GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished  
Budget Presentation  
Award*

PRESENTED TO

**District of Columbia Government**

For the Fiscal Year Beginning

**October 1, 2010**

President

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to District of Columbia Government, District of Columbia, for its annual budget for the fiscal year beginning October 1, 2010. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device. This award is the eleventh in the history of the District of Columbia.

The Office of Budget and Planning (OBP) submitted the FY 2012 Budget and Financial Plan for consideration by GFOA and will also submit the FY 2013 Budget and Financial Plan to GFOA. OBP believes this budget continues to conform to the GFOA's requirements.

VINCENT C. GRAY  
MAYOR

June 22, 2012

The Honorable Barack H. Obama  
President of the United States  
1600 Pennsylvania Avenue, NW  
Washington, DC 20500

Dear Mr. President:

On behalf of the residents of the District of Columbia, I submit to you the District of Columbia Fiscal Year 2013 Budget and Financial Plan entitled "Seizing our Future," our seventeenth consecutive balanced budget.

The last year has posed significant economic challenges for the nation as a whole, and the District of Columbia is no different than jurisdictions across the country. As my administration approached budget formulation at the beginning of this year, the District faced a \$172 million gap for Fiscal Year 2013. Despite this, my goals for the Fiscal Year 2013 budget remained steady: to provide the resources to foster a vibrant, sustainable city, where all residents have an opportunity to provide for themselves and their families, where every neighborhood is safe, where every student goes to a good school, where every tax dollar is spent wisely on a government that works, and where citizens' voices really count.

To that end, the \$9.4 billion general operating budget, including \$2.8 billion in federal funds, maintains fiscal stability and continues to provide investments in key areas of priority, including: economic development and training programs that lead to jobs for District of Columbia residents; continuation and enhancement of a birth-to-age-24 quality education system; and provision of a responsive, effective public safety program that keeps our neighborhoods and businesses safe.

Mr. President, we appreciate that your Fiscal Year 2013 federal budget proposes support for the continued development of the St. Elizabeths campus and dedication to the continued development of our workforce. The \$9.8 million proposed to fund the Center of Innovation illustrates our common goal of development that fuels long-term economic growth and job creation. A more diverse economy gives the city resilience in economic downturns and provides a more robust set of opportunities for District residents, and by focusing on sectors with growth potential, we will distribute benefits throughout the whole city. Your continued assistance in our quest to provide a world-class education to the youth of

the District of Columbia is also greatly appreciated. We hope to encourage our children to excel in the very qualities that will make them excellent candidates in the innovative technology hub we will create.

Your support for a change in the Home Rule Charter to establish local budget autonomy for the District of Columbia is also critical, and appreciated. Simply stated, there is absolutely no reason for the District of Columbia's local funds budget to be part of the federal budget process. The District raises over \$5.9 billion in local funds annually, which should be subject to the decision-making authority of only the District's locally elected representatives. We look forward to your advocacy on behalf of budget autonomy and the matters of basic self-determination and democracy for the residents of the District of Columbia.

The District's Fiscal Year 2013 Budget and Financial Plan represents the outcome of difficult choices that were required to build a fiscally sound budget and financial plan. Our intention was to strike a balance between costs savings, program realignments, and new sources of revenue so that we can maintain services while meeting our economic challenges. In addition, it is noteworthy that the budget relies on no new taxes or fees to meet this goal. The budget is balanced, structurally sound, and was formulated in the spirit of fiscal discipline.

I look forward to prompt and favorable federal consideration of the District's Fiscal Year 2013 Budget and Financial Plan.

Sincerely,

A handwritten signature in black ink that reads "Vincent C. Gray". The signature is written in a cursive style with a large, looping "V" and a long, sweeping tail on the "y".

Vincent C. Gray

# FY 2013 - FY 2018 Capital Improvements Plan

---

## Introduction

The District's proposed capital budget for FY 2013 - FY 2018 calls for financing \$1.134 billion of capital expenditures in FY 2013. Highlights include:

- Fulfilling and enhancing the commitment to improvements in schools made since FY 2006;
- Investing in infrastructure improvements and mass transit for greater ease of access to education and employment opportunities; and
- Renovating and modernizing university facilities.

The proposed capital budget calls for financing of general capital expenditures in FY 2013 from the following sources:

- \$848 million of General Obligation (G.O.) or Income Tax (I.T.) revenue bonds;
- \$50 million of Grant Anticipation Revenue Vehicle (GARVEE) bonds;
- \$27 million through the master equipment lease/purchase program;
- \$4 million of pay-as-you-go capital (Paygo) capital financing, which is a transfer of funds from the General Fund to the General Capital Improvements Fund;
- \$140 million of federal grants from Highway Trust Fund revenue;
- \$36 million of Local Highway Trust Fund revenue (motor fuel taxes and a portion of Rights-of-Way fees), for the local match to support federal highway grants; and
- \$29 million of Local Transportation Fund special purpose (utility marking service, public inconvenience, and a portion of Rights-of-Way occupancy fees) revenue.

This overview chapter summarizes:

- The District's proposed FY 2013 - FY 2018 capital budget and planned expenditures;
- Major capital efforts;
- Fund balance of the District's capital fund;
- An outline of this capital budget document; and
- The District's policies and procedures on its capital budget and debt.

The Highway Trust Fund and related projects are presented in Appendix H. The D.C. Water and Sewer Authority's capital program is presented in Appendix J.

Table CA-1

**Overview**

(Dollars in thousands)

Total number of projects receiving funding	242
Number of ongoing projects receiving funding	198
Number of new projects receiving funding	44
FY 2013 new budget allotments	\$1,134,123
Total FY 2013 to FY 2018 planned funding	\$5,176,714
Total FY 2013 to FY 2018 planned expenditures	\$5,176,714
FY 2013 Appropriated Budget Authority Request	\$1,093,058
FY 2013 Planned Debt Service (G.O./I.T. Bonds)	\$476,050
FY 2013-FY 2018 Planned Debt Service (G.O./I.T. Bonds)	\$3,523,758

**The Proposed FY 2013 - FY 2018 Capital Budget and Planned Expenditures**

The District budgets for capital projects using a six-year Capital Improvements Plan (CIP), which is updated annually.

The CIP consists of:

- The appropriated budget authority request for the upcoming fiscal year, and
- An expenditure plan for projected funding over the next 5 years.

Each year's CIP includes many of the projects from the previous year's CIP, but some projects are proposed to receive different levels of funding than in the previous year's budget plan. New projects are added each year as well.

The CIP is used as the basis for formulating the District's annual capital budget. The Council and the Congress adopt the budget as part of the District's overall six-year CIP. Inclusion of a project in a congressionally adopted capital budget and approval of requisite financing gives the District the authority to spend funds for each project. The remaining five years of the program show the official plan for making improvements to District-owned facilities in future years.

Following approval of the capital budget, bond acts and bond resolutions are adopted to authorize financing for the majority of projects identified in the capital budget. In recent years, the District has issued Income Tax (I.T.) revenue bonds to finance some or all of its capital projects previously financed by General Obligation (G.O.) bonds. Where this chapter refers to G.O. bond financing for capital projects, the District might ultimately substitute I.T. bond financing. Capital projects in the CIP are also financed with GARVEE bonds, pay-as-you-go (Paygo) financing, a payment in lieu of taxes from the developer of the new headquarters for the United States Department of Transportation (US DOT PILOT), Housing Production Trust Fund revenue bonds, and Certificates of Participation (COP).

The District uses two terms in describing budgets for capital projects:

- Budget authority is given to a project at its outset in the amount of its planned lifetime budget; it can later be increased or decreased during the course of implementing the project. The District's appropriation request consists of changes to budget authority for all projects in the CIP.
- Allotments are planned expenditure amounts on an annual basis. A multi-year project receives full budget authority in its first year but only receives an allotment in the amount that is projected to be spent in that first year. In later years, additional allotments are given annually. If a year's allotment would increase the total allotments above the lifetime budget amount, an increase in budget authority is required to cover the difference.

<b>Total Uses</b>	<b>\$1,134,123</b>	<b>\$1,012,937</b>	<b>\$915,637</b>	<b>\$844,239</b>	<b>\$664,253</b>	<b>\$605,025</b>	<b>\$5,176,714</b>	<b>100.0%</b>

Note: Details may not sum to totals due to rounding

Agencies may obligate funds up to the limit of (lifetime) budget authority for a project but cannot spend more than the total of allotments the project has received to date (see Appendix D). The FY 2013 to FY 2018 CIP proposes a net increase in budget authority of \$1.093 billion during the next six fiscal years (an increase of \$1.703 billion of new budget authority offset by \$610 million of rescissions).

Planned capital expenditures from local sources in FY 2013 total \$994 million to be funded primarily by bonds, the Master Equipment Lease program (short term borrowing), Paygo, and the local transportation fund special purpose revenue. To finance these expenditures, the District plans to borrow \$848 million in new G.O./I.T. bonds, borrow \$27 million in Master Lease financing, fund \$4 million using Paygo, use \$29 million in Local Transportation Fund Special Purpose Revenue, use \$36 million for the local match to the federal grant from the Federal Highway Administration, and use \$50 million of GARVEE financing.

Planned bond borrowing will be \$873 million, although only \$848 million will be made available for FY 2013 capital expenditures. The other \$25 million will go toward deficit reduction for the capital fund (see the section “Fund Balance of the Capital Fund” below). Proposed borrowing is shown in Table CA-7.

In recent years, the District has increased its capital expenditures to reinvest in its aging infrastructure. The District is limited by funding constraints as well as multiple competing demands on capital and is not able to fund all identified capital needs. As a result of these demands, the District has taken action to meet its priorities while also maintaining a fiscally sound CIP. This has been accomplished by prioritizing capital projects and rescinding budget authority from projects deemed less important, and by reallocating budget to existing and new high priority projects to meet the most pressing infrastructure needs.

Figure CA-1 illustrates FY 2013 capital budget allotments by major agency. Funding for the District of Columbia Public Schools (DCPS) constitutes the largest share of the planned expenditures, DCPS will have a total of \$385 million available from bond sources of capital project financing in FY 2013. In addition, as with all agencies, unspent capital budget allotments from prior years will be available to be spent in FY 2013. Large shares of funding also go toward the District Department of Transportation, the Washington Metropolitan Area Transit Authority, and the University of the District of Columbia.

Table CA-2 summarizes planned expenditure amounts for FY 2013 and budget authority requests for FY 2013 - FY 2018. It includes local funds (G.O./I.T bonds, Paygo, transportation fund, and master equipment lease/purchase), federal grants, and special financings that are discussed in greater detail later in this chapter.

The capital fund pro forma, Table CA-3, summarizes sources and uses in the District’s CIP. The Project Description Forms that constitute the detail of this capital budget document include projects receiving new allotments in FY 2013 through FY 2018, as included in the pro forma, totaling \$1.134 billion in FY 2013.

## **FY 2013 Operating Budget Impact**

In general, each \$15 million in borrowing has approximately a \$1 million impact on the operating budget for annual debt service. The capital budget's primary impact on the operating budget is the debt service cost, paid from local revenue in the operating budget, associated with issuing G.O. bonds to finance the CIP. Table CA-4 shows the overall debt service funded in the FY 2013 operating budget and financial plan.

A secondary impact on the operating budget is the cost of operating and maintaining newly completed capital projects. For example, the replacement of a building’s roof, windows, and mechanical systems may decrease the cost of utilities, which would effectively lower the owner agency’s operating costs. Conversely, the construction of a new recreation center is likely to increase the owner agency’s operating costs for staffing the facility and operating programs there. Similarly, completed information technology projects will likely entail additional operating costs as upgrades, license renewals, or training of staff to operate new systems are required.

The table below (CA-5) reflects the summary of the projected impacts, by agency, and by fiscal year for the 6-year CIP period.

Table CA-4

**OFFICE OF FINANCE AND TREASURY**  
**Fiscal Years 2013 - 2018 Debt Service Expenditure Projections**

	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018

<b>Total</b>	<b>760.8</b>	<b>429.8</b>	<b>429.8</b>	<b>51.5</b>	<b>481.3</b>	<b>400.6</b>	<b>39.5</b>	<b>440.1</b>

**Capital-Funded Positions**

Agencies may receive approval to charge certain personnel expenses to capital projects. However, in order to qualify and receive approval, the primary duties and responsibilities of a position charged to capital funds must be directly related to a specific capital project. Full-Time Equivalent (FTE) positions that generally qualify are (a) architects; (b) engineers; (c) cost estimators; (d) project managers; (e) system developers; (f) construction managers; (g) and inspectors.

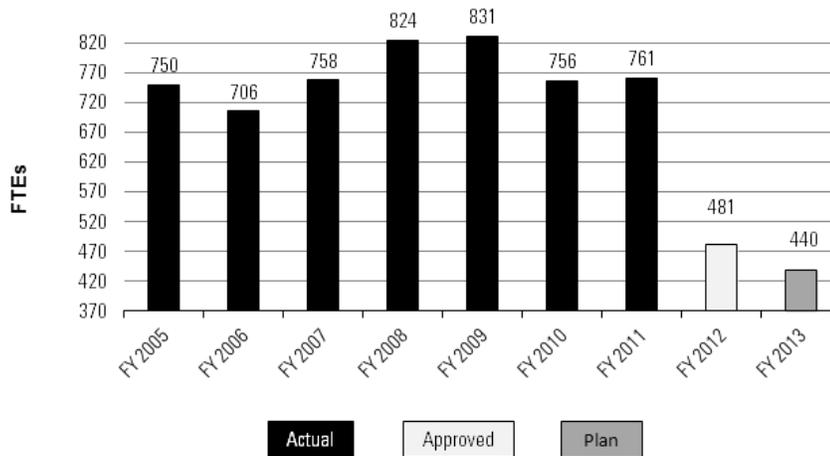

In FY 2012, the number of positions approved for funding with Capital budgets was reduced in order to make more funding available for hard construction costs. Positions in some agencies were moved to the operating budget.

Table CA-6 reflects capital-funded FTE data for each agency for FY 2011 through FY 2013. Additional details on the FY 2013 FTEs, including the specific number of FTEs approved by project, can be found on the project pages in the "Project Description Forms" section of this volume. They are also summarized on the appropriate agency pages.

Figure CA-2 shows the total number of capital-funded positions between FY 2005 and FY 2011, the approved positions for FY 2012, and the planned positions in the CIP for FY 2013.

Figure CA-2

### Number of Capital-Funded FTE Positions From FY 2005 to FY 2013

#### Details on the District's Sources of Funds for Capital Expenditures

The District's proposed FY 2013 - FY 2018 capital budget includes a number of funding sources. The District uses the following sources to fund capital budget authority across a large number of agencies that have capital programs:

- G.O. or I.T. bonds;
- Paygo capital funding;
- Master Equipment Lease/Purchase financing; and
- Sale of Assets.

In addition to the above sources, the District's Department of Transportation (DDOT) uses the following sources to fund its capital projects:

- Federal Highway Administration grants, for Highway Trust Fund projects;
- Local Transportation Fund (a portion of the Rights-of-Way Occupancy Fees, Public Inconvenience Fees, and Utility Marking Fees);
- Grant Anticipation Revenue Vehicle (GARVEE) bonds, which are repaid from future Federal funding; and
- Dedicated motor fuel tax revenues and a portion of the Rights-of-Way Occupancy Fees for Highway Trust Fund projects (these provide the local match for the Federal Highway Administration grants).

Projects funded by these sources are detailed in the project description pages in Appendix H.

Table CA-7

#### Proposed Bond Borrowing, FY 2012 Through FY 2018

(Dollars in thousands)

Source	Actual FY 2012	Proposed FY 2013	Proposed FY 2014	Proposed FY 2015	Proposed FY 2016	Proposed FY 2017	Proposed FY 2018
G.O./ I.T. bonds, general, including capital fund deficit reduction	\$605,782	\$872,933	\$779,167	\$688,211	\$567,144	\$361,016	\$245,475
GARVEE Bonds	-	\$50,000	-	-	-	-	-
Qualified Energy Construction Bonds (QECBs)	\$6,140	-	-	-	-	-	-
<b>Total</b>	<b>\$611,922</b>	<b>\$922,933</b>	<b>\$779,167</b>	<b>\$688,211</b>	<b>\$567,144</b>	<b>\$361,016</b>	<b>\$245,475</b>

Note: All amounts and methods of borrowing are subject to change depending on status of projects and market conditions.

## **DDOT Transportation Fund**

In previous years, Special Purpose Revenue deposited into the Unified Fund was used to finance DDOT's local streets projects and some agency operating expenses. In the interest of simplifying Special Purpose Revenue funding streams, making agency funding sources and uses more transparent, and limiting agency discretion to move budgets, the Unified Fund was abolished at the beginning of FY 2012. Special Purpose Revenue that was previously deposited in the Unified Fund was redirected to the Local Transportation Fund (formerly Local Roads Construction and Maintenance Fund), the Washington Metropolitan Area Transit Authority operating subsidy, and the General Fund.

## **Major Capital Efforts**

The Capital Improvements Plan reflects the strategic priorities guiding District government decisions. These are:

- Quality Education
- Public Safety
- Job Creation and Economic Development
- Sustainability and Livability
- Transportation Infrastructure
- Fiscal Stability

### **Quality Education**

*Public Schools Modernization.* The District is currently undertaking a comprehensive schools modernization initiative that began in 2008. So far, over \$2 billion has been invested, and this CIP reflects additional investment of \$1.5 billion during the next six years modernizing elementary, middle, and high school facilities. This includes \$343 million in FY 2013, \$203 million for high school renovations and \$140 million benefiting elementary and middle schools. An additional \$178 million will be invested in the University of the District of Columbia, with \$39 million in FY 2013.

### **Public Safety**

*Metropolitan Police Department - 6th District Precinct Relocation.* The CIP provides \$14 million for the relocation of the Metropolitan Police Department's 6th District Precinct to the former Merritt Middle School in the Deanwood, Lincoln Heights, and Burrville neighborhoods. The adaptive use of the former school will enable MPD to provide the highest level of service to residents and business served by the precinct. Affordable workforce housing is also a feature of this initiative, as well as the new H.D. Woodson High School.

*Closed-Circuit Television (CCTV).* The CIP supports a \$4 million expansion of MPD's Closed Circuit Television and ShotSpotter technology initiative to fight crime. ShotSpotter utilizes sound sensors that can detect gunshots with surveillance cameras that react to the sensors, allowing the MPD to view a possible shooting scene in real time. This technology allows faster emergency medical response times, allows the District to improve prosecution of gun-related crimes, and ultimately leads to reduced occurrence of violent crime.

*Fire and Emergency Medical Services Department - Modernizing Fire Stations.* The District is currently planning or implementing the rehabilitation, major renovation, or relocation of four fire stations. Between these four stations (Engine 14, Engine 22, Engine 23, and Engine 27), the District will invest over \$18 million in the six-year Capital Improvements Plan. Additionally, the CIP authorizes approximately \$16 million for new fire apparatus, \$17 million for scheduled capital maintenance, and \$12 million for the First Responders Training Academy.

*Office of Unified Communications.* The Office of Unified Communications provides a critical service to District residents, fielding emergency and non-emergency calls and coordinating responses between the appropriate agencies. The technology available to OUC employees is crucial to ensuring proper response and minimizing response times to constituent needs. The CIP designates more than \$24 million for equipment upgrades at OUC to ensure that these resources remain state-of-the-art, which will include enhanced 9-1-1 service.

## **Job Creation and Economic Development**

*St. Elizabeths East Campus Infrastructure.* The District's plan to redevelop the East Campus of the former Saint Elizabeths Hospital is a once-in-a-generation chance for the District of Columbia and the federal government to create a well-planned, mixed-use, mixed-income, walkable, livable community. While federal government plans for the West Campus remain in flux, the District is proceeding with a \$113 million capital budget investment in infrastructure that will support private development at the 183-acre St. Elizabeths East Campus.

*McMillan Redevelopment.* The 25-acre former McMillan Reservoir Sand Filtration Plant site is expected to be redeveloped into a mixed-use project that will include historic preservation, open space, residential, retail, office, and hotel uses. The goal is to create an architecturally distinct, vibrant, mixed-use development that provides housing, employment, retail, cultural, and recreational opportunities for District residents. The project will include affordable and workforce housing, and 35 percent of the local contracting opportunities must go to Certified Business Enterprises (CBEs). The CIP requests over \$48 million to build site infrastructure.

*Walter Reed Army Medical Center Redevelopment.* In April of 2009 the federal government declared 62.5 acres on the main post of the Walter Reed Army Medical Center in Washington DC as surplus property, thereby making it available to a local redevelopment authority ("LRA") for re-use. The CIP provides \$1 million to help complete the planning process for the site, allowing the LRA to move forward with this transformative project that will help provide employment, and create additional housing and retail options in the District.

## **Substainability and Livability**

*Sustainable DC.* Sustainable DC is the District of Columbia's comprehensive effort to create and implement a strategy for the future that will broaden and diversify the economy and the range of available employment and career opportunities for residents; reduce disparities (including income, health, employment, education, safety); and raise the environmental quality and livability in the city, while expanding the choices, increasing the convenience and affordability of neighborhoods, bolstering the resilience of households, and enhancing the lives of our residents. The CIP requests \$5 million for capital investments in Sustainable DC initiatives.

*Anacostia River Clean-Up.* The Anacostia River, once a pristine river, is now degraded mainly because of its highly urbanized location. The River is the focus of large-scale restoration efforts by the District of Columbia. Restoration work will not be accomplished all at once, but instead will take place gradually over time. The District's goal is to restore the Anacostia to a fishable and swimmable river by the year 2032. The \$48 million of authorized capital budget for Anacostia River hazardous material remediation will continue efforts to move towards this goal, and improve the quality of life for District residents, and all residents of the Anacostia Watershed.

*Affordable Housing.* The Department of Mental Health is budgeted to invest \$10 million in housing initiatives to serve persons who receive services from the agency.

*Swimming Pool Rehabilitation.* The CIP authorizes approximately \$8 million of capital budget for the rehabilitation of existing District-owned swimming pools. These facilities contribute greatly to the physical education of District youth, as well as providing recreation opportunities and community unity for all District residents.

*Athletic and Playing Field Rehabilitation.* The ability to provide all residents of the District, and especially the District's youth, with quality athletic fields and play areas is critical for improving both public health and overall quality of life. Over the past decade many of the District's public facilities have fallen into disrepair. Recently many playgrounds, playing fields, and courts have been upgraded. This capital budget authorizes \$3 million for additional athletic field restoration and rehabilitation, and \$11 million is budgeted for community recreation center upgrades.

## **Transportation Infrastructure**

*Streetcar Build-Out.* The District's Streetcar system will enhance mobility for city residents, accommodate continued growth in population and employment, greatly improve access to jobs, connect neighborhoods and activity centers, and support sustainable economic growth for the District of Columbia. The streetcar will operate modern low-floor vehicles running on surface tracks that are embedded in the street pavement. The four corridors that will be constructed between FY 2013 and FY 2018 are forecast to accommodate more than 108,000 daily trips by 2030 and significantly reduce crowding on existing Metro bus and rail lines. The streetcar will also stimulate more intense mixed-use development along streetcar corridors, consistent with the city's Comprehensive Plan. The FY 2013 - FY 2018 budget for this project is \$237.3 million.

*Bicycle and Pedestrian Infrastructure.* The capital budget proposes to spend \$3.7 million from a mix of federal and local funds to improve bicycle and pedestrian facilities, including bike lanes, sharrows, bike parking, and Priority Corridors for pedestrians in each ward. This investment will continue the District's momentum towards becoming one of the country's premier multi-modal transit cities.

*Traffic Management and Calming Infrastructure.* The six-year capital budget supports numerous DDOT initiatives aimed at improving the traffic management in the city in ways that will both reduce congestion and make the city more hospitable to all modes of transportation. The 11th Street Bridge realignment is scheduled for completion in mid-2013. The total cost of the new bridges will exceed \$300 million, including ongoing projects in the surrounding area to manage traffic flow on surrounding arterial roads and neighborhood streets. Additionally, the CIP authorizes DDOT to invest more than \$4 million in each of the eight wards over the six-year period.

## **Fiscal Stability**

*Investments in Efficiency - Retrofit for Energy Efficiency and Cost Savings.* Energy efficiency is a crucial focus from both environmental sustainability and fiscal stability standpoints. The \$12.9 million budget authorization provided by the CIP includes \$8.9 million in FY 2013 for energy efficiency retrofitting at District facilities.

*Investments in Existing Capital Assets.* One of the cornerstones of this CIP is an emphasis on investing in major upgrades and modernization of existing capital assets. Taking this approach reduces short-term and long-term capital expenditures, while also minimizing maintenance costs in the operating budget. This approach includes a focus on repurposing District facilities, as well as prioritizing major renovations over new projects in order to reduce the long-term costs of deferred maintenance.

## **Fund Balance of the Capital Fund**

From FY 2001 through FY 2005, the District's Comprehensive Annual Financial Report (CAFR) showed a deficit in the General Capital Improvements fund (the "capital fund"), but since FY 2006 the CAFR has shown a surplus (see Table CA-8). The shortfall at the end of FY 2005 meant that capital expenditures had exceeded financing sources by that amount on a cumulative basis, and the District's General Fund had advanced funds to the capital fund to cover the expenditures. Because of several large financings beginning in FY 2006, from which very little was initially spent, the accumulated deficit has become an accumulated surplus. As District agencies spend these proceeds in coming years, this portion of the surplus will disappear. The Chief Financial Officer's management goal is to balance the capital fund on a long-term basis.

Until a few years ago, agencies had been slow to spend capital dollars, resulting in the District's paying interest on borrowed funds that then sat idle earning lower interest rates in District bank accounts. The District instituted a policy to delay borrowing until funds were needed for expenditures, and borrowing less than the full amount budgeted and/or allotted. At the same time, agencies were pressured to begin spending budgeted capital dollars. Eventually, this resulted in a situation in which total agency spending (of existing capital budget authority and prior allotments) exceeded the amount of funds borrowed, producing a deficit in the capital fund. The General Fund paid for these capital expenditures, essentially as a loan to the capital fund. It was necessary to cure this shortfall in order to bring the capital fund and General Fund back into balance and also to prevent cash flow problems in the General Fund.

In FY 2006, the District borrowed \$196.9 million through Certificates of Participation (COPs) for a new mental health hospital and a new building for the Department of Motor Vehicles, and it securitized \$245.3 million of future tobacco revenues to pay for health care needs in the District, primarily through capital expenditures. Little was spent against these two financings in FY 2006, so they had a large positive net effect on the capital fund balance. Similarly, in FY 2007, there were several large sources of revenues with minimal FY 2007 spending. For example, the District transferred \$100 million of Paygo revenue to the capital fund for schools construction and also borrowed \$60 million in the first installment of the additional FY 2006 bond funds for schools. However, D.C. Public Schools did not have access to the budget for these funds until April of 2007 because of legislative restrictions, and little was spent by the end of FY 2007. The District also borrowed \$64 million against future bus shelter advertising revenues for the Great Streets program.

The FY 2011 CAFR reports an accumulated surplus in the General Capital Improvements Fund of \$5.0 million. This represents a decrease of \$128.4 million from the FY 2010 ending fund balance of \$133.4 million, and a six-year cumulative increase of \$251.4 million compared to the reported deficit of \$246.4 million in the FY 2005 CAFR. This turnaround is due primarily to the difference in timing of revenues and expenditures in the Fund. The balance as of the end of FY 2011 is representative of the activity in the fund as of that date. Past expenditures and currently outstanding budget allotments related to G.O. bonds and I.T. secured revenue bonds still exceed the District's total bond financing.

The current balance will likely be spent before the end of FY 2012. Thus, the District must still keep a close watch on the underlying status of the capital fund, notwithstanding the very small current surplus. The long-term solution to the capital fund shortfall includes development of, and monitoring against, agency spending plans for their capital projects that manage each year's overall expenditures against that year's revenues. The District will also borrow \$25 million in FY 2013, above this year's new capital budget allotments, to help repay the General Fund for advances it made to the capital fund. This additional borrowing has been taking place in amounts of either \$25 million or \$50 million annually, for a total of \$300 million, for several years. Such borrowing may need to continue as available allotment balances are expended, which could again reduce the fund balance to a negative total.

## Outline of this Capital Budget Document

The remainder of this overview chapter includes the District's policies on capital budget and debt. Projects in the remaining sections of this volume are grouped by the owner (rather than the implementing) agency except where noted.

- Agency Description Forms: Provides details of the agency including the mission, background, and summaries of the capital program objectives and recent accomplishments. For those agencies with facilities projects, the page immediately following the description contains a map reflecting the projects and their geographic location within the District.
- Project Description Forms: Provides details on capital projects funded by G.O. or I.T. bonds and other sources. Ongoing projects with no new allotments scheduled for FY 2013 - FY 2018 are not included. The expenditure schedules shown display the planned allotments (1-year spending authorities) by year for FY 2013 through FY 2018.
- Appendix A: FY 2013 Appropriated Budget Authority Request: Summarizes the new budget authority the District proposes. Budget authority is established as the budget for a project's lifetime, so these requests are only for new projects or for changes in lifetime budgets for ongoing projects. Because budget authority is given to the implementing agency, projects are grouped by implementing agency in this appendix.
- Appendix B: FY 2013 - FY 2018 Planned Expenditures From New Allotments: Shows new allotments for ongoing and new projects for all six years of the CIP.
- Appendix C: FY 2013 - FY 2018 Planned Funding Sources: Shows the source of financing for the projects displayed in appendix B.
- Appendix D: Balance of Capital Budget Authority, All Projects: Shows expenditures, obligations, and remaining budget authority for all ongoing capital projects. Because this report comes from budgets in the financial system, projects are grouped by implementing agency with sub sections for the respective owner agency. The projects are listed alphabetically, by owner agency. (Note: reconciliation is continuing for projects that were transferred in FY 2012 to the new Department of General Services Agency (AM0) and until that is complete, some projects will appear in their old implementing agency, e.g. DCPS (GA0), OPEFM (GM0), FEMS (FB0), etc.).

- Appendix E: Capital Project Cost Estimate Variances: Shows the variance between original budget estimate and current approved budget for all capital projects with proposed FY 2013 – FY 2018 allotments. The appendix shows change to projects funded from local sources and from the local transportation program.
- Appendix F: Rescissions, Redirections and Reprogramming of Available Allotments: Shows the project budgets that have been affected by agency reprogramming, legislated rescissions and redirections during FY 2012 (see qualifier on page F-9).
- Appendix G: Project Budget Revisions following publication of the FY 2012 budget: Shows the project budgets that have been affected by reprogramming between the publication cut-off date (June 15) of the FY 2012-FY 2017, volume 6, and the end of FY 2011.
- Appendix H: Highway Trust Fund (HTF): Describes the planned sources and uses of all projects planned and/or undertaken with are funded through the Federal Highway Administration program.
- Appendix I: Capital Project Revisions for Conversion to the New Accounting System (SOAR Replacement). At the end of FY 2012, the District will implement a new accounting system replacing SOAR. The new system allows for a much greater level of detail for classifying data about projects. This appendix shows all projects, the current project number, the current name, the owner agency, the implementing agency, the new project number, the new name, and the master project classification. The table reflects the proposed structure, including some consolidation, for the current set of projects that will not be closed and thus will continue in the new accounting system. At the end of Fiscal Year 2012, the budget allotments and authority for these projects will be moved from the old/current projects into the new ones, in the structure presented. Some additional technical adjustments may be needed to ensure correct naming and set-up.

For projects in the Highway Trust Fund (HTF), the new structure will mirror the Federal Management Information System (FMIS) used by the Federal Highway Administration and the project structure shown in this table (2) reflects that most HTF projects are recognized in FMIS as two projects, one reflecting design, and the other reflecting construction. These are designed with a “D” or a “C” at the end of the new project title. Projects are shown according to the ‘old’ phase structure, which will comport to the new project structure and maintain the integrity of both the projects and their budgets.

- Appendix J: D.C. Water and Sewer Authority Capital Program: Describes the capital improvements undertaken by the District’s independent instrumentality for the provision of water and sewerage services, including the FY 2013 – FY 2018 capital budget request.

*Note: Through the use of appendices F and G, along with the summary of project information in the “Additional Appropriations Data” table, all individual and collective budget revisions between publication of Volume 6 for the FY 2012-FY 2017 and the FY 2013-FY 2018 Capital Improvement Plan budgets have been captured.*

## **About the Project Description Forms in this Budget Volume**

Elements in this budget volume include:

- **Photos.** Photos are included for some projects.
- **Narrative fields.** Narrative fields provide a project description, justification, progress toward completion, and any related projects.
- **Milestone Data.** Timeframes are shown for key events in the project’s lifecycle and include both planned and actual milestone dates.
- **Funding Tables.** Each project that has received past budget allotments shows the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Funding by Phases and by Sources Tables.** These tables provide information regarding the phases and sources of funding.

- **Additional Appropriations Data.** Information has been added to the details of each project to aid in providing a summary of the budget authority over the life of the project. The table can be read as follows:
- **First Appropriation (FY)** - this represents the year of initial appropriation. Original 6-Year Budget Authority - represents the authority from the initial appropriation year through the next 5 years.
- **Original 6-Year Budget Authority** - represents the sum of the 6-year authority for all agency-owned projects, as shown in the first year they were authorized. The complete set of these projects may or may not be represented in this FY 2013 – FY 2018 CIP.
- **Budget Authority Thru FY 2012** - represents the lifetime budget authority, including the 6-year budget authority for FY 2012 through 2017.
- **FY 2012 Budget Authority Revisions** - represents the changes to the budget authority as a result of reprogramming, redirections and rescission (also reflected in Appendix F) for the current fiscal year.
- **Budget Authority Request FY 2013** - represents the 6-year budget authority for FY 2013 through 2018.
- **Increase (Decrease) to Total Authority** - This is the change in 6-year budget authority requested for FY 2013 – FY 2018 (also reflected in Appendix A).
- **Estimated Operating Impact.** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data.** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non-personal portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

## **District of Columbia Policies and Procedures: Capital Budget and Debt**

The District of Columbia's Capital Improvements Program (the "Capital Program") comprises the finance, acquisition, development, and implementation of permanent improvement projects for the District's fixed assets. Such assets generally have a useful life of more than five years and cost more than \$250,000.

The text of the CIP is an important planning and management resource. It analyzes the relationship of projects in the capital budget to other developments in the District. It also describes the programmatic goals of the various District agencies and how those goals affect the need for new, rehabilitated, or modernized facilities. Finally, it details the financial impact and requirements of all of the District's capital expenditures.

The CIP is flexible, allowing project expenditure plans to be amended from one year to the next in order to reflect actual expenditures and revised expenditure plans. However, consistent with rigorous strategic planning, substantial changes in the program are discouraged. The CIP is updated each year by adding a planning year and reflecting any necessary changes in projected expenditure schedules, proposed projects, and District priorities.

The District's legal authority to initiate capital improvements began in 1790, when Congress enacted a law establishing the District of Columbia as the permanent seat of the federal government and authorized the design of the District and appropriate local facilities. The initial roads, bridges, sewers and water systems in the District were installed to serve the needs of the federal government and were designed, paid for, and built by Congress. During the 1800s, the population and private economy of the federal District expanded sharply, and the local territorial government undertook a vigorous campaign to meet new demands for basic transportation, water, and sewer systems.

From 1874 to 1968, commissioners appointed by the President and confirmed by Congress managed the District. One commissioner, from the Corps of Engineers, was responsible for coordinating the maintenance and construction of all local public works in accordance with annual budgets approved by the President and the Congress.

Legislation passed in the 1950s gave the District broader powers to incur debt and borrow from the United States Treasury. However, this authority was principally used for bridges, freeways, and water and sewer improvements. In 1967, the need for significant improvements in District public facilities was acknowledged. This awareness led to the adoption of a \$1.5 billion capital improvement program to build new schools, libraries, recreation facilities, and police and fire stations.

A 1984 amendment to the Home Rule Act gave the District the authority to sell general obligation bonds to finance improvements to its physical infrastructure. The District has more than \$3.5 billion of general obligation bonds outstanding, which were issued to finance capital infrastructure improvements.

In September 1997, the President signed the National Capital Revitalization Act (the "Revitalization Act"). The act relieved the District of its operations at Lorton Correctional Facility. It also transferred responsibility for funding the maintenance and operation of the D.C. Courts system to the Office of Management and Budget (OMB). The District therefore would not incur the significant capital expenditures required at these facilities. In return, the District no longer will receive a federal payment in lieu of taxes for these functions.

In addition, the Revitalization Act raised the allowable percent of annual debt service payable from 14 percent to 17 percent of anticipated revenues to compensate the District for the loss of the federal payment and broadened the District's debt financing authority. The primary impact of this aspect of the Revitalization Act was to increase the District's flexibility to finance capital requirements.

### **Legal Authority and Statutory Basis**

The legal authority for the District's Capital Program comes from the District of Columbia Home Rule Act, P.L. 93-198, §444, 87 Stat. 800, which directs the Mayor is directed to prepare a multi-year Capital Improvements Plan (CIP) for the District. This plan is based on the approved current fiscal year budget. It includes the status, estimated period of usefulness, and total cost of each capital project on a full funding basis for which any appropriation is requested or any expenditure will be made in the forthcoming fiscal year and at least four fiscal years thereafter.

Mayor's Order 84-87 also supplements the legal authority and assigns additional responsibility for the District's Capital Program. This Order creates a Capital Program coordinating office to provide central oversight, direction, and coordination of the District's capital improvements program, planning, budgeting, and monitoring within the Office of Budget and Planning. The administrative order requires the Office of Budget and Planning to develop a CIP that identifies the current fiscal year budget and includes the status, estimated period of usefulness, and total cost of each capital project, on a fully funded basis, for which any appropriation is requested or for which any expenditure will be made over the next six years. The CIP includes:

- An analysis of the CIP, including its relationship to other programs, proposals, or other governmental initiatives.
- An analysis of each capital project, and an explanation of a project's total cost variance of greater than 5 percent.
- Identification of the years and amounts in which bonds would have to be issued, loans made, and costs actually incurred on each capital project. Projects are identified by applicable maps, graphics, or other media.

