(GA0) DISTRICT OF COLUMBIA PUBLIC SCHOOLS

MISSION

The mission of the D.C. Public Schools (DCPS) is to ensure that every school guarantees that students reach their full potential through rigorous and joyful learning experiences provided in a nurturing environment.

SCOPE

The Department of General Services (DGS) is the agency responsible for implementing DCPS capital improvement projects. DGS executes the design and construction of new and modernized facilities, in addition to a host of targeted stabilization and small capital initiatives.

DCPS also works closely with the Deputy Mayor for Education (DME), who is responsible for managing the Master Facilities Plan, interagency and cross-sector coordination, and is a partner in the school modernization process.

CAPITAL PROGRAM OBJECTIVES

Ensure modernized facilities support instructional goals of DC Public Schools, provide accessible spaces for residents, and meet the District's sustainability goals.

Lead engagement with community members through the coordination of School Improvement Teams as well as community meetings to solicit input.

Direct DGS on the scope and need of school modernization, using a data-driven approach to prioritize modernization projects using equity, student demand, neighborhood population, and building condition as determining factors.

Advance equity through the creation of District-wide Educational Specifications that establish the facility standard for all school modernizations.

Coordinate small capital improvements and stabilization projects based on current needs.

RECENT ACCOMPLISHMENTS

DCPS is proud of the many projects that improved school facilities in SY 23-24 that enhanced the teaching and learning environment for students across the District. In SY23-24, new or modernized facilities were opened across the District and many buildings received stabilization or small capital projects. Highlights include:

- For SY23-24, a newly modernized facility opened at Raymond Elementary School. We also renovated sections of the new MacArthur High School and the Garnett Patterson STAY Program.
- Swing space locations were opened for Adams EC @ Meyer. Also the Sharpe Health swing space was expanded and also opened for part of the Truesdell ES students and staff.
- Construction will be complete for Whitlock ES (formerly Aiton), Dorothy Height ES, Garfield ES, School Without Walls at Francis-Stevens EC, Deal MS and Old Mider Early Childhood Education.
- Construction will continue at Adams EC, Truesdell EC, MacArthur HS and Browne EC.
- Planning and Design efforts are underway for several modernization or additions/renovation efforts, including Malcolm X at Green ES, Drew ES, Thomas ES, Brent ES, King ES, Burroughs ES and Whittier ES. Phase II of Roosevelt STAY at Garnet-Patterson was completed construction in August 2023, with a Phase III of various small capital projects currently in planning. Phase I construction at MacArthur was also completed, opening DCPS's first new by-right in-boundary high school in several years. MacArthur Phase II is currently in planning will continue for the next few years.
- Many schools received significant small capital investments to enhance accessibility, install new roofs, new windows, new classrooms, elevator and updated building systems Some other small capital investments include but are not limited to
- Life Safety: Centralized Access Control and Intrusion Detection System continuation
- ADA: Plummer Exterior ADA Ramps, Interior Lift, & Power Upgrades
- Playgrounds: Barnard and Brightwood
- Roofs replacements: Langdon, Langlely, and Meyer
- HVAC replacements: Jackson-Reed cooling tower & chiller, Powell Building C - VRF Condenser Replacements, Langdon, and several boiler replacements

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2029 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2024 through FY 2029.
 - **FY 2024 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2029 :** This is the total 6-year authority for FY 2024 through FY 2029 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2030 :** Represents the 6-year budget authority for FY 2025 through FY 2030.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2025 - FY 2030 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the nonpersonnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$9,720,424

Description:

To meet these goals, DC Public Schools (DCPS) will implement a comprehensive data infrastructure solution and aligned data reporting tools. DCPS has adopted a data model that enables interoperability and the seamless exchange of data between systems across DCPS student data systems and applications. DCPS is implementing an operational data store (ODS) to standardize and integrate DCPS data across multiple systems including the primary student information system, discipline system, assessment applications, special education, and interagency data sharing. DCPS is implementing a data warehouse to store data across multiple years in a consistent data format and support reporting analytics including an enterprise data dashboard system. DCPS has implemented and will continue to develop an enterprise data dashboard system to support both school-based and central office roles.

Justification:

By DCPS investing in its data infrastructure to store student data in a coherent way and make it readily accessible, staff will be able to make data-informed decisions; school-based staff will be able to see a complete picture of student outcomes in a seamless way; and central office staff will be able to access the data they need to support schools effectively. The expanded functionality of the student information system will support improved data quality, particularly on elementary scheduling, and easier data entry for teachers.
