# (GF0) UNIVERSITY OF THE DISTRICT OF COLUMBIA

## MISSION

The University of the District of Columbia is an urban land grant institution of higher education with an open admissions policy offering certificate, associate, baccalaureate, and graduate/professional degrees. The University of the District of Columbia provides a quality liberal and practical education that prepares students for the future.

## BACKGROUND

UDC operates its programs in 10 buildings on its Van Ness campus located at 4200 Connecticut Avenue, totaling approximately 1.2 million square feet of space. The University also operates a main campus garage with approximately 730 parking spaces and a power plant containing two chillers and two boilers. The University facilities, in addition to the Van Ness Campus, include: the Bertie Backus site at 5171 South Dakota Avenue, NE; the PR Harris site at 4600 Livingston Road, SE; the 143.5-acre Muirkirk Farm in Beltsville, Maryland; the University Residence at 3250 Rittenhouse St. NE; and a hangar at National Airport. Nine of the ten buildings on the Van Ness Campus and the parking garage were built in the early 1970s.

## CAPITAL PROGRAM OBJECTIVES

 Provide a healthy, safe, and appealing higher education environment where all facilities meet academic accreditation standards, comply with building codes and ADA requirements, and are equipped with advanced technology.
Develop financial support for campus capital improvements by meeting the university president's fundraising goals for gifts from individuals, corporations, and private foundations.

### Elements on this page of the Agency Summary include:

• Funding Tables: Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

• Additional Appropriations Data (\$000): Provides a summary of the budget authority over the life of the project. The table can be read as follows:

• **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

• Budget Authority Thru FY 2019 : Represents the lifetime budget authority, including the 6 year budget authority for FY 2014 through 2019

• **FY 2014 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

• 6-Year Budget Authority Thru 2019 : This is the total 6-year authority for FY 2014 through FY 2019 including changes from the current fiscal year.

• Budget Authority Request for 2015 through 2020 : Represents the 6 year budget authority for 2015 through 2020

• **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2015 - FY 2020 (change in budget authority is shown in Appendix A).

• Estimated Operating Impact: If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

• FTE Data (Total budget in FTE Table might differ from actual budget due to rounding): Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

• Facility Location Map: For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.