### **Why A Capital Improvements Program?**

A Capital Improvements Program that coordinates planning, financing, and infrastructure and facilities improvements is essential to meet the needs of a jurisdiction uniquely situated as the Nation's Capital. As mentioned previously, capital improvements are those that, because of expected long-term useful lives and high costs, require large amounts of capital funding. These funds are spent over a multi-year period and result in a fixed asset.

The primary funding source for capital projects is tax-exempt bonds. These bonds are issued as general obligations of the District. Debt service on these bonds (the repayment of principal and the payment of interest over the lifetime of the bonds) becomes expenditures in the annual operating budget.

The Home Rule Act sets certain limits on the total amount of debt that can be incurred. Maximum annual debt service cannot exceed 17 percent of general fund revenues to maintain fiscal stability and good credit ratings. As a result, it is critical that the CIP balance funding and expenditures over the six-year period to minimize the fiscal impact on the annual operating budget.

### **Principles of the Capital Program**

Several budgetary and programmatic principles are invested in the CIP. These are:

- To build facilities supporting the District stakeholders' objectives.
- To support the physical development objectives incorporated in approved plans, especially the Comprehensive Plan.
- To assure the availability of public improvements
- To provide site opportunities to accommodate and attract private development consistent with approved development objectives

- To improve financial planning by comparing needs with resources, estimating future bond issues plus debt service and other current revenue needs, thus identifying future operating budget and tax rate implications.
- To establish priorities among projects so that limited resources are used to the best advantage.
- To identify, as accurately as possible, the impact of public facility decisions on future operating budgets, in terms of energy use, maintenance costs, and staffing requirements among others.
- To provide a concise, central source of information on all planned rehabilitation of public facilities for citizens, agencies, and other stakeholders in the District.
- To provide a basis for effective public participation in decisions related to public facilities and other physical improvements.

It is the responsibility of the Capital Program to ensure that these principles are followed.

### Program Policies

The overall goal of the Capital Program is to preserve the District's capital infrastructure. Pursuant to this goal, projects included in the FY 2012 to FY 2017 CIP and FY 2012 Capital Budget support the following programmatic policies:

- Provide for the health, safety and welfare needs of District residents.
- Provide and continually improve public educational facilities for District residents.
- Provide adequate improvement of public facilities.
- Continually improve the District's public transportation system.
- Support District economic and revitalization efforts in general and in targeted neighborhoods.
- Provide infrastructure and other public improvements that retain and expand business and industry.
- Increase employment opportunities for District residents.
- Promote mutual regional cooperation on area-wide issues, such as the Washington Area Metropolitan Transit Authority, Water and Sewer Authority, and solid-waste removal.
- Provide and continually improve public housing and shelters for the homeless.

Table CA-8

### Fund Balance in the General Capital Improvements Fund, FY 1998-FY 2011

(Dollars in millions)

Fiscal Year	Positive/(Negative) Fund Balance
1998	\$224.0
1999	387.5
2000	458.4
2001	(57.9)
2002	(389.5)
2003	(141.8)
2004	(250.2)
2005	(246.4)
2006	396.8
2007	703.8
2008	586.9
2009	406.9
2010	133.4
2011	5.0

## **Fiscal Policies Project Eligibility for Inclusion in the Capital Improvements Plan (CIP)**

Capital expenditures included as projects in the CIP must:

- Be carefully planned, generally as part of the District-wide Facility Condition Assessment Study in concert with the Comprehensive Plan. This planning provides decision-makers with the ability to evaluate projects based on a full disclosure of information;
- Be direct costs of materials and services consumed in developing or obtaining internal-use computer software;
- Have a useful life of at least five years or add to the physical infrastructure and District-owned capital fixed assets;
- Exceed a dollar threshold of \$250,000.
- Enhance the productivity or efficiency capacity of District services;
- Have a defined beginning; and
- Be related to current or future District-owned projects. For example, feasibility studies and planning efforts not related to a specific project should be funded with current operating revenues rather than with capital funds.

### **Policy on Debt Financing**

With a few exceptions (e.g. Paygo capital, and Highway Trust Fund projects), the CIP is primarily funded with general obligation (GO) bonds, income tax revenue bonds, equipment lease/purchase obligations, or local parking tax revenue. Capital improvement projects usually have a long useful life and will serve taxpayers in the future, as well as those paying taxes currently. It would be an unreasonable burden on current taxpayers to pay the entire cost of such projects upfront. Long-term bonds, retired over a 20- to 30-year period, allow the cost of capital projects to be shared by current and future taxpayers, which is reasonable and fair. Capital improvement projects eligible for debt financing must:

- Have a combined average useful life at least as long as average life of the debt with which they are financed.
- Not be able to be funded entirely from other potential revenue sources, such as Federal aid or private contributions.

### **Policy on Capital Debt Issuance**

In formalizing a financing strategy for the District's Capital Improvements Plan, the District adheres to the following guidelines in deciding how much additional debt, including GO and/or revenue bonds, may be issued during the six-year CIP planning period:

- **STATUTORY REQUIREMENTS:** Per the Home Rule Act, no general obligation bonds can be issued if such issuance would cause maximum annual debt service to exceed 17 percent of general fund revenues in a given fiscal year, and no tax-supported debt of any kind (including income tax secured revenue bonds and general obligation bonds) can be issued if such issuance would cause total debt service on all tax-supported debt to exceed 12 percent of total general fund expenditures in any year during the six-year CIP period.
- **AFFORDABILITY:** The level of annual operating budget resources used to pay debt service should not impair the District's ability to fund ongoing operating expenditures and maintain operating liquidity.
- **FINANCING SOURCES:** The District evaluates various financing sources and structures to maximize capital project financing capacity at the lowest cost possible, while maintaining future financing flexibility.
- **CREDIT RATINGS:** Issuance of additional debt should not negatively impact the District's ability to maintain and strengthen current credit ratings, which involves the evaluation of the impact of additional borrowing on the District's debt burden. This includes having certain criteria and ceilings regarding the issuance of new debt.

## Bond Rating

The District of Columbia's bond ratings by the major rating agencies assess the likelihood of bondholders receiving timely the principal and interest payments that are due to them from the District. Moreover, the District's general obligation bond ratings are also indicators of the overall financial health of the city. The table below provides a summary of the credit ratings for long-term debt that are used by the major rating agencies. Each rating agency uses a rating scale to reflect the risk associated with a municipality's long-term debt. Municipalities with higher ratings reflect lower levels of default risk and thus can issue debt at a lower borrowing cost to the issuer. The rating agencies use evaluative criteria that include economic factors, debt levels, governance structure, capacity of the municipal government, and fiscal/financial factors.

Investment Attributes	Moody's Investors Ratings	Standard and Poor's	Fitch Ratings
Highest Quality	Aaa	AAA	AAA
High Quality	Aa	AA	AA
Favorable Attributes	A	A	A
Medium Quality/ Adequate	Baa	BBB	BBB
Speculative Elements	Ba	BB	BB
Predominately Speculative	B	B	B
Poor Standing	Caa	CCC	CCC
Highly Speculative	Ca	CC	CC
Lowest Rating	C	C	C

Municipality	Moody's Investor's Ratings	Standard and Poor's	Fitch Ratings
District of Columbia	Aa2	A+	AA-
Baltimore	Aa2	AA-	NR
New York	Aa2	AA	AA
San Antonio	Aaa	AAA	AAA
Chicago	Aa3	A+	AA+
Detroit	B1	BB	BB
Philadelphia	A2	BBB	A-

Data as of 1/25/11 Source: Rating Agency Desk

Table CA-11 shows the historical bond ratings for the District. As the table indicates, the District has moved from "junk bond" (below "investment-grade") general obligation bond ratings in the mid-to-late 1990s to the AA category by two of the rating agencies and A category by the third rating agency.

Beginning in FY 2009, the District has issued Income Tax Secured Revenue Bonds ("IT bonds"). IT bonds are bonds payable solely from and secured solely by District income tax revenues; the District does not pledge its full faith and credit to repay the bonds (as it does with GO bonds). The District issues IT bonds to fund its capital improvement projects, replacing GO bonds as the primary financing mechanism. Based on the strength of the financing structure, legal structure and mechanics, the District's IT bonds are rated higher than its GO bonds, as shown in Table CA-12.

As the table shows, the District has a favorable bond rating from all of the agencies.

Table CA-11 <b>G.O. Bond Rating</b>			
<b>Date Range</b>	<b>Moody's Investors Service</b>	<b>Standard and Poor's</b>	<b>Fitch Ratings</b>
April 2010 – Present*	Aa2	A+	AA-
May 2007 – April 2010*	A1	A+	A+
November 2005 - May 2007	A2 (Positive Outlook)	A+	A (Positive Outlook)
June 2005 - November 2005	A2	A	A (Positive Outlook)
November 2004 - June 2005	A2	A	A- (Positive Outlook)
April 2004 - November 2004	A2	A-	A-
June 2003 - April 2004	Baa1	A-	A-
March 2001 - June 2003	Baa1	BBB+	BBB+

March 2009 – March 2010	Aa2	AAA	AA

## **Policy on Terms for Long-Term Borrowing**

To mitigate the interest costs associated with borrowing, the District seeks to identify sources other than bond proceeds to fund its CIP, such as grants, Highway Trust Fund money, and Paygo capital. Furthermore, the District generally issues its bonds annually based on anticipated spending for the fiscal year, not on a project-by-project basis. The District has issued G.O. , I.T. and GARVEE bonds to finance its CIP. The District will continue to analyze the benefits associated with issuing revenue bonds such as I.T. and GARVEE bonds for general capital purposes in the future. The pledge of a specific revenue source for the issuance of revenue bonds must not have a negative impact on the District's general fund or GO bond ratings and must provide favorable interest rates. The I.T. and GARVEE bonds meet these conditions. GARVEE bonds have the additional advantage of being debt that is excluded from the debt cap calculations.

To match the debt obligations with the useful life of the projects being financed, the District issues short- to intermediate-term financing for those projects that may not fit the criteria for long-term financing. The District amortizes long-term bonds over a 25- to 30-year period for those projects with an average 30-year useful life. Bonds may be issued by independent agencies or instrumentalities of the District as authorized by law. Payment of the debt service on these bonds is solely from the revenue of the independent entity or the project being financed.

## **Policy on Terms for Short-Term (Cashflow) Borrowings**

The District may issue short-term debt as appropriate and authorized by law, including Tax Revenue Anticipation Notes (TRANs) and bond anticipation notes (BANs). The District has issued TRANs in most fiscal years to provide sufficient operating cash throughout the year, given the timing differences between the disbursement of budgeted expenditures and the taxes and other revenues. The use of BANs provides a means of interim financing for capital projects in anticipation of a future bond offering or other revenue takeout, which may be used if the long-term bond market is unfavorable at a given time or if it is deemed desirable to issue BANs for some other reason.

## **Policy on the use of the Master Equipment Lease/Purchase Program**

The purpose of the Master Equipment Lease/Purchase Program is to provide District agencies with access to competitively priced tax-exempt financing for equipment purchases as an alternative to a) outright purchases, which would have a higher cost in the current year's budget, or b) other more expensive leasing or financing arrangements. Moreover, the program assists the District in its asset/liability management by matching the useful life of the asset being financed with the amortization of the liability.

The program terms and conditions are established under an umbrella contract. Since the terms and conditions are established upfront, there is no need to negotiate a new lease contract each time equipment is to be financed as long as the master lease agreement is in effect.

For a piece of equipment to be eligible it must have a unit value of at least \$5,000 and a total project value of at least \$25,000. In addition, it must have a useful life of at least five years. The repayment (amortization) must not exceed the useful life of the equipment being financed. The maximum financing term that may be requested is 10 years. Rolling stock such as automobiles, trucks, and public safety vehicles are eligible, as are some computer systems hardware and software, with certain limitations.

## **Policy on the Use of Paygo Financing**

"Pay-as-you-go" (Paygo) capital financing is obtained from current revenues authorized by the annual operating budget and approved by the Council and the Congress in a public law to pay for certain projects. No debt is incurred with this financing mechanism. Operating funds are transferred to the capital fund and allocated to the appropriate project. The District has the following policies on the use of Paygo financing:

- Paygo should be used for any CIP project not eligible for debt financing by virtue of its limited useful life.
- Paygo should be used for CIP projects consisting of short-lived equipment replacement (not eligible for the Master Equipment Lease/Purchase Program), and for limited renovations of facilities.
- Paygo may be used when the requirements or demands for capital expenditures press the limits of prudent bonding capacity.

## **Congressional Appropriations**

Notwithstanding any other provisions in the law, the Mayor of the District of Columbia is bound by the following sections of the 2000 D.C. Appropriations Act, included in P.L. 105-277 of the Omnibus Consolidated and Emergency Supplemental Appropriations for FY 2000. These sections were mandated by the 105th Congress and enacted for the fiscal year beginning October 1, 2000.

- §113 - At the start of the fiscal year, the Mayor shall develop an annual plan, by quarter and by project, for capital outlay borrowings: Provided, that within a reasonable time after the close of each quarter, the Mayor shall report to the Council of the District of Columbia and to the Congress the actual borrowings and spending progress compared with projections.
- §114 - The Mayor shall not borrow any funds for capital projects unless the Mayor has obtained prior approval from the Council of the District of Columbia, by act and/or resolution, identifying the projects and amounts to be financed with such borrowings.
- The Mayor shall not expend any monies borrowed for capital projects for the operating expenses of the District of Columbia government.

## **Trends Affecting Fiscal Planning**

Several different kinds of trends and economic indicators are reviewed, projected, and analyzed each year for their impact on the operating budget and fiscal policy as applied to the CIP. These trends and indicators include:

- INFLATION: Important as an indicator of future project costs or the costs of delaying capital expenditures.
- POPULATION GROWTH/DECLINE: Provides the main indicator of the size or scale of required future facilities and services, as well as the timing of population-driven project requirements.
- DEMOGRAPHIC CHANGES: Changes in the number and/or locations within the District of specific age groups or other special groups, which provides an indication of requirements and costs of specific public facilities (e.g., senior wellness and recreation centers and pre-K classrooms etc).
- PERSONAL INCOME: The principal basis for projecting income tax revenues as one of the District's major revenue sources.
- IMPLEMENTATION RATES: Measured through the actual expenditures within programmed and authorized levels. Implementation rates are important in establishing actual annual cash requirements to fund projects in the CIP. As a result, implementation rates are a primary determinant of required annual bond issuance.

## **Spending Affordability**

One of the most important factors in the CIP development process is determining spending affordability. Spending affordability is determined by the amount of debt service and Paygo capital funds that can be reasonably afforded by the operating budget given the District's revenue levels, operating/service needs, and capital/infrastructure needs. The size and financial health of the capital program is therefore somewhat constrained by the ability of the operating budget to absorb increased debt service amounts and/or operating requirements for Paygo capital expenditures. Realizing that maintenance and improvement in the infrastructure is important to the overall health and revitalization of the District, policymakers have worked diligently over the past several years to increase the levels of capital funding and expenditures. There is the ongoing need, however, to balance infrastructure needs with affordability constraints.

## **Master Facilities and Program Coordination Plan**

The fiscal realities that continue to face the District of Columbia require a new level of scrutiny of all government costs. The capital budget, a critical area of the annual budget, is now in need of intensive review and further rationalization. Prompting this deeper analysis and decision-making is the reality that the borrowing capacity for capital projects has become severely constrained. To ensure continued good standing on Wall Street, the District limits its annual capital borrowing. The District must not only cover its baseline capital costs (maintenance of existing facilities), it must provide funding for whatever new construction of schools, libraries, wellness centers, transportation systems, and other facilities.

Making tough decisions on what facilities to fund also requires a deeper understanding of opportunities to coordinate and possibly merge community services. Strategically planning for programmatic ventures will be a critical factor in driving which facilities are truly needed and where.

For these reasons the District is developing master facility plans and agency plans, including an updated facility inventory and conditions assessments, and detailed analysis on community and program needs. With this information, future capital fund allocations will be more effectively targeted to meet community and governmental priorities with the most efficient use of resources. This planning effort requires intensive data collection, analysis and strategic planning on both public facility and programmatic components.

### **Financial Management Targets**

The District has established certain financial management targets that are consistent with maintaining a healthy debt management program to finance its capital needs. Key targets include the following:

- 1) Containing debt levels and maintaining prudent debt ratios relative to industry standards;
- 2) Maintaining or improving favorable bond ratings.

#### **Financial Management Target: Containing Debt Levels and Maintaining Prudent Debt Ratios**

As it emerged from its financial crisis of the mid-1990s and moved into the 2000s, the District had a backlog of infrastructure needs to address. These infrastructure needs were critical to providing for the District's economic revitalization and long-term health. Among other things, many of its schools and recreation centers were in need of rebuilding or renovation, and numerous economic development initiatives required District capital investment in order to be viable. In order to fulfill these important infrastructure needs and invest in the long-term economic health and quality of life of the city, the District has committed substantial funding to its CIP over the past several years. Naturally, this has increased the District's debt levels and debt ratios, which are relatively high according to the rating agencies and industry standards. In order to ensure that the District's funding of its infrastructure needs are balanced with the need for prudent and responsible debt management, in 2009 the District instituted a new statutory debt cap. This debt cap, which is more restrictive than the prior statutory debt cap, requires that annual debt service on all tax-supported debt cannot exceed 12% of total general fund expenditures in any year during the 6-year CIP period. As such, the District is now required by law to maintain this key debt ratio at a prudent level, which will help to ensure that its other debt ratios (such as debt to full property value, debt to personal income, and debt per capita) are constrained, and that its total outstanding tax-supported debt level is constrained.

#### **Financial Management Target: Maintaining or Improving Favorable Bond Ratings**

Credit ratings evaluate the credit worthiness of a jurisdiction and the credit quality of the notes and bonds that the jurisdiction issues. Specifically, credit ratings are intended to assess and measure the probability of the timely payment of principal and interest to bondholders on notes and bonds issued. Potential investors utilize credit ratings to assess their repayment risk when loaning the District funds for capital and short-term operating needs. There are three major agencies that rate the District's debt: Fitch Ratings, Moody's Investors Service, and Standard & Poor's Ratings Services. A summary of agency credit ratings categories for long-term debt is provided in the preceding table CA-9.

The rating agencies rate the District's GO bonds, and other major cities' bonds (see Table CA-10), by criteria in the following categories:

- Economic base
- Financial performance
- Management structure and performance
- Demographics
- Debt burden

During FY 1995, the District's general obligation debt was downgraded by all three rating agencies to below-investment-grade or "junk bond" levels. Beginning in 1998, each rating agency issued a series of upgrades to the District's general obligation bond rating over the course of the subsequent decade. The upgrades that occurred in 1999 raised the District's ratings back to investment-grade levels. The numerous upgrades since then have raised the District's GO bond ratings to their current levels of Aa2, AA- and A+ by Moody's, Standard & Poor's, and Fitch Ratings respectively, represent the highest GO bond ratings the District has ever had. These upgrades represent a remarkable financial recovery by the District. The bond rating upgrades have made the District's bonds more marketable and attractive to investors, resulting in more favorable interest rates and a lower cost of capital to the District.

Moreover, in recent years the District created a new debt financing structure and issued income tax secured revenue bonds, which have ratings even higher than the District's GO bonds, at rating levels of AAA, Aa1 and AA+ by Standard & Poor's, Moody's and Fitch, respectively. As such, these bonds allow the District to borrow capital funds at even lower interest rates than the District's GO bonds, producing additional debt service savings.

The District's target is to maintain or further improve its bond ratings. Many jurisdictions have seen the bond ratings downgraded during the recent economic recession and its aftermath, as municipal governments have been severely challenged by declining revenues that have produced acute budget challenges. The District has also experienced some of these challenges, but has managed to maintain its bond ratings. The District's elected leadership and financial management team intend to continue to take the prudent management actions necessary to avoid bond rating downgrades, and to obtain further bond rating upgrades as the economy improves and the District demonstrates a solid track record of managing through the current fiscally challenging environment.

Credit ratings are very important to the Capital Program. They affect the District's cost of capital as well as represent an assessment of the District's financial condition. The cost of capital also plays a role in determining spending affordability. Higher costs for capital financing diminish the ability of the Capital Program to proceed with programmatic objectives. In short, higher capital costs result in fewer bridges being rehabilitated, roofs repaired and facilities renovated. On the other hand, lower costs of capital increase the affordability of such projects.

### **FY 2013 Capital Budget Planning Major Assumptions**

A number of assumptions must be established to develop a comprehensive Capital Improvement Plan budget. Because of the unique and changing nature of the District's organizational structure and financial position, it is difficult to forecast revenues, expenditure patterns, costs, and other key financial indicators in a precise manner. Nonetheless, the following primary assumptions were used to develop this CIP:

- The capital expenditure target for the FY 2013 to FY 2018 CIP is based on the assumption that the District can meet its current and future FY 2013 expenditure targets as established by the CIP.
- The FY 2013 operating budget will be sufficient to provide for:
  - Lease payments for the District's Master Lease Program used to finance certain equipment projects; and
  - Debt service on long-term bond financings.

### **Capital Improvements Plan Development Process**

The Capital Improvements Program, as mandated by Public Law 93-198 - the Home Rule Act, has the annual responsibility of formulating the District's Six-Year Capital Improvements Plan. Each District agency is responsible for the initial preparation and presentation of an agency specific plan. Under the program, projects should complement the planning of other District agencies and must constitute a coordinated, long-term program to improve and effectively use the capital facilities and agency infrastructure. Specifically, the CIP should substantially conform to the Office of Planning's Comprehensive Plan, the District of Columbia Municipal Regulations Title 10 Planning and Development (Chapters 1 to 11).

### **Program Participants**

The development and implementation of the CIP is a coordinated effort among the District's programmatic, executive, and legislative/oversight bodies.

## **Implementing Agencies (Programmatic)**

For purposes of project management, each capital project in the CIP is owned and/or implemented by a specific District agency. In many cases, the project's owner agency manages and implements all of the project's phases to completion. To allow the District to leverage internal capabilities, in certain circumstances the owner agency is a different entity than the implementing agency. Implementing agencies manage actual construction and installation of a capital facility or supporting infrastructure. The implementing agencies are responsible for the execution of projects. This task includes the appointment of a Capital Financial Officer, who monitors the progress of the projects, and ensures that:

- The original intent of the project is fulfilled as Congressionally approved;
- The highest priority projects established by the user agency are implemented first;
- Financing is scheduled for required expenditures; and,
- While many District agencies implement their own capital projects, several central agencies, such as the Department of General Services and the Office of the Chief Technology Officer, implement projects on behalf of many other agencies.

## **Office of Budget and Planning (Executive)**

The Office of Budget and Planning (OBP) is responsible for issuing budget call instructions to District agencies. OBP provides technical direction to agencies for preparing expenditures plans, project/subproject justifications, priority ranking factors, operating budget impacts, cost estimates, milestone data, and performance measures. The budget call allows for updates to ongoing projects and requests for additional financing and appropriated budget authority for ongoing and new projects. OBP coordinates project evaluations to determine agency needs through careful analysis of budget request data, review of current available and future financing requirements, and comparison of project financial needs with the current bond sales and general fund subsidies anticipated to be available for CIP purposes.

## **Capital Budget Team (Executive)**

The Mayor's Office of Budget and Finance leads the Capital Budget Team (CBT) along with representatives from the Office of the City Administrator, Chief Financial Officer, Deputy CFO for Budget and Planning, the Department of General Services, the Office of Planning and the Office of the Chief Technology Officer. OBP provides analysis for and staff support to the CBT. The CBT evaluates agency requests using criteria developed jointly by the Mayor's Office of Budget and Finance and the OCFO's Office of Budget and Planning.

## **Mayor (Executive)**

The CBT's recommendation is then submitted to the Mayor for review, approval, and finally transmittal to the Council. There are two levels of legislative/oversight review. They are as follows:

- The Council of the District of Columbia
- The U.S. Congress

Each body reviews and approves the capital budget and the six-year plan.

## **Authorizing Projects in the CIP**

OBP and the CBT review and analyze the CIP. The CIP is developed in the four-step process described below:

### **Step 1: Budget Call**

In the fall of the current fiscal year, District agencies are requested to provide OBP with updated information regarding ongoing projects (e.g. increases or decreases in funding or planned expenditures), as well as requests for new projects. The instructions call for agencies to provide detailed information on a project's expenditure requirements, physical attributes, implementation timeframe, feasibility, and community impact. In addition, agencies provide project milestones, estimated costs, FTE details, expenditure plans, operating budget impacts, and a prioritized list of potential capital projects. The agency requests are disseminated to all members of the CBT for review.

## Step 2: Budget Analysis

Project requests submitted in Step 1 undergo a thorough analysis to determine if an agency's request merits inclusion in the CIP. This analysis is divided into the following three primary functions:

**Function 1 - Project Justification:** Each project request is evaluated by the CBT to determine its relationship with the agency's overall mission, whether the project is duplicative of efforts of another agency's ongoing project, whether the project is in concurrence with the District's Comprehensive Plan, and whether the planned expenditure is an operating rather than capital expense. In addition, project requests are reviewed based on priority criteria and must meet one or more of the factors below:

- Health/Safety
- Legal Compliance
- Efficiency Improvement
- Facility Improvement
- Revenue Initiative
- Economic Development
- Project Close-out

**Function 2 - Cost Analysis:** An important factor in the evaluation of a project request is the overall cost. Facility cost estimates are developed in conjunction with the Department of General Services while technology projects are reviewed by the Office of the Chief Technology Officer to validate the project costs proposed in the agency submissions. Furthermore, future operating costs are estimated to provide supplementary information regarding out-year requirements once the project is implemented (Operating Budget Impacts).

**Function 3 - Financing Analysis:** Financing Analysis: The Office of the Chief Financial Officer is committed to finance capital projects in a manner in which:

- Funding is committed for the entire CIP;
- The District receives the lowest cost of funding available; and
- The useful life of capital projects matches and does not exceed the average maturity of the liability used to finance the assets. As such, OBP reviews the useful life of each project and presents this information to the Office of Finance and Treasury (OFT). OFT develops a strategy to match the underlying assets with an appropriate means of financing.

## Step 3: CBT Recommendations

After reviewing all capital project requests with regard to scope of work, projected cost, and financing alternatives, the CBT evaluates the projects based on their physical attributes, implementing feasibility, and physical/economic impact on the community. The CBT uses a scoring model with a defined set of criteria for all projects agencies propose for additions (enhancements) to the budget. The CBT then formulates a recommendation in the form of a CIP.

## Step 4: Approval

The proposed CIP is then submitted to the Mayor for approval and inclusion in the proposed budget, with subsequent submission to the Council. The Council may make changes, and after Council approval and the Mayor's signature, the CIP is transmitted to Congress for final approval.

## Phases of a Capital Project

Capital projects are actually the sum of a series of phases, each of which groups the types of tasks necessary to accomplish the project's goal. Other than Information Technology (IT) projects, each project in the CIP is approved and budgeted in five phases. However, in some instances, projects need funding for planned expenditures only in one particular phase, such as major equipment acquisition. The phases (tasks) are:

- Feasibility Study (00)
- Design (01)

- Site Acquisition (02)
  - Project Management (03)
  - Construction (04)
  - Equipment (05)
  - IT Requirement Development (06)
  - IT Development and Testing (07)
  - IT Development and Turnout (08)
  - Design and Construction (under \$1 million) (09)
- Phase 0 -The feasibility phase includes all work required to perform an assessment to determine the overall feasibility of a project being considered for construction.
- Phase 1 - Design includes all work completed to define the scope and content of the project. Architects and engineers that agencies employ to analyze the planning for a project would be funded from the design phase. Costs associated with solicitations and proposals also fall within this phase. This phase also would be used to fund any processes necessary for selection of contracts.
- Phase 2 - Site Acquisition covers costs for site preparation expenses, legal work or probable demolition and hauling expenses. Site appraisal and survey also would be funded through this phase.
- Phase 3 - Project Management pays all internal agency management and support costs from design to construction. Activities within this phase include any work of the project manager and other staff.
- Phase 4 - Construction includes any construction contract work done by other District agencies. This phase funds work on a particular construction contract.
- Phase 5 - Equipment funds disbursements for specialized equipment. Equipment funded through capital has to be permanently connected to the physical plant designed as an integral part of the facility. Equipment defined for funding by this phase includes such items as the purchase and installation of elevators, boilers, generators, and HVAC systems. The Capital Program will not fund office equipment or personal computers. These are funded by the operating budget.
- Phase 6 - IT Requirements Development phase encompasses both the definition of requirements and design of the system to be implemented. This phase defines requirements and design elements to a level of detail that allows technicians to decide upon development and configuration choices.
- Phase 7 - IT Development and Testing is the phase in which project requirements and systems design are translated into a working version of the system. This phase also includes all testing stages from unit/component testing to complete systems testing to user acceptance testing.
- Phase 8 - IT Development and Turnout includes all activities to make the system available to all users. During this stage, all functions necessary to make the system part of normal user activities are done. For technology systems, turnover means documenting processes and activities necessary to put the system into production.
- Phase 9 - Design and Construction is for use in a 'design build' type of facility construction contract, where the provisions of the contract require both activities but, for which there is no easily identifiable cost estimates for either specific phase. The use is limited to contracts that are under \$1 million, since anything above that level requires Council approval and thus greater cost breakdowns and tracking.

## **Project Milestones**

Each phase of a project is monitored and tracked using milestone data. This lets the Capital Program determine if projects are being completed on time and within budget. Milestone data is provided by agencies in the annual budget submissions as justification for additional funding. Milestone data includes such items as project authorization dates, original project cost estimates, contract award dates, revised completion dates, construction start dates, and others. In an attempt to summarize the various elements of milestone data, the Capital Program includes status codes in the project description forms.

# **Project Description Forms**

---

# (AM0) DEPARTMENT OF REAL ESTATE SERVICES

## **MISSION**

Support the District Government and residents through strategic real estate management, construction, and facilities management.

## **SCOPE**

The Department of General Services (DGS) is a new agency for FY 2012 and has primary responsibility for facility management services and capital improvements within the District government. DGS performs acquisition, demolition, construction, leasing, facility management, repair and alteration, facility modernization, and security services for tenant agencies and occupants of its facilities. There are 77 agencies or independent operating units occupying space in approximately 238 facilities under DGS's management. The Construction Division implements and oversees the public building needs in the Capital Improvements Plan (CIP) for most District government agencies. The CIP outlines the capital needs of agencies, including the rehabilitation of existing properties and construction of new facilities. The Construction Division ensures the timely and cost-effective delivery of superior quality engineering and design, construction, as well as a variety of other technical services on all relevant capital development projects in the CIP.

## **CAPITAL PROGRAM OBJECTIVES**

Support the efficient provision of government services through high quality and efficient stewardship of constructed assets.

## **RECENT ACCOMPLISHMENTS**

- All major construction projects have exceeded the District mandate to attain LEED Silver.
- Department of Employment Services Headquarters (Minnesota-Benning Government Center) LEED Gold construction completed Fall 2010.
- Evidence Warehouse construction completed Winter 2011. LEED Gold.
- New facility, Ward 1 Senior Wellness Center construction completed February 2011. Tracking LEED Gold.
- Ward 6 Senior Wellness Center is scheduled to be completed in Spring 2011.
- Consolidate Forensic Laboratory (CFL) construction is on-schedule/on-budget completion Summer 2012. Tracking LEED Gold.
- DC General Construction projects include: elevator replacements, roof replacement, fire alarm system (which allows for removal of fire alarm watch) and completion of 15 ADA compliant family units. Completion Spring 2011.
- Shelter and Transitional Housing construction projects underway including the following:
  - Girard Street – Community of Hope Family Transitional Housing
  - Madison Shelter – (House of Ruth Madison) – ADA, mechanical and code upgrades
  - Blair and Emery Shelters – Energy reinvestment and code upgrades
  - Wayne Place – 12 low barrier large family units
  - Construction to begin Spring 2011 for 611 N. Street NW Women's Transitional and Permanent Supportive Housing which is tracking LEED Gold and has won an American Institute of Architects (AIA) Award for design
  - Federal City construction to begin Spring 2011 for HVAC, bathroom, code and energy upgrades
- Waterfront construction completed Fall 2010; tenant agencies include DCRA and OCFO into the East & West towers. LEED Gold.
- OJS Energy Retrofit project funded by American Recovery and Reinvestment Act (ARRA) was awarded in Summer 2010. Completion Fall 2011.
- Major Security enhancements at Oak Hill (New Beginnings) completed Spring 2010. LEED Gold.
- 2010 National Preservation Award – Restoration of Eastern Market.
- 2010 American Institute of Architects – Excellence Award for Historic Resources – Eastern Market.
- Launched Prolog as web-based project management software integrated with Document Locator with automated work flow and document management capabilities.
- All DRES Construction Division staff completed 10 hours of OSHA safety training.
- 100% of Construction Division staff completed 8 hrs Microsoft Project training.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# AM0-HQ102-DPR AND DYRS HDQS

**Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** HQ102  
**Ward:** 1  
**Location:** 500 19TH STREET NE  
**Facility Name or Identifier:** GIBBS ELEMENTARY SCHOOL  
**Status:** New

**Useful Life of the Project:**

**Estimated Full Funding Cost:**\$16,000,000

**Description:**

This project will fund the renovatation of surplus property for use as office space to house local government employees. The acquisition and renovation of property is justified by the cost of savings generated by owning versus renting quality office space. The scope will include, but will not be limited to the following: Design and manage construction of office space; and acquire, construct or renovate buildings that meet space use specifications established by the District government.

**Justification:**

TBD

**Progress Assessment:**

TBD

# AM0-PL103-HAZARDOUS MATERIAL ABATEMENT POOL

**Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** PL103  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$9,504,000

## Description:

This pool addresses the identification and removal of asbestos, lead, and underground fuel storage tanks from District-owned properties. The project allows the District to comply with U.S. environmental laws and regulations by assessing the extent of a potential abatement and the remedial action itself. Multiple subprojects are in various stages of completion, and additional subprojects are introduced on an as-needed basis.

## Justification:

This project is necessary to ensure that there is sufficient capital funding to address hazardous material abatement as they are uncovered in facility assessments. The project protects the health of people using District facilities by allowing for the removing dangerous materials from District properties.

## Progress Assessment:

Hazardous material abatement addresses the health and safety of occupants of our facilities. Projects include removal of asbestos, lead, and underground fuel storage tanks from various District-owned properties and must be done.

## Related Projects:

## AM0-PL104-ADA COMPLIANCE POOL

**Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** PL104  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$13,119,000

### Description:

This project makes capital improvements to District-owned buildings in order to bring the facilities into compliance with the Americans with Disabilities Act (ADA).

### Justification:

This project helps ensure proper access by disabled visitors to our facilities under the guidelines of the Americans with Disabilities Act (ADA). In addition, the District's exposure to potential lawsuits and regulatory penalties is reduced by addressing ADA issues in a timely manner.

### Progress Assessment:

ADA Compliance work underway and scheduled for completion in Spring 2011 at New York Avenue Shelter and DC General Buildings 1, 2 & 29.

### Related Projects:

DPR HA0 QE511C, ADA Compliance.

# AM0-PL901-ENERGY RETROFITTING OF DISTRICT BUILDINGS

**Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** PL901  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$23,040,000

## Description:

The purpose of this project is to reduce environmental impact and energy costs in buildings operated by the District by modifying building systems and incorporating green technology. Facility condition assessments are being conducted to identify specific facility improvements with the potential to reduce consumption in District facilities, and achieve maximum savings.

## Justification:

This project directly supports the comprehensive plan goal to provide adequate public facilities in good condition, and to support cost-effective and environmentally conscious delivery of municipal programs and services. With energy costs continuing to increase, the District can realize savings – or offset increases – with appropriate retrofitting of our facilities to help reduce consumption.

## Progress Assessment:

The project is progressing as planned.

## Related Projects:

BC101C / PL902C- Condition assessment activity. After conducting facility assessments, this pool can provide budget to proactively enhance all energy systems in a facility.

# AM0-PL902-CRITICAL SYSTEM REPLACEMENT

**Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** PL902  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$39,024,000

## Description:

The purpose of this project is to perform capital improvements and facility condition assessments in buildings operated by the District to ensure public facilities remain in good condition, to support the cost-effective delivery of municipal programs and services, and to maintain the long term capital value of DC's owned facilities. Specifically, this project makes the essential upgrades to maintain adequate public facilities. Among the capital improvements required in District-owned facilities are roof replacements, window replacements, and HVAC (heating and air-conditioning systems) replacements. In addition, this project can be used for priority building improvement projects that arise that may have not been planned for as part of the facilities condition assessment. Even with excellent planning, there is often a need to address critical infrastructure needs in District buildings.

## Justification:

This project will allow for maximum use of capital improvement pool funding by allowing proactive planning, maximizing the efficiency of upgrades, and permitting flexibility in delivering facility improvements. It is essential to ensure that proper capital investments are being made in District-owned facilities to maintain their proper function and avoid disruption to needed public services.

## Progress Assessment:

This is an on-going project.

## Related Projects:

None.

# (AT0) OFFICE OF CHIEF FINANCIAL OFFICER

## **MISSION**

The Office of the Chief Financial Officer (OCFO) provides financial management services to the government and the people of the District of Columbia to sustain long-term fiscal and economic viability.

## **BACKGROUND**

In accordance with the independent status of the District's Chief Financial Officer, the OCFO exercises independent control and management oversight over the District's financial systems, including SOAR, ITS, CFOSolve, and all other related and subsidiary systems. The OCFO is charged with the responsibility for maintaining and operating the District's independent financial systems to support the Mayor, the Council, and Congress. In recognition of the need to limit capital borrowing and curtail the increase in the overall level of Debt Service, the OCFO has made the commitment to maintain the current approved funding level.

## **CAPITAL PROGRAM OBJECTIVES**

The OCFO maintains the integrity and reliability of the District's financial systems by maintaining independence in its relationships with program staff and assuring that systems modifications are transparent and auditable. This is accomplished by ensuring the financial systems can be maintained and supported by the OCFO workforce. This is a core function and cannot be outsourced to outside vendors or other parts of the government.

