycle that is impractical and unsustainable for fixed CCTV and in a worse situation for mobile CCTV trailers. MPD has worked with the CCTV design, manufacturers and installers to reduce cost by \$10k per unit back in FY20, and our FY21 capital funding was increased from \$200k, however funding is still insufficient for the refresh program. To move the MPD to a six-year replacement cycle CCTV funding needs to be increased to \$1million per year.

Progress Assessment:

Annual ongoing project with dates repeating annually

TO0-NWI01-NETWORK & WIFI UPGRADE FOR IMPROVED PUBLIC SAFETY

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: NWI01
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: In multiple phases
Useful Life of the Project:
Estimated Full Funding Cost: \$4,211,000

Description:

District of Columbia public safety first responders require on-demand, secure, and reliable network operations throughout major events and disasters, including critical periods leading up to, during, and immediately following a major natural or manmade disaster. They need ubiquitous and immediate access to applications and systems—wherever they are. Requirements for LAN and Wireless network access are constantly changing to meet today’s and future demands. To support this demand, network equipment must be upgraded at critical facilities.

Justification:

Upgraded network capabilities and ubiquitous WiFi coverage will support public safety technology and applications used by MPD’s sworn personnel. This project will improve user access and application performance on the network, provide the ability to maintain and increase network uptime to at least 99.999%, and minimize hardware downtime along with improving network security. These improvements will pave the path to roll out new applications in support of critical public safety services.

Progress Assessment:

In multiple phases

FA0-FAV05-OTHER MARKED VEHICLES - MPD

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: FAV05
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: MPD VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$9,417,000

Description:

This project funds MPD vehicle replacements for the fleet of motor cycles, scooters, trailers, and similar vehicles. To provide critical public safety service for the District, MPD must have a fleet of fully functional vehicles in good working order and operational at all times. As vehicles are used they naturally age, their condition deteriorates with continued use and incur additional mileage. This results in driving up the costs to maintain the vehicles and keep them in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for MPD to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District's fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the need and timing of the vehicle replacements. These vehicles are needed to have a fully functional fleet that is in good condition and available to serve the needs of the agency in providing service to the District.

Progress Assessment:

Ongoing project
