

(FA0) METROPOLITAN POLICE DEPARTMENT

MISSION

The mission of the Metropolitan Police Department (MPD) is to safeguard the District of Columbia and protect its residents and visitors with the highest regard for the sanctity of human life. We will strive, at all times, to accomplish our mission with a focus on service, integrity, and fairness by upholding our city's motto, Justitia Omnibus - Justice for All.

BACKGROUND

MPD's capital program is categorized into three primary programs: fleet, technology and facilities. Facilities programs are managed by the Department of General Services.

MPD maintains approximately 1,640 vehicles in the fleet, including 935 marked cruisers, 480 unmarked cruisers, and 225 specialty/support vehicles. The Department funds the replacement cycle of patrol cars, motorcycles, and the related equipment required to operate these vehicles.

The goal of MPD's technology program is to maintain the most up-to-date technology and data-infrastructure systems. This mission encompasses the rehabilitation, replacement, and upgrade of the IT network, CCTV technology and other related capital eligible items.

CAPITAL PROGRAM OBJECTIVES

1. Maintain the fleet of police vehicles according to an established replacement cycle.
2. Maintain current IT investments and continuously identify and implement new technology solutions to achieve greater efficiency, automation of police operations, and enhanced community safety.
3. Coordinate with DGS to prioritize capital spending for facilities occupied by MPD.

RECENT ACCOMPLISHMENTS

- During FY23, MPD ordered 188 vehicles
- Began installation process for Bi-directional amplifiers to improve police radio coverage throughout the city
- Completed engineering design/build/test phase for CCTV fiber integration
- Expanded CCTV deployment by 50 cameras
- Completed WiFi and network upgrades in 9 MPD facilities for improved public safety operations
- Opened the MPD Cadet Corps facility in Historic Anacostia
- Completed renovation and expansion of 2850 New York Avenue NE VCSD location
- Relocated the majority of MPD Headquarters operations to 441 4th St NW after renovations

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2029 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2024 through FY 2029.
 - **FY 2024 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2029 :** This is the total 6-year authority for FY 2024 through FY 2029 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2030 :** Represents the 6-year budget authority for FY 2025 through FY 2030.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2025 - FY 2030 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-100024-AM0.BRM19C.7TH DISTRICT HQS RENOVATION

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: 100024
Ward: 8
Location: 2455 ALABAMA SE
Facility Name or Identifier: MPD 7TH DISTRICT HEADQUARTERS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$65,500,000

Description:

The Seventh District covers much of the Southeast quadrant of the city including the neighborhoods of Anacostia, Barry Farm, Naylor Gardens and Washington Highlands. The district is home to such notable landmarks as Fort Stanton Park the Frederick Douglas Home and Bolling Air Force Base. Over the course of the last decade MPD has added the largest amount of employees to the 7th District to address the calls for service and community policing efforts. The current facility has been remodeled several times over the course of the last decade to address the additional staffing and unit configurations that are deployed out of the 7th District. Beyond the size constraints the building MEP systems are beyond the end of the lifecycle usefulness and the roofing system exterior envelope needs to be replaced. The project is for MPD to prioritize Design/Bid/Build a new facility above the existing parking lot.

Justification:

The MPD 7D Headquarters is in need of modernization.

Progress Assessment:

This project is ready to move forward once the funding is secured.

AM0-100138-AM0.PL110C.MPD BUILDING RENOVATIONS/CONSTRUCTION

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: 100138
Ward: 9
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$45,153,402

Description:

This project will support the design renovation project management and commissioning costs associated with small capital projects at MPD facilities. Such renovation projects occur across the entire MPD facilities inventory 30 locations and may include capital eligible costs for Abatement Concrete Masonry, Thermal Moisture Protection Framing, Drywall Fire Suppression Plumbing, HVAC Electrical Site Infrastructure, Physical Security Force Protection Installations, Detention Area Upgrades Roofing Conveying and Main Distribution Frames upgrades.

Justification:

Continuing to implement small capital projects across multiple MPD sites will further improve security, safety and working conditions.