## **RECENT ACCOMPLISHMENTS**

Highlights of our achievements include the District receiving and maintaining the first AAA rating the major rating agencies, the unprecedented 11th year budget surplus, and the Comprehensive Annual Financial Report (CAFR) submitted with an unqualified opinion and no material weaknesses.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# AT0-BF301- SOAR MODERNIZATION

**Agency:** OFFICE OF CHIEF FINANCIAL OFFICER (AT0)  
**Implementing Agency:** OFFICE OF CHIEF FINANCIAL OFFICER (AT0)  
**Project No:** BF301  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Under construction  
**Useful Life of the Project:** 10+  
**Estimated Full Funding Cost:**\$25,056,000

**Description:**

This project will implement major enhancements and improvements to the District’s General Ledger System by replacing and modernizing key components of the current R-STARS system with a modern web-based system utilizing industry best practices.

**Justification:**

The project will achieve a full system upgrade of all major components of the District’s General Ledger system. The current District General Ledger system is based on 20 year old technology. Supporting this technology is becoming ever more complicated since the resources and skill-sets needed to support a mainframe based system are not easily available. Moreover, the current General Ledger system lacks functionality found in modern systems necessary to support real-time financial management and allow the OCFO to provide greater integration with other key District systems such as the cash management system, budgeting systems, Human Resources and Payroll systems, and the tax systems.

**Progress Assessment:**

The project budget was first allotted in FY 2007, and all requirements assessment activities have been completed. The project development has occurred, and testing is well underway. The project is currently scheduled to be implemented beginning FY 2013.

**Related Projects:**

All core financial systems in the District are tightly integrated and interrelated. The OCFO is in the process of modernizing and implementing all core financial systems to bring these systems in line with current industry trends and District stakeholder needs

# AT0-CSP08-INTEGRATED TAX SYSTEM MODERNIZATION

**Agency:** OFFICE OF CHIEF FINANCIAL OFFICER (AT0)  
**Implementing Agency:** OFFICE OF CHIEF FINANCIAL OFFICER (AT0)  
**Project No:** CSP08  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Developing scope of work  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$34,920,000

## Description:

This project will completely modernize and refine the District's tax systems to bring them in line with industry best practices and add new functionality in the areas of compliance, collections, case management and individual, business and property tax collection, processing and accounting. The tax system modernization will be achieved in stages to replace individual components starting with the case management module, real property system, and eventually the core tax management system.

This project represents a modernization of the Integrated Tax System (ITS). The current system will require a technology refresh, particularly on the reporting and middle-ware tools, to take advantage of web-based technologies that were not available when the system was installed. This will require replacement of the SAND and the Crystal server-based systems currently in use for report and query building , as well as supporting platform software and related applications. This investment will allow the core underlying system to remain in place, while simplifying maintenance requirements and allowing for further consolidation of servers and reduced bandwidth requirements.

## Justification:

The first phase is to replace the real property tax module, to address and reduce the risk of fraud and mismanagement by leveraging superior internal controls and industry best practices implemented in the replacement system. In addition, the new case management system will provide intelligent case analytics, review, and analysis abilities that will result in increased tax compliance and collections, resulting in increased revenues. The implementation of the Phase 1 will result in the capture of new tax revenue that will be recognized as Paygo transfers from the general fund to the capital fund in the amount of \$11.5 million in FY2014 - FY2016. This capital budget will help to offset the project costs.

## Progress Assessment:

The project is currently in the planning phase and high-level designs of all the different projects within the modernization initiative are being developed. The District's project manager for this effort has been hired. Currently, requirements are being collected for the case management and real property tax system modules.

# ELC-EQ940-MAJOR EQUIPMENT ACQUISITION

**Agency:** OFFICE OF CHIEF FINANCIAL OFFICER (AT0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** EQ940  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:** \$8,900,000

## Description:

This project is for the master lease of major information technology equipment as a part of a normal technology refresh program. OCFO is replacing larger capital-intensive equipment such as high-speed printers and redundant servers on an ongoing basis. The procurement includes purchasing high-performance servers to accommodate next-generation financial systems, leveraging new technologies, and adding massive storage systems to accommodate high volumes of data and reporting. Tasks include replacing outdated equipment past its useful life, adding new servers to accommodate new systems, implementing SAN technology to provide flexible storage capacity, implementing best practices in managing infrastructure, implementing a web-based ticket tracking system, and implementing security hardware and software to ensure security of the District's financial information.

## Justification:

OCFO is replacing larger capital-intensive equipment such as high-speed printers and redundant servers on an ongoing basis. The procurement includes purchasing high-performance servers to accommodate next-generation financial systems, leveraging new technologies, and adding massive storage systems to accommodate high volumes of data and reporting.

## Progress Assessment:

This is an ongoing project and major equipment is being procured and deployed on an ongoing basis.

## Related Projects:

None.

# (BA0) OFFICE OF THE SECRETARY

## MISSION AND GOALS

The Office of the Secretary provides protocol, authentication and public records management services to the Mayor and District government agencies. In addition to managing the District of Columbia's Archives, commissioning all District of Columbia Notaries Public, and publishing the District of Columbia Register and the District of Columbia Municipal Regulations, the Office of the Secretary is responsible for maintaining official records of mayoral actions and preparing executive orders, proclamations, directives and administrative issuances.

## CAPITAL PROGRAM OBJECTIVES

1. Currently requesting planning and design funds for the Archives project.

**Elements on this page of the Agency Summary include:**

n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

# AM0-AB102-ARCHIVES PLANNING

**Agency:** OFFICE OF THE SECRETARY (BA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** AB102  
**Ward:** 1  
**Location:** TBD  
**Facility Name or Identifier:** ARCHIVES BUILDING  
**Status:** New

**Useful Life of the Project:**

**Estimated Full Funding Cost:**\$150,000,000

**Description:**

This is a planning project to determine the best course of action in developing a state of the art Archives Building to hold more historical records. This project will include storage for additional historical records that will be transferred to the Archives for the next 30 years. This project will provide the District with an Archives Building comparable to state archives in managing their historical records. The records stored in the new Archives Building will include those of such notables as President George Washington, Robert Brent, the First Mayor of the City of Washington, Frederick Douglass, Woodard Wilson and others. Also, the records holdings of the District of Columbia Records Center include marriage and probate records from 1801; birth and death records beginning with the Territorial Government; Engineering Development records from the Board of Commission created under the Organic Act of 1878; and other records.

# (BD0) OFFICE OF MUNICIPAL PLANNING

## **MISSION**

The Office of Planning (OP) guides development of the District of Columbia, including the preservation and revitalization of our distinctive neighborhoods, by informing decisions, advancing strategic goals, encouraging the highest quality development outcomes, and engaging all communities.

## **BACKGROUND**

The scope of responsibility for OP is the District of Columbia – an area of almost 69 square miles with 601,723 residents and more than 760,000 jobs. There are 130 neighborhoods with 43 historic districts that include more than 26,000 contributing structures and 550 individually-designated historic landmarks within the District. Guiding OP's work is the Comprehensive Plan, the District's 20-year blueprint and policy document for growth and development. Based on guidance in the Comprehensive Plan, OP continues to focus its work program and priorities around three themes: 1) Creating Successful Neighborhoods, 2) Increasing Access to Education and Employment, and 3) Connecting the Whole City.

## **CAPITAL PROGRAM OBJECTIVES**

- 1) Ensure District agencies become better stewards of their capital assets and their utilization to bring about specific improvements in outcomes for citizens and neighborhoods. Various efforts for ensuring this include facility planning, asset management, Comprehensive Plan and small area plan implementation, shared performance measures, co-location, and public-private partnerships.
- 2) Ensure that major development and revitalization efforts support sustainable development and smart growth principles by focusing planning efforts on federal sites, area corridors, and urban mobility.

## **RECENT ACCOMPLISHMENTS**

- Completed and obtained Council approval for four Small Area Plans: 1) Florida Avenue Market Small Area Plan, 2) Chinatown Cultural Development Strategy, 3) Bellevue Small Area Plan, and 4) Mt. Pleasant Street Commercial Revitalization Strategy. These plans provide supplemental guidance to the Comprehensive Plan.
- Completed the District's Comprehensive Economic Development Strategy (CEDS) in partnership with DMPED and the Washington DC Economic Partnership. In September 2010, the Economic Development Administration (EDA) of the U.S. Department of Commerce approved the District's CEDS, which now makes the District eligible to receive EDA funding. Subsequently, OP and DMPED applied for and received a \$300,000 EDA grant to develop an innovation cluster strategy for the former Saint Elizabeths campus.
- Provided CIP and facilities planning services to DHCD, DMPED, DPR, DCPS, and DCPL. To assist DHCD, OP completed a land use and zoning analysis, and analyzed previous assessments of the Crummell School site. In May 2010, OP co-sponsored the Crummell School community charrette with DHCD, ANC 5B, and the Office of Councilmember Harry Thomas, Jr. OP also assisted DHCD in sponsoring the Ivy City Community Fair in June 2010. OP created a design for a new park and playground at the former Bruce Monroe School site; construction was completed in August 2010. OP coordinated with DPR and NCPC to complete the revised draft of the State Conservation and Resource Plan (SCRIP) for the District. In collaboration with DDOE, OP researched and wrote a new section on "wetlands protection and prioritization" for the document. By completing and submitting this document to the National Park Service, the District was able to save \$250,000 in federal funding from being returned to NPS and preserved eligibility for future funding. OP provided demographic reports to DCPS for Turner, Green, Malcolm X and Van Ness Elementary Schools. DCPS is using this information for enrollment and facilities planning purposes. OP provided a demographic analysis, including a series of maps to examine library branch locations with respect to transportation, school enrollment, and development activity. DCPL presented this information to its board in October and December 2010.
- Developed and published "Moving from Vision to Reality: A Comprehensive Plan Progress Report." The Report measures the District's progress on key elements of the 2006 Comprehensive Plan, and provides a status update on the implementation of the 626 actions included in Plan. While 30 percent of the action items were slated to begin before 2010, District agencies had actually begun 75 percent of those items.

**Elements on this page of the Agency Summary include:**

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
  - 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
  - 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017
  - 4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
  - 4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.
  - 4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018
  - 4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).
- n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact
- n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.
- n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# BD0-PLN37-DISTRICT PUBLIC PLANS & STUDIES

**Agency:** OFFICE OF MUNICIPAL PLANNING (BD0)  
**Implementing Agency:** OFFICE OF MUNICIPAL PLANNING (BD0)  
**Project No:** PLN37  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** PLANS & STUDIES  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$22,824,000

## Description:

This project funds planning, zoning, and historic preservation studies and projects, and facility plans linked to important city and other development projects that are to be implemented by the District and/or its partners. Analogous to a private developer's "pre-development" costs, these funds are used to undertake planning studies for large-scale capital and neighborhood-focused projects and serve as a small upfront investment that leverages substantial public and private resources. This project also helps ensure District agencies become better stewards of their capital assets and maximize utilization through plan implementation projects, co-location, public-private partnerships, and grants. District-owned property through FY 2018, including a small area plan for the Bates-Hannover neighborhood.

## Justification:

By carrying out planning, zoning, and historic preservation projects/plans, this line item supports the Mayor's policy priorities of education, jobs, and public safety. OP also helps agencies develop facilities plans, including updating demographic and economic trends analysis, identifying partnership/sponsorship opportunities, developing standards and benchmarks, identifying co-location opportunities with other agencies, and prioritizing future location of facilities.

## Progress Assessment:

OP uses funds from this line item to carry out an ambitious annual program of planning studies, zoning projects, and historic preservation projects.

## Related Projects:

**BD0-PLN38-SUSTAINABLE DC - AGENCY COMPETITION FUND**

**Agency:** OFFICE OF MUNICIPAL PLANNING (BD0)  
**Implementing Agency:** OFFICE OF MUNICIPAL PLANNING (BD0)  
**Project No:** PLN38  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$5,000,000

**Description:**

While implementation of the Sustainability Plan will largely result from deploying existing capital and operating dollars in different ways to achieve a broader range of objectives, initially agencies may need to conduct feasibility studies or run small demonstration projects to test the efficacy of some new approaches: e.g., studying the feasibility of using DC government buildings to host solar collectors or wind turbines, or grow food; or the scalability of neighborhood or Ward-level composting facilities as part of a Zero Waste strategy. This initiative will jump start the first Sustainability Plan projects and test their feasibility or demonstrate how they might work at a larger scale.

**Justification:**

# BD0-PLN39-WARD 8 CITIZENS' SUMMIT CHALLENGE

**Agency:** OFFICE OF MUNICIPAL PLANNING (BD0)  
**Implementing Agency:** OFFICE OF MUNICIPAL PLANNING (BD0)  
**Project No:** PLN39  
**Ward:** 8  
**Location:** WARD 8  
**Facility Name or Identifier:** VARIOUS  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$2,500,000

**Description:**

This initiative will challenge two or more agencies to form a partnership to develop and implement projects that support priorities from the Mayor's Ward 8 Citizen's Summit. Agency teams would compete against each other for the funds based on the results they can achieve and they would be encouraged to leverage formula funds (e.g., CDBG) and federal funding received, especially when the project would expand the impact of a project limited by the scope of those funding sources. Extra points would be given to agencies that propose community partnerships as part of the project implementation. Short and long term performance metrics would be required of applicants.

# (BX0) COMMISSION ON ARTS & HUMANITIES

## **MISSION**

DC Commission on the Arts and Humanities (DCCAH) provides grants, programs and educational activities to encourage diverse artistic expressions and learning opportunities, so that all residents and visitors can experience the rich culture of the District of Columbia.

## **BACKGROUND**

The DC Creates Public Art Program, through the Art Bank Collection, has acquired from local artists over 2,500 artworks that are placed inside approximately 145 District Government building offices and public corridors. Since 1986, DCCAH has commissioned nearly 150 works of public art. Twenty small scale and large scale works were installed in FY 2010.

## **CAPITAL PROGRAM OBJECTIVE**

Implement high quality public art projects that promote artistic excellence and enjoyment of the arts, while building the capacity of District artists through apprentice opportunities and mentorships.

## **RECENT ACCOMPLISHMENTS**

- Supported 27 small and mid-sized cultural organizations in neighborhoods throughout the District for building improvements through the Cultural Facilities Grant in FY 2010 and FY 2011.
- Funded 16 District based organizations and artists through the Public Art Building Communities Grant for small to mid-scale permanent public art in FY 2009, FY 2010 and FY 2011.
- Completed the "Bridge Tender's House: Kaleidoscope" in October 2010 by artist Mikyoung Kim. Housed inside the bridge's original watchtower, each of the six windows has a group of reflective, dichroic acrylic kaleidoscope cones that feature abstract reflective floating surfaces of color and light. The light beams out and welcome people into the District.
- Completed "Floating Baseballs" at the National Ballpark in December 2010 by artist Thomas Sayre. Inspired by the primary action of the game of baseball itself - the pitch followed by the hit. Eighteen stainless steel "baseballs" follow the theoretical model of the trajectory of a curving fast ball pitch.
- Acquired 53 additional works into the Art Bank Collection from local artists through an open call to artist in the Summer 2010.
- Completed two public art installations at the corners of 5th and K, NW as part of the Public Realm Plan for Mount Vernon Triangle. The works are entitled "Lift Off" by artist David Black and "Inspiration" by Ethan Kerber.
- Commissioned five District-based organizations and artists to create murals in collaboration with the Department of Public Works in various locations in the Fall 2010.
- In collaboration with the Washington E. Convention Center, produced the *Arts on N Festival* on N Street, NW between 7th and 9th Street in August 2010 as part of the *Windows into DC* project.
- Completed six public art works at the new Saint Elizabeths hospital in Ward 8. Two of the artists selected are from Ward 8 and one is a District resident.
- Completed "Cornerstones of History" by Steven Weitzman at the intersections of H Street NE and Maryland Avenue, Florida Avenue, Bladensburg Road, and Benning Road. The terrazzo mural depicts the vibrancy of the H Street commercial corridor.
- In August 2010 developed first apprentice program for the Deanwood Recreation Center project. District Artist Amber Robles Gordon was selected to work with a lead national artist on the fabrication and installation of the public artwork.
- In October 2010 completed an SYEP Mural Project in Ward 8 entitled "Gateway to a Great Community" by DC artist Billy Colbert.

**Elements on this page of the Agency Summary include:**

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). # BX0-AH7GP-ARTS & HUMANITIES GRANTS & PROJECTS

**Agency:** COMMISSION ON ARTS & HUMANITIES (BX0)  
**Implementing Agency:** COMMISSION ON ARTS & HUMANITIES (BX0)  
**Project No:** AH7GP  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** PUBLIC ART  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 50  
**Estimated Full Funding Cost:** \$23,435,000

## Description:

The Arts and Humanities Grants and Programs Project includes several grant programs:

The Neighborhood Projects Program supports major public art projects in the District initiated by District government agencies, private developers, or the Washington Metropolitan Area Transit Authority (WMATA).

The Community Initiative program supports major public art projects in the District initiated by community leaders.

The Public Art Building Communities Program provides for the creation and installation of permanent art projects in public spaces with the life span of at least five (5) years.

The Cultural Facilities Grant Program supports District non-profit arts organizations to improve their facilities in the District.

The Art Bank collection purchases work from greater Washington area visual artists, providing them with financial and professional benefits.

Current and planned project areas include: Washington Canal Park (Ward 6), New York Avenue Bridge (Ward 5), Deanwood Recreation Center (Ward 7), High School Modernizations (Ward 3,6,7,8), Anacostia Riverwalk (Ward 7,8), Metropolitan Branch Trail (Ward 4,5), Takoma Metro (Ward 4), Capital Riverfront (Ward 6), Columbia Heights Streetscape (Ward 1), Dupont Circle (Ward 2) and Georgia Avenue (Ward 4).

## Justification:

This project provides amenities that promote healthy and vibrant neighborhoods in areas specifically targeted by District policy and planning initiatives. This project also helps to maintain a resident creative community of District artists and cultural organizations. These artists and cultural organizations work together with neighborhood leaders and other interested partners to implement projects that contribute to the overall vitality and well being of the city, making it an attractive place to live and work, and attractive to investors.

## Progress Assessment:

This project is ongoing and progressing as planned. There are multiple artwork locations in various stages of design, fabrication and installation.

## Related Projects:

Many public art projects have been initiated through city wide initiatives like the Great Streets initiatives, Small Area Plans, city wide streetscape improvements, transportation planning, trail enhancements, etc.

# (CE0) DC PUBLIC LIBRARY

## **MISSION**

The District of Columbia Public Library provides access to materials, information, programs and services, which combined with expert staff, enables everyone to achieve lifelong learning, improve quality of life, and help build a thriving city.

## **BACKGROUND**

The DC Public Library has a total of 21 full service neighborhood Libraries, the MLK Central Library and 3 interim or temporary facilities. 3 Facilities opened in the spring of 2012: Mount Pleasant, Francis Gregory and Washington Highlands. Design work is underway for new and renovated facilities at Woodridge and Northeast. The remaining facilities will be evaluated under DCPL's active Services and Facilities Strategic Plan.

## **CAPITAL PROGRAM OBJECTIVES**

1. Replace or upgrade libraries to provide modern facilities that better serve residents of the District in the 21st century.
2. Finalize the report Library Services and Facilities: A Framework for Continuing Success that summarizes the current state of library services and facilities, reviews how well those services and facilities meet the needs of the public, and provides projections of future trends and how these trends effect library service.
3. Implement general improvement projects on facilities that are not part of the initial improvement and transformation effort.
4. Continue refining needs for Martin Luther King, Jr. Memorial Library and seek replacement locations for central library services.

## **RECENT ACCOMPLISHMENTS**

Georgetown Interim Library, Opened December 2008  
Takoma Park Neighborhood Library, Opened March 2009  
Parklands-Turner Storefront Library, Opened October 2009  
Northwest One Library, Opened December 2009  
Washington Highlands Interim, Opened December 2009  
Petworth Interim Library, Opened January 2010  
Benning Neighborhood Library, Opened April 5, 2010  
Anacostia Neighborhood Library, Opened April 26, 2010  
Mount Pleasant Interim Library, Opened April 26, 2010  
Francis Gregory Interim Library, Opened June 10, 2010  
Deanwood Library, Opened June 25, 2010  
Watha T. Daniel/Shaw Neighborhood Library, Opened August 2, 2010  
Georgetown Neighborhood Library, Opened October 18, 2010  
Tenley-Friendship Neighborhood Library, Opened January 24, 2011  
Petworth Neighborhood Library, Opened February 28, 2011  
Bellevue Library, Opened June 13, 2012  
Francis Gregory Library, Opened June 19, 2012  
Mount Pleasant Library, Opened July 25, 2012

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

## CE0-CPL38- CLEVELAND PARK

**Agency:** DC PUBLIC LIBRARY (CE0)  
**Implementing Agency:** DC PUBLIC LIBRARY (CE0)  
**Project No:** CPL38  
**Ward:** 3  
**Location:** 3310 CONNECTICUT AVENUE NW  
**Facility Name or Identifier:** CLEVELAND PARK LIBRARY  
**Status:** Developing scope of work  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$2,300,000

### Description:

The Cleveland Park Neighborhood Library project will be a design-build project to renovate the existing building into a State-of-the-Art 21st Century LEED Silver Rated Library. The facility will meet the needs outlined in the five Focus Areas of Library Activity envisioned by DCPL, as a service to children and teens; library as a community place; books and other library materials; technology; and adult literacy and learning. The project will also consist of providing between 3,500 to 5,000 Square Feet of interim/temporary/swing space in order to assure continuous library services during construction activities.

The renovated Cleveland Park Neighborhood Library will reflect the program and goals of the Library and the needs of the District of Columbia residents who use the library. The building will incorporate forward-thinking approaches to urban design, architecture, engineering, environmental technologies in the public realm. The renovated Cleveland Park Library will be a destination that will attract and support hundreds of users a day, and promote a vibrant, mixed-use neighborhood and active street environment.

### Justification:

The renovation will bring the building up to all current building codes and ADA regulations.

### Progress Assessment:

The Cleveland Park Library is contingent upon the results of the Master Facility Study.

### Related Projects:

There is potential to redevelop the library in partnership with a commercial venture to be located on the site.

# CE0-LAR37-LAMOND RIGGS

**Agency:** DC PUBLIC LIBRARY (CE0)  
**Implementing Agency:** DC PUBLIC LIBRARY (CE0)  
**Project No:** LAR37  
**Ward:** 5  
**Location:** 5401 SOUTH DAKOTA AVENUE NE  
**Facility Name or Identifier:** LAMOND RIGGS LIBRARY  
**Status:** Developing scope of work  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$12,000,000

## Description:

Substantially renovate the building to create a new 21st century state-of-art LEED Silver Rated facility. The scope of work entails providing architectural and engineering services which comprises pre-design, design, preparation of contract documents, commissioning, planning services to accomplish the following: -Substantially renovate the structure to fully or substantially comply with ADA Accessibility Guidelines for Buildings and Facilities.(September 2002) to include vertical transportation, interior circulation, signage, entrances and exists, walkways, restrooms, alarms, etc. The renovated Lamond Riggs Neighborhood Library will reflect the program and goals of the Library and the needs of the District of Columbia residents that use the library. The building will incorporate forward-thinking approaches to urban design, architecture, engineering, environmental technologies in the public realm. A building condition assessment was conducted in 2001 and an additional building assessment is under way (December 2009). The 2001 report indicated numerous costly repairs and upgrades, this work has never been done in it entirety. The District continues to pay for ongoing maintenance issue. The building is energy inefficient.

## Justification:

The Lamond Riggs Library is one of two libraries that serve Ward 5. The building is approximately 45 years old. The existing CMU masonry construction has limited flexibility to change within the existing walls of the building. As library use has changed over the years the need for electronic resources as expanded. However; expending the technology within the Woodridge library has proven extremely difficult. The citizens living in Ward 5 will benefit from expanded library services much in the same way citizens in Wards 7 and 2 have benefited from their recently opened new libraries. The expanded library facilities and subsequent expanded library programs fits into the mayor’s educational priorities.

## Progress Assessment:

N/A

## Related Projects:

There is the potential that the Lamond Riggs library could become part of the proposed Cafritz Foundation development across South Dakota Avenue. DCPL continues discussions with this organization.

## CE0-LB310-GENERAL IMPROVEMENT- LIBRARIES

**Agency:** DC PUBLIC LIBRARY (CE0)  
**Implementing Agency:** DC PUBLIC LIBRARY (CE0)  
**Project No:** LB310  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$21,838,000

### Description:

This project addresses critical capital upgrades and replacements at various library facilities. The work will include installation and replacement of HVAC systems; upgrade of security, fire, life/safety and emergency power systems; ADA code compliance for restrooms and elevators; roof replacements and upgrades; and interior upgrades to various libraries

### Justification:

The project is necessary to replace systems and component parts at the central and neighborhood libraries to allow uninterrupted library service for the community. Funds will be used to maintain and make necessary capital improvements to existing facilities.

### Progress Assessment:

The project is ongoing every year.

### Related Projects:

None.

# CE0-MCL03- MARTIN LUTHER KING JR. MEMORIAL CENTRAL LIBRARY

**Agency:** DC PUBLIC LIBRARY (CE0)  
**Implementing Agency:** DC PUBLIC LIBRARY (CE0)  
**Project No:** MCL03  
**Ward:** 2  
**Location:** 901 G STREET NW  
**Facility Name or Identifier:** MARTIN LUTHER KING JR. MEMORIAL CENTRAL LIBRARY  
**Status:** Under preliminary study  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$6,120,000

## Description:

The Martin Luther King Jr. Memorial Central Library was designated a National Historic Landmark in April 2007. The Library lacks the funding for a total renovation and therefore has implemented strategic projects that improve services, modernize the space while being respectful of the historic nature of the building. A new and reconfigured Business, Science and Technology Division will localize over 100 public access computers to this division. The project also includes funding to relocate/create new eBIC space on the seldom used A-Level. The A-Level renovation will provide flexible space permitting multiple uses for either Library programming, eBIC, University of the District of Columbia, Community College of DC as well being available for community use.

## Justification:

Project is necessary because the existing Martin Luther King Jr. Memorial Library building does NOT meet the District needs as a central library

## Progress Assessment:

Project is ongoing.

## CE0-NEL38- NORTHEAST LIBRARY

**Agency:** DC PUBLIC LIBRARY (CE0)  
**Implementing Agency:** DC PUBLIC LIBRARY (CE0)  
**Project No:** NEL38  
**Ward:** 6  
**Location:** 330 7TH STREET NE  
**Facility Name or Identifier:** NORTHEAST LIBRARY  
**Status:** Under design  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$10,500,000

### Description:

This project involves the interior renovation of the 1930s era building to create a 21st century state-of-art LEED Silver Rated facility. The scope of work entails providing architectural and engineering services including predesign, design, preparation of contract documents, commissioning and planning services to substantially renovate the structure to fully comply with ADA Accessibility Guidelines for Buildings and Facilities (September 2002) and to bring the building up to all current building codes. This includes vertical transportation, interior circulation, signage, entrances and exists, walkways, restrooms, alarms, etc. The renovation will make the facility more energy efficient and will provide improved library services to the community.

The Northeast Neighborhood Library has recently undergone exterior improvements that restored the historic doors and windows, tuck-pointed the masonry, and created a landscaped reading garden. This work was Phase 1 of a two-phase project approach. Similar phased approaches have been undertaken at Petworth and Mount Pleasant libraries. The interior improvements at Northeast have been submitted as part of the Libraries Capital Improvement Plan beginning in FY 2009. In FY 2009 and FY 2010 funding requested for this project was postponed to out-years and in FY 2011 removed completely from the Capital Improvement Plan. Based on December 2010 Facility Condition Report, the Northeast Library is not up to current building codes and is not in compliance with ADA/ADAAG requirements. The interior renovation project includes funding for temporary interim library facilities.

### Justification:

Since this library was built in the 1930s, only minor renovations have taken place. Northeast library is located in the Historic Capitol Hill District. Building is safe but there are numerous code and ADA/ADAAG violations

### Progress Assessment:

Completed \$1.5 Million exterior improvement project.

### Related Projects:

There are no related projects.

## CE0-PAL37-PALISADES LIBRARY

**Agency:** DC PUBLIC LIBRARY (CE0)  
**Implementing Agency:** DC PUBLIC LIBRARY (CE0)  
**Project No:** PAL37  
**Ward:** 3  
**Location:** 4901 V STREET NW  
**Facility Name or Identifier:** PALISADES LIBRARY  
**Status:** Developing scope of work  
**Useful Life of the Project:** 50  
**Estimated Full Funding Cost:**\$2,965,000

### Description:

The Palisades Neighborhood Library project will be a design-build project to demolish and construct a new 22,500 Square Foot State-of-the-Art 21st Century LEED Silver Rated Library. The facility will meet the needs outlined in the five Focus Areas of Library Activity envisioned by DCPL, as follows: service to children and teens; library as a community place; books and other library materials; technology; and adult literacy and learning. The project will also consist of providing between 3,500 to 5,000 Square Feet of interim/temporary/swing space in order to assure continues library services during construction activities.

The new Palisades neighborhood library will reflect the program and goals of the Library and the needs of the District of Columbia residents that use the library. The building will incorporate forward-thinking approaches to urban design, architecture, engineering, environmental technologies in the public realm. The new Palisades Library will be a destination that will attract and support hundreds of users a day, and promote a vibrant, mixed-use neighborhood and active street environment. The new library will have an iconic architectural presence befitting its location in the community, yet be reflective of the city's modern growth and new innovations in building design and technology. The library design will be unique in the nation's capitol, and representative of 21st century architectural ideals. A building condition assessment was conducted in 2001 and an additional building assessment completed December 2009. The 2001 report indicated close to \$800,000 (in 2001 dollars) worth on repairs and upgrades; this work has never been done in its entirety. The District continues to pay for ongoing maintenance issues. The building is not energy-efficient.

### Justification:

The building is approximately 51 years old. The existing CMU masonry construction has limited flexibility to change within the existing walls of the building. As library use has changed over the years the need for electronic resources has expanded. However; expanding the technology within the Palisades library has proven extremely difficult. The community that use the Palisades Library will benefit from expanded library services much in the same way citizens in Wards 7 and 2 have benefited from their recently opened new libraries. The expanded library facilities and subsequent expanded library programs fits into the mayor's educational priorities.

## CE0-SWL37-SOUTHWEST LIBRARY

**Agency:** DC PUBLIC LIBRARY (CE0)  
**Implementing Agency:** DC PUBLIC LIBRARY (CE0)  
**Project No:** SWL37  
**Ward:** 6  
**Location:** 900 WESLEY PLACE SW  
**Facility Name or Identifier:** SOUTHWEST LIBRARY  
**Status:** Developing scope of work  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$13,670,000

### Description:

This project involves a substantial renovation of the building to create a new 21st century state-of-art LEED Silver Rated facility. The scope of work entails providing architectural and engineering services which comprises predesign, design, preparation of contract documents, commissioning, and planning services to substantially renovate the structure to fully or substantially comply with ADA Accessibility Guidelines for Buildings and Facilities. (September 2002) to include vertical transportation, interior circulation, signage, entrances and exists, walkways, restrooms, alarms, etc. The renovated Southwest Neighborhood Library will reflect the program and goals of the Library and the needs of the District of Columbia residents who use the library. The building will incorporate forward-thinking approaches to urban design, architecture, engineering, and environmental technologies in the public realm. The renovated Southwest Library will be a destination that will attract and support hundreds of users a day, and promote a vibrant, mixed-use neighborhood and active street environment. A building condition assessment was conducted in 2001 and an additional building assessment completed December 2009. The 2001 report indicated numerous costly repairs and upgrades; this work has never been done in its entirety. The District continues to pay for ongoing maintenance issues. The building is not energy efficient.

### Justification:

The building is approximately 45 years old. The existing CMU masonry construction has limited flexibility to change within the existing walls of the building. As library use has changed over the years the need for electronic resources has expanded. However, expanding the technology within the Southwest library has proven extremely difficult. The citizens living in Ward 6 will benefit from expanded library services much in the same way citizens in Wards 7 and 2 have benefited from their recently opened new libraries. The expanded library facilities and subsequent expanded library programs fits into the mayor's educational priorities.

## CE0-WOD37-WOODRIDGE LIBRARY

**Agency:** DC PUBLIC LIBRARY (CE0)  
**Implementing Agency:** DC PUBLIC LIBRARY (CE0)  
**Project No:** WOD37  
**Ward:** 5  
**Location:** 1801 HAMLIN STREET NE  
**Facility Name or Identifier:** WOODRIDGE LIBRARY  
**Status:** Developing scope of work  
**Useful Life of the Project:** 50  
**Estimated Full Funding Cost:** \$16,550,000

### Description:

The Woodridge Neighborhood Library project will be a design-build project to demolish and construct a new 22,500 Square Foot State-of-the-Art 21st Century LEED Silver Rated Library. The facility will meet the needs outlined in the five Focus Areas of Library Activity envisioned by DCPL, as follows: service to children and teens; library as a community place; books and other library materials; technology; and adult literacy and learning. The project will also consist of providing between 3,500 to 5,000 Square Feet of interim/temporary/swing space in order to assure continues library services during construction activities. The new Woodridge neighborhood library will reflect the program and goals of the Library and the needs of the District of Columbia residents who use the library. The building will incorporate forward-thinking approaches to urban design, architecture, engineering, and environmental technologies in the public realm. The new Woodridge Library will be a destination that will attract and support hundreds of users a day, and promote a vibrant, mixed-use neighborhood and active street environment. The new library will have an iconic architectural presence befitting its location in the community, yet be reflective of the city's modern growth and new innovations in building design and technology. The library design will be unique in the nation's capitol, and representative of 21st century architectural ideals. A building condition assessment was conducted in 2001 and an additional building assessment completed December 2009. The 2001 report indicated a need of \$700,000 (in 2001 dollars) on repairs and upgrades; this work has never been done in its entirety. The District continues to pay for ongoing maintenance issue. The building is not energy efficient.

### Justification:

The Woodridge Library is one of two libraries that serve Ward 5. A recent facility condition assessment rated the facility a 17 out of 100. The building is approximately 51 years old. The existing CMU masonry construction has limited flexibility to change within the existing walls of the building. As library use has changed over the years the need for electronic resources has expanded. However; expanding the technology within the Woodridge library has proven extremely difficult. The citizens living in Ward 5 will benefit from expanded library services much in the same way citizens in Wards 7 and 2 have benefited from their recently opened new libraries.

# (CF0) DEPARTMENT OF EMPLOYMENT SERVICES

## **MISSION**

The Department of Employment Services (DOES) fosters and promotes the welfare of job seekers and wage earners by improving their working conditions, advancing opportunities for employment, helping employers find workers, and tracking changes in employment and other national economic measurements impacting the District of Columbia.

## **BACKGROUND**

DOES provides customers with a comprehensive menu of workforce development services funded through a combination of federal grants and local appropriations. In addition, DOES provides District youth with job training, academic enrichment, leadership, and employment opportunities through its year-round, summer youth, and Mayor's Youth Leadership Institute programs. The department also delivers income support services to unemployed or under-employed persons, as well as worker protection and dispute resolutions services to workers and employers. These services are provided through the Offices of Unemployment Compensation, Workers' Compensation, Safety and Health, and Wage-Hour.

## **OBJECTIVES**

The objective of this project is to develop and deploy a robust, fully-integrated Unemployment Benefits and Tax solution resulting in efficiencies and the ability to offer broader services to the residents of the District of Columbia. All systems within Unemployment Insurance will be integrated including the Document Imaging system and ACD/IVR system. Finally, with the deployment of the project, the agency will no longer need expensive private contractors.

**Elements on this page of the Agency Summary include:**

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
  - 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
  - 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017
  - 4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
  - 4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.
  - 4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018
  - 4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).
- n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact
- n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.
- n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# CF0-UIM02-UI MODERNIZATION PROJECT-FEDERAL

**Agency:** DEPARTMENT OF EMPLOYMENT SERVICES (CF0)  
**Implementing Agency:** DEPARTMENT OF EMPLOYMENT SERVICES (CF0)  
**Project No:** UIM02  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Developing scope of work  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$18,000,000

**Description:**

This project is focused on developing and deploying a fully integrated (Unemployment Benefits and Tax) robust solution resulting in efficiencies and the ability to offer broader services to the residents of the District of Columbia. All systems within Unemployment Insurance will be integrated including the Document Imaging system and ACD/IVR system.

**Justification:**

Due to the outdated mainframe technology currently in use, implementations of new legal requirements are complex, intense, and time consuming to deploy in a consistent manner to ensure claimants receive added or new benefits as quickly as possible. In this environment, the systems are highly fractured silos requiring costly contractors to maintain them.

**Progress Assessment:**

# (CR0) DEPT. OF CONSUMER AND REGULATORY AFFAIRS

## **MISSION**

The Department of Consumer and Regulatory Affairs (DCRA) protects the health, safety, economic interests, and quality of life of residents, businesses, and visitors in the District of Columbia by ensuring code compliance and regulating business.

## **BACKGROUND**

Annually DCRA issues over 35,000 building permits, 4,000 occupancy permits, and 50,000 business and professional licenses. The agency files over 65,000 corporate documents, and conducts over 55,000 residential, commercial and business-related inspections and investigations. DCRA is charged with ensuring that all businesses, professionals, and property owners adhere to District law and regulations.

## **CAPITAL PROGRAM OBJECTIVES**

1. Eliminate nuisance properties and invest in the revitalization of communities.
2. Support DCRA regulation and compliance activities by implementing information technology systems for licensing, inspections and permitting functions that interface with other District systems.

## **RECENT ACCOMPLISHMENTS**

- FY 2011 - implementation of ProjectDox On-line Building Plan Submission and integration allowing concurrent review and approval of building plans.
- FY 2011 - launch Business License Division in agency enterprise application CPMS/Accela allowing simple renewals and online application submission.
- In FY 2011, the Construction Codes Coordinating Board plans to promulgate the 2010 edition of the Construction Codes.
- In FY 2011, DCRA posted proposed vending regulations on the agency's website and received approximately 2,500 comments. DCRA plans to publish revised proposed regulations after constituent buy-in with the vending community, Council of the District of Columbia, and the Executive Office of the Mayor.

**Elements on this page of the Agency Summary include:**

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). # CR0-EB301-VACANT PROPERTY INSPECTION AND ABATEMENT

**Agency:** DEPT. OF CONSUMER AND REGULATORY AFFAIRS (CR0)  
**Implementing Agency:** DEPT. OF CONSUMER AND REGULATORY AFFAIRS (CR0)  
**Project No:** EB301  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$50,808,000

## Description:

The project funds the abatement of critical life and safety issues for vacant, District-owned residential and multi-dwelling units throughout the District of Columbia. In future years, paygo funding will be used for remediating violations of the housing code when property has failed to be maintained adequately. Project management will work more closely in the future with the property acquisition and disposition program of the Department of Housing and Community Development.

## Justification:

When owners fail to repay remediation costs, DCRA pursues recovery of outlays through the imposition of special assessments and liens against properties. Recoveries are directed to an associated special purpose revenue fund used to cover on-going program costs.

## Progress Assessment:

This project is progressing as planned.

## Related Projects:

Department of Housing and Community Development project 04002C-PROPERTY ACQUISITION & DISPOSITION

# (DB0) DEPT. OF HOUSING AND COMM. DEVELOPMENT

## **MISSION**

The Department of Housing and Community Development (DHCD) creates and preserves opportunities for affordable housing, promotes economic development, and revitalizes underserved communities in the District of Columbia.

## **BACKGROUND**

The DHCD Property Acquisition and Disposition Division (PADD) uses capital funding to transform vacant and abandoned residential properties in targeted neighborhoods into affordable housing opportunities. In FY 2010, the division created or rehabbed 45 housing units, of which 35 were affordable housing units, through the remediation of vacant properties. PADD acquired 37 properties at an average cost of \$57,771 per property, mostly from tax foreclosures and recaptures from non-performing developers and executed 37 disposition agreements for the redeveloped properties.

DHCD also enables the funding of street and public infrastructure improvements associated with its production of affordable housing and community developments. These infrastructure improvements are vital investments in the creation of over 500 new affordable units throughout the District. DHCD's capital budget provides gap financing to the DC Housing Authority (DCHA) to complete large-scale HOPE VI redevelopment projects. These projects will create more than 600 affordable units to replace the District's most severely distressed public housing.

## **CAPITAL PROGRAM OBJECTIVES**

1. Preserve and increase the supply of quality affordable housing.
2. Revitalize neighborhoods, promote community development, and provide economic opportunities.

## **RECENT ACCOMPLISHMENTS**

- PADD acquired 37 properties in FY 2010, including 12 in the targeted neighborhoods of Ivy City/Trinidad, Historic Anacostia, and Washington Highlands, and executed 37 disposition agreements District-wide.
- PADD created or rehabbed 45 total housing units through the remediation of vacant properties in FY 2010, including 35 affordable housing units.
- PADD collected \$52,410 from the sale of 11 properties, as well as \$610,637 in the recapture of properties and the closure of Homestead escrow accounts, as well as default proceeds from two of the auctioned properties.
- Demolished blighted and vacant apartment buildings in the Bellevue neighborhood to allow for the development of a 119-unit town home project and completed the design for infrastructure improvements, including lighting and signage, along South Capitol Street from MLK to Galveston Street, SW.
- Continued site infrastructure construction associated with development of 99 affordable rental and homeownership units in the Arthur Capper/Carrollburg HOPE VI project.

**Elements on this page of the Agency Summary include:**

n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# DB0-04002-PROPERTY ACQUISITION & DISPOSITION

**Agency:** DEPT. OF HOUSING AND COMM. DEVELOPMENT (DB0)  
**Implementing Agency:** DEPT. OF HOUSING AND COMM. DEVELOPMENT (DB0)  
**Project No:** 04002  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$20,817,000

## Description:

The goals of the PADD are to encourage property owners to rehabilitate and occupy their properties, to acquire, dispose of, and rehabilitate properties when owners fail to maintain them, and to facilitate the development of affordable housing. The subproject consists of acquisition, assemblage, site preparations, and demolition and stabilization of property to promote housing, affordable housing, and economic development opportunities. Projects for acquisition are identified in areas where the District can make an investment to enhance and complement development projects being undertaken by the private or non-profit sectors, as well as neighborhoods with substantial concentrations of vacant and abandoned property. Acquisition methods include friendly sales, tax foreclosures, and eminent domain. Included are technical studies, appraisals, environmental assessments, title reviews, and other acquisition expenses, in addition to the actual cost of acquisition of real property. Also included are costs of demolition, site improvements and other site preparation costs associated with acquisitions of real property. Finally, once the property is owned by the District, this project pays for costs related to the rehabilitation and the stabilization of the real property, including but not limited to engineering and/or architectural reports and drawings, as well as the development of solicitation for offers. Disposition methods include solicitations for offers, auctions of scattered sites, a combination solicitation and lottery for developers and homebuyers, as well as negotiated sales. Future budget allotment will be paygo capital budget. The program will work closely with DCRA project for the abatement of vacant and blighted property.

## Justification:

The project is needed to transform vacant and abandoned residential properties into homeownership opportunities for residents at all income levels.

## Progress Assessment:

The project is progressing as planned.

# (EB0) DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT

## **MISSION**

The Office of the Deputy Mayor for Planning and Economic Development (DMPED) supports the Mayor in developing and executing the District of Columbia's economic development policy.

## **BACKGROUND**

DMPED assists the Mayor in the coordination, planning, supervision, and execution of programs, policies, and proposals related to economic development in the District of Columbia. DMPED encourages growth and investment in the District through a portfolio of over 150 housing, office and retail development projects that are under construction, planned, or proposed. The total value of these development projects is approximately \$13 billion.

## **CAPITAL PROGRAM OBJECTIVES**

1. Oversee and coordinate economic growth and investment throughout the District of Columbia.
2. Add to the District's portfolio of affordable housing by promoting the construction of new affordable housing and preserving the District's affordable housing stock.
3. Effectively allocate public resources for the economic restoration and revitalization of the Anacostia River corridor through park construction, public facility upgrades and construction of mixed use, mixed income development projects.

## **RECENT ACCOMPLISHMENTS**

- Awarded first and second round of grants funds to small businesses along the H Street corridor to stimulate small-business development and expansion as a part of the H Street NE Retail Priority Grant Program.
- The Workforce Investment Council has been completely reinvigorated with the hiring of an executive director and staff members as well as the appointment of Board members. Quarterly meetings of the Board of Directors have also been reinstated.
- Establishment of a Memorandum of Understanding between the District and the Export-Import Bank of China on matters related to trade, investment and financing-cooperation opportunities between both entities.
- Progress made on the following New Communities programs: Delivery of Phase I construction of Eden Place at Beulah Crossing. Closing and commencement of construction for 4800 Nannie Helen Burroughs Avenue of 70 affordable (23 replacement) units. Continued construction of The Avenue project which will yield 83 affordable (27 replacement units) for the Park Morton New Communities Project.
- Drafted the final base reuse plan and received approval from the Walter Reed Local Redevelopment Authority for the Walter Reed Army Medical Center project.
- The Industrial Revenue Bond (IRB) Program closed on 23 deals worth a collective transaction amount of \$617 million, including American Bus Association, United Negro College Fund and Gallaudet University.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

- 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
- 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017
- 4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
- 4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.
- 4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018
- 4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# EB0-AMS11-MCMILLAN SITE REDEVELOPMENT

**Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EBO)  
**Implementing Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EBO)  
**Project No:** AMS11  
**Ward:** 5  
**Location:** NORTH CAPITOL ST & MICHIGAN AVE NW  
**Facility Name or Identifier:** MCMILLAN SAND FILTRATION SITE  
**Status:** Predesign  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$51,492,000

## Description:

The 25-acre former McMillan Reservoir Sand Filtration Site, located at North Capitol Street and Michigan Avenue, is expected to be redeveloped into a mixed-use project that will include historic preservation, open space, residential, retail, office, and hotel uses. The District, the selected development team, and the communities surrounding the site are currently working cooperatively to determine the master plan and development program for the site. The goal is to create an architecturally distinct, vibrant, mixed-use development that provides housing, employment, retail, cultural, and recreational opportunities for District residents. The project will include affordable and workforce housing and 35 percent of the local contracting opportunities must go to Certified Business Enterprises (CBEs). More than half of all new jobs created must be offered to District residents and 20 percent of the development opportunity will be awarded to CBEs.

## Justification:

The project will include affordable and workforce housing and 35 percent of the local contracting opportunities must go to Certified Business Enterprises (CBEs). More than half of all new jobs created must be offered to District residents and 20 percent of the development opportunity will be awarded to CBEs.

## Progress Assessment:

A solicitation for a land development partner was issued in July 2006 and a partner was selected in June 2007. The District, the selected development team, and the communities surrounding the site are currently working cooperatively to determine the master plan and development program for the site.

# EB0-ASC13-SKYLAND SHOPPING CENTER

**Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EBO)  
**Implementing Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EBO)  
**Project No:** ASC13  
**Ward:** 7  
**Location:** ALABAMA AVE & GOOD HOPE RD SE  
**Facility Name or Identifier:** SKYLAND SHOPPING CENTER  
**Status:** Predesign  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$10,485,000

## Description:

The Skyland Shopping Center is an underutilized, non-contiguous shopping center with 15 owners, non-retail uses, compromised buildings, no anchor tenant, and no coherent leasing strategy. The site will be redeveloped with approximately 20 townhouses, 10 live/work, 440 apartment units, 145,000 square feet of retail, 195,389 other commercial uses, 311 surface parking spaces, and 1,433 structured parking spaces.

## Justification:

The project will eliminate slum and blight and create retail and housing options for the residents of Ward 7.

## Progress Assessment:

There are several outstanding legal issues associated with the project that have complicated the development process, but the District is working closely with the development team and its architects, Torti Gallas & Partners, to accelerate the pre-development work so the project moves on a parallel track with the legal process.

# EB0-AWR01-SAINT ELIZABETHS E CAMPUS INFRASTRUCTURE

**Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EBO)  
**Implementing Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EBO)  
**Project No:** AWR01  
**Ward:** 8  
**Location:** 2700 MARTIN LUTHER KING JR AVENUE SE  
**Facility Name or Identifier:** ST ELIZABETHS  
**Status:** Under design review  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$122,850,000

## Description:

The consolidation of the Department of Homeland Security at the Saint Elizabeths Campus and the District's plan to redevelop the East Campus is once-in-a-generation opportunity for the District of Columbia and the federal government to create well-planned, mixed-use, mixed-income, walkable, livable community. The development program includes 2,000 residential units, 200,000 sf of retail, 1.5 million sf of office, 500,000 of institutional space, and 100,000 sf of cultural/civic space.

## Justification:

The project will leverage the \$3.4 billion federal investment in the West Campus and stimulate revitalization and regeneration in Ward 8.

## Progress Assessment:

Development on the East Campus is guided by the Saint Elizabeths East Redevelopment Framework Plan, which was approved by the DC Council in December 2008. Implementation of the Plan recommendations are currently underway and involve a broad coalition of stakeholders.

# EB0-AWT01-WALTER REED REDEVELOPMENT

**Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EB0)  
**Implementing Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EB0)  
**Project No:** AWT01  
**Ward:** 4  
**Location:** 6900 GEORGIA AVENUE NW  
**Facility Name or Identifier:** WALTER REED HOSPITAL SITE  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$2,498,000

## Description:

This project takes a former military installation and reintegrates 62 acres into the fabric of Ward 4. The project will catalyze the redevelopment of Upper Georgia Ave by taking down the previously gated campus and creating new mixed use opportunities along this key gateway into the District.

## Justification:

The District Government, as the local redevelopment authority formally recognized by the US Department of Defense, has undertaken the responsibility of developing a homeless accommodation and reuse plan for the 62.5 acre surplus portion of the WRAMC. The costs for this project are 90% funded by a federal grant from the Department of Defense with a 10% District match.

Under BRAC law, each LRA is required to submit its reuse and homeless plan to HUD 270 days from submission deadline for all notices of interest. For WRAMC, that deadline in November 30, 2010.

Successful implementation of the plan will result in an integration of this 60+ acres into the community making the over 40+ acres of green/open space available to the community. The proposed commercial development is estimated to result in annual tax revenues in excess of \$18 million.

The proposed reuse plan is consistent with the comprehensive plan and incorporates policy priorities of the Mayor.

## Progress Assessment:

Project is progressing as planned

# EB0-EB013-BARRY FARM, PARK CHESTER, WADE ROAD

**Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EBO)  
**Implementing Agency:** DEPUTY MAYOR FOR ECONOMIC DEVELOPMENT (EBO)  
**Project No:** EB013  
**Ward:** 8  
**Location:** 1230 SUMNER ROAD, SE  
**Facility Name or Identifier:** BARRY FARM NEW COMMUNITY  
**Status:** Design complete  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$18,247,000

## Description:

New Communities is a partnership between residents of distressed communities and the District. The goal is to transform those communities into viable places for existing and new residents to live, work, learn and recreate in a safe, healthy, and pleasant environment. Barry Farm/Park Chester/Wade Road is one of four New Communities sites in the District. The physical area will be redeveloped into a mixed-use, mixed-income community with an estimated 1,391 new on and off-site housing units, retail, office, a new recreational facility, and a new school. DMPED is utilizing New Communities capital funds to facilitate development of approximately 654 on- and off-site replacement housing units as part of this revitalization effort. The replacement units will be affordable to existing Barry Farm public housing residents who pay no more than 30% of their income for housing and residents of other publicly-assisted housing in the revitalization area who pay no more than 30% of their income for housing.

## Justification:

These funds are needed to assist with the capital activities required to undertake a comprehensive redevelopment of this area plagued by high crime, high poverty and aging public housing. Capital funds make up a small amount of the total development budget for this project; however, the capital funds are necessary in order to leverage the other financing tools that are needed and which the District plans to pursue such as private capital, bond financing, tax credits, land and other equity.

## Progress Assessment:

The project is on track and is delivering off-site replacement housing properties.

**Location:** 400 50TH STREET, NE  
**Facility Name or Identifier:** LINCOLN HEIGHTS/RICHARDSON DWELLINGS NEW COMMUNITY  
**Status:** Design complete  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$3,050,000

## Description:

New Communities is a partnership between residents of distressed communities and the District. The goal is to transform the communities into viable places for existing and new residents to live, work, learn and recreate in a safe, healthy, and pleasant environment. Lincoln Heights/Richardson Dwellings is one of four New Communities sites in the District. The physical area will be redeveloped into a mixed-use, mixed-income community with an estimated 1,609 new on and offsite housing units, retail, office, a new swimming pool as part of the recreational facility at Kelly Miller Middle School, and the HD Woodson High School. DMPED is utilizing New Communities capital funds to facilitate development of approximately 630 on- and off-site replacement housing units as part of this revitalization effort. The replacement units will be affordable to existing public housing residents who currently live in the Lincoln Heights (440) and Richardson Dwellings (190) public housing developments and who pay no more than 30% of their income for housing.

## Justification:

These funds are needed in order to assist with the capital activities required to undertake a comprehensive redevelopment of this area plagued by high crime, high poverty and aging public housing. Capital funds make up a small amount of the total development budget; however, the capital funds are necessary in order to leverage the other financing tools that are needed and which the District plans to pursue such as private capital, bond financing, tax credits, land and other equity.

## Progress Assessment:

The project is on track, and DMPED is in the process of identifying off-site replacement housing properties.

# (FA0) METROPOLITAN POLICE DEPARTMENT

## **MISSION**

To safeguard the District of Columbia and protect its residents and visitors by providing the highest quality of police service with integrity, compassion, and a commitment to innovation that integrates people, technology and progressive business systems.

## **BACKGROUND**

The Metropolitan Police Department's (MPD) capital program can be categorized into *facilities, fleet, and technology*.

- MPD's facilities portfolio consists of 36 facilities, of which 25 are District-owned and 11 are leased, and includes office buildings, trailers, a warehouse, an impound lot, a firing range, a heliport, and a harbor unit.
- MPD's fleet program is a part of the citywide Master Lease program. MPD maintains 1,615 vehicles in the fleet including 766 marked cruisers, 420 unmarked cruisers, and 429 specialty/support vehicles. The Department seeks to continue the replacement cycle of patrol cars, motorcycles and related equipment required to operate these vehicles.
- MPD's technology program seeks to modernize and automate the police force. Maintaining the replacement schedule for computers, establishing paperless records, and consolidating criminal databases are keys to improving efficiency. The inventory of computers includes approximately 2,000 desktops and 850 laptops (deployed in the field). The criminal databases consist of more than 30 data sources.

## **CAPITAL PROGRAM OBJECTIVES**

1. Build new facilities and repair existing facilities to improve police operations.
2. Maintain existing fleet of police vehicles according to an established replacement cycle.
3. Maintain current IT investments and continuously identify and implement new technology solutions to achieve greater efficiency and automation of police operations.

## **RECENT ACCOMPLISHMENTS**

- Renovation of 32 interrogation/viewing room throughout the MPD system.
- Replacement of roof at the Mobile Crime Unit facility.
- Renovation and adaptive use of the former Bowen Elementary School for the relocation of 1D.
- Implemented and deployed a new Gun Offender Tracking System.
- Deployed the new Warrant System, which will allow MPD to manage the warrant process in an automated-electronic manner.
- Deployed the new Property & Evidence System, "Evidence on Q" (Replacement for PIECS).
- Deployed RMS – Automated Field Reporting and Incident management systems.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# FA0-ECS10-AUTOMATION OF REPORT GENERATION & PURCHASE

**Agency:** METROPOLITAN POLICE DEPARTMENT (FA0)  
**Implementing Agency:** METROPOLITAN POLICE DEPARTMENT (FA0)  
**Project No:** ECS10  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** New  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$300,000

**Description:**

This budget will provide residents and others with the ability to obtain arrest reports and vehicle crash reports over the internet and purchase the reports using credit cards.

**Justification:**

- 1) To increase process efficiency through automated support for FOIA requests and payments;
- 2) To make the process more accessible to city residents; and
- 3) To provide improved workflow tracking for delivery of requests.

**Progress Assessment:**

# AM0-PDR01-6TH DISTRICT RELOCATION

**Agency:** METROPOLITAN POLICE DEPARTMENT (FA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** PDR01  
**Ward:** 7  
**Location:** 4934 HAYES STREET NE  
**Facility Name or Identifier:** 6TH DISTRICT HQ  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$14,000,000

## Description:

Renovate the former Merritt Middle School to convert its use to a MPD facility housing the 6th District precinct and the Youth Investigative Division. Renovation costs would include overhaul of the existing mechanical, electrical and plumbing systems, constructing holding cells and locker rooms, and parking considerations.

## Justification:

The 6th District and the Youth Investigative Division must relocate from their current respective locations because they have outgrown their existing spaces.

## Progress Assessment:

Programmatic requirements have been developed by MPD and DGS.

## Related Projects:

# ELC-PEQ20-SPECIALIZED VEHICLES - MPD

**Agency:** METROPOLITAN POLICE DEPARTMENT (FA0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** PEQ20  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VEHICLES  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:** \$81,039,000

## Description:

Project requirements are to support the annual replacement of the Police patrol cars for MPD, currently on a 5 year replacement schedule. As part of the Public Justice cluster, MPD requires the replacement vehicles to support daily police operations, as required by law and the citizens of the District of Columbia to preserve law and order within the District. The goal is to maintain the existing fleet of police vehicles according to an established replacement cycle. This project's budget returns the MPD to a required funding level.

## Justification:

MPD's fleet program is a part of the citywide Master Lease program. MPD maintains 1,639 vehicles in the fleet including 802 marked cruisers, 409 unmarked cruisers, and 428 specialty/support vehicles. The Department seeks to continue the replacement cycle of patrol cars, motorcycles and related equipment required to operate these vehicles. The replacement schedule for FY 2009 and FY 2010 has been modified to account for the reduced funding levels. Long term projections on impact have not been completed.

## Progress Assessment:

The replacement budget has been \$5,200,000.00 since FY 2001 through FY 2008. Funding has supported the replacement of approx. 200 vehicles per year. FY 2009 and FY 2010 budget was reduced to \$2,500,000.00 for both years. As a result of the reduced budget, less than 100 vehicles per year can be replaced, forcing the service life to be extended beyond the planned requirements.

## Related Projects:

PEQ22C is a related project (Paygo budget) as it supports the replacemnt of MPD patrol cars.

# AM0-PL110-MPD SCHEDULED CAPITAL IMPROVEMENTS

**Agency:** METROPOLITAN POLICE DEPARTMENT (FA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** PL110  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** N/A  
**Status:** New  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$40,200,000

## Description:

This project will address deferred facility needs of the Department by implementing infrastructure upgrades and quality of life improvements to community police stations, the police academy, and other police facilities. The scope of work includes upgrades to mechanical, electrical and plumbing (MEP) systems, to exterior security and conveying systems, and, to fire alarm and fire suppression systems. The scope also includes the major repair and replacement of roofs and windows; ADA upgrades (signage, accessible entry, parking, restrooms, etc.); fluorescent lighting systems with energy efficient lamps and electronic ballasts.

## Justification:

Most of the District-owned police facilities are beyond the useful life identified in MPD's 1998 and 2005 Condition Assessment reports.

## Progress Assessment:

Project is progressing as planned. All MPD facilities were surveyed in FY 2009 (Q3), and minor renovation work was completed via DRES' FAST system and MPD's FMD contracts. SOW's for major renovation work being developed for submission into PASS for work to begin FY 2010 Q2.

# (FB0) FIRE AND EMERGENCY MEDICAL SERVICES

## **MISSION**

The District of Columbia Fire and Emergency Medical Services Department's (Fire & EMS) mission is to promote safety and health through excellent pre-hospital medical care, fire suppression, hazardous materials response, technical rescue, homeland security preparedness, and fire prevention and education in the District of Columbia.

## **SCOPE**

Fire & EMS provides all-hazards protection to residents and visitors in the District of Columbia from 34 neighborhood fire stations that deploy 39 EMS transport units, 33 engine companies, 16 ladder trucks, three heavy-rescue squads, one hazardous materials unit and one fire boat company. Fourteen of these transport units and 20 of the engine companies are staffed by paramedics providing advanced life support (ALS) care. In order to ensure that Fire & EMS has the ability to provide uninterrupted service, an equipment reserve is maintained to be available when frontline emergency vehicles are out of service and during expanding or multiple emergency incidents. This reserve fleet consists of 28 pumpers, 9 ladder trucks and 23 reserve ambulances compliant with National Fire Protection Administration (NFPA) recommendations. In addition the department maintains an Emergency Mobilization Operations Plan (EMOP) fleet of 12 ambulances units as well as support vehicles that are required to meet the additional command and control needed on large, expanding or multiple incidents. These units are used for the numerous special events in the city that require additional transport unit support so as not to impact the 911 delivery of EMS care to District citizens. Fire & EMS facilities undergo scheduled capital repairs to remain operational and to prevent infrastructure deterioration. Updated communications and information management systems enhance the department's ability to work optimally.

## **CAPITAL PROGRAM OBJECTIVES**

Objective 1: Plan for and provide a comprehensive renovation of each of the Fire & EMS buildings that will bring them into compliance with modern codes and standards.

Objective 2: Design, equip, and install enhanced Communication and Information Management Systems that allow for greater efficiency of operations, accountability, and exchange of information with the Office of Unified Communications 911 Center and other public safety agencies that coordinate emergency responses for the citizens and visitors of the District.

Objective 3: Replace Fire & EMS vehicles to meet or exceed NFPA standards.

Objective 4: Develop plans for public or private development of stations that would provide the potential to sell the air-rights above stations and allow Fire & EMS to have a Headquarters/Administration building.

## **RECENT ACCOMPLISHMENTS**

### Facility Improvements:

- December 2010 replaced HVAC system at Engine 1, located at 2225 M Street NW
- November 2010 Firehouse renovation completed for Engine 10, located at 1342 Florida Avenue NE
- October 2010 Structurally Reattach exterior rear wall of Engine 11, located at 3420 14th Street NW
- September 2010 Applied Epoxy coating to apparatus floor at Engine 21, located at 1763 Lanier Place NW
- August 2010 Building improvements to include HVAC, apron replacement at Engine 23, located at 2119 G Street NW
- July 2010 Class A Burn Building at the Training Academy completed
- June 2010 Replaced concrete parking lot at Engine 6, located at 1300 New Jersey Avenue NW
- June 2010 Replaced all windows at Engine 4, located at 2531 Sherman Avenue NW
- May 2010 Replaced various rooms of flooring to E-22, E-23, E-27, E-31
- April 2010 Replaced 2nd floor windows at Engine 22, located at 5760 Georgia Avenue NW
- March 2010 Concrete repairs to structural footings and apparatus floor at Engine 26, located at 1340 Rhode Island Avenue NE
- January 2010 Replaced all windows at Engine 1, located at 2225 M Street NW
- November 2009 Replaced concrete parking lot at Engine 7/ Fleet Maintenance, located at 1103 Half Street SW

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# ELC-20630-FIRE APPARATUS

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** 20630  
**Ward:**  
**Location:** DISTRICT WIDE  
**Facility Name or Identifier:** EQUIPMENT  
**Status:** Equipment ordered  
**Useful Life of the Project:** 7  
**Estimated Full Funding Cost:** \$100,000,000

## Description:

This project provides for the purchase of pumpers, ladder trucks, heavy rescue trucks, ambulances, and large support vehicles. Existing vehicles need to be replaced at the rate that meets NFPA standards and as they wear out and surpass their economic retention levels.

## Justification:

Replacing older firefighting apparatus and ambulances at a rate that keeps the Department's fleet at an age and condition that meets NFPA standards is essential to maintaining an effective firefighting force. This project is necessary to ensure that the fleet is reliable and does not deteriorate into a condition that leaves it unreliable and require extensive maintenance to keep it running.

## Progress Assessment:

On-going fleet replacement project. Balance of current allotment sufficient for FY 2013 purchases.

## Related Projects:

There are no projects related to this project.

# AM0-LC437-ENGINE 22 FIREHOUSE REPLACEMENT

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** LC437  
**Ward:** 4  
**Location:** 5760 GEORGIA AVENUE NW  
**Facility Name or Identifier:** ENGINE 22  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$12,000,000

## Description:

A site for the new Engine 22 has been selected on the southeast corner of Georgia Avenue and Butternut Street NW. An architect has been selected to design a 30,000 square foot four bay facility that can provide the community with effective Fire and EMS Service and provide underground parking for our members, a new state-of-the-art fire station as well as a back up Fire Operations Center and a community room for public use.

## Justification:

This project is necessary because the current Engine 22 was built in 1897 and has long outlived its life expectancy. This project is extremely urgent. This project will benefit the District taxpayers by lowering response times to the northern portion of Engine 22's response area and by allowing the members of Engine 22 to work and live in a modern, safe and efficient fire station. This project supports the Mayor's priorities by moving Engine 22, Truck 11 and Ambulance 22 further north and reducing response times in the northern portion of their response area.

## Progress Assessment:

FEMS and DGS are proceeding with the design phase for a new Engine 22 on the southeast corner of Georgia Avenue and Butternut Street NW. The project construction is on hold pending the transfer from the U.S Army of the Walter Reed campus at Georgia Avenue and Aspen Street NW. Therefore, budget is approved for construction in FY 2014 and FY 2015.

## Related Projects:

The relocation of Engine 26 is related to this project. FEMS needs to build a new station for Engine 26 further east in their response area to reduce response times.

# AM0-LC537-ENGINE COMPANY 23 RENOVATION

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** LC537  
**Ward:** 2  
**Location:** 2119 G STREET NW  
**Facility Name or Identifier:** ENGINE 23  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$4,200,000

## Description:

The work includes major improvements and upgrades to Engine 23 at 2119 G Street N.W., that will bring the facility into compliance with current basic standards such as ADA access, Life Safety Codes, NFPA, firefighting protective gear storage and energy efficient HVAC systems. Most important will be the new Life Safety features by the installation of a fire sprinkler and fire alarm system. The interior of this historic building will be redesigned and all of the building's electrical and lighting systems and plumbing will be replaced to the Silver level of the LEED standard for renovations. The storm water management system will be replaced. Working with the Historic Preservation Office, FEMS will widen the apparatus bay door to accommodate the larger apparatus FEMS will be required to purchase to meet the 2010 EPA Clean Emissions Standard and all windows will be replaced with energy efficient windows that match the original ones. A temporary fire station will provide uninterrupted protection to the community during this project.

## Justification:

Originally built in 1910, Engine 23 has not had a major renovation in over 28 years and the infrastructure of this station has long passed its useful life expectancy. It has only had minor improvements or upgrades since it was constructed in 1910 and none since 1984. It does not comply with current basic standards such as ADA access, NFPA standards for Fire Stations, and female firefighter locker room accommodations. All of the major systems are in poor condition and are beginning to fail. Renovating this station to modern LEED standards will result in an operating cost savings while preserving this historic landmark.

## Progress Assessment:

This project is in the design phase, which should be completed in June 2011. As of now there are no anticipated bottlenecks.

## Related Projects:

Projects related to this project are Engine 6 (LD537C) and Engine 3 (LA337C). These stations are in the same general area as Engine 23 and are similar projects.

# AM0-LD839- EVOC COURSE

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** LD839  
**Ward:** 8  
**Location:** 4600 SHEPHERD PARKWAY SW  
**Facility Name or Identifier:** TRAINING ACADEMY INFRASTRUCTURE/EVOC COURSE  
**Status:** New  
**Useful Life of the Project:** 8  
**Estimated Full Funding Cost:**\$4,550,000

## Description:

This project will update the training academy to enable the training of firefighters in the most efficient safest manner possible. Some of the current issues facing the academy include environmental remediation from the of burning flammable/combustible liquids, severely deteriorated roadways, live overhead utility wires in outdated and nonoperational fire training props within the facility. Additionally, there are a multitude of facility and utility issues with the building and lot.

The project will upgrade all systems for underground utilities, electric, sewer, gas (both natural and LP), water distribution , fire hydrants, electrical conduits, and street lighting. New utilities will be placed to accomodate future improvements and safety hazards will be remediated through the relocation of overhead wiring hazards, removal of storage tanks, pipes and other equipment. All aging and non-operational fire training props, including the underground water and oil separator will be removed. Finally, there will be an installation of a new perimeter security fence, access gate, street improvements and a driving training course.

## Justification:

This project is necessary to bring the Emergency Vehicle Operators Course up to the latest industry standards for our Emergency Vehicle Operators. This project will benefit District taxpayers by providing well trained emergency vehicle operators. This project was funded in 2006 and is still in the design phase. This is a priority project due to the deteriorated condition of the current EVOC.

## Progress Assessment:

This project is just completing the design phase for the Emergency Vehicle Operators Course. There are no bottlenecks at this time. The project only has \$850,503 and will need to have funds reallocated from other FEMS Capital projects to adequately fund it.

## Related Projects:

# AM0-LE537-ENGINE 14 MAJOR RENOVATION

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** LE537  
**Ward:** 5  
**Location:** 4801 NORTH CAPITOL STREET NE  
**Facility Name or Identifier:** ENGINE 14  
**Status:** Developing scope of work  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$4,000,000

## Description:

A major renovation of the fire station located at 4801 North Capitol St. is required to preserve and prolong this facility's useful life, as well as comply with current building and life safety codes. This facility is in poor condition and has not had any major upgrades or modernization since it was built in 1945. This renovation is necessary due to the facility's age and deteriorating condition. The present facility is inadequate to meet the changing demands of its service area. The building was not originally designed to accommodate the number of personnel currently assigned and is in need of an addition to provide adequate working conditions. The scope of this project will include the construction of a 3,000 sq. ft. addition, the replacement of HVAC units, electrical and plumbing systems. Fire alarms and protections will be installed in compliance with fire and life safety codes along with a new ADA compliant public restroom, sleeping quarters, showers, bathrooms, locker rooms, and a kitchen. Additionally, the project will include the installation of strip heaters in an apparatus bay and a residential washer and dryer rack. A biohazard decontamination area will be installed to comply with federal regulations. The facility will also have extensive concrete replacement, refurbishment or replacement windows and doors, a renovated basement, repairs to its brick exterior structure and an upgraded drainage system.

## Justification:

This project is necessary, because this station has not had a major renovation since it was built in 1945. The station needs to be brought up to code and modernized.

## Progress Assessment:

The project has been delayed while a site for a temporary station to house Engine 14, Medic 14 and Ambulance 14 during the renovation is found. The design of this project is almost complete but must be revised to meet LEED Silver standards and provide wider bay doors that will accommodate equipment built with EPA-mandated, cleaner, diesel engines.

## Related Projects:

Project LA 437C, Renovation of Engine 4 is related to this project.

# AM0-LE737-ENGINE 27 MAJOR RENOVATION

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** LE737  
**Ward:** 7  
**Location:** 4201 MINNESOTA AVENUE NE  
**Facility Name or Identifier:** ENGINE COMPANY 27  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$4,300,000

## Description:

This project provides for a total renovation of this 102-year-old fire station at 4201 Minnesota Ave., N.E. The two-story brick structure requires total renovation and modernization to preserve and prolong the facility's useful life, as well as comply with current building and life safety codes. Much of the building's infrastructure is original and has exceeded its intended life. The building's electrical, plumbing, lighting, HVAC system, and living quarters are past useful service and will be replaced. The scope for this building includes repairing and restoring deteriorating exterior shell, replacing or refurbishing all windows and doors, installing a negative pressure gear room, renovating the basement, stabilizing the building's rear foundation, renovating the garage, and installing radiant strip heating. Code compliant fire alarm and fire sprinkler systems, an emergency generator, the roof and roof drainage systems will be replaced. Interior improvements will include replacing and widening apparatus doors and installing a residential washer and dryer. The kitchen, sleeping quarters, living quarters, bathrooms, showers and locker rooms will be replaced. In the building exterior area the front apron and side alleys will be repaved and the new trench drains will be installed. Finally, an ADA compliant public restroom will be installed. All renovations will be done to LEED Silver standard.

## Justification:

This project is necessary because of the poor condition of the station. This project will benefit the District taxpayers by having the fire and safety officials living and working in a code compliant and energy efficient building.

## Progress Assessment:

This project has not started because FEMS has not been able to find a site for a temporary station to be used during the renovation. The project is underfunded because of the additional cost associated with building to LEED Silver standard and widening the apparatus bay doors.

## Related Projects:

The renovations of Engine 19 and Engine 15.

# AM0-LF239-FEMS SCHEDULED CAPITAL IMPROVEMENTS

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** LF239  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** N/A  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$25,000,000

**Description:**

This project provides for scheduled capital improvements in various Department facilities to include repair and/or replacement of foundation, concrete, plaster wall, window, floor covering, the heating and cooling system, the electrical system, the lighting system, plumbing and sanitary drains, fire detection and alarm systems, the parking lot, the roof, the masonry, drainage and erosion control systems. Additionally, there will be safety and security upgrades to the facility.

**Justification:**

This project is vital to provide funding for major and minor capital improvements that are needed throughout FEMS 35 various facilities.

**Progress Assessment:**

This project allows FEMS to upgrade facilities in an efficient manner by ensuring proper funding is available for capital projects.

**Related Projects:**

None.

# FB0-LG337-FIRE TRAINING SIMULATORS

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Project No:** LG337  
**Ward:** 8  
**Location:** 4600 SHEPHERD PARKWAY SW  
**Facility Name or Identifier:** FIRE & EMS TRAINING ACADEMY  
**Status:** New  
**Useful Life of the Project:** 8  
**Estimated Full Funding Cost:** \$4,000,000

## Description:

This project involves the installation of various training simulators, props and other devices used to provide a safe, controlled, and realistic training environment for fire recruits, experienced firefighters, emergency medical providers and special operations personnel as provided for in the Training Academy Master Plan. Simulators will include remotely controlled, propane gas fired props to simulate automobile fires, gas meter fires, and flammable liquid spill fires securely mounted on a concrete pad with appropriate emergency shut off devices installed. The project will also include the construction of a fire extinguisher training area with a code compliant extinguishing agent containment/recycling system, a large concrete pad with appropriate props for safely conducting automobile extrication training, and a concrete simulation of a trench excavation to be used for cave-in/collapse rescue training.

## Justification:

This project is critical toward providing much needed training to our firefighters and EMS providers. The agency has been forced to contract with other state agencies to provide training due to the lack of available resources. This investment in training will show a positive correlation to the reduction of injuries on the fireground.

## Progress Assessment:

This is an ongoing project with different training props being purchased in different fiscal years.

# AM0-LG537-TRAINING ACADEMY SITE IMPROVEMENTS

**Agency:** FIRE AND EMERGENCY MEDICAL SERVICES (FB0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** LG537  
**Ward:** 8  
**Location:** 4600 SHEPHERD PARKWAY SW  
**Facility Name or Identifier:** FIRE & EMS TRAINING ACADEMY  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 50  
**Estimated Full Funding Cost:** \$12,000,000

## Description:

This project funds the demolition of the original recruit training building after the construction of the replacement. The work will include the complete demolition and removal of the original recruit training building and temporary trailer building replacements. Site work, grading, paving and utility upgrades that will be necessary with the new building are also included. This project will also allow for the completion of the new traffic flow pattern outlined in the Training Academy Master Plan.

## Justification:

The Training Academy recruit building was built in 1960. It has long out lived its life expectancy. It does not have the classroom size or necessary infrastructure to support a proper learning environment. FIRE & EMS has recently hired a large number of employees in order to bring the Department to full strength. The Department plans to continue to maintain this level of hiring for years to come. FIRE & EMS is also working with MPD to possibly have a combined Training Academy.

## Progress Assessment:

This project is in the design phase.

## Related Projects:

There is no project related to this project.

# (FL0) DEPARTMENT OF CORRECTIONS

## **MISSION**

The Department of Corrections (DOC) provides a safe, secure, orderly, and humane environment for the confinement of pretrial detainees and sentenced inmates while affording those in custody meaningful rehabilitative opportunities that will assist them to re-integrate constructively into the community.