Progress Assessment:

Ongoing project

FA0-100395-FA0.FAV01C.MOTOR CYCLES, SCOOTERS & TRAILERS - MPD

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: 100395
Ward: 9
Location: DISTRICT-WIDE
Facility Name or Identifier: MPD VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$2,938,030

Description:

This project funds MPD vehicle replacements for the fleet of motor cycles scooters trailers and similar vehicles to provide critical public safety service for the District MPD must have a fleet of fully functional vehicles in good working order and operational at all times. As vehicles are used they naturally age their condition deteriorates with continued use and incur additional mileage. This results in driving up the costs to maintain the vehicles and keep them in service. Timely replacement of vehicles when they reach a critical age condition or state of repair is essential for MPD to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District’s fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the need and timing of the vehicle replacements. These vehicles are needed to have a fully functional fleet that is in good condition and available to serve the needs of the agency in providing service to the District.

Progress Assessment:

Ongoing project

FA0-100398-FA0.FAV04C.MARKED CRUISERS - MPD

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: 100398
Ward: 9
Location: DISTRICT-WIDE
Facility Name or Identifier: MPD VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$70,683,047

Description:

This project funds MPD vehicle replacements for the fleet of motorcycles, scooters, trailers, and similar vehicles to provide critical public safety service for the District. MPD must have a fleet of fully functional vehicles in good working order and operational at all times. As vehicles are used they naturally age their condition deteriorates with continued use and incur additional mileage. This results in driving up the costs to maintain the vehicles and keep them in service. Timely replacement of vehicles when they reach a critical age, condition or state of repair is essential for MPD to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District's fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of: the vehicle age, condition, mileage, engine hours, and the anticipated ongoing maintenance costs trends. This project represents the need and timing of the vehicle replacements. These vehicles are needed to have a fully functional fleet that is in good condition and available to serve the needs of the agency in providing service to the District.

Progress Assessment:

Ongoing project

FA0-100400-FA0.FAVH2C.HELICOPTER REPLACEMENT

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: 100400
Ward: District Wide
Location: VARIOUS
Facility Name or Identifier: MPD VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$11,462,640

Description:

This project will fund the purchase of a new H-125 helicopter to replace the current Falcon. This purchase will allow the Air Support Unit to safely continue to provide law enforcement with aerial support. In addition it will upgrade the units services with new avionics a much needed FLIR and spotlight as well as downlink capabilities and a new aero computer with LE navigational system capital eligible equipment only which will greatly assist MPD and interagency partners.

Justification:

MPD's current helicopter in active use is at end-of-life and in need of replacement. It is an essential component of the District's law enforcement response to major security incidents.

Progress Assessment:

Progressing as planned

FA0-100402-FA0.HRB30C.MPD/CCTV HARDWARE REPLACEMENT

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: 100402
Ward: 9
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$10,350,000

Description:

The Metropolitan Police Department has developed a Closed-Circuit Television CCTV system to support public safety operations in the nations capital during major events emergencies and to help combat crime in District of Columbia neighborhoods. This system has over 300 units deployed District-wide. The majority of these devices are fixed units on street lights or poles another twenty of these units are on mobile CCTV trailers which are able to be quickly positioned to address crime flare-ups or major event support. This project supports the ongoing replacement of MPDs CCTV system and equipment at its end-of-life to sustain the Districts security infrastructure. These equipment upgrades are also used to advance the CCTV platform to the latest technology and components to meet industry best practices and keep the MPD CCTV enterprise at the forefront in supporting crime fighting and case closures.

Justification:

Progress Assessment:

Annual ongoing project with dates repeating annually

FA0-100406-FA0.WAM40C.DATA WAREHOUSE & ANALYTICS MODERNIZATION

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: 100406
Ward: 9
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 20
Estimated Full Funding Cost: \$1,835,618

Description:

Modernize our data warehouse architecture. This includes but is not limited to curating more data in real-time or near real-time. We plan on doing this by building a data lake of almost all structured data as well as metadata for the unstructured data such as BWC LPR etc. Once this data is readily available it can be easily and quickly integrated into our dimensional models and data marts for analysis and reporting.

Justification:

Project is ongoing. MPD data silos will be bridged by data analytics engines that can provide cross platform responses to individual queries. Both structured and unstructured data will be readily available for assessment.

Progress Assessment:

Project is ongoing. MPD data silos will be bridged by data analytics engines that can provide cross platform responses to individual queries. Both structured and unstructured data will be readily available for assessment.