## **BACKGROUND**

DOC operates the Central Detention Facility (CDF, or DC Jail), a 450,000 square foot facility with capacity to house 2,164 inmates. CDF has 240 closed-circuit television cameras, approximately 1,600 cell door mechanisms in 18 housing units, three 540 kilowatt emergency generators, an HVAC system with four chillers, and an extensive plumbing and steam distribution system. The building also contains an elaborate fire alarm system, six escalators, five elevators, laundry equipment and showers.

## **CAPITAL PROGRAM OBJECTIVES**

1. Ensure safe, secure and hygienic working and living conditions for all Central Detention Facility inhabitants by implementing infrastructure and renovation projects that extend the useful life of the Central Detention Facility while satisfying correctional institution standards and court orders.
2. Implement re-engineering and renovation projects to improve business processes.

## **RECENT ACCOMPLISHMENTS**

- Started construction on cell door project. Renovated 3 out of 18 housing units.
- Received CCTV bids; evaluation underway.
- Major renovation of exterior structure in-progress, including pressure cleaning, sealing pre-cast panels and caulking of windows.
- Steam return project entered design phase.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# AM0-CEV01-DOC ELEVATOR REFURBISHMENT

**Agency:** DEPARTMENT OF CORRECTIONS (FL0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** CEV01  
**Ward:** 7  
**Location:** 1901 D STREET SE  
**Facility Name or Identifier:** CDF/DC JAIL  
**Status:** New  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$1,600,000

**Description:**

This project was created to refurbish elevators at existing DOC buildings. Scope includes complete refurbishment including replacement of controllers and governors, and upgrade for ADA compliance.

**Justification:**

Refurbishment of elevators on a regular basis is critically important to maintain the value of the District's assets and to ensure safety for the occupants.

**Progress Assessment:**

TBD

# AM0-CGN01-GENERAL RENOVATIONS AT DOC FACILITIES

**Agency:** DEPARTMENT OF CORRECTIONS (FL0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** CGN01  
**Ward:** 7  
**Location:** 1901 D STREET SE  
**Facility Name or Identifier:** CDF/DC JAIL  
**Status:** New  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$2,000,000

**Description:**

The CDF commonly known as the DC Jail is an approximate 450,000 SF facility that is comprised of eighteen cell blocks that house inmates as well as an Administration Building that provides services to the inmates, visitors and operations staff.

This project's scope involves the renovation and retrofitting of the various systems that support DOC Facilities. This includes security, hvac, windows, roof, mechanical, electrical, elevator/escalator, and energy.

**Justification:**

# AM0-CR007-INMATE PROCESSING CENTER

**Agency:** DEPARTMENT OF CORRECTIONS (FL0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** CR007  
**Ward:** 7  
**Location:** 1901 D STREET SE  
**Facility Name or Identifier:** CDF/DC JAIL  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$17,000,000

## Description:

Project is combined with CR0-06 for the design and construction of the Inmate Processing Center, also called the Inmate Receiving and Discharge Area or the Booking and Release Center. This project has been established to track the \$3 million reversion funds from Bynum Settlement separately for the Court.

## Justification:

Subject of court case settlement agreement.

## Progress Assessment:

The project is currently in design.

## Related Projects:

# ELC-CR008-UPGRADES CENTRAL SECURITY CAMERAS

**Agency:** DEPARTMENT OF CORRECTIONS (FL0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** CR008  
**Ward:** 7  
**Location:** 1901 D STREET SE  
**Facility Name or Identifier:** CDF/DC JAIL  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:** \$6,000,000

**Description:**

The CDF commonly known as the DC Jail is an approximate 450,000 SF facility that is comprised of eighteen cell blocks that house inmates as well as an Administration Building that provides services to the inmates, visitors and operations staff.

This project's scope involves the addition of security cameras to cover all areas of the facility.

**Justification:**

There have been recent improvements completed at the jail which require upgrades to the existing systems. The safety and protection of the inmates and staff has remained a constant concern and this project is an effort to continue with the upgrades and improvements to the security camera systems at the CDF.

**Progress Assessment:**

On-going project

**Related Projects:**

CR002C - Renovation of Cell Doors and Motors. These two projects relate to security in the facility.

# AM0-CR104-HVAC REPLACEMENT - DOC

**Agency:** DEPARTMENT OF CORRECTIONS (FLO)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** CR104  
**Ward:** 7  
**Location:** 1901 D STREET SE  
**Facility Name or Identifier:** CDF/DC JAIL  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$17,000,000

## Description:

The heating, ventilation and air-conditioning system at the correctional detention facility has been in disrepair for years. Additionally, the water supply to the facility has been extremely problematic. The main booster pumps are at the end of their useful life and no filters, softeners or strainers are installed on the system. All work that was part of the original contract has been completed. However, in order for the system to perform in accordance with the design parameters and deliver the requisite amount of air in the cellblocks, additional fine tuning is necessary; four large rooftop duct fittings need to be replaced, transitions from the large rooftop units need to be modified and final air and water balancing needs to be done for the system to work properly. Chiller, steam station and associated piping overhaul is also included.

## Justification:

Air handling units serving the cellblocks are located in the respective mechanical rooms, which are very congested and in an extremely dilapidated state. All old HVAC equipment and the pneumatic controls have not really worked in years without constant trouble and attention. That caused the air quality in the jail, including CO2 levels, air flow, air temperature and humidity to go beyond acceptable levels.

## Progress Assessment:

On-going project.

# (FZ0) D.C. SENTENCING & CRIM. CODE REV. COMM.

## **MISSION**

The mission of the District of Columbia Sentencing and Criminal Code Revision Commission (SCCRC) is to implement, monitor, and support the District's voluntary sentencing guidelines, to promote fair and consistent sentencing policies, to increase public understanding of sentencing policies and practices, and to evaluate the effectiveness of the guidelines system in order to recommend changes based on actual sentencing and corrections practice and research.

## **BACKGROUND INFORMATION**

The Commission has been informed that the D.C. Superior Court (DCSC) would be changing how court data is shared with partner criminal justice agencies and the amount of data that is shared with these agencies. It will have a direct impact on how Commission monitors guideline compliance and analyzes sentencing data because all of the disposition and sentencing data used by the agency is transferred directly from DCSC.

Currently sentencing related data used by the Commission is transferred from DCSC and filtered through JUSTIS. The interface with JUSTIS is designed to accept only specific data variables from the court, which are then transferred into the agency's database and web application. This data transfer system was designed in 2005, and provides for a daily transfer of individual case disposition and sentencing related data. The Commission annually receives offender and offense related data from approximately 4,300 felony counts. Data is initially transferred when a case disposition occurs and then updated when a sentence is imposed. Thus, there are approximately 10,000 data transmissions from the court to the Commission annually. This data has enabled the Commission to determine judicial compliance, analyze sentencing trends and evaluate the effectiveness of the sentencing guidelines. It is from this data that the agency creates its Annual Reports, Issues Papers and responses to various data requests from criminal justice professionals. Data analysis is the core function of the agency and it is the source of information from which modifications to the guidelines are developed and implemented as required in D.C. Code §3-101(b)(2)-(6).

DCSC will be implementing a new Integrated Justice Information System (IJIS) Outbound 12.1. This will replace the RAM Server—the technology by which data from the court is now transferred—with the new IJIS Broker. Currently, agencies pull data directly from the Agency Database; however, after the implementation of IJIS Outbound 12.1, agencies will pull data directly from JUSTIS and the agency database will cease to function as it is currently constructed. In addition, JUSTIS will use an XML to facilitate a full data transfer from the court without any filtering. The RAM Server and Agency Database are scheduled to be shut down six months after the IJIS Outbound 12.1 is fully implemented, which should tentatively occur in late 2012 or early 2013. At that time, agencies must have made the necessary changes to their respective data systems if they are to receive data from the court.

**Elements on this page of the Agency Summary include:**

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
  - 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
  - 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017
  - 4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
  - 4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.
  - 4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018
  - 4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).
- n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact
- n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.
- n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# ELC-FZ037-DC IT/IJIS INTEGRATION

**Agency:** D.C. SENTENCING & CRIM. CODE REV. COMM. (FZ0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** FZ037  
**Ward:** 6  
**Location:** 441 4TH STREET, NW, SUITE 830 SOUTH  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** New  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$800,000

**Description:**

IT system integration with the IJIS (DOJ) sentencing guidelines

**Justification:**

Currently sentencing related data used by the Commission is transferred from DCSC and filtered through JUSTIS. The interface with JUSTIS is designed to accept only specific data variables from the court, which are then transferred into the agency's database and web application. This data transfer system was designed in 2005, and provides for a daily transfer of individual case disposition and sentencing related data. The Commission annually receives offender and offense related data from approximately 4,300 felony counts. Data is initially transferred when a case disposition occurs and then updated when a sentence is imposed. Thus, there are approximately 10,000 data transmissions from the court to the Commission annually. This data has enabled the Commission to determine judicial compliance, analyze sentencing trends and evaluate the effectiveness of the sentencing guidelines. It is from this data that the agency creates its Annual Reports, Issues Papers and responses to various data requests from criminal justice professionals. Data analysis is the core function of the agency and it is the source of information from which modifications to the guidelines are developed and implemented as required in D.C. Code §3-101(b)(2)-(6).

DCSC will be implementing a new Integrated Justice Information System (IJIS) Outbound 12.1. This will replace the RAM Server—the technology by which data from the court is now transferred—with the new IJIS Broker. Currently, agencies pull data directly from the Agency Database; however, after the implementation of IJIS Outbound 12.1, agencies will pull data directly from JUSTIS and the agency database will cease to function as it is currently constructed. In addition, JUSTIS will use an XML to facilitate a full data transfer from the court without any filtering. The RAM Server and Agency Database are scheduled to be shut down six months after the IJIS Outbound 12.1 is fully implemented, which should tentatively occur in late 2012 or early 2013. At that time, if agencies have not made the necessary changes to their respective data systems, they will no longer receive data from the court.

The Commission will be required to change its interface with JUSTIS to accept unfiltered data elements and transfer the data to a Staging Database from which the necessary and required data elements can be transferred to the agency's database and web application. Currently, the agency does not utilize a staging database and will need to construct one. In addition, the amount of data available through IJIS Outbound 12.1 will increase significantly and the current agency web application was not constructed to process unfiltered data. Further, changes will need to be made to the agency's web application to utilize the additional data being provided.

If funding is not available to make the required changes to maintain compatibility with IJIS Outbound 12.1 and the Commission can no longer receive sentencing data from the court, the agency will be unable to meet any of its statutory duties.

# (GA0) DISTRICT OF COLUMBIA PUBLIC SCHOOLS

## MISSION

The District of Columbia Public Schools (DCPS) is dedicated to serving the needs of public education from pre-kindergarten through twelfth grade. The Department of General Services (DGS), established FY 2012, is the implementer agency for the substantial rehabilitation of existing facilities and the construction of new facilities. With guidance from the Office of Deputy Mayor for Education, the two agencies are revising a Facilities Master Plan that will be submitted to Council for approval. DCPS capital projects are funded by a combination of long-term financing and pay-as-you-go revenues transferred from the General Fund.

## CAPITAL PROGRAM OBJECTIVES

1. Direct and manage the modernization or construction of DCPS schools and facilities.
2. Manage routine maintenance, repairs, and small capital projects that are beyond the scope of the janitorial and custodial staff.
3. Implement education-related facility projects for other District agencies.

## RECENT ACCOMPLISHMENTS

- Completed Full Modernizations and returned 11 fully modernized schools to the DCPS inventory: Brightwood ES, Sousa MS, Rose Hardy MS, Phelps HS, School Without Walls HS, Alice Deal JHS, HD Cooke ES, Addison ES, Wheatley ES, Savoy ES, and Walker-Jones EC.
- Completed 4 Phase 1 Modernization projects focused on bringing the classrooms up to current DCPS standards: Brent ES, Burroughs ES, Tubman ES and Ferebee-Hope ES. The next group of Phase 1 modernizations in FY 2010: Burrville ES, Drew ES, Johnson MS, M.L. King ES, Thomas ES, Truesdell ES, Tyler ES, Whittier ES and J.O. Wilson ES.
- Ongoing Modernizations have commenced at Eastern HS, Wilson HS, Anacostia HS, Stoddert ES, and Janney ES.
- Completed 11 Athletic Fields Modernizations: Anacostia HS, Ballou HS, Cardozo HS, Coolidge HS, Dunbar HS, Eastern HS, McKinley HS, Roosevelt HS, Spingarn HS, J.O. Wilson ES, and Stanton ES.
- Alignment of Educational Programs and Facilities:
  1. 29 schools completed in 2008 as receiving/consolidations projects with some classrooms re-configurations to support the academic programs.
  2. The first phase of health suite/nurse stations renovations were completed at 52 schools including improvements such as ADA fixtures, new flooring, lighting upgrades and furniture, fixture and equipment.
  3. 21 schools received athletic facility improvements including either new playgrounds and/or new artificial turf fields.
- Stabilization Projects consist of measures to ensure healthy and safe living and working environments in all schools as they await their scheduled modernization. Initially the agency focused primarily on heating and cooling projects. In this effort every school had adequate heating during the heating season and over 3,000 window AC units were installed in classrooms for comfort during the cooling season. OPEFM continued to focus much attention on a series of heating and cooling projects; however, recently larger projects were executed; such as, major interior painting, plumbing repairs, 8 window repairs/replacements projects, 7 roof repairs/replacements and abating codes violations. Every school received improvements in some way.
- Intra-Agency Projects Accomplishments:
  1. Athletic Fields: On behalf of DPR, OPEFM completed at Riggs-LaSalle, Ridge Park, Ft. Stanton, Chevy Chase, Banneker Field and the Wilson (Pool) Aquatic Center. Additional work (new field and playground) at Benning Terrace (DCHA) and Hopkins Playground (DCHA).
  2. Other partnership projects included MPD at the former Bowen ES, OCTT at McKinley HS and KIPP/Will Scott Montgomery.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# AM0-BRK37-BROOKLAND MS MODERNIZATION

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** BRK37  
**Ward:** 5  
**Location:** WASHINGTON DC  
**Facility Name or Identifier:** BROOKLAND MS  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$43,732,000

**Description:**

Re-opening of the existing Brookland ES, modernizing and transforming it into a new middle school. Scope of the project shall consist of either fully modernizing the existing school with a gymnasium addition, or demolition of the existing school and construction of a new middle school in support of the Chancellor's goals for education.

**Justification:**

Ward 5 student population warrants one or more new middle schools.

**Progress Assessment:**

Requirements are being developed.

**Related Projects:**

NJ837C, McKinley Technology High School

# AM0-CHA37-CHALLENGER CENTER FOR SPACE ED

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** CHA37  
**Ward:**  
**Location:** TBD  
**Facility Name or Identifier:** CHALLENGER CENTER  
**Status:** New  
**Useful Life of the Project:** 8  
**Estimated Full Funding Cost:** \$1,000,000

**Description:**

The budget will support the cost of a two-room simulator that consists of a space station, complete with communications, medical, life, and computer science equipment, and a mission control room patterned after NASA's Johnson Space Center and a space lab ready for exploration.

**Justification:**

The simulator provides educational opportunity for students to see themselves in successful roles as scientists, engineers and researchers.

**Progress Assessment:**

New.

# AM0-GI010-SPECIAL EDUCATION CLASSROOMS

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** GI010  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$65,400,000

**Description:**

Special education classrooms will be built in DC public schools as well as non-special education classrooms adapted to accommodate special education students in the least possible restrictive environment.

**Justification:**

To the greatest extent possible, special education students will be accommodated in the least possible restrictive environment within non-special education classrooms adapted in such a manner that all eligible students may obtain a public education. As a result of this commitment, the cost of non-public tuition as well as special education transportation should begin to decrease.

**Progress Assessment:**

On-going project.

**Related Projects:**

There are no related projects.

# AM0-GI552-ROSE/RENO SCHOOL SMALL CAP PROJECT

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** GI552  
**Ward:** 3  
**Location:** WASHINGTON DC  
**Facility Name or Identifier:** ROSE/RENO SCHOOL  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 20  
**Estimated Full Funding Cost:**\$9,000,000

## Description:

This project includes modernization of the historic Rose-Reno School and includes an addition to connect the school to the adjacent Alice Deal Middle School.

## Justification:

Alice Deal Middle School, which is adjacent to Rose-Reno School, has strong enrollment projections and needs additional classrooms to accommodate the existing student population.

## Progress Assessment:

Project has completed conceptual design that is approved by DCPS. In fall 2012 stakeholders will evaluate and, if necessary, revise the conceptual design prior to commencement of the design development phase.

## Related Projects:

# AM0-JOH37-JOHNSON MS RENOVATION/MODERNIZATION

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** JOH37  
**Ward:** 8  
**Location:** 1400 BRUCE PLACE SE  
**Facility Name or Identifier:** JOHNSON MS  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$37,600,000

**Description:**

This project involves the modernization and renovation of this school using a systemic/phased approach consisting of three phases and an addition to the school. Modernization will consist of mechanical, electrical, and plumbing replacement; restoration of the exterior; new roofing; other interior improvements; new fixtures, furniture, and equipment; and IT upgrades.

**Justification:**

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010.

**Progress Assessment:**

-

# AM0-MH137-DUNBAR SHS MODERNIZATION

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** MH137  
**Ward:** 1  
**Location:** 1301 NEW JERSEY AVENUE NW  
**Facility Name or Identifier:** DUNBAR SHS  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$122,031,000

## Description:

This project encompasses facility upgrades designed to revitalize the educational environment at Dunbar SHS through a revitalization/modernization or construction of a new facility. The project will also address compliance with the Americans with Disabilities Act(ADA). Further, this project will also eliminate the many facility emergencies that occur as the result of years of maintenance neglect in the past for such components as roofs, boilers, windows and frames, exterior and interior doors and frames, exterior walls, site work, interior finishes, electrical, mechanical, life-safety equipment and compliance with legislative requirements, including health and safety issues.

## Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010.

## Progress Assessment:

Under construction.

# AM0-MR337-MAURY ES MODERNIZATION/RENOVATION

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** MR337  
**Ward:** 6  
**Location:** 1250 CONSTITUTION AVENUE NE  
**Facility Name or Identifier:** MAURY ES  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$15,900,000

## Description:

This project involves the modernization and renovation of this school using a systemic/phased approach consisting of three phases and an addition to the school. Modernization will consist of mechanical, electrical, and plumbing replacement; restoration of the exterior; new roofing; other interior improvements; new fixtures, furniture, and equipment; and IT upgrades.

## Justification:

This project is included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010.

## Progress Assessment:

-

**AM0-NJ237-MACFARLAND MS**

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** NJ237  
**Ward:** 4  
**Location:** 4400 IOWA AVENUE NW  
**Facility Name or Identifier:** MACFARLAND MS  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$30,700,000

**Description:**

This project encompasses facility upgrades designed to revitalize the educational environment at MacFarland MS Modernization/Renovation. Many facility components(e.g. roofs, boilers, windows, etc.) at MacFarland ES Modernization/Renovation are in failure, or near failure modes. Operations and maintenance activities are unable to correct these problems due to cost. As these deficiencies continue, costs increase, not just in facility dollars, but more importantly on the impact of ability of the school to deliver quality curriculum in the classrooms. This revitalization will be accomplished through a revitalization/modernization or new building at MacFarland MS Modernization/Renovation and also bring the structure in compliance with the Americans with Disabilities Act(ADA). Further, this project will also eliminate the many facility emergencies that occur as the result of years of maintenance neglect in the past.

**Justification:**

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010.

**Progress Assessment:**

-

# AM0-NX337-CARDOZO HS

**Agency:** DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** NX337  
**Ward:** 1  
**Location:** 1200 CLIFTON STREET NW  
**Facility Name or Identifier:** CARDOZO HS  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$120,000,000

## Description:

This project encompasses facility upgrades designed to revitalize the educational environment at Cardozo High School. Facility components such as roofs, boilers, and windows are failing, and costly maintenance procedures are unable to correct these problems. Costs increase as these deficiencies continue and the ability of the school to deliver quality curriculum in the classrooms is diminished. This project will also eliminate the many facility emergencies that occur as the result of years of deferred maintenance. The improvements will be accomplished through a revitalization of all major systems and components including roofs, windows and frames, exterior and interior doors and frames, exterior walls, site work, interior finishes, electrical, mechanical, life-safety equipment and compliance with legislative requirements, including health and safety issues and the Americans with Disabilities Act(ADA).

## Justification:

This project is included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010.

## Progress Assessment:

-

# (GD0) STATE SUPERINTENDENT OF EDUCATION (OSSE)

## **MISSION**

The office of the State Superintendent of Education (OSSE) sets high expectations, provides resources and support, and exercises accountability to ensure that all residents receive an excellent education.

## **BACKGROUND**

The office of the State Superintendent of Education (OSSE) capital program includes the Statewide Longitudinal Education Data System (SLED), and the Special Education Data System (SEDS). SLED is a project to create a data warehouse populated with information extracted from disparate enterprise educational systems into a single compressive relational database. The SEDS is a comprehensive data system designed to support high quality, seamless service delivery for children with disabilities within the District. The SEDS is currently in its second school year of implementation and OSSE has mandated its use by all LEAS, including DCPS, via regulations issued on December 4, 2009. SEDS supports the goal of optimizing the ability to track the District of Columbia's delivery of special education services to all students.

## **CAPITAL PROGRAM OBJECTIVES FOR SEDS**

1. To automate and streamline the Individualized Education Program (IEP) development, management, and historical record keeping for local districts and school sites;
2. To improve service delivery by reducing the burden of paperwork and allowing staff to focus on delivering quality instruction and services to students with disabilities;
3. To support best practice in special education management by providing real-time, district-wide reporting, and accurate and reliable state and federal reporting;
4. To facilitate compliance and quality assurance through improved data accuracy, auditing, and timeline management; and
5. To support seamless transactions for students via an improved process for student special education records transfer between schools and districts.

## **CAPITAL PROGRAM OBJECTIVES FOR SLEDS**

Once built, the SLED will be the main repository of the District of Columbia's current and historical public education student, teacher, and school data. The data will be used for education planning, analysis, research, and reporting and track student information statewide over multiple years and across education institutions. Additionally, the SLED will enable the sharing of critical information that tracks student learning spanning early care and education, K-12 programs, post-secondary, and adult education. It will ultimately link to other youth and adult serving institutions to provide a comprehensive picture of the District of Columbia's learners.

## **RECENT ACCOMPLISHMENTS**

OSSE has assigned nearly 100% of the currently enrolled students with a Unique Student Identifier (USI). More than 110,000 USIs have been assigned and for the first time, OSSE was able to provide auditors with accurate, upto date roster data for the annual enrollment audit in October, 2010. Further, the SLED also includes nine years of student-level enrollment and five years of DC Comprehensive Assessment System (DC CAS) data. OSSE received and reviewed five new SLED proposals to expand the current system and anticipates an award to a vendor in Spring/Summer 2011.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

- 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
- 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017
- 4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
- 4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.
- 4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018
- 4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# ELC-N2802-STUDENT LONGITUDINAL DATA SYSTEM

**Agency:** STATE SUPERINTENDENT OF EDUCATION (OSSE) (GD0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** N2802  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Under construction  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$25,423,000

## Description:

The Office of the State Superintendent of Education (OSSE) is developing a longitudinal data system referred to as the Statewide Longitudinal Education Data Warehouse (SLED). The SLED will be the main repository of the District of Columbia’s current and historical public education student, teacher, and school data. The data will be used for education planning, analysis, research, and reporting. The SLED will be populated with information extracted from disparate enterprise educational systems into a single comprehensive relational database. It will standardize student academic information currently stored in various local education agencies (LEAs) and it will track student information statewide over multiple years and across education institutions. Once built, the SLED will enable the sharing of critical information that tracks student learning spanning early care and education, K-12 programs, post-secondary, and adult education. It will ultimately link to other youth and adult serving institutions to provide a comprehensive picture of the District of Columbia’s learners.

## Justification:

To continue qualifying and competing for federal funds, OSSE must demonstrate its capacity to link or its plans to link student information across pre-school, K-12 and postsecondary education, as well as workforce data. As a 2007 recipient of \$5,700,000 in federal grant funds to build a state longitudinal data system, OSSE must also fulfill the terms of the grant agreement to keep the funds and avoid default.

## Progress Assessment:

In March 2010, OSSE decided to abandon the “old” SLED and began creating a “new” SLED using Microsoft’s SQL Server as its database with a SharePoint front-end. In August 2010, an RFP was published and as of September 29th, five proposals had been received.

# ELC-N2803-SPECIAL EDUCATION DATA SYSTEMS

**Agency:** STATE SUPERINTENDENT OF EDUCATION (OSSE) (GD0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** N2803  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Under construction  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$9,400,000

## Description:

SEDS is a comprehensive data system designed to support high quality, seamless service delivery for children with disabilities within the District. SEDS is currently in its second school year of implementation and OSSE has mandated its use by all LEAS, including DCPS, via regulations issued on December 4, 2009. SEDS supports the goal of optimizing the ability to track the District of Columbia's delivery of special education services to all students. The OSSE continues to make significant progress toward meeting the following objectives:

- 1) To automate and streamline the Individualized Education Program (IEP) development, management, and historical record keeping for local districts and school sites;
- 2) To improve service delivery by reducing the burden of paperwork and allowing staff to focus on delivering quality instruction and services to students with disabilities;
- 3) To support best practice in special education management by providing real-time district wide reporting, and accurate and reliable state and federal reporting;
- 4) To facilitate compliance and quality assurance through improved data accuracy, auditing, and timeline management; and
- 5) To support seamless transactions for students via an improved process for student special education records transfer between schools and districts.

## Justification:

The Special Education Data System (SEDS) is required to support local, federal, legal and regulatory requirements needed for compliance with the Individuals with Disabilities Education Act (IDEA) and the Blackman Jones Consent Decree (section F).

## Progress Assessment:

SEDS Core Module Improvements was released to users on September 8, 2009. OSSE has worked with various stakeholders to improve data quality and functionality for the system. A new version is expected to be released in May 2011.

# (GF0) UNIVERSITY OF THE DISTRICT OF COLUMBIA

## **MISSION**

The University of the District of Columbia is an urban land grant institution of higher education with an open admissions policy offering certificate, associate, baccalaureate, and graduate/professional degrees. The University of the District of Columbia provides a quality liberal and practical education that prepares students for the future.

## **BACKGROUND**

UDC operates its programs in 10 buildings on its Van Ness campus located at 4200 Connecticut Avenue, totaling approximately 1.2 million square feet of space. The University also operates a main campus garage with approximately 730 parking spaces and a power plant containing two chillers and two boilers. The University facilities in addition to the Van Ness Campus include, the Bertie Backus site at 5171 South Dakota Avenue, NE; the PR Harris site 4600 Livingston Road, SE; the 143.5 acre Muirkirk Farm in Beltsville, Maryland; the University Residence at 3250 Rittenhouse St. NE; and a hangar at National Airport. Nine of the ten buildings on the Van Ness Campus and the parking garage were built in the early 1970s.

## **CAPITAL PROGRAM OBJECTIVES**

1. To provide a healthy, safe and appealing higher education environment where all facilities meet academic accreditation standards, comply with building codes and ADA requirements, and are equipped with advanced technology.
2. Develop financial support for campus capital improvements by meeting the university president's fundraising goals for gifts from individuals, corporations and private foundations.

## **RECENT ACCOMPLISHMENTS**

- Design of the New Student Center
- Approval of the 10 year Campus Master Plan
- Automation of Parking Garages
- Renovation of Building 32/42 'C' Level
- Renovation of Building 38/49 'C' Level (Phase I)
- Renovation of Environmental Laboratory, Building 42
- Replacement of Exterior Windows in Building #38 (Phase I)
- Renovation and Relocation of Law School (Building 52)

**Elements on this page of the Agency Summary include:**

# (GO0) SPECIAL EDUCATION TRANSPORTATION

## **MISSION**

The Special Education Transportation ensures equal access to education for all learners by providing safe transit services to children with special needs.

## **SCOPE**

Special Education Transportation plans to relocate its headquarters from the Penn Center, 1709 3rd Street NE to a space more appropriately equipped to serve the needs of a 21st century office in terms of telecommunication, cabling, electrical wiring, ventilation, heating, air conditioning, and pest control . The new space will accommodate 55 administrative staff.

Additionally, Special Education Transportation plans to renovate the 5th Street bus terminal, located at 2115 5th Street NE. The new facility will accommodate 35 work stations as well as a large space to accommodate 311 drivers and attendants.

## **CAPITAL PROGRAM OBJECTIVES**

### **1. Justification for 5th Street Terminal Renovation**

This terminal is not equipped to support the heating, cooling, IT, and telephonic needs of the current staff. In addition, most of the furniture and systems hardware have not been updated in more than 20 years, and the layout is inefficient because the facility's original floor plan and purpose was to serve as a vehicle repair facility. The 5th Street terminal also poses potential health risks due to improper ventilation and inadequate heating and cooling systems, sporadic heating and cooling due to failing boiler and make-shift A/C facilities, broken windows, missing doors.

#### **Capital Program Objectives for 5th Street Terminal Renovation**

- a. To ensure the health and safety of Special Education Transportation's employees.
- b. To reduce operating and maintenance costs needed to sustain an old and dilapidated facility.
- c. To provide the Special Education Transportation's 5th Street Terminal staff a properly equipped and functioning facility that no longer impedes their ability to complete the mission of the Agency.

### **2. Justification for the Penn Center Relocation**

This facility is not equipped to support the heating, cooling, IT, and telephonic needs of the current staff. In addition, most of the systems furniture, hardware, and desks have not been updated in more than 20 years. The Penn Center is a DCPS facility. Special Education Transportation is occupying the building as part of an agreement negotiated with DCPS when special education bus operations transitioned from DCPS to OSSE. Since the transition to OSSE, DCPS has expressed interest in using the building for other purposes.

#### **Capital Program Objectives for the Penn Center Relocation**

- a. To ensure the health and safety of Special Education Transportation's employees;
- b. To reduce operating and maintenance costs needed to sustain an old and dilapidated facility; and
- c. To relocate the Special Education Transportation's headquarters to a facility befitting a government agency of Special Education Transportation's size and importance.

**Elements on this page of the Agency Summary include:**

n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# GO0-BU0B0-VEHICLE REPLACEMENT

**Agency:** SPECIAL EDUCATION TRANSPORTATION (GO0)  
**Implementing Agency:** SPECIAL EDUCATION TRANSPORTATION (GO0)  
**Project No:** BU0B0  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** BUSES  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 8  
**Estimated Full Funding Cost:**\$21,538,000

## Description:

The Office of the State Superintendent of Education (OSSE)'s Division of Transportation (DOT) current fleet of buses ranges in age from 3-15 years old. DOT seeks to sustain a replacement schedule of 8-year useful life for its bus fleet. Under this plan, DOT would replace 100 vehicles per year in 5 tranches spaced evenly throughout the year. This plan would allow DOT to replace each of their 800 vehicles every 8 years.

## Justification:

The useful life of a school bus is typically 8 years. Of OSSE DOT's current fleet of approximately 800 buses, 308 are over 8 years, some as old as 15 years. 186 have over 100,000 miles of use. These older buses also affect over-time payments to drivers and attendants and on-time statistics due to increased breakdowns on the road. The current cost to maintain these older vehicles is more than \$7.2M annually.

# GO0-BU303-5TH STREET TERMINAL RENOVATION

**Agency:** SPECIAL EDUCATION TRANSPORTATION (GO0)  
**Implementing Agency:** SPECIAL EDUCATION TRANSPORTATION (GO0)  
**Project No:** BU303  
**Ward:** 5  
**Location:** 2115 5TH STREET NE  
**Facility Name or Identifier:** 5TH STREET TERMINAL  
**Status:** Predesign  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$800,000

## Description:

Special Education Transportation (GO0) plans to renovate the 5th Street Bus Terminal located at 2115 5th Street NE, due to inadequate facilities. The new facility will accommodate 35 work stations, and a large space to accommodate the 290 drivers and attendants.

## Justification:

Special Education Transportation's 5th Street terminal is not equipped to support the heating, cooling, IT, and telephonic needs of the current staff. In addition, most of the systems furniture, hardware, and desks have not been updated in more than 20 years. The 5th Street terminal also poses potential health risks due to improper ventilation and inadequate heating and cooling capacity. The overall disrepair of the facility (e.g.; sporadic heating and cooling due to failing boiler and make-shift A/C facilities, broken windows, missing doors, and inefficient layout due to facilities original floor plan and purpose as a vehicle repair facility.)

## Progress Assessment:

Not applicable. New project.

# (HA0) DEPARTMENT OF PARKS AND RECREATION

## **MISSION**

The Department of Parks and Recreation enhances the quality of life and wellness of DC residents and visitors by providing equal access to affordable and quality recreational services by organizing programs, activities and events, as well as by building and maintaining safe and beautiful open spaces and recreational amenities.

## **SCOPE**

The DPR manages and maintains 358 parks, including 69 recreation facilities, 40 aquatic centers, and hundreds of play courts, athletic fields, and green spaces. The Department offers recreational athletic, educational, aquatic, environmental, nutritional services, senior, teen, therapeutic, and youth development programs.

## **CAPITAL PROGRAM OBJECTIVES**

- Provide accessible, safe and nurturing environments for recreation and learning.
- Provide sustainable outdoor green and recreational spaces.
- Enhance customer experience by upgrading and maintaining existing facilities.
- Align the capital budget to ensure funding of projects from planning and design, through construction.

## **HIGHLIGHTS OF RECENT ACCOMPLISHMENTS**

***New recreation centers:*** Completed 5 new or renovated recreation centers at Chevy Chase Recreation Center, Guy Mason Community Center, Bald Eagle Recreation Center, New York Avenue, and Rosedale Community Center

***Renovated playgrounds and parks:*** Completed new parks and playgrounds at Shepherd Field, Dakota Playground, Justice Park, 1st and Florida, 11th and Monroe, 7th and N, New York Avenue, and Parkview

***Renovated play courts:*** Completed resurfacing of play courts at 1st and Florida, Parkview, and Rosedale Community Center

***New fields:*** New athletic fields at Bald Eagle Recreation Center, Rosedale Community Center, Parkview, Shepherd Field

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# AM0-QD738-FORT DUPONT ICE ARENA REPLACEMENT

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QD738  
**Ward:** 7  
**Location:** 3779 ELI PLACE SE  
**Facility Name or Identifier:** FORT DUPONT ICE ARENA  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$20,000,000

**Description:**

Design development for the modernization and possible expansion of the Ft. Dupont Ice Arena in Ward 7.

**Justification:**

The existing ice arena was constructed in 1976 as a temporary facility celebrating the American Bicentennial. It is a heavily used recreational facility but is beyond its useful life.

**Progress Assessment:**

In 2010 the National Park Service transferred property in Fort Dupont Park to the District of Columbia. A portion of the property serves as the location of the Baseball Academy to be constructed by the Washington Convention and Sports Authority (Events DC) and the Washington Nationals Foundation. The Fort Dupont Ice Arena is on the remaining portion of the property along with a shared surface parking lot.

## AM0-QE511-ADA COMPLIANCE

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QE511  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** N/A  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$16,108,000

### Description:

DPR facilities were part of facility condition assessments in 2009. As part of each building assessment, an ADA checklist was developed. General improvements funds are being requested to ensure that the agency brings recreation facilities up to ADA compliance. It is the department's mission to ensure that recreational opportunities are available to all residents, including those with physical challenges. This project will include but not be limited to the following work in accordance with DPR's standards: (1) Examination of the existing conditions; (2) Construction document preparation; (3) Field inspections; and (4) Renovations/construction as needed to comply with ADA standards.

### Justification:

DPR needs to bring more facilities into compliance with the Americans with Disabilities Act, and make more centers accessible to all citizens of the District. Projects may include constructing additional ramps, expanding door ways where necessary, installing compliant signage, ensuring accessible restrooms.

### Progress Assessment:

Funding for this project began in FY 2008. DPR has made significant improvements to the Ward 7 Therapeutic Center. We also made all of DPR's polling sites accessible for the September 2010 primary election.

# HA0-QJ801-FRIENDSHIP PARK

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Project No:** QJ801  
**Ward:** 3  
**Location:** 4500 VAN NESS STREET NW  
**Facility Name or Identifier:** FRIENDSHIP PARK  
**Status:** New  
**Useful Life of the Project:** 15  
**Estimated Full Funding Cost:** \$8,000,000

**Description:**

This project involves a design and construction of a new recreation center to expand and enhance program offerings. The new facility will include greater community utilization, greater access to restrooms, storage space for sporting equipment, and the ability to plan and offer supervised, managed increased programming for residents of all ages.

**Justification:**

This project is necessary because the existing facility does not meet the needs of the surrounding community.

**Progress Assessment:**

This project has not started as of yet.

**Related Projects:**

# AM0-QJ901-PURCHASE BOYS AND GIRLS CLUBS

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QJ901  
**Ward:**  
**Location:** VARIOUS  
**Facility Name or Identifier:** BOYS AND GIRLS CLUBS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 50  
**Estimated Full Funding Cost:** \$23,350,000

**Description:**

Acquisition and redevelopment of three recreational facilities: Eastern Branch (Ward 6), Jelleff (ward 3) and #10 (Ward 1).

**Justification:**

This is a purchase agreement between DPR and the Boys and Girls Club.

**Progress Assessment:**

Purchase of the properties is complete. DPR is upgrading the facilities. The final payment will be made in October 2012.

# AM0-QM601-RAYMOND RECREATION CENTER

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QM601  
**Ward:** 1  
**Location:** 915 SPRING ROAD NW  
**Facility Name or Identifier:** RAYMOND RECREATION CENTER  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 25  
**Estimated Full Funding Cost:** \$12,585,000

**Description:**

The recreation center at Raymond is too small for the community it serves. DPR is working with OPEFM to construct a new recreation center co-located with Raymond Elementary School, as well as new outdoor recreation space. The new facility will include a gymnasium; fitness room; computer labs; and multi-purpose space. New outdoor facilities will include playgrounds and play courts.

**Justification:**

The project is necessary to address recent growth and development in the community, as well as to expand programs and services available to residents. The community currently lacks the recreational and educational amenities needed to serve its population.

**Progress Assessment:**

This project is under design. Construction started in early 2011.

# AM0-QM802-COMMUNITY RECREATION CENTERS

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QM802  
**Ward:**  
**Location:** VARIOUS LOCATIONS  
**Facility Name or Identifier:** N/A  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$48,895,000

## Description:

The Department of Parks and Recreation (DPR) intends to rehabilitate and renovate existing recreation facilities across the District. The rehabilitation is part of an ongoing effort by DPR to improve DPR's existing facility inventory to improve the recreational and educational opportunities offered by the Agency. The funding available through this capital project will be used to augment existing projects or address major deficiencies in the DPR capital budget. The scope of work for this project will include but not be limited to examination of existing conditions, construction document preparation, project management, field inspections, design, and construction.

## Justification:

DPR will assign projects to these funds in the out years. This will allow DPR to develop capital priorities when agency priorities are identified.

## Progress Assessment:

none

# AM0-QN702-ATHLETIC FIELD AND PARK IMPROVEMENTS

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QN702  
**Ward:**  
**Location:** DISTRICT WIDE  
**Facility Name or Identifier:** N/A  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 8  
**Estimated Full Funding Cost:** \$29,025,000

## Description:

Athletic fields, parks, playgrounds, and play courts around the District of Columbia are in need of major renovation and redevelopment. This project will allow DPR to make improvements to much of its inventory. DPR will be able standardize ball fields and redevelop athletic fields with new field surfaces. Install new play ground equipment and resurface outdoor play courts across the District of Columbia. DPR will continue our efforts in lighting restoration to ensure improved security and maximum use of facilities.

## Justification:

Funding is needed to continually improve athletic fields, parks, and playgrounds across the District. These amenities are critical to DPR's mission to provide safe recreational opportunities for District residents.

## Progress Assessment:

Since FY2008, DPR has made significant improvement to its athletic field inventory across the District. DPR has also focused on refurbishing new park, play court, and playground amenities to bring safe recreational environments to our residents.

## Related Projects:

This is a new project, which enhances the scope of existing project #QN701C, Athletic Field Improvements.

# AM0-QN750-PARK IMPROVEMENTS

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QN750  
**Ward:**  
**Location:** VARIOUS  
**Facility Name or Identifier:** VARIOUS LOCATIONS  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$9,300,000

**Description:**

This project will allow DPR to improve playgrounds and parks across the District, as designated by the DC Council. The selected sites include: Banneker, Harrison, Kennedy, Rose Park, Forest Hills, Key Elementary, Newark, Palisades, Macomb, Emery, Ft Stevens, Upshur, Park, Hamilton, Takoma, Brentwood, Harry Thomas, Turkey Thicket, Randall, Pope Branch, Benning Park, Hillcrest, Congress Heights, Douglass, Ft. Greble, and Oxon Run.

**Justification:**

Many playgrounds suffer from deferred maintenance and require replacement of out-dated equipment. The new playgrounds will all be ADA compliant.

**Progress Assessment:**

On-Going projects.

**Related Projects:**

# AM0-QN751-FRANKLIN SQUARE PARK

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QN751  
**Ward:** 1  
**Location:** 14TH STREET & K STREET, NW  
**Facility Name or Identifier:** FRANKLIN SQUARE PARK  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$300,000

**Description:**

This project supports planning and design for renovations at Franklin Square Park, a National Park Service property.

**Justification:**

Planning and conceptual design for renovations to the park will be considered for future federal funding that will serve to provide an enhanced park experience and increase property values of nearby commercial property.

**Progress Assessment:**

New Project.

# AM0-QS541-BARRY FARM RECREATION CENTER

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** QS541  
**Ward:** 8  
**Location:** 1230 SUMNER ROAD, SE  
**Facility Name or Identifier:** BARRY FARM RECREATION CENTER  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 50  
**Estimated Full Funding Cost:** \$18,000,000

## Description:

This project will coincide with the New Communities development at Barry Farm. The new recreation center will help expand the recreational, leisure, and education opportunities for residents because the existing facility is not meeting the needs of the community. The design for this new facility includes multi-purpose rooms, fitness room, senior room, and a computer lab. Exterior elements include a new athletic field, outdoor swimming pool, and playground.

## Justification:

The community currently lacks the recreational and educational amenities needed to serve its population, which is why this project is necessary.

## Progress Assessment:

As of February 2011, the project is in design development. This project was initiated with OPEFM and will be completed in partnership with DGS. A majority of the funding of this project will come from DMPED, but additional funds are needed to implement the full scope of the project.

# AM0-RG001-GENERAL IMPROVEMENTS - DPR

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** RG001  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$92,589,000

## Description:

The General Improvements project ensures monies are available to address projects as they are identified, especially emergencies and unmet needs. This project includes urgent renovations to parks and recreation centers, replacement of water fountains, and major repairs, renovation, and installation of new heating, ventilating, and air conditioning (HVAC) systems at various DC Department of Parks and Recreation (DPR) facilities across the city. The project also addresses major repairs, renovation, and replacement of roofing systems at various DPR facilities across the city. Many DPR facilities have experienced major roof leakage indicating the roof is beyond repair and requires replacement. This project ensures funding is available to remediate deteriorated landscape and protect resources from the damaging effects of storm water runoff. Also, DPR needs to bring more facilities into compliance with the Americans with Disabilities Act, and make more centers accessible to all citizens of the District by constructing additional ramps and expanding doorways where necessary.

## Justification:

General improvement projects address conditions considered significant enough to require substantial capital improvement. These projects result in enhanced aesthetics and improved safety for District taxpayers. General Improvements spending on parks and recreation centers is consistent with the Agency's objective to preserve and enhance the District's public open spaces, athletic fields, and landscaped parks as well as making sound investments in DPR's facility inventory.

## Progress Assessment:

General Improvements are ongoing.

# AM0-RG006-SWIMMING POOL REPLACEMENT

**Agency:** DEPARTMENT OF PARKS AND RECREATION (HA0)  
**Implementing Agency:** DEPARTMENT OF REAL ESTATE SERVICES (AM0)  
**Project No:** RG006  
**Ward:**  
**Location:** VARIOUS LOCATIONS  
**Facility Name or Identifier:** N/A  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$31,342,900

## Description:

The Department of Parks and Recreation operates 9 indoor aquatic centers, 18 outdoor pools, 5 children's pools, and 8 splash parks. DPR's aquatic inventory and aging and annual resources are needed to ensure our swimming facilities are a safe and enjoyable experience for District residents.

## Justification:

DPR has requested additional swimming pool funding in FY12 - FY17. DPR's swimming pools are aging and in need of major renovation and replacement.

## Progress Assessment:

DPR is continually working on its indoor and outdoor inventory of swimming pools and splash parks to serve District residents. Summer readiness for FY2011 is underway and plans have already started for 2012.

## (HC0) DEPARTMENT OF HEALTH

The mission of the Department of Health is to promote healthy lives, prevent illness, provide equal access to quality healthcare services, and protect the safety of all in the Nation's Capitol. The Department of Health (DOH) is a vital element in ensuring that District residents are healthy and maintain a high quality of life. To meet the needs of District residents, the Department of Health must provide proactive innovation in implementing leading-edge practices and strategies, deliver benchmark clinical results for comparable populations based on nationally recognized performance metrics, and have unquestioned and absolute fiscal and ethical integrity in the oversight of clinical programs and in the management of Federal grants. DOH's vision for the future is "healthy people and healthy communities" and the department is committed to making that vision a reality.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# (HT0) DEPARTMENT OF HEALTH CARE FINANCE

## **MISSION**

The mission of the Department of Health Care Finance is to improve health outcomes for residents of the District of Columbia by providing access to a comprehensive and cost-effective array of quality health care services.

## **CAPITAL PROGRAM NARRATIVES**

### Medicaid Management Information System (MMIS)

The Centers for Medicare and Medicaid Services (CMS) requires each Medicaid state/District to maintain and operate a Medicaid Management Information System (MMIS). The MMIS serves as the District's Medicaid claims processing engine and supports DHCF staff in their day to day duties. CMS requires that the system technology be refreshed every 5 years to ensure it is up to date and contracts are competed openly. To remain compliant with CMS the District must begin procuring a new MMIS.

### Medicaid Data Warehouse (MDW)

One of the comments made by CMS during the MMIS certification exit conference was that the District was one of the few states that lacked a Medicaid data warehouse. Utilizing a data warehouse for data analysis and trending would greatly improve the District's ability to manage the Medicaid program. In order to facilitate more efficient Medicaid program administration and support intelligent decision-making, DHCF needs a Medicaid Data Warehouse (MDW) to provide easy access to Medicaid program data from the Medicaid Management Information System (MMIS) through the use of analytical reporting tools.

**Elements on this page of the Agency Summary include:**

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
  - 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
  - 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

# (JA0) DEPARTMENT OF HUMAN SERVICES

## **MISSION**

The mission of the Department of Human Services (DHS) is to work in collaboration with the community to assist low-income individuals and families to maximize their potential for economic security and self-sufficiency.

## **BACKGROUND**

The District is using the opportunity to meet the regulations of the federal Affordable Care Act of 2010 (ACA) to modernize the existing enrollment and eligibility systems implemented in 1993. The combination of enhanced federal financial participation and the waiving of specific cost requirements presents an unprecedented opportunity for the District to replace our 20 year old public benefit eligibility system; realize the District's vision for an integrated health and human services case management system; and meet the deadlines required by ACA. The DC Access Project (DCAP) will establish a single gateway connecting District residents to health and human services benefits across multiple government agencies.

Part of the modernization effort also includes updating the Printing and Mailing Processing System, to ensure compliance with federal regulations governing timely notification of benefits. The printing system currently used for printing over a 1 million multi-layer notices will be upgraded in accordance to both federal and Salazar v. District of Columbia mandates.

## **CAPITAL PROGRAM OBJECTIVE**

Building a new Health Care & Human Services Solution

- Ensure that every District resident has access to affordable health coverage and eligible public benefits
- Create a seamless customer service experience for all health and human services consumers
- Establish policies, processes, and capabilities that improve governance by DC agencies
- Transform Medicaid Eligibility & Enrollment for all Beneficiaries
- Transform other public TANF, SNAP, Homeless Services, etc.)
- Create an Integrated System of Care (Case Management)

## **RECENT ACCOMPLISHMENTS**

DCAP is a joint project amongst DHS, Department of Health Care Finance (DHCF), Department of Insurance Securities and Banking (DISB), and Office of the Chief Technology Officer. Jointly the agencies have achieved:

- Held 12 public meetings across all Wards and multiple stakeholder groups soliciting public input

- Submitted a multi-agency Advance Planning Document to Federal Department of Health and Human Services and Agriculture requesting approval for a consolidated health and human services system
- Received approval for the full project including funds DCAP in the form of a mix of 100% Federal grant, Federal/local 90/10 matching funds and 50/50 Federal/local matching funds.
- Developed concept of operation, project management plan and draft business processes for the new system and submitted for Federal approval.
- Established a monthly public meeting to review progress of the project.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# JA0-CMSS1-CASE MANAGEMENT SYSTEM - GO BOND

**Agency:** DEPARTMENT OF HUMAN SERVICES (JA0)  
**Implementing Agency:** DEPARTMENT OF HUMAN SERVICES (JA0)  
**Project No:** CMSS1  
**Ward:**  
**Location:** DISTRICT -WIDE  
**Facility Name or Identifier:** N/A  
**Status:** Under design  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$18,162,159

**Description:**

The new project will marry the Health Insurance Exchange (HIX) and DC Consumer Access Reporting and Eligibility System (DC Cares). The HIX and DC CARES will enable District customers to used online and call center services to apply for and enroll in Medicaid, TANF, Food Stamps, and other federal and local health and human services programs. DHS and DHCF will be able to manage customers’ multiple programs with the consolidated case management functionality that will also be implemented as part of this project.

**Justification:**

Pursuant to the Affordable Care act of 2010 (ACA) the district is required to have a robust web-based eligibility system by October 1, 2013. Consequently, this project will integrate the Health Insurance Exchange with the existing case management system allowing District customers to use online and call center services to apply for and enroll in Medicaid, TANF, Food Stamps, and other federal and local health and human services programs. In addition, the Department of Human Services and the Department of Health Care Finance will be able to manage customers’ multiple programs with the consolidated case management functionality.

**Progress Assessment:**

Project is progressing as planned.

**Related Projects:**

CMSHS- Case Management System

District citizens and families that find themselves in need of support or help are often the least able to help themselves negotiate the maze of agencies to find and enroll in the appropriate programs. They are often required to travel between several offices and provide a variety of documents to prove their eligibility for services. An integrated approach would allow a citizen to find out about the available District and federal resources available to them through a wide variety of programs and providers. Multiple agencies throughout the District serve the same families, children and adults, often at the same time through separately maintained systems and infrastructures. This approach will simplify the process.

# ELC-JAPMS-PRINTING AND MAILING PROCESSING SYSTEM

**Agency:** DEPARTMENT OF HUMAN SERVICES (JA0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** JAPMS  
**Ward:**  
**Location:** 64 NEW YORK AVE NE, 6TH FLOOR  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Developing scope of work  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:**\$433,348

**Description:**

The project replaces the printing and mailing processing system necessary for the Department of Human Services Economic Security Administration (ESA) to ensure compliance with federal regulations governing timely notices requirements under the Medicaid, Food Stamps, and TANF Programs and Salazar v. District of Columbia for benefit determination, re-classification, and changes in service plan.

**Justification:**

The project is necessary to replace the printing and mailing processing system currently used by the Department of Human Services Economic Security Administration (ESA). The current equipment is over 20 years old and incurs high annual operating expenses, utilizes outdated technology and will not function with the agency's new information technology currently under development. The equipment will not survive the physical move to a new location, schedule for late FY2012.

# (KA0) DEPARTMENT OF TRANSPORTATION

## **MISSION**

The District Department of Transportation (DDOT) develops and maintains a cohesive sustainable transportation system that delivers safe, affordable, and convenient ways to move people and goods—while protecting and enhancing the natural, environmental and cultural resources of the District.

## **BACKGROUND**

DDOT oversees 1,100 miles of roads; 199 highway bridges, 14 pedestrian bridges, 17 tunnels and underpasses; 80,000 street, alley, bridge, tunnel, and navigation lights; 17,000 parking meters; 144,000 street trees and tree spaces; 130,000 street trees and tree planting; and 1,680 signalized intersections. Additionally, DDOT has responsibility for the District's bicycle and pedestrian facilities, traffic and pedestrian safety, and managing the District's public space and rights-of-way.

## **CAPITAL PROGRAM OBJECTIVES**

1. Ensure that the District's current transportation infrastructure (roads, bridges, transit system, signage, and sidewalks) and streetscapes are in acceptable condition.
2. Increase non-vehicular transportation modes to meet the mobility and economic development needs of the District.
3. Improve the safety of pedestrians, cyclists, and vehicles throughout the District.

## **LOCAL TRANSPORTATION FUND:**

This portion of DDOT's Transportation Program highlights Local Transportation Fund projects funded by Paygo funds, Master Equipment Lease/Purchase Program and/or General Obligation or Income Tax Secured Revenue bonds. The projects captured in this segment of the Capital Transportation Budget involve planned and proposed projects geared to improving and enhancing the local network of major and minor streets and roadways throughout the neighborhoods of the District. Improvements to the local network of streets include replacement of trees, lighting, curbs, sidewalks, alleys and supporting design, equipment and technology.

## **RECENT ACCOMPLISHMENTS OF HTF**

1. Made traffic safety improvements to 61 hazardous intersection.
2. Began work on two streetcar segments – Anacostia and H Street NE/Benning Road.
3. Completed three livability studies – Outcomes focused on changes such as enhanced pedestrian crossings, more accessible bus stops, increased green spaces, attractive streetscapes, improved signage, updates to traffic signal timing, and speed controls in sensitive areas.
4. Installed 1,150 networked, credit card reading meters to replace previous outdated stock in high usage areas Replaced or repaved more than 20 miles of streets, alleys and sidewalks Installed 500 speed humps and filled nearly 60,000 potholes.
5. Maintained Tree City USA status for its 20th consecutive year –DDOT has also planted over 4,000 trees in the past year.

**Elements on this page of the Agency Summary include:**

n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

**Elements on this page of the Agency Summary include:**

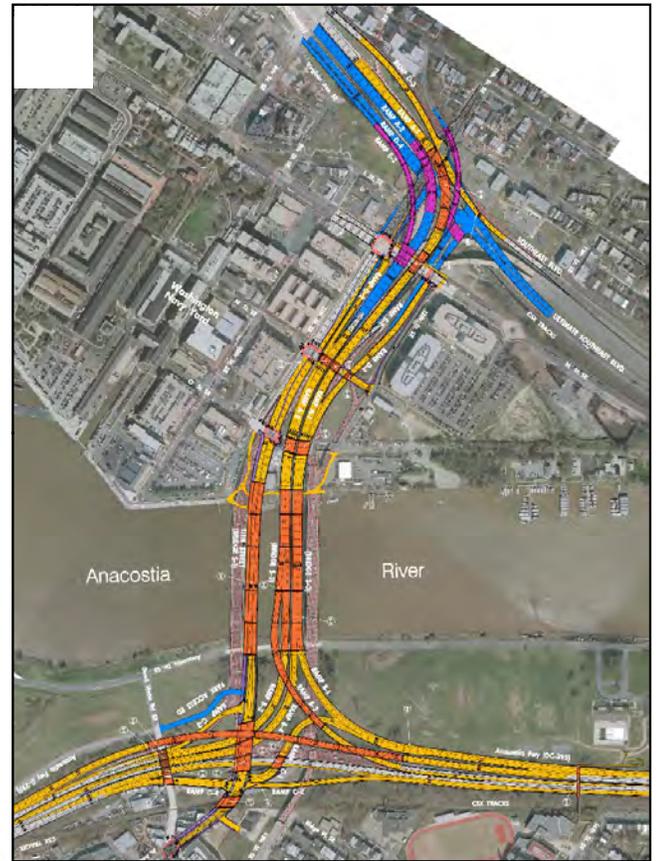

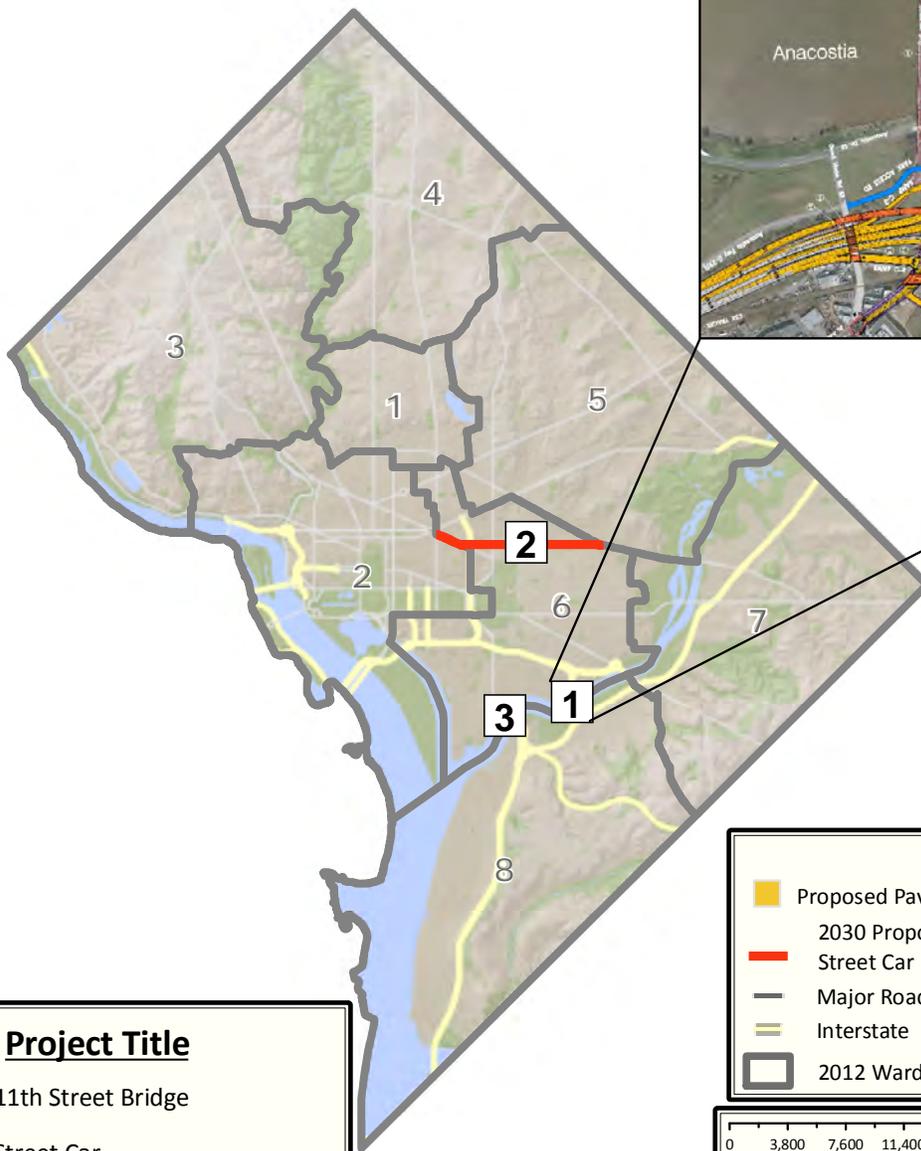

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
  - 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
  - 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017
  - 4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
  - 4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.
  - 4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018
  - 4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).
- n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact
- n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan and, the percentage of the agency CIP budget from either expense category.
- n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# KA0-6EQ01-EQUIPMENT ACQUISITION - DDOT

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** 6EQ01  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** EQUIPMENT  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:** \$12,609,000

## Description:

This project replaces DDOT vehicles and equipment that is at the end of its useful life. This equipment includes vehicles for the snow removal program, single and multi-space parking meters, passenger vehicles, and other equipment for the maintenance of roads and bridges and the care of trees. The purchase of snow equipment will help ensure that DDOT can meet the Mayor's standards for snow removal. Parking meters, especially multi-space meters, help ensure that parking fees are collected. The project can help reduce operating costs when older fleet vehicles are replaced with newer ones that are more fuel efficient and require less maintenance.

## Justification:

This project is necessary to provide for vehicles that remove snow from streets, to replace broken parking meters, and to provide replacement vehicles. The DDOT fleet replacement plan helps ensure that vehicles are operational and to reduce maintenance costs (including fuel) as much as possible.

## Progress Assessment:

The project is progressing as planned. Snow equipment and vehicles, parking meters, and other equipment are purchases according to replacement plans.

## ELC-6EQ02-EQUIPMENT ACQUISITION - DDOT

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** 6EQ02  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** EQUIPMENT  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:** \$14,455,000

### Description:

Through this project, DDOT will purchase vehicles to support the snow removal program as well as single-space meters, multi-space meters, passenger vehicles, and other equipment. The purchase of snow equipment will help ensure that DDOT can meet the Mayor's standards for snow removal. Parking meters, especially multi-space meters, help ensure that revenue owed to the District is collected. Funds are also used to replace older fleet vehicles with new ones that are more fuel efficient and require less maintenance.

### Justification:

This project is necessary to provide for vehicles that remove snow from streets, to replace broken parking meters, and to provide replacement vehicles. The DDOT fleet replacement plan helps ensure that vehicles are operational and to reduce maintenance costs (including fuel) as much as possible.

### Progress Assessment:

The project is progressing as planned. Snow equipment and vehicles, parking meters, and other equipment are purchases according to replacement plans.

# KA0-AD304-STREETLIGHT ASSET MANAGEMENT

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** AD304  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$130,098,000

## Description:

The District's lighting assets are critical to the safety of District's residents and visitors. These assets are also essential for the well-being of businesses, commuters, and pedestrians.

DDOT's multi-year performance-based contract maintains the District's lighting assets. The contractor is responsible for managing all lighting assets within public space, including alleys and streetlights, highways, underpasses, tunnels, bridges, navigation lights, overhead guide signs, and "Welcome to Washington, DC" signs. A number of lighting systems and the electrical control systems for the Frederick Douglas Bridge are also included.

In this performance-based asset preservation contract, the desired outcome is specified rather than the means and methods: the contractor is instructed what to achieve, not how to achieve it. The District requires that the contractor meet a set of performance standards for all assets and DDOT personnel conduct citywide monthly and annual inspections to measure the contractor's performance. DDOT personnel also monitor the contractor's response for repair requests and schedules daily. The contract includes both incentives and disincentives for failing or exceeding these performance measures. The asset contractor has improved the lighting performance by reducing outages from a high of 20 percent two years ago (FY07) to less one percent this year (FY09).

This project also includes upgrades to lighting assets, including the conversion of traditional lighting to high efficiency LED technology. The project also funds staff who implement this program.

## Justification:

This project is necessary for the safety of District residents and drivers. The performance-based contract has proven to be the most cost-effective way to ensure that the District's streetlights are illuminating the streets.

## Progress Assessment:

The contract is progressing as planned. This contract has improved the District's lighting system by reducing outages and other unsafe conditions thus resulting in improved customer satisfaction as compared to previous years.

## Related Projects:

The maintenance and upgrade of lighting assets on federal aid-eligible streets, bridges, and tunnels in funded through the Federal -aid (FHWA) program.

# KA0-AD306-PEDESTRIAN & BICYCLE SAFETY ENHANCEMENTS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** AD306  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$8,239,000

## Description:

This project enhances the safety and quality of pedestrian and bicycle transportation throughout the District. The scope of work includes projects that will enhance the safety and quality of pedestrian and bicycle transportation. projects may include, but are not limited to, traffic calming, safe routes to school enhancements, sidewalk construction and reconstruction, construction and rehabilitation of bicycle lanes and paths, safety improvements along roadways and at intersections, signalization enhancements and changes lighting enhancements, and equipment to enforce laws that impact pedestrian and bicycle safety.

## Justification:

This project allows DDOT to implement safety improvements, many of which were explored recently in the DDOT Pedestrian Master Plan. These funds would allow those improvements to be implemented more quickly.

## Progress Assessment:

This project is funding high priority pavement markings, sidewalk repair, and pedestrian crossing beacons. It is also advancing pedestrian corridor design and implementation.

## Related Projects:

DDOT works to incorporate pedestrian, bicycle, and vehicular safety improvements into all of its projects. Local and FHWA- funded streetscape work, the expansion of the successful CaBi program, and streetlight maintenance upgrades are some examples.

# KA0-CA301-REPAIR AND MAINTAIN CURBS AND SIDEWALKS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CA301  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$21,556,000

## Description:

This project is the construction, maintenance, and repair of the District’s local sidewalks. This project improves sidewalks where there is deterioration or unsafe conditions and constructs sidewalks where there are missing segments. Annual work (construction) plans are established each year based on the available funding.

## Justification:

This project maintains and constructs sidewalks on local streets.. Many of the sidewalks slated for construction are at locations that are unimproved (no sidewalks exist), are at locations that are safety hazards, or are at locations to address ADA standards and requirements.

## Progress Assessment:

DDOT develops an annual construction plan based on the approved budget. This construction plan serves as the construction schedule.

## Related Projects:

Local sidewalks could be constructed within projects SR301-SR308 (local road resurfacing). Sidewalks on federal-aid roads are reconstructed in streetscape reconstruction projects. Sidewalks requiring minor repairs are also maintained with DDOT’s internal personnel, under project CE302.

# KA0-CA302-CONSTRUCT, REPAIR, MAINTAIN ALLEYS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CA302  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$29,837,000

## Description:

This project is the construction, repair, and maintenance of the District's local alleys. Construction is necessary on many unimproved locations as well as on alleys that need replacement due to deterioration or unsafe conditions. Annual work (construction) plans are established based on the available funding.

## Justification:

This project either constructs or maintains local alleys within the District. Many of the alleys slated for construction are at locations that are unimproved (no alley exist) or are at locations that are in poor condition.

## Progress Assessment:

DDOT develops an annual construction plan based on the approved budget. This construction plan serves as the construction schedule. It is made available to the public via the DC website.

## Related Projects:

DDOT's in-house staff, through project CE302, address minor alley resurfacing and maintenance needs.

# KA0-CA303-CULVERT REHABILITATION & REPLACEMENT

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CA303  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$7,287,000

## Description:

This project repairs and maintains culverts throughout the District. Culverts facilitate the drainage of water and help to ensure the stabilization of roadway structures. The safety of roadway structures is a priority of the Mayor, and a concern for District residents, commuters, and visitors. This project also maintains an inventory for all the culverts owned and maintained by the District Department of Transportation (DDOT) and a formal maintenance and repair plan.

## Justification:

This project is necessary because of its safety impact on roadways. Because culverts support roadway structures, the lack of drainage provided by culverts could have a severe impact on the functionality and safety on roads.

## Progress Assessment:

DDOT's inventory system maintains a systematic and comprehensive evaluation process which allows for routine maintenance and scheduled repairs. This, in conjunction with DDOT's bridge inspection program, provides preventative safety measures on the District's bridges and culverts.

## Related Projects:

DDOT has a federal-aid bridge inspection program that inspects the District's bridges.

# KA0-CAL16-ADA RAMPS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CAL16  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$16,750,000

**Description:**

This project is the upgrade of intersections and sidewalks for ADA compliance. It includes an inventory of locations for upgrade, an assessment of upgrades necessary, and construction

**Justification:**

The District is mandated to ensure its sidewalks and intersections meet ADA regulations. Based on a preliminary analysis, not all sites within the District are ADA compliant.

**Progress Assessment:**

This project is progressing as planned. It is an on-going project that occurs annually

**Related Projects:**

Related projects are the federally funded projects or locally funded resurfacing or reconstruction projects.

# KA0-CE301-PAVEMENT MARKING & TRAFFIC CALMING

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CE301  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$17,097,000

## Description:

The project provides highly visible and durable pavement markings in various neighborhoods of the District to indicate bicycle lanes, parking lanes, crosswalks, and turning lanes. The project also funds traffic calming measures that help reduce speeding in the District. This includes the installation of speedhumps and speedhump markings.

## Justification:

This project is necessary because it provides for traffic control measures, helps create a more pedestrian friendly environment, and enhances traffic calming measures in local neighborhoods.

## Progress Assessment:

The installation of speed humps, bicycle lanes, parking lanes, crosswalks, and turning lanes is ongoing.

## Related Projects:

DDOT also makes pavement marking and other road improvements through the federal-aid road resurfacing program.

# KA0-CE302-STREET REPAIR EQUIPMENT & MATERIALS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CE302  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$69,061,000

## Description:

Through this project, equipment is purchased that helps prevent extensive deterioration to the District's transportation infrastructure. Equipment purchased, but not limited to include roadway pavers, asphalt rollers, and service vehicles. Additionally, this project provides for the purchase of roadway materials such as asphalt and pavement markings.

## Justification:

The project is necessary for the purchase of equipment that helps extend the useful life of transportation infrastructure which reduces damage to sidewalks, alleys, and bridges. The project is urgent because it helps provide costs savings for the District. District taxpayers benefit from safe and improve alleys, sidewalks, and bridges. The project began in 2003 to help maintain the transportation assets.

## Progress Assessment:

The project is progressing as planned.

## Related Projects:

Related projects include two equipment projects (6EQ01 and 6EQ02).

# KA0-CE303-STREET REPAIR MATERIALS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CE303  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$13,349,000

## Description:

This project funds materials necessary to maintain the District's transportation assets. This includes roadway materials such as asphalt and pavement markings..

## Justification:

The project is necessary for the purchase of equipment that helps extend the useful life of transportation infrastructure which reduces damage to sidewalks, alleys, and bridges. Without this funding, DDOT will not be able to purchase materials to repair sidewalk, alleys, and roadways.

## Progress Assessment:

The project is progressing as planned.

## Related Projects:

Related projects include two equipment projects (6EQ01 and 6EQ02).

# KA0-CE304-STREET SIGN IMPROVEMENTS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CE304  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$33,922,000

## Description:

The project helps fulfill the mandate to replace, install, and upgrade traffic signage and directional signage on neighborhood roads in the District per the Manual on Uniform Traffic Control Devices and District policies. This project provides signage to assist with information for residents and for the large number of tourists who visit the District and includes permanent and temporary sign fabrication and installation

## Justification:

The project is necessary to support major safety initiatives for pedestrian, bicycle, and vehicular traffic on District roads. District taxpayers benefit from the enhanced safety measures of the installation of new signage and the replacement of faded signage.

This program not only supports major safety initiatives, it offsets potential claims associated with faulty or faded signage

## Progress Assessment:

The project is progressing as planned. Traffic signage is replaced throughout the year.

## Related Projects:

A related project replaces signage on federal-aid streets in the District.

# KA0-CE305-LOCAL STREET CONDITION ASSESSMENTS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CE305  
**Ward:**  
**Location:** DISTRICT WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$296,000

**Description:**

This project provides accurate condition assessments of the local roads, alleys and sidewalks. This asset management information is used to plan the cost-effective reconstruction, repair, and maintenance of the District's transportation assets.

**Justification:**

This project will provide relevant information that determines the condition assessments of the local roads, alleys, and sidewalks. This information is then used to rank and prioritize the annual construction workplan for the District.

Without the condition assessments, an accurate assessment of the Districts alley and sidewalk inventory would not exist.

**Progress Assessment:**

The condition assessment work is ongoing.

**Related Projects:**

This information is used to plan the sidewalk, alley, and road reconstruction, maintenance, and repair projects.

# KA0-CE307-BRIDGE OPERATION & MAINTENANCE

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CE307  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$10,345,000

## Description:

The Bridge Reconstruction and Rehabilitation program helps ensure safe and efficient use of the City's bridges and structures. This project includes various activities that extend the useful life of the District's bridges including joint replacement and sealing, surface rehabilitation, and localized reconstruction.

## Justification:

The project is necessary to prevent extensive deterioration of the District's bridges. The project is urgent in that it helps reduce the major capital costs that would be incurred if the assets are not maintained. District taxpayers benefit from safe and improved bridges.

## Progress Assessment:

This project is ongoing, and includes joint replacement and sealing, surface rehabilitation, and localized reconstruction.

## Related Projects:

Related projects are the federally funded projects or locally funded resurfacing or reconstruction projects

# KA0-CE309-MASONRY & CONCRETE MAINTENANCE

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CE309  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$9,914,000

## Description:

This project provides labor, equipment, and materials necessary to rehabilitate and reconstruct masonry and concrete transportation assets throughout the District. This includes curb and gutter, brick and concrete sidewalk, and brick and concrete alleys. Through this asset reconstruction and preservation efforts, safety hazards and ADA issues are resolved. The project also includes new sidewalk

## Justification:

The project is necessary to prevent extensive deterioration of the District's sidewalks, curbs and gutters. The project is urgent in that it provides cost savings by providing proper and timely maintenance. District taxpayers benefit from safe and reconstructed sidewalks, alleys, and curbs and gutters

## Progress Assessment:

This project is ongoing.

# KA0-CE310-ALLEY MAINTENANCE AND REPAIR

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CE310  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$51,376,000

## Description:

This project provides labor, equipment, and materials necessary to rehabilitate, reconstruct, and repair alleys throughout the District. This includes preventive maintenance activities such as crack sealing, pothole repair, asphalt deep patching, asphalt overlay, and brick patching and replacement.

## Justification:

The project is necessary to prevent extensive deterioration of the District's alleys. The project is urgent in that it provides cost savings by providing proper and timely maintenance. District taxpayers benefit alleys that are in a state of good repair.

## Progress Assessment:

This project is ongoing.

# KA0-CEL21-ALLEY REPAIRS AND IMPROVEMENTS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CEL21  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** DISTRICT WIDE  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$16,075,000

## Description:

This project provides labor, equipment, and materials necessary to rehabilitate, reconstruct, and repair alleys throughout the District. This includes preventive maintenance activities such as crack sealing, pothole repair, asphalt deep patching, asphalt overlay, and brick patching and replacement.

## Justification:

The project is necessary to prevent extensive deterioration of the District's alleys. The project is urgent in that it provides cost savings by providing proper and timely maintenance. District taxpayers benefit alleys that are in a state of good repair.

## Progress Assessment:

This project is ongoing.

## Related Projects:

# KA0-CG311-TREE PRUNING

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CG311  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$33,633,000

**Description:**

This project supports the pruning of District trees located along the street and trees located in other District right-of-way space. Trees are pruned to improve structural integrity and increase the life span of trees. This project includes the management and maintenance of trails, low impact design sites and bio-retention areas.

**Justification:**

This project is necessary to maintain the District’s public trees. Regular pruning of trees improves tree longevity and reduces the need for tree removal. This project allows the District to be a steward of the street trees that help improve the District’s overall environmental health. The regular pruning of trees also maintains clearance over sidewalks and the roadway.

**Progress Assessment:**

This project is progressing as planned. It is an on-going project that occurs annually

# KA0-CG312-TREE REMOVAL

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CG312  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects

**Useful Life of the Project:**

**Estimated Full Funding Cost:**\$31,666,000

**Description:**

This project supports the on-going removal of dead, diseased, and hazardous street trees and trees located in other District right-of-way spaces. This project also funds the District Department of Transportation's (DDOT) responsibility to clear fallen trees and limbs from roadways and sidewalks. This project includes the management and maintenance of trails, low impact design sites and bio-retention areas.

**Justification:**

This project is necessary to maintain public safety. Trees that are dead, dying, diseased, or unsafe are a safety hazard. Fallen trees and limbs blocking the roadway and / or sidewalk are also a safety hazard.

**Progress Assessment:**

This project is progressing as planned. It is an on-going project that occurs annually.

# KA0-CG314-TREE PLANTING

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** CG314  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$24,637,000

## Description:

This project funds the annual planting of street trees and trees located in other District right-of-way spaces. The District Department of Transportation (DDOT) plants approximately 4,000 street trees each year from October through April. This project includes the management and maintenance of trails, low impact design sites and bio-retention areas.

## Justification:

This project allows the District to maintain its tree canopy population and reputation as a “City of Trees.” Having healthy and plentiful trees adds to the District’s quality of life and environmental health. In FY2008, UFA planted 4,608 trees. In order to continue planting throughout the District in FY2010, DDOT needs to continue receiving funding for this project.

## Progress Assessment:

This project is progressing as planned. It is an on-going project that occurs annually.

# KA0-EW002-E WASHINGTON STREET TRAFFIC RELIEF

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** EW002  
**Ward:**  
**Location:** WARDS 6 & 8  
**Facility Name or Identifier:** 11TH STREET BRIDGE  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 40  
**Estimated Full Funding Cost:** \$300,000,000

## Description:

The District Department of Transportation (DDOT) began construction of 11th Street Bridge Project in December 2009 to replace the two existing bridges with three new bridges and improve the related interchanges. When completed in mid-2013, the project will:

- Improve mobility by providing separate freeway and local traffic connections to both directions of DC 295, the Southeast-Southwest Freeway and local streets on both sides of the Anacostia River,
- Provide a shared path for pedestrians and bicycles, as well as rails to allow future streetcar connections,
- Replace the existing functionally deficient and structurally obsolete bridges,
- Provide an additional alternate evacuation route from our Nation's Capital, and
- Include new trail connections, improved drainage and other environmental investments.

Projected to serve almost 180,000 vehicles per day by 2030, the existing bridges lack connections to allow travel directly from southbound DC 295/Anacostia Freeway to the Southeast-Southwest Freeway or from the Southeast-Southwest Freeway to northbound DC 295. The two new freeway bridges will provide these connections. The third bridge will carry local traffic between city streets on both sides of the river and provide additional connections to both directions of DC 295.

The project is the largest ever constructed by DDOT and is the first river bridge replacement in the District in more than 40 years.

## Justification:

This project will improve mobility by providing separate freeway and local traffic connections to both directions of DC 295, the Southeast-Southwest Freeway and local streets on both sides of the Anacostia River.

## Progress Assessment:

Planned completion is mid-2013.

# KA0-PM0MT-MATERIAL TESTING & ADMINISTRATIVE COST TRANSFER

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** PM0MT  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$1,800,000

## Description:

This cost transfer project shall be used to collect indirect non-personnel project costs that may be eligible for federal reimbursement through indirect or additive rates, such as material testing, Davis-Bacon, and manual costs. This project will be allocated budget authority for contractual services. However, all expenditures posted to this cost transfer project during a fiscal year shall be reallocated to active projects based on approved indirect and additive rates, reallocated to local transportation projects, reallocated to the operating budget, or otherwise removed from this project by the end of that fiscal year.

## Justification:

This project insures that all roadway and bridge contracts provide a smooth ride for District residents, vistors, and commuters.

## Progress Assessment:

New project

## Related Projects:

All DDOT roadway and bridge capital projects use this service.

# KA0-PM304-ADVANCED DESIGN AND PROJECT CONSTRUCTION

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** PM304  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$5,160,000

## Description:

This project funds livability studies, planning, and design and construction for low cost initiatives to improve the operation of the District's transportation infrastructure.

## Justification:

This project maximizes District funding by identifying and implementing low cost improvements to transportation infrastructure.

## Progress Assessment:

Projects underway include livability studies in Rock Creek West, Far Northeast, and Far Southeast.

## Related Projects:

# KA0-SA306-STREETCARS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** SA306  
**Ward:**  
**Location:** H STREET NE AND OTHER CORRIDORS  
**Facility Name or Identifier:** STREETCARS  
**Status:** In multiple phases  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$340,000,000

## Description:

The DC Streetcar project is an initiative to increase the number of surface transit options for people who live, work, and visit the District of Columbia. It is anticipated that by 2030 a comprehensive streetcar network will operate in conjunction with the Circulator, Metro Extra rapid bus, and bus rapid transit to complement the current Metro bus and rail system.

## Justification:

The current Metro bus/rail system is nearing capacity. Surface transit options are needed to complement the Metro system and connect all District neighborhoods with efficient, reliable and affordable means of public transportation. Capital funding for the streetcar addresses the jobs and economic opportunity section of the Mayor's priorities. District tax payers will benefit from connectivity afforded by the project to underserved areas of the city and to foster economic development east of the Anacostia River.

## Progress Assessment:

DDOT is completing the H Street / Benning Phase through the electrification of the existing tracks, the constructions of termini, and the construction of a maintenance facility.

# KA0-SR301-LOCAL STREETS WARD 1

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** SR301  
**Ward:** 1  
**Location:** WARD 1  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$16,120,000

## Description:

The District of Columbia has over 682 local roadway miles that require preservation, maintenance, and repair. The District Department of Transportation (DDOT) has developed an annual work (construction) schedule that continuously assesses the needs of every local street in the District.

Depending on the condition of the roadway, DDOT will provide service from basic mill and overlay (for resurfacing needs) to complete reconstruction and upgrade. Regardless of the construction type, DDOT's focus is to also repair or replace the adjacent sidewalks, curbs, and gutters in conjunction to the street repair, if applicable. In addition, DDOT has established a ward based contract which allows timely and successful implementation and execution of work plans. Annual work (construction) plans are based on the available funding and fulfill the Mayor's initiatives and objectives and benefits the residents as well.

There is a separate road reconstruction project for each ward.

## Justification:

DDOT's goal is to preserve our current roadway system and provide maintenance as needed. This service helps to avoid the more costly reconstruction and upgrading repairs. DDOT's local roads are an integral part of the Districts infrastructure system. Residents, commuters, tourists, and those in the business community rely on DDOT for the city's streets to be safe, reliable and functional, thus the maintenance of these roads is critical.

## Progress Assessment:

DDOT develops an annual construction plan based on the approved budget.

## Related Projects:

There is a separate road construction project for each ward.

# KA0-SR303-LOCAL STREETS WARD 3

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** SR303  
**Ward:** 3  
**Location:** WARD 3  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$15,172,000

## Description:

The District of Columbia has over 682 local roadway miles that require preservation, maintenance, and repair. The District Department of Transportation (DDOT) has developed an annual work (construction) schedule that continuously assesses the needs of every local street in the District. Depending on the condition of the roadway, DDOT will provide service from basic mill and overlay (for resurfacing needs) to complete reconstruction and upgrade. Regardless of the construction type, DDOT's focus is to also repair or replace the adjacent sidewalks, curbs, and gutters in conjunction to the street repair, if applicable. In addition, DDOT has established a ward based contract which allows timely and successful implementation and execution of work plans. Annual work (construction) plans are based on the available funding and fulfill the Mayor's initiatives and objectives and benefits the residents as well.

There is a separate road reconstruction project for each ward.

## Justification:

DDOT's goal is to preserve our current roadway system and provide maintenance as needed. This service helps to avoid the more costly reconstruction and upgrading repairs. DDOT's local roads are an integral part of the Districts infrastructure system. Residents, commuters, tourists, and those in the business community rely on DDOT for the city's streets to be safe, reliable and functional, thus the maintenance of these roads is critical.

## Progress Assessment:

DDOT develops an annual construction plan based on the approved budget. This construction plan serves not only as the plan for which a construction schedule is adhered to but the is made available to the public so that they can become aware of when DDOT will be in their community to begin construction.

## Related Projects:

DDOT's in-house (project CE302) staff can address minor resurfacing and maintenance needs but can not handle the volume of construction required based on DDOT's work plan.

There is a separate road construction project for each ward.

# KA0-SR304-LOCAL STREETS WARD 4

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** SR304  
**Ward:** 4  
**Location:** WARD 4  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$13,758,000

## Description:

The District of Columbia has over 682 local roadway miles that require preservation, maintenance, and repair. The District Department of Transportation (DDOT) has developed an annual work (construction) schedule that continuously assesses the needs of every local street in the District. Depending on the condition of the roadway, DDOT will provide service from basic mill and overlay (for resurfacing needs) to complete reconstruction and upgrade. Regardless of the construction type, DDOT's focus is to also repair or replace the adjacent sidewalks, curbs, and gutters in conjunction to the street repair, if applicable. In addition, DDOT has established a ward based contract which allows timely and successful implementation and execution of work plans. Annual work (construction) plans are based on the available funding and fulfill the Mayor's initiatives and objectives and benefits the residents as well.

There is a separate road reconstruction project for each ward.

## Justification:

DDOT's goal is to preserve our current roadway system and provide maintenance as needed. This service helps to avoid the more costly reconstruction and upgrading repairs. DDOT's local roads are an integral part of the Districts infrastructure system. Residents, commuters, tourists, and those in the business community rely on DDOT for the city's streets to be safe, reliable and functional, thus the maintenance of these roads is critical.

## Progress Assessment:

DDOT develops an annual construction plan based on the approved budget. This construction plan serves not only as the plan for which a construction schedule is adhered to but the is made available to the public so that they can become aware of when DDOT will be in their community to begin construction.

## Related Projects:

DDOT's in-house (project CE302) staff can address minor resurfacing and maintenance needs but can not handle the volume of construction required based on DDOT's work plan.

There is a separate road construction project for each ward.

# KA0-SR310-STORMWATER PUMP STATIONS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** SR310  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$5,419,000

## Description:

Funding for this project supports capital improvements to 17 stormwater pump stations located throughout the District as well as the implementation of various initiatives to reduce stormwater run-off and improve area water quality. This project will enable upgrades of 17 stormwater pump stations in the District and the installation and improvement of systems to control stormwater run-off and soil erosion.

## Justification:

This project is necessary to ensure proper operation of the Stormwater pump stations as well as reduce stormwater run-off, control soil erosion, and improve the District's water quality.

## Progress Assessment:

This project is progressing as planned. It is an on-going project that occurs annually.

## Related Projects:

DDOT is responsible for upgrades to stormwater pumping stations, though DDOE manages the District's municipal separate storm sewer system, and DCWASA manages the combined sewer system.

# KA0-TRL01-KLINGLE TRAIL COMPLETION

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** TRL01  
**Ward:** 3  
**Location:** KLINGLE ROAD NW  
**Facility Name or Identifier:** LOCAL STREETS  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$3,000,000

**Description:**

Construction of a multi-use trail facility within the 0.7 mile barricaded portion of Klingle Road between Porter Street, NW, and Cortland Place, NW.

**Justification:**

-

**Progress Assessment:**

FHWA has determined that the Preferred Alternative and options for the Klingle Valley Trail project will not have a significant impact on the natural, human, or built environment as defined by the CEQ.

**Related Projects:**

# (KE0) MASS TRANSIT SUBSIDIES

## **MISSION**

The Mass Transit Subsidy program supports the provision of efficient, affordable, and diverse means of travel through transit services.

## **BACKGROUND**

From FY 2012 through FY 2017, the Washington Metropolitan Area Transit Authority (WMATA) is governed by a multi-jurisdictional capital funding agreement. Projects to be delivered under this agreement include mid-life rehabilitation of buses and subway cars, replacement of WMATA's 1000 series railcars, expanded use of eight-car subway trains, track replacement, power system upgrades to accommodate longer trains, and rehabilitation of storage and maintenance facilities. WMATA and its funding partners, including DDOT, negotiated a new, multi-year funding agreement signed by all of the funding jurisdictions and WMATA in July 2010.

## **CAPITAL PROGRAM OBJECTIVES**

1. Promote easy access, safety, and mobility.
2. Contribute to sustainable economic development.
3. Continue to improve the quality and range of transportation options for District residents

## **RECENT ACCOMPLISHMENTS**

- Negotiated new multi-jurisdictional funding agreement
- Implemented Express Bus Service on the H St/Benning Rd Corridor
- Initiated service restructuring plan for the 90 and A bus lines to improve connectivity across the Anacostia River

**Elements on this page of the Agency Summary include:**

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
  - 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
  - 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017
  - 4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
  - 4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.
  - 4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018
  - 4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).
- n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact
- n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.
- n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# KE0-SA202-METROBUS

**Agency:** MASS TRANSIT SUBSIDIES (KE0)  
**Implementing Agency:** MASS TRANSIT SUBSIDIES (KE0)  
**Project No:** SA202  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** WMATA  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 8  
**Estimated Full Funding Cost:**\$336,621,000

## Description:

District funding to support the bus capital program at WMATA as defined in the capital agreement between the District and WMATA. Typical projects to be funded are mid-life rehabilitation of buses, acquisition of new buses, improvements to bus storage, and replacement or rehabilitation of maintenance facilities.

## Justification:

This project is necessary to maintain the reliability of existing buses and to replace the aging fleet, to implement Rapid Bus along major District corridors, and to expand and realign routes to meet demands for service. Through this project, District residents will benefit from reduced travel times and an efficient and reliable transportation service that is linked with other transportation modes for easy access to jobs, schools, and economic opportunity for city neighborhoods.

## Progress Assessment:

WMATA is procuring buses and constructing a new bus facility in Virginia. Construction will also begin soon on a new bus facility in the District. WMATA's goal is reduce the average age of buses in the fleet from the current 13.5 years to 6.5 years.

# KE0-SA311-WMATA FUND PROJECT

**Agency:** MASS TRANSIT SUBSIDIES (KE0)  
**Implementing Agency:** MASS TRANSIT SUBSIDIES (KE0)  
**Project No:** SA311  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** WMATA  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$400,772,000

**Description:**

Additional District contribution of \$50 million annually to WMATA capital investments beginning in FY 2010 and continuing for ten years, through FY 2019. The annual contribution is contingent upon annual appropriation from Congress in the amount of \$150 million along with \$50 million annual appropriations from both the State of Maryland and the Commonwealth of Virginia.

**Justification:**

This project is necessary to maintain the reliability of rail service. Current WMATA capital spending levels are inadequate to maintain the system in a state of good repair and provide for continued growth in system use. The additional \$300 million per year in capital funding will allow WMATA to accelerate infrastructure repairs to maintain the system, replace the original subway cars in the system that are now at the end of their useful life, and proceed with system improvements such as power upgrades to accommodate longer trains and the purchase of new subway cars to accommodate ridership growth.

**Progress Assessment:**

On-going

# ELC-SA330-WMATA FUND PROJECT

**Agency:** MASS TRANSIT SUBSIDIES (KE0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** SA330  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** WMATA  
**Status:** New  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:**\$6,338,000

**Description:**

Additional District contribution of \$50 million annually to WMATA capital investments beginning in FY 2010 and continuing for ten years, through FY 2019. The annual contribution is contingent upon annual appropriation from Congress in the amount of \$150 million along with \$50 million annual appropriations from both the State of Maryland and the Commonwealth of Virginia.

**Justification:**

This project is necessary to maintain the reliability of rail service. Current WMATA capital spending levels are inadequate to maintain the system in a state of good repair and provide for continued growth in system use. The additional \$300 million per year in capital funding will allow WMATA to accelerate infrastructure repairs to maintain the system, replace the original subway cars in the system that are now at the end of their useful life, and proceed with system improvements such as power upgrades to accommodate longer trains and the purchase of new subway cars to accommodate ridership growth.

**Progress Assessment:**

New project

**Related Projects:**

# (KG0) DISTRICT DEPARTMENT OF THE ENVIRONMENT

## **MISSION**

The District Department of the Environment (DDOE) protects and enhances human health and the environment in the District of Columbia through preservation, conservation, restoration, education, enforcement and energy efficient practices designed to build a world-class green city.

## **BACKGROUND**

DDOE administers grants and partners with the other District, Federal, and non-profit organizations to control stormwater, impact of pollutants, and soil erosion within the District. The grants and partnerships enable the design and implementation of green infrastructure on District property. Green infrastructure typically implemented includes low impact development projects (green roofs, downspout disconnects, bio-retention ponds, etc.) and the installation of traditional stormwater best-management practices.

## **CAPITAL PROGRAM OBJECTIVE**

Reduce and/or improve the quality of stormwater run-off in the District's rights-of-way and clean up contaminated property in the Anacostia estuary.

## **RECENT ACCOMPLISHMENTS**

### **MS4 Projects**

- 1,000 linear feet of roadway located along East Beach Drive was retrofitted to direct runoff to vegetated areas.
- 2,100 linear feet of bioswale was constructed along I-295 to replace rip rap and slow runoff.
- 10 low impact development projects in various locations are currently being implemented.
- Two bioretention swales along north side of Nebraska Avenue between Stephenson and Oregon Avenue are currently being implemented.
- Funded DDOT green infrastructure projects on great streets, green alley projects, tree planting and LID maintenance.
- Funded UDC green roofs on 6 buildings and a plaza.
- Funded OPEFM stormwater management at Anacostia and Wilson High Schools.
- Funded DPW to study and implement efficiencies in the street sweeping program.
- Funded DRES green roofs on the new Forensic Laboratory and DOES headquarters.
- Provided subsidies for green roofs allowing the District to install almost 1 million square feet of green roofs.

### **ARRA Accomplishments**

#### **Clean Water State Revolving Fund**

- Installed 20,000 square feet of green roof at neighborhood libraries in Benning, Shaw, and Tenley-Friendship.
- Installed 28,000 square feet of green roof at the World Wildlife Fund headquarters through the Green Roof Subsidy program.
- Contractors have completed 238 projects for RiverSmart Homes, including installation of features such as rain gardens, native trees and landscaping, and pervious pavers.
- Removed 1,125 dead and dying trees that were no longer providing environmental benefit to make space for new trees through the DDOT Tree Canopy Renovation Project.
- Planted 2,720 new trees (2,060 by DDOT under the Tree Canopy Renovation Project and 660 by Casey Trees under the Green Neighborhoods Program).

#### **State Energy Program**

- Retrofitted 8 middle and high schools including installation of new lighting fixtures and window replacements to improve natural and artificial lighting in classrooms; and replaced in-classroom or centralized heating, cooling, and ventilation equipment to control temperature, air filtration, carbon dioxide levels, and background

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# KG0-HMRHM-HAZARDOUS MATERIAL REMEDIATION - DDOE

**Agency:** DISTRICT DEPARTMENT OF THE ENVIRONMENT (KG0)  
**Implementing Agency:** DISTRICT DEPARTMENT OF THE ENVIRONMENT (KG0)  
**Project No:** HMRHM  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** VARIOUS  
**Status:** Developing scope of work  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$51,000,000

## Description:

This project involves the identification, analysis, removal, and/or encapsulation of hazardous materials that prevent development of otherwise productive land or property.

## Justification:

The Anacostia estuary has several major clean-up sites located along its banks. Funding is needed to characterize the sediments in the entire estuary area of the Anacostia and develop a cleanup remedy. The sediments are an on-going source of contaminants and need to be addressed before the Anacostia can be returned to a "fishable and swimmable" river. Testing needs to be conducted on Anacostia sediment and water toxins (when present) to determine proper clean-up methods and potentially isolate the source of contamination from the clean-up sites.

## Progress Assessment:

This project is funded beginning in FY 2014.

## Related Projects:

Department of General Services project PL103C-HAZARDOUS MATERIAL ABATEMENT POOL

# (KT0) DEPARTMENT OF PUBLIC WORKS

## **MISSION**

The Department of Public Works (DPW) provides the highest quality sanitation, parking enforcement and fleet management services that are both ecologically sound and cost effective.

## **BACKGROUND**

DPW's capital program supports the Department's efforts to provide municipal services to District residents and businesses. The staff of the Solid Waste Management Administration ensures that District streets and public spaces are clean, safe, attractive and accessible by collecting and disposing of trash and recyclables, cleaning streets and alleys, removing graffiti, and enforcing solid waste regulations. DPW's Parking Services Administration employs approximately 200 parking officers who monitor 17,000 meters and 3,500 blocks of residential zoned parking. The employees who provide these services need operational equipment and adequate facilities to successfully perform their jobs. Currently, DPW maintains 22 properties including, 12 fueling sites, 2 transfer stations, 1 impound lot, and 1 leaf transfer station. DPW maintains an agency fleet of 1,110 vehicles, from sedans to heavy equipment such as trash compactors, dump trucks, street sweepers, and backhoes.

## **CAPITAL PROGRAM OBJECTIVES**

1. Ensure DPW fleet equipment will be available for the agency's core services and maintain replacement cycles to maximize cost savings on fleet maintenance.
2. Provide safe and clean facilities for DPW employees to perform work that ensures the cleanliness of the district's residential neighborhoods, high-visibility commercial areas, gateway corridors and industrial zones.

## **RECENT ACCOMPLISHMENTS**

- Purchased 71 snow trucks to improve snow removal response in District neighborhoods
- Rehabilitated the District's two municipal solid waste transfer stations – Fort Totten and Benning Road
- Rebuilt the Fleet Management welding shop located at West Virginia Avenue, NE fleet campus
- Built a Sweeper Operations Center to provide DPW with its first deployment yard in the northwest quadrant of the District

**Elements on this page of the Agency Summary include:**

n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# KT0-EQ903-HEAVY EQUIPMENT ACQUISITION - DPW

**Agency:** DEPARTMENT OF PUBLIC WORKS (KT0)  
**Implementing Agency:** DEPARTMENT OF PUBLIC WORKS (KT0)  
**Project No:** EQ903  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** DPW EQUIPMENT  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$10,316,000

## Description:

This project funds the Department of Public Works (DPW) with GO Bond and PayGo budget for the replacement of heavy equipment used for trash pick-up and snow removal.

## Justification:

Capital investment in the District's fleet is necessary to ensure seamless service delivery of many District operations. This project will enable the department to secure major durable equipment items that have long lead times between the placement of the order and the delivery of the item. Further, the project is expected to have a beneficial impact on the operating budget by eliminating the need for expedited processing of long lead time equipment orders, which disrupt regular work flow, and the efficiency of the procurement process.

## Progress Assessment:

On-going

## Related Projects:

# KT0-FS101-UPGRADE TO DPW FUELING SITES

**Agency:** DEPARTMENT OF PUBLIC WORKS (KT0)  
**Implementing Agency:** DEPARTMENT OF PUBLIC WORKS (KT0)  
**Project No:** FS101  
**Ward:**  
**Location:** VARIOUS LOCATIONS  
**Facility Name or Identifier:** DPW FUELING SITES  
**Status:** Under construction  
**Useful Life of the Project:** 30  
**Estimated Full Funding Cost:** \$5,498,000

## Description:

The Department of Public Works will upgrade the District's twelve existing fuel sites throughout the District. DPW is mandated to maintain all current and changing standards specified in EPA, DOH, DCFD, and DCRA regulations. Three fuel sites are in the process of being upgraded. Currently, the following nine (12) fueling sites are below the minimum federal and city standard: 1620 V STREET NW, 3320 IDAHO AVENUE NW, 2115 5TH STREET NE, 2200 ADAMS PLACE NE, 4902 BATES ROAD NE, 1241 W STREET NE, 1835 WEST VIRGINIA AVENUE NE, 550 WATER STREET NE, 100 42ND STREET NE, 2455 ALABAMA AVENUE SE, 2 DC VILLAGE LANE SE, 8300 RIVERTON COURT LAUREL MD.

## Justification:

DPW is mandated to maintain all current and changing standards regarding fuel sites or face fines and penalties for non-compliance. These upgrades will enable DPW to improve the reliability and efficiency of our fuel sites in an environmentally friendly manner.

## Progress Assessment:

The project is on schedule.

# (RM0) DEPARTMENT OF MENTAL HEALTH

## **MISSION**

The Department of Mental Health supports prevention, resiliency, and recovery for District residents in need of public mental health services.

## **BACKGROUND**

The Department of Mental Health utilizes approximately 27 owned and leased buildings in the District, including 17 buildings on the East Campus of Saint Elizabeths Hospital, six buildings used by the Community Services Agency, and the newly renovated Comprehensive Psychiatric Emergency Program facility on the campus of the former DC General Hospital. The hospital currently operates four buildings that house roughly 400 patients and four additional administrative buildings. The ongoing construction of a new Saint Elizabeths Hospital will consolidate all operations into two main buildings: a new 450,000-square-foot hospital, and a renovated Rehabilitative Medicine Building (RMB).

## **CAPITAL PROGRAM OBJECTIVES**

1. Complete construction of the new 300-bed, 448,000-square-foot Saint Elizabeths Hospital and the related projects, including demolishing the existing secure care building, rebuilding the new yard, building the parking facility, and completing the landscaping.
2. Consolidate utilities on the East Campus so that the new facility and the RMB building will be independent of the aging integrated campus systems with regards to electrical power, domestic hot water, and HVAC.
3. Renovate the RMB building to accommodate various administrative personnel, as well as up to 100 patients.

## **RECENT ACCOMPLISHMENTS**

- Completed the renovation of the Comprehensive Psychiatric Emergency Program (CPEP) in building 14 of the DC General Campus
- Undertook construction of the new Saint Elizabeths Hospital building
- Continued utility consolidation project on the East Campus of Saint Elizabeths Hospital

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). ## RM0-HX403-HOUSING INITIATIVES - DMH

**Agency:** DEPARTMENT OF MENTAL HEALTH (RM0)  
**Implementing Agency:** DEPARTMENT OF MENTAL HEALTH (RM0)  
**Project No:** HX403  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** AFFORDABLE HOUSING  
**Status:** Under construction  
**Useful Life of the Project:** 15  
**Estimated Full Funding Cost:**\$51,501,000

### Description:

The Department of Mental Health's mission in part, is to develop, support, and oversee a comprehensive system of care for persons with mental or emotional illness, or those who are at risk of developing such illnesses. As a recovery-based system, affordable housing is one of the most effective supports to assist consumers in exercising personal choices, greater self-determination, and empowerment to change their own lives. Funds will be used for housing development for consumers with serious and persistent mental illness. This request will continue the annual development of 100 units of affordable housing for very low-income to extremely low-income mentally ill residents of the District over a 6-year period; and provide favorable loan underwriting criteria and finance contingency planning.

### Justification:

The Department of Mental Health takes the position that in a recovery-based system, affordable housing is one of the most effective supports to assist consumers in exercising personal choices, greater self-determination, and empowerment to improve their own lives. The District will benefit from reduced reliance on institutionalizing of the mentally ill, and from the savings realized in returning its consumers to normal living standards.

### Progress Assessment:

After a three-year hiatus, this court-ordered project is progressing as planned. The only challenge the project faces will be that of ensuring continued funding.

# RM0-XA655-AVATAR UPGRADE

**Agency:** DEPARTMENT OF MENTAL HEALTH (RM0)  
**Implementing Agency:** DEPARTMENT OF MENTAL HEALTH (RM0)  
**Project No:** XA655  
**Ward:** 8  
**Location:** 1100 ALABAMA AVENUE SE  
**Facility Name or Identifier:** ST ELIZABETHS  
**Status:** New  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$1,655,000

## Description:

St. Elizabeth's Hospital desires a set of product enhancements to be applied to the current Avatar System which comprises the base Avatar System (Practice Management and Clinical Work Station), Worx (Pharmacy Management) and Lab (TDSynergy). These enhancements can be grouped into the following categories:

**Product Enhancements (Application Functionality)** – these enhancements cover the spectrum of costs associated with the changes necessary to further align the system to meet clinical practices and includes enhancements to system screens, reports, features and functionality that require alteration to comply with regulatory requirements (as stated by the Department of Justice), workflow changes, process documentation, process optimization or any mix of these as well upgrading to RADPlus 2011

**Equipment** – in the form of signature pads. Approximately twenty of these devices have already been put in place allowing the hospital to apply electronic signatures to electronic forms furthering the development of a fully digital EMR.

**Avatar Management Reports** – the hospital seeks to have qualified Crystal Reports designers create a series of complex reports surrounding the timeliness of completing assessments. Additional detail and specifications are located in Appendix B, Management Report Specs.

**Future Form/Enhancement and Report Development** – The hospital will continue to work with the DOJ and other regulatory agencies to fulfill its compliance obligations. Based on past meetings with these regulatory bodies, requests for new forms or changes to existing forms will be mandated. Further, based on the dynamic nature of the hospital, as it optimizes its own processes, it is essential that funding be made available to allow for forms and/or enhancements that are as yet unidentified.

## Justification:

"The hospital has compliance obligations with the Department of Justice and Department of Health that will be met with this project. Based on past meetings with these regulatory bodies, requests for new forms or changes to existing forms have been mandated. Further, based on the dynamic nature of the hospital, as it optimizes its own processes, it is essential that funding be made available to allow for forms and/or enhancements that are as yet unidentified.

This project is extremely urgent as the Hospital is under a great deal of pressure to meet its compliance obligations, furthermore it will improve the collaboration among the staff at SEH who are responsible to the care and well being of many District residents.

This is a new project that has been developed as a result of several compliance obligations and number of new Healthcare Standards such as ICD-10 and HIPPA 5010"

## Progress Assessment:

New project

# RM0-XA854-INTEGRATED CARE APPLICATIONS MGMT (ICAM)

**Agency:** DEPARTMENT OF MENTAL HEALTH (RM0)  
**Implementing Agency:** DEPARTMENT OF MENTAL HEALTH (RM0)  
**Project No:** XA854  
**Ward:** 1  
**Location:** 609 H ST, N.E.  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** New  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$3,547,000

**Description:**

ICAMS is a web based care management system to perform specific functions related to DMH's MHRS program. the system will fully integrate care management applications used by the agency and the MHRS community.

**Justification:**

The project will replace a DMH system that is 11 years old and is necessary to adjudicate \$70M in public mental health claims annually and bill for \$15M in revenue for the Department. The system will act an electronic medical record for more than 22,000 Distrcit consumers who access mental health services in DC. Due the the age and instability of the current DMH system, it is critical that this system be implemented expeditiously. The data from the system will enable DMH to serve District consumer better in the least restrict environment and also coordinate consumer's care amongst providers. The increased health outcomes directly support the Mayor's initiatives.

**Progress Assessment:**

This project is in the initial year. the only challenge the project could face will be that of ensuring continued funding.

**Related Projects:**

none.

# (TOO) OFFICE OF CHIEF TECHNOLOGY OFFICER

## **MISSION**

The Office of the Chief Technology Officer (OCTO) leverages the power of technology to improve service delivery, drive innovation, and bridge the digital divide to build a world-class city.

## **SCOPE**

OCTO oversees approximately 330 square miles of fiber network, 37,000 PCs, 28,000 phone lines, 9,700 cellular devices, 2,900 aircards, 2 mainframes, 2000 servers, and 2600 switches and routers citywide, providing secure services, communications and an electronic operating environment for more than 75 agencies of the DC Government. In addition, OCTO develops, implements, and maintains the District's technology infrastructure; develops and implements major enterprise applications; establishes and oversees technology policies and standards for the District; provides technology services and support for District agencies, and develops technology solutions to improve services to businesses, residents, and visitors in all areas of District government.

## **PROGRAM OBJECTIVES**

Objective 1: Provide and maintain a ubiquitous, reliable, and secure computing environment for the government as well as residents, businesses, and visitors.

Objective 2: Lower the cost of government operations and enhance service through innovative technologies.

Objective 3: Embrace information technology best practices and ensure high quality service delivery of technology projects.

Objective 4: Bridge the digital divide and enable economic development.

## **RECENT ACCOMPLISHMENTS**

- Upgraded the DC.gov home page and launched 35 websites for 31 agencies--including District of Columbia Public Schools (DCPS), District Department of Transportation (DDOT), Department of Public Works (DPW), Office of Contracts of Procurement (OCP), and the Office on Aging (OoA)--with the District's new content management system.
- Completed eight Health Insurance Portability and Accountability Act (HIPAA) security assessments for the District's covered entities, including the Child & Family Services Agency (CFSA), Department of Disability Services (DDS), Department of Healthcare Finance (DHCF), Department of Corrections (DOC), Department of Youth Rehabilitative Services (DYRS), Fire & Emergency Services (FEMS), Metropolitan Police Department (MPD), and Office on Aging (OoA)
- Upgraded the enterprise human resources and payroll management system from version 8.8 to version 9.0 as well as implemented the electronic learning module to eliminate manual processing of paper forms for training requests and transcripts
- Implemented two new modules, Contracts Compliance and Strategic Sourcing, to enhance the enterprise procurement system
- Developed approximately 330 applications using open source or cloud-based solutions, including applications for the Department of Employment Services (DOES), District of Columbia Public Schools (DCPS) and Office of the City Administrator (OCA)
- Launched TrackDC, a new performance management dashboard for agencies to report on front burner issues, view key operational data, report on Key Performance Indicators (KPI) status, customer service scores, and view newsfeeds about their agencies
- Grew the number of data sets to over 440 in the citywide data catalog, including basic business license information, awarded contracts, and taxicab owner-operator information
- Implemented the Universal Computing Platform (UCP) to host new agency hardware and applications. The UCP consolidates and integrates infrastructure resources from separate OCTO programs to standardize the infrastructure resources for applications across the District, providing long term scalability and efficiency.
- Deployed five outdoor hotspots on the National Mall and five hotspots in and around the Chinatown/Convention Center area
- Enhanced the Snow Response Reporting System to allow residents to track the progress of snow removal during 3 major snowstorms across the city.

**Elements on this page of the Agency Summary include:**

**Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

**Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

**Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

**Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

**FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

**6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

**Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

**Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

**Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

**FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

**Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# ELC-EQ101-CREDENTIALING AND WIRELESS COMMUNICATIONS

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** EQ101  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:** \$14,876,000

## Description:

This project includes design and construction of wireless infrastructure in various forms, from broadband wireless connectivity to wireless credentialing infrastructure for city workers and residents. Wireless credentialing focuses on the DC One Card initiative. The DC One Card is a consolidated credential designed to give District government workers and residents access to District government facilities, programs, and resources. The central platform for the DC One Card is a card that contains one or more wireless devices (chips).

## Justification:

This project is necessary because, by consolidating credentials citywide, the District will be able to reduce the resources it uses for card production and management, thus saving money government-wide. It also will provide substantial convenience to residents and easier access to government services. The DC One Card will help the District contain costs of various government program resources that will be accessed via the card.

## Progress Assessment:

This project is progressing as planned.

## Related Projects:

Though not necessarily connected to this project, any project that relies on or could benefit from use of a card (usually for ease of counting service usage) can be related to the DC One Card initiative.

**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$14,858,000

## Description:

District agencies' technology needs are placing an increasing reliance on the District Government data network for services it now supports, as well as additional network based services it will need to support—such as video, collaboration and increased mobility. The DC Wide Area Network (WAN) N1603C project began in FY08 and will continue through FY15 to provide continuous improvement on the network infrastructure and systems needed to maintain a state-of-the-art, secure, fault tolerant network and satisfy the future demands of District agencies.

## Justification:

This project allows for the improvement of the citywide network infrastructure. Improvements will include network infrastructure upgrades of legacy systems to leverage advances in technology and capabilities and additional resources to add bandwidth and throughput processing power. This project ensures the availability of critical services that OCTO provides to the entire District. Legacy network capabilities and capacity will not keep pace with the demands of new technology and potential growth for new agency IT initiatives.

## Progress Assessment:

This project is progressing as planned. In recent years, this project produced needed network equipment to improve existing network capacity and capabilities. It deployed the network infrastructure necessary to provide government and public wireless internet access at government locations, including parks and recreation facilities, schools.

## Related Projects:

N1603C is a continuation of the N1601B Capital project.

# ELC-N1604-DC GIS MASTER LEASE

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** N1604  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$7,365,000

## Description:

This capital fund is paired with master lease fund project ZA143C. Both invest in shared applications and mapping data for District agencies that work with geographic data. OCTO coordinates and facilitates cross-agency investments through the District of Columbia Geographic Information System (DC GIS) Steering Committee. OCTO supports these cross-agency activities by providing technical expertise and paying for a portion of the cross-agency projects. OCTO also supports individual agencies to enhance the District's current base map to add agency-specific information.

## Justification:

Detailed maps and information and the applications that employ them are an inherent part of state and local government. The DC GIS is already utilized across the government, and the data and applications are the basis of many government operations and decisions. DC GIS works with numerous agencies to make District agencies better stewards of our environment, be more prepared for emergencies, improve public safety, be more efficient in our government operations, track our assets and projects, be more competitive and careful in our economic development, and to be more thorough and fair in our revenue collection.

## Progress Assessment:

Due to the economic slowdown, DC GIS deferred some investments in mobile applications and address canvassing.

## Related Projects:

Project ZA143C also funds the DC GIS. The difference between N1604C and ZA143C is the type of funding and the permitted spending, not the intent or governance of the DC GIS.

# TO0-N1715-CYBER SECURITY MODERNIZATION

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Implementing Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Project No:** N1715  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** New  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$1,000,000

**Description:**

To address the ongoing cyber security threat, OCTO needs to overhaul DC Government’s cyber security practice, capability, and resource alignment. The District is not fully equipped to respond to a full scale cyber attack, and this has major implications for public safety and government operations. OCTO’s security program must be designed and built in accordance with today’s requirements for IT security, ensuring compliance with federal government standards.

**Justification:**

To address the ongoing cyber security threat.

**Progress Assessment:**

Yes.

**Related Projects:**

None.

# ELC-N2201- SERVER CONSOLIDATION

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TOO)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** N2201  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** OCTO DATA CENTER  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:**\$9,405,000

## Description:

District agencies' technology needs increasingly require additional servers to host applications within OCTO Data Center 1(ODC1) and OCTO Data Center 2 (ODC2). This project allows OCTO to maintain a robust virtual server pool, which has the dual benefit of providing modern equipment to improve application performance, as well as decreasing the overall operating cost of the data centers due to a decrease in the need for physical servers. Virtual server pools can be defined as taking one physical server and making it appear as many servers on the network.

## Justification:

This project allows for the continuous improvement of OCTO's virtual server pool. This technology eliminates the need for costly 1-to-1 mapping of production and Disaster Recovery servers. This project ensures the availability of critical services that OCTO provides to the entire District. The demand on the virtual server platform increases every year and a refresh of equipment allows OCTO to meet new demand and handle the current load. The servers in this virtual pool host critical applications for agencies.

## Progress Assessment:

This project is progressing as planned. Deployment for additional hardware and software will continue to further consolidate the dispersed and redundant server technologies throughout the District.

# ELC-N2501-DATA CENTER RELOCATION

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TOO)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** N2501  
**Ward:**  
**Location:** 2720 MARTIN LUTHER KING JR AVENUE SE  
**Facility Name or Identifier:** OCTO DATA CENTER  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$19,097,000

## Description:

The District of Columbia provides information technology services critical to public safety, public welfare, and government operations from its two primary data centers located within the District. This project will facilitate the relocation of the OCTO data centers to sites that are more secure, have robust infrastructure, and have sufficient capacity to meet current and future needs. The scope of the project is to find and prepare suitable data center sites, relocate the services to those sites, and support necessary capital improvements. One data center will remain in a leased facility. The other data center will be moved to a state-of-the-art leased facility outside of the District of Columbia. Doing so eliminates current issues with space and power capacity, as well as improves the District's disaster recovery capability.

## Justification:

This project is necessary and urgent because both data centers no longer have sufficient space and power available to meet current and future demands, their infrastructures are old and in need of costly major upgrades, and they are too close together for Disaster Recovery purposes. As the current data centers are only five (5) miles apart, a serious incident may affect both. Leasing a facility outside the District will mitigate this risk.

## Progress Assessment:

OCP (DRES) in cooperation with OCTO released and awarded an RFP for the lease of data center facility in northern VA. The lease was signed in August of 2009. Migration of data center services to the new leased facility occurred throughout FY 2010.

## Related Projects:

# ELC-N3101-DATA TRANSPARENCY AND ACCOUNTABILITY

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** N3101  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$8,636,000

## Description:

The Citywide Data Warehouse's (CityDW) mission is to democratize government data by providing a centralized access point for enterprise-wide data with a focus on data that enables decision support and government transparency. CityDW works the City Administrator, DCStat and with District agencies to supply data, business intelligence tools and dashboards. CityDW gathers data and builds reporting environments for DCStat (<http://capstat.oca.dc.gov/DC.aspx>) and agencies like CFSA, DDOT, OUC (311 and 991 data). CityDW also builds custom applications and dashboards to display the data like internal reporting and tracking tools like TrackDC (a public version will be released in FY10). CityDW being the centralized location for a large amount of city data is also charged with making the data available to the public. One example is the District's Data Catalog that provides over 400 datasets in easy to access formats (spreadsheets Google Maps, Google Earth). For years the District of Columbia has provided public access to city operational data through the Internet to help agencies operate as more responsive, better performing organizations. The Data Catalog can be used to view or download a variety of data like crimes, service requests, procurements, permits, constructions projects, purchase card transactions, purchase orders and more.

## Justification:

Information is one of the most under-utilized assets in government. Without the proper data sharing in place, agencies often bear all costs associated with collecting, storing, and protecting data without realizing any noticeable benefits. CityDW gathers and makes this data available to the Office of the City Administrator, agencies, employees and citizens. CityDW was selected from over 700 applicants by the Ash Institute as the winner of the 2009 Innovations in American Government Award in Urban Policy.

## Progress Assessment:

CityDW now publishes over 400 datasets via the Data Catalog (<http://data.octo.dc.gov/>), and built four applications that are available to the public that make it easy to access and view data including crime and service requests on a map.

## Related Projects:

Projects that CityDW depends on include but are not limited to Citizen Interaction and Relationship Management, DCGIS, PeopleSoft, PASS, and MPD crime data systems and all other agency source databases that provide data.

# TO0-N3699-POOL FOR SMP PROJECTS

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Implementing Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Project No:** N3699  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$9,004,000

## Description:

This account is used to develop various citywide software development projects that serve multiple agencies and the public. Two recent examples of these projects are the Web-based Service Request Center (SRC) and the Content Management System (CMS). SRC allows residents of the District to submit and track requests for District services online. CMS includes migrating the content of 200,000+ pages of the District's current website (www.dc.gov) to a new content management system that will make it faster and easier to post news and information on the website for District residents and visitors.

## Justification:

This project supports numerous citywide service modernization projects and high priority projects that will enhance information flow and responsiveness to citizens and make government more efficient and transparent.

## Progress Assessment:

The Content Management System project and the Service Request Center project are progressing as planned.

## Related Projects:

# ELC-N3701-HUMAN RESOURCES SYSTEM

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** N3701  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$11,390,000

## Description:

The Human Resources Systems (PeopleSoft HCM) program is designed to integrate the human resources, benefits administration, time reporting, payroll services, employee self service and other human capital management processes and applications for the city. This program will upgrade the PeopleSoft suite and implement the performance management and management end-user reporting tools. In addition, it will enable the use of self-service for all city employees and extend for the first time the use of the applications to include non-employees such as contractors and volunteers, eliminate paper forms, support 360-degree performance feedback and secure access for DC employees from outside DC's network. This program implements a single enterprise wide software platform that will replace several DCHR IT legacy systems (HR Gateway, PMP, PES, ASPEN SumTotal, and paper/excel documents/reports). Operating costs are reduced by 1) eliminating DCHR's IT support and maintenance costs for its stand-alone applications, 2) streamlining HR operations, and 3) reducing amount of printed paper. In FY 2010 Workforce Analytics will provide managers with the capability to perform complex analysis of the District's workforce to assist in decisions about staffing, hiring and workforce deployment.

## Justification:

The current version of PeopleSoft is no longer be supported by Oracle beginning in 2011. Essential legal, regulatory, and tax updates are delivered six times a year by Oracle. Therefore, the District must upgrade to a newer version of PeopleSoft to ensure receipt of these updates beyond 12/31/2010.

## Progress Assessment:

This project is progressing as planned through excellent stakeholder involvement and effective project management.

## Related Projects:

Project T2299C converts DC Public Schools (DCPS) employees into the Human Resources system. DCPS, after conversion to the new Human Resources system, will have access to all of the new features being implemented under project N3701C.

# ELC-N6001-TRANSPORTATION INFRASTRUCTURE MODERNIZATION

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Implementing Agency:** EQUIPMENT LEASE - CAPITAL (ELC)  
**Project No:** N6001  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** New  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:** \$1,500,000

## Description:

OCTO proposes to apply public safety value propositions to the transportation cluster by improving traffic cameras, smart traffic signals, and smart meters through connectivity. This initiative will provide design standards for a traffic management system, video surveillance, outdoor Wi-Fi hotspots, and IP-based environmental sensors. OCTO will devote specific resources that focus on bringing new technologies to the transportation cluster through a Deputy CTO, and a variety of projects that would serve the agencies in that cluster as well as intra-cluster benefits that may exist.

## Justification:

Public safety value to the transportation cluster by improving traffic cameras, smart traffic signals, and smart meters through connectivity. This will provide design standards for a traffic management system, video surveillance, outdoor Wi-Fi hotspots, and IP-based environmental sensors.

## Progress Assessment:

New project

# TO0-ZA143-DC GIS CAPITAL INVESTMENT

**Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Implementing Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Project No:** ZA143  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Facility Name or Identifier:** INFORMATION TECHNOLOGY  
**Status:** Ongoing Subprojects  
**Useful Life of the Project:** 10  
**Estimated Full Funding Cost:** \$13,547,000

## Description:

This capital fund is paired with master lease fund project N1604C. Both invest in shared applications and mapping data for District agencies that work with geographic data. OCTO coordinates and facilitates cross-agency investments through the District of Columbia Geographic Information System (DC GIS) Steering Committee. OCTO supports these cross-agency activities by providing technical expertise and paying for a portion of the cross-agency projects. OCTO also supports individual agencies to enhance the District's current base map to add agency-specific information.

## Justification:

Detailed maps and information and the applications that employ them are an inherent part of state and local government. The DC GIS is already utilized across the government, and the geographic data and applications are the basis of many government operations and decisions. DC GIS works with numerous agencies to make District agencies better stewards of our environment, be more prepared for emergencies, improve public safety, be more efficient in our government operations, track our assets and projects, be more competitive and careful in our economic development, and to be more thorough and fair in our revenue collection.

## Progress Assessment:

This project work has slowed due to budget changes resulting from the economic slowdown.

## Related Projects:

Project N1604C also funds the DC GIS. The difference between N1604C and ZA143C is the type of funding and the permitted spending, not the intent or governance of the DC GIS.

# (UC0) OFFICE OF UNIFIED COMMUNICATIONS

## **MISSION**

The Office of Unified Communications (OUC) delivers world-class customer service to the residents, visitors, and other stakeholders of the District with efficient, professional, and cost-effective responses to emergency, non-emergency, and city service requests.

## **BACKGROUND**

The OUC is responsible for operating and maintaining the Unified Communications Center (UCC) and the Public Safety Communications Center (PSCC). The OUC is also responsible for the public safety communications and infrastructure, including 9-1-1 and 3-1-1, Police/Fire/EMS dispatching, call handling and related call taking operations. These systems are vital to the public safety and customer service operations of the District of Columbia and are expected to be continuously operational with minimal to zero annual downtime. The comprehensive unified communication systems consist of the latest technologies in the areas of 911/311 telephony systems, radio system, computer-aided-dispatch (CAD), digital voice logging recording (DVL), Mobile Data Computing (MDC), and Citizen Relationship Management (CRM). These fully redundant systems provide continuous service, including:

- 1.3 million 911 emergency calls and 2.5 million 311 non-emergency/city service calls annually
- 11 million annual radio calls and 32 million annual radio transmissions
- 9,600 radios and 800 mobile data computers and dispatch applications city wide
- 900,000 annual computer-aided-dispatch events for MPD and FEMS
- 400,000 service requests annually
- Digital records of all emergency and city service voice/radio transmissions

## **CAPITAL PROGRAM OBJECTIVE**

Improve public safety communications, including emergency dispatch and call taking, and city service requests by maintaining and upgrading technology systems to meet the highest industry standards. Currently working on:

- Comprehensive P25 radio system upgrade
- Replacement of all MPD radios
- Fire Station alerting system replacement
- Business process improvement and quality assurance systems for 911 and 311 call handling

## **RECENT ACCOMPLISHMENTS**

- Purchased and deployed 2000 new P25 APX radios for MPD
- Upgraded Computer Aided Dispatch software and associated mobile application to the mobile data computers for MPD, Fire and EMS Units
- Replaced primary CAD workstations and servers
- Upgraded 911/311 telephony PBX and CTI applications
- Upgraded 311 CRM application

**Elements on this page of the Agency Summary include:**

n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.

4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017

4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.

4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.

4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018

4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).

n **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact

n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan and, the percentage of the agency CIP budget from either expense category.

n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# TO0-UC2TD-IT AND COMMUNICATIONS UPGRADES

**Agency:** OFFICE OF UNIFIED COMMUNICATIONS (UC0)  
**Implementing Agency:** OFFICE OF CHIEF TECHNOLOGY OFFICER (TO0)  
**Project No:** UC2TD  
**Ward:**  
**Location:** 2720 MLK JR. AVE SE  
**Facility Name or Identifier:** UCC  
**Status:** New  
**Useful Life of the Project:** 5  
**Estimated Full Funding Cost:** \$60,000,000

**Description:**  
 Replacement of original equipment to include e-9-1-1 system.

**Justification:**  
 The UCC IT equipment is 6 years old and in use 24/7.

**Progress Assessment:**  
 N/A

**Related Projects:**  
 N/A

# Appendix E

## Capital Project Cost Estimate Variance

This appendix provides information on lifetime cost for each project in the proposed FY 2013 - FY 2018 capital budget compared to lifetime cost for the project through FY 2012. DC Code Sec. 1-204.44(1) requires identification of capital projects whose lifetime costs in the proposed capital budget increase by more than 5 percent compared to the previous year's capital budget. Appendix E excludes Federal Highway Administration funding since the project-based allocations for FY 2013 – FY 2018 are not yet determined. Projects are divided into four parts for presentation.

**PART 1: Existing Projects in FY 2013 Budget and FY 2012 Budget; FY 2013 Lifetime Budget Increment Greater Than 5 Percent.** This section lists projects that are the focus of the DC Code requirement.

- Many of these projects fund ongoing work, with additional budget added each year to continue this work. Examples include (1) master equipment lease projects to finance replacement vehicles in the Metropolitan Police Department and the Fire and Emergency Medical Services Department, (2) the street and alley improvement project in the Department of Transportation, and (3) the District's capital subsidy to the Washington Metropolitan Area Transit Authority.
- Other projects represent true cost increases, either because of an expansion in the scope of work or an increase in the cost relative to prior estimates for the same scope of work.

**PART 2: Existing Projects in FY 2013 Budget and FY 2012 Budget; FY 2013 Lifetime Budget Increment Less Than 5 Percent (Or Negative).** This section lists projects whose cost did not increase by more than the 5 percent threshold.

**PART 3: Existing Projects in FY 2013 Budget but not FY 2012 Budget.** This section includes projects that were not part of the FY 2012 budget and thus are not the focus of the DC Code requirement. However, cost increases in the proposed FY 2013 - FY 2018 capital budget can still be calculated compared to previous lifetime budget.

**PART 4: New Projects in FY 2013 Budget.**

Projects in this section are receiving budget for the first time in the proposed FY 2013 capital budget, so there is no comparable prior cost estimate.

Lifetime budget data through FY 2012 are the budget authority figures from SOAR, the District's financial management system. Note that in some cases, two projects are listed even though they are doing identical work. An example would be projects that were initially financed by G.O./I.T. bonds that then receive financing through the master equipment lease/purchase program. A second project is created in the financial system with implementer agency ELC, the implementer agency for all master lease projects. The data in Appendix E are based on project information in SOAR, so these are treated as two separate projects.

Government of the District

# Appendix H

# Appendix H: FY 2013 - FY 2018 Highway Trust Fund

## Overview

Approximately 199 of the District's bridges and 400 miles of District streets and highways are eligible for federal aid. The Federal Highway Administration (FHWA) administers the Federal-aid Highway Program and reimburses DDOT for eligible expenditures related to approved highway projects according to cost-sharing formulas that are established in authorizing statutes. In most cases the federal share of the costs for approved projects is about 83 percent. The District's share of eligible project costs is funded with the local Highway Trust Fund (HTF).

The proposed HTF Budget for FY 2013 through FY 2018 is shown in Table H-1. The total budget for FY 2013 is \$176,487,180. It is anticipated that FHWA will make \$140,000,000 of federal aid available for HTF projects. The budget proposed for the local match is \$36,487,179. The proposed local HTF budget is based on estimates of local HTF revenues and anticipated local match requirements. Additional local budget of \$13,000,000 is proposed for HTF project costs that are not eligible for federal reimbursement (non-participating costs).

Non-participating costs include overhead and other costs that FHWA deems ineligible for federal grant funding. Overhead costs are incurred for positions that support the FHWA capital program but are ineligible for direct grant funding due to FHWA regulations. These labor costs are allocated to the local funding for capital infrastructure projects based on the direct labor charged to the individual project. Other non-participating costs are for infrastructure improvements or equipment used on capital infrastructure projects that FHWA deems non-essential for the grant purpose but are necessary to complete the task. Costs that are reimbursable from other parties, such as Pepco or DC Water and Sewer Authority, may also be financed as non-participating costs.

The sources of funding for HTF projects, excluding non-participating costs, are detailed in Figure H-1. The federal share of project funding is anticipated to be 79%, and the local share is expected to be 21%. The local share is derived primarily from motor fuel tax revenue, which is supplemented with right-of-way revenue, as needed to meet local match requirements.

Table H-1

## Proposed HTF Budget, FY 2013 Through FY 2018

(Dollars in thousands)

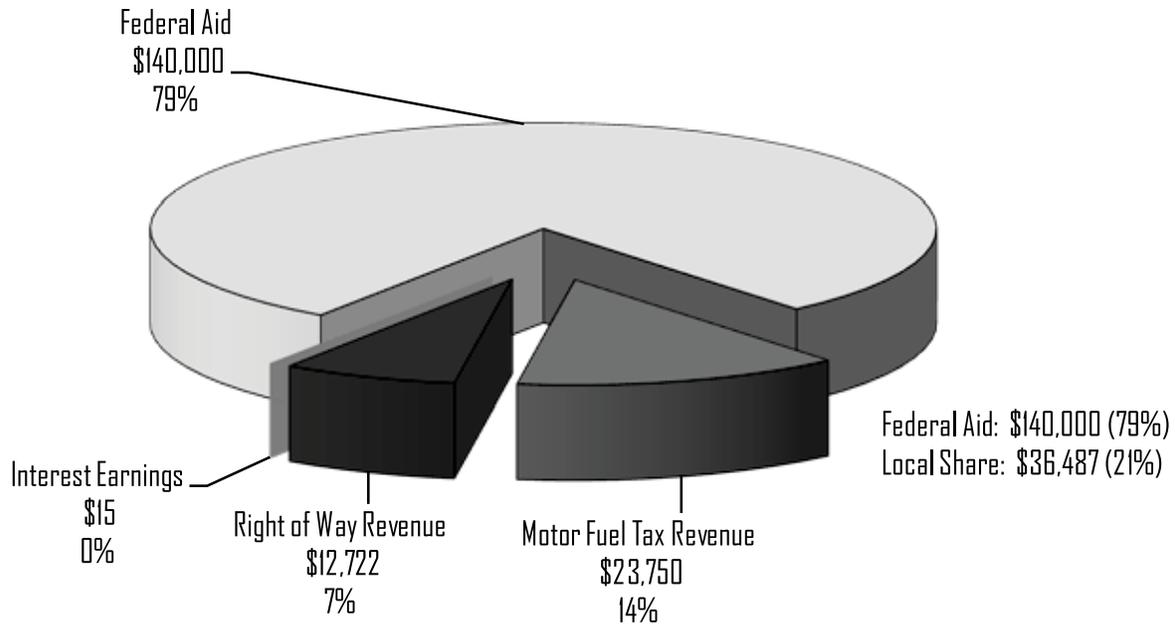

Fund	Title	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018	6-Year Total
0320	Highway Trust Fund - Local Match	\$36,487	\$34,487	\$32,487	\$33,487	\$30,487	\$25,487	\$192,923
0350	Highway Trust Fund - Federal Grants	\$140,000	\$140,000	\$140,000	\$140,000	\$140,000	\$140,000	\$840,000
<b>Total HTF</b>		<b>\$176,487</b>	<b>\$174,487</b>	<b>\$172,487</b>	<b>\$173,487</b>	<b>\$170,487</b>	<b>\$165,487</b>	<b>\$1,032,923</b>
0330	Local Non Participating Costs	\$13,000	\$10,000	\$8,000	\$6,000	\$4,000	\$2,000	\$43,000

Note: Details may not sum to totals due to rounding

Figure H-1

### FY 2013 HTF Sources: \$176,487 excluding prior year funding available

(Dollars in Thousands) Note: Details may not sum to totals due to rounding

### Highway Trust Fund Revenue

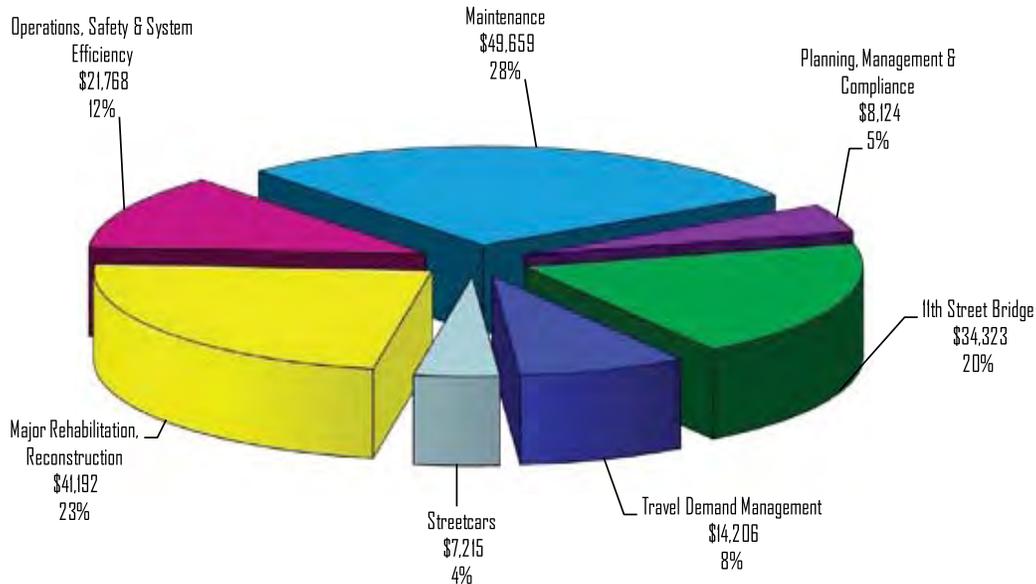

The HTF budget is proposed to be distributed between seven master projects shown in Figure H-2. Budget is allocated from the master projects to related projects as FHWA approves projects for federal funding. Projects that are related to each master project are listed in Appendix I, Table 2. Non-participating budget is to be allocated from local master project NP000C, Non-Participating Highway Trust Fund Support.

Each year DDOT produces a multi-year HTF financial report as required by D.C. Code § 9-109.02(e) to ensure that there are sufficient financial resources to match FHWA grants for transportation projects. A copy of the report for FY 2013 through FY 2018 is presented in Table H-2.

Figure H-2

## FY 2013 HTF Uses: \$176,487 excluding prior year funding available

(Dollars in thousands) Note: Details may not sum to totals due to rounding

## Project Planning

The Transportation Improvement Program (TIP) is a 6-year financial program that describes the schedule for obligating federal funds to state and local projects. DDOT completes a new TIP, processed through the Metropolitan Washington Council of Governments, each year. The TIP contains funding information for all modes of transportation including highways, transit, capital, and operating costs.

The TIP represents the intent to construct or implement a specific project and the anticipated flow of federal funds and matching local contributions. The TIP serves as a schedule of accountability to the Federal Highway and Federal Transit Administrations. Their annual review and certification of the TIP ensures the continuation of federal financial assistance for Washington area transportation improvements. Significant District projects in the TIP are 11th Street Bridge Reconstruction, South Capitol Street Corridor St Elizabeths Campus Access Improvements, and Southeast Boulevard from 11th Street Bridge to Barney Circle .

To ensure that DDOT can obligate all of its federal funds each year, the TIP contains more projects than DDOT has funding to complete. This strategy allows DDOT to implement alternative projects should there be an unexpected delay or if the agency should receive additional funding authority from the FHWA during their annual "August redistribution" process. August redistribution is the process by which states that do not obligate 100 percent of their authority within the fiscal year must forfeit any remaining authority. FHWA then redistributes this authority to those states that obligated 100 percent of their authority during the fiscal year and have projects that are ready to go.

DDOT requests budget authority of \$176,487,180 for HTF projects in FY 2013.

## Highway Trust Fund Cash Prospective (Notes)

- 1 The beginning balance reflects the amount of obligations carried forward from the previous fiscal year in support of long-term Capital Investment.
- 2 Interest earned on unspent monies for planned future expenditures. The rate used for calculating projected interest earnings is certified at 0.05 percent as of February 23, 2012 for the remainder of FY 2012 through FY 2018.
- 3 Dedicated revenue secured through the collection of Motor Fuel taxes.
- 4 Dedicated revenue from Parking & Storage Fees = 100 percent of the sales and use taxes collected by the District for parking and storing in excess of \$30 million. Beginning in FY 2012, these revenues will no longer be a dedicated revenue source for the HTF.
- 5 Dedicated incremental revenue generated by Public Space Rental fees vaults, sidewalk cafes, and surface and sub-surface fuel vaults. Beginning in FY 2012, these revenues will no longer be a dedicated revenue source for the HTF.
- 6 Dedicated revenue collected as a result of businesses paying a rental fee equal to 20 percent of the rental fee requirement for stand-alone conduit or pipes in the public right-of-way below the surface, 20 percent of the rental fee requirement for aerial wires in the public right-of-way above the surface.  
Beginning in FY 2012, right-of-way fees will be dedicated to the HTF along with Motor Fuel Taxes and Interest for a total match not to exceed 22 percent of proposed annual federal-aid highway project expenditures.
- 7 Federal aid apportionment is the funding provided by the Federal Highway Administration (FHWA) in each fiscal year based in part on the DC match. For FY 2011, funding reflects the District's annual Federal Aid apportionment of \$163,098,431 at year-end. The year-end apportionment includes August Redistribution of \$8,434,443. The FY 2012 anticipated apportionment of \$133,248,727, nor the FY 2013-FY 2018 anticipated annual apportionments of \$140,000,000 do not include August Redistribution although DDOT will ensure it meets FHWA's eligibility requirements for consideration. For FY 2013 thru FY 2018, funding has been conservatively flat-lined to reflect the Federal Aid Apportionment DDOT may be awarded prior to August Redistribution.
- 8 Project Management costs consist of salaries for in-house labor and contracted construction management services.
- 9 Non-Participating Costs are those costs not eligible for federal aid match. This includes labor and overhead costs, and advance construction not covered by FHWA. Also included are miscellaneous costs/reimbursements that may possibly be converted to federal reimbursement upon approval by FHWA at a later date, or will be reimbursed by another entity.  
Effective FY 2013, non-participating costs will no longer be paid from the Highway Trust Fund. Monies in the Local Transportation Fund and Enterprise Fund for Transportation Initiatives shall be used for non-participating costs that are that are associated with Federally-funded capital projects. Budget for non-participating costs shall be provided through a Master Project and shall be allocated to all Highway Trust Fund projects as needed.
- 10 Construction, Design, Site and Equipment expenditures eligible for federal aid match.
- 11 Ending Balance = Beginning Fund Balance plus current fiscal year sources of funds less current fiscal year planned uses of funds.
- 12 For the Estimated Funding section of this column, this amount reflects the federal carryover of unspent obligations from prior year program outlays as well as current fiscal year Federal Aid Apportionment as described in Note 7.
- 13 The Unified Fund was dissolved at the end of FY 2011. All unobligated revenues directed to the Unified Fund are transferred to the Highway Trust Fund.
- 14 The \$309.2 million 11th Street Bridge program is comprised of several funding sources: \$90.58 million in regular federal funds, \$17.62 million from a federal earmark, \$80 million in GARVEE proceeds, \$28 million in Parking Tax funds, \$85.1 million in GO Bonds, \$3.7 million in Right-of-Way fees, and \$4.2 million from CSX Rail. This is a federal aid eligible project and is, therefore, included in the HTF Prospective. While the local match for most projects in the HTF Prospective comes from the local Highway Trust Fund, the 11th Street Bridge project is also supplemented using other local capital fund sources which are not included in the development of the Highway Trust Fund Prospective.
- 15 The GARVEE Bonds issued for this project in FY 2011 (\$80 million GARVEEs) are serviced using future federal aid receipts; the District paid its \$20 million share upfront using GO Bonds. DDOT anticipates a second

GARVEE Bond issuance at the end of FY 2013 for approximately \$50 million for the final phase of the project. This anticipated planned borrowing is currently represented in the Debt Service Payment beginning in FY 2013. Note that the total project cost, including debt service expenditures, is estimated to be approximately \$365 million. The local funds required to match the project is approximately \$65 million which will come from non-Highway Trust Fund sources.

- 16 The project cost are comprised of Master Projects which more closely align with FHWA's anticipated restructuring of DDOT's transportation infrastructure plan (TIP) document. Within the Master Projects categories, DDOT will allocate budget to projects that receive FHWA approval for obligation throughout the fiscal year. Currently, there are nine Master Projects: Maintenance; Major Rehabilitation, Reconstruction, Replacement or New Construction; Operations, Safety and System Efficiency; Travel Demand Management; Planning, Management and Compliance; Transit Operations and Dedicated Facilities; Economic Development; 11th Street Bridge; South Capital Street Project; and Streetcars.
- 17 In FY 2011, \$4.0 million in PAYGO Capital was directed from the Unified Fund to the HTF Legislation.

# (KA0) DEPARTMENT OF TRANSPORTATION

## **MISSION**

The District Department of Transportation (DDOT) develops and maintains a cohesive sustainable transportation system that delivers safe, affordable, and convenient ways to move people and goods—while protecting and enhancing the natural, environmental and cultural resources of the District.

## **BACKGROUND**

DDOT oversees 1,100 miles of roads; 199 highway bridges, 14 pedestrian bridges, 17 tunnels and underpasses; 80,000 street, alley, bridge, tunnel, and navigation lights; 17,000 parking meters; 144,000 street trees and tree spaces; 130,000 street trees and tree planting; and 1,680 signalized intersections. Additionally, DDOT has responsibility for the District's bicycle and pedestrian facilities, traffic and pedestrian safety, and managing the District's public space and rights-of-way.

## **CAPITAL PROGRAM OBJECTIVES**

1. Ensure that the District's current transportation infrastructure (roads, bridges, transit system, signage, and sidewalks) and streetscapes are in acceptable condition.
2. Increase non-vehicular transportation modes to meet the mobility and economic development needs of the District.
3. Improve the safety of pedestrians, cyclists, and vehicles throughout the District.

## **LOCAL TRANSPORTATION FUND:**

This portion of DDOT's Transportation Program highlights Local Transportation Fund projects funded by Paygo funds, Master Equipment Lease/Purchase Program and/or General Obligation or Income Tax Secured Revenue bonds. The projects captured in this segment of the Capital Transportation Budget involve planned and proposed projects geared to improving and enhancing the local network of major and minor streets and roadways throughout the neighborhoods of the District. Improvements to the local network of streets include replacement of trees, lighting, curbs, sidewalks, alleys and supporting design, equipment and technology.

## **RECENT ACCOMPLISHMENTS OF HTF**

1. Made traffic safety improvements to 61 hazardous intersection.
2. Began work on two streetcar segments – Anacostia and H Street NE/Benning Road.
3. Completed three livability studies – Outcomes focused on changes such as enhanced pedestrian crossings, more accessible bus stops, increased green spaces, attractive streetscapes, improved signage, updates to traffic signal timing, and speed controls in sensitive areas.
4. Installed 1,150 networked, credit card reading meters to replace previous outdated stock in high usage areas Replaced or repaved more than 20 miles of streets, alleys and sidewalks Installed 500 speed humps and filled nearly 60,000 potholes.
5. Maintained Tree City USA status for its 20th consecutive year –DDOT has also planted over 4,000 trees in the past year.

**Elements on this page of the Agency Summary include:**

- n **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a projectsheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- n **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
  - 4 **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
  - 4 **Budget Authority Thru FY 2017 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2012 through 2017
  - 4 **FY 2012 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
  - 4 **6-Year Budget Authority Thru 2017 :** This is the total 6-year authority for FY 2012 through FY 2017 including changes from the current fiscal year.
  - 4 **Budget Authority Request for 2013 through 2018 :** Represents the 6 year budget authority for 2013 through 2018
  - 4 **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2013 - FY 2018 (change in budget authority is shown in Appendix A).
- n **Estimated Operating Impact:** The agency summary of all projects with operating impacts that the agency has quantified, the effects are shown, by type, in the respective year of impact.
- n **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan and, the percentage of the agency CIP budget from either expense category.
- n **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

# KA0-AW000-SOUTH CAPITOL STREET CORRIDOR

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** AW000  
**Ward:**  
**Location:** WARDS 6 AND 8  
**Status:** In multiple phases  
**Useful Life of the Project:** 30

## Description:

The proposed improvements to South Capitol Street are intended to realize the vision set forth in the L'Enfant Plan through downgrading South Capitol Street from an expressway to an urban boulevard and gateway to the District of Columbia's Monumental Core. A key feature of this project will be the construction of a new and architecturally significant Frederick Douglass Memorial/South Capitol Street Bridge. This structure will spark the transformation of the South Capitol Street corridor and create a world class gateway between the east and west sides of the Anacostia River. Additional park lands will be created in the area adjacent to the new bridge to promote liveable communities, expand recreational options, and reconnect the city to the Anacostia riverfront. Economic development opportunities will be created and improved connectivity for residents will be provided to federal installations and job centers, including enhanced access to the Department of Homeland Security, U.S. Navy Yard, Bolling Air Force Base, the Anacostia Annex, and Andrews Air Force Base in Maryland.

## KA0-HTF00-11TH STREET BRIDGE

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** HTF00  
**Ward:**  
**Location:** WARDS 6 & 8  
**Status:** Under construction  
**Useful Life of the Project:**

### Description:

This project serves as the debt service payment for the 11th Street Bridge GARVEE Bonds. The 11th Street Bridges design build project represents a significant step forward in DDOT's Anacostia Waterfront Initiative infrastructure endeavor. The project will improve mobility by providing separate freeway and local traffic connections to area roadways. Providing these connections will allow for the creation of the "Grand Urban Boulevard" envisioned for the South Capitol Street Corridor. The project provides multi-modal transportation options for cars, pedestrians, bicycles, and the future DC Streetcar; replaces existing structures that are both functionally deficient and structurally obsolete; provides an additional alternate evacuation route from our Nation's Capital; and supports the overall environmental mission of the Anacostia Waterfront Initiative. The first phase of the innovative design build to budget project started construction in December 2009, and is scheduled to be completed in 2013. This project is the largest project ever completed by DDOT and is the first river bridge replacement in the District of Columbia in more than 40 years. Completing this project will improve travel for both local and regional traffic.

## KA0-MNT00-MAINTENANCE

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** MNT00  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Status:** In multiple phases  
**Useful Life of the Project:**

### Description:

Any routine preventive maintenance or minor rehabilitation project including, but not limited to, typical maintenance program, resurfacing, sealing, pothole repair; streetlight and signal maintenance not including major upgrades (which would be in “operations” section), and asset management.

- a. Bridge rehabilitation and maintenance (self explanatory)
- b. Interstate (projects on streets functionally classified as interstates or freeways)
- c. Primary (projects on streets functionally classified as National Highway System routes or Major arterials)
- d. Secondary (projects on streets functionally classified as minor arterials or collectors – technically local street projects are not “regionally significant” and therefore need not be in the TIP at all, nor are they eligible for highway trust fund investment anyway so these would be scrubbed out)
- e. Pedestrian and bicycle facilities (sidewalks, cycle tracks, and trails)

### Related Projects:

All projects assigned to master project MNT00A-Maintenance in Appendix I, Table 2.

# KA0-MRR00-MAJOR REHABILITATION, RECONSTRUCTION, REPLACEMENT

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** MRR00  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Status:** In multiple phases  
**Useful Life of the Project:**

## Description:

Any rehabilitation projects in excess of \$5M, all street reconstruction projects, all major streetscape projects, all new construction or vehicle lane additions. This would include significant transportation construction projects that integrate multi-modal facilities such as transit, multi-use trails, etc. in the appropriate corridor(s).

- a. Bridge replacement
- b. Interstate (interstate or freeway)
- c. Primary (NHS or other major arterial)
- d. Secondary (minor arterial or collector)
- e. Pedestrian and bicycle facilities (sidewalks, cycle tracks, and trails)

## Related Projects:

All projects assigned to master project MRR00A-Major Rehabilitation, Reconstruction, Replacement in Appendix I, Table 2.

(Dollars in Thousands)

# KA0-OSS00-OPERATIONS, SAFETY & SYSTEM EFFICIENCY

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** OSS00  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Status:** In multiple phases  
**Useful Life of the Project:**

## Description:

Any projects with a primary focus of improving the safety and efficiency of our transportation system. In practice, this involves a variety of safety initiatives including engineering, safety education programs and campaigns meant to reduce crashes, fatalities, injuries and property damage. The category also includes Intelligent Transportation Systems and architecture, congestion management and traffic management to maintain functional mobility on District roadways for people and freight, while also addressing impacts to local communities.

- a. Traffic operations and improvements including ITS
- b. Signal and streetlight system operations and upgrades
- c. Safety program
- d. Safe Routes to School
- e. Livable Streets
- f. Freight and motor coach program
- g. Parking program

## Related Projects:

All projects assigned to master project OSS00A-Operations, Safety and System Efficiency in Appendix I, Table 2.

# KA0-PM000-PLANNING, MANAGEMENT & COMPLIANCE

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** PM000  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Status:** In multiple phases  
**Useful Life of the Project:**

## Description:

Any projects that identify transportation needs, set strategic objectives, develop best practices & recommendations and/or evaluate project alternatives (such as corridor studies, area studies, feasibility studies, plans, etc). Any activities approved for funding under the State Planning and Research program including, but not limited to, data collection and analysis, programming, plan development, and performance measurement. Any training or staff development activities and any compliance review or reporting activities are included as Management and Compliance including, but not limited to right of way management, environmental review and clearance (NEPA) and compliance review, enforcement or reporting associated with other federal or local statute.

- a. State planning and research
- b. Right of Way management
- c. Environmental clearance
- d. Training
- e. Civil Rights and ADA compliance

## Related Projects:

All projects assigned to master project PM000A-Planning, Management & Compliance in Appendix I, Table 2.

## KA0-STC00-STREETCARS

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** STC00  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Status:** In multiple phases  
**Useful Life of the Project:**

### Description:

This project funds planning that improves the quality, efficiency and/or safety of streetcar service. The DC Streetcar will make travel within the District much easier for residents, workers and visitors, and it will complement the existing transit options. Although the Metrorail system does an exemplary job of connecting the District to the rest of the region, it was not designed to connect neighborhoods. The DC Streetcar will do that and it will bring tremendous benefits to the communities it serves. In addition to streetcar lines under construction on H Street NE and Anacostia, planning is underway for additional segments across the city.

### Related Projects:

All projects assigned to master project STC00A-Streetcars in Appendix I, Table 2.

## KA0-ZU000-TRAVEL DEMAND MANAGEMENT

**Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Implementing Agency:** DEPARTMENT OF TRANSPORTATION (KA0)  
**Project No:** ZU000  
**Ward:**  
**Location:** DISTRICT-WIDE  
**Status:** In multiple phases  
**Useful Life of the Project:**

### Description:

Any projects that employ strategies to reduce single occupancy driving in the city and seek to reduce roadway congestion. This includes services and facilities that promote safe and attractive walking and bicycling as well as programs that promote mass transit, and other creative ways to provide alternatives to auto travel as well as significant outreach, education and promotion. Intermodal facilities that also promote non-single occupancy vehicle travel are included as well.

- a. Bicycle and Pedestrian Management Program
- b. Commuter Connections
- c. Bike share and bike station
- d. Intermodal facilities

### Related Projects:

All projects assigned to master project ZU000A-Travel Demand Management in Appendix I, Table 2.

## The District of Columbia Water and Sewer Authority FY 2011 - FY 2020 Capital Improvement Program

---

### **Overview**

The District of Columbia Water and Sewer Authority (DC Water) is an independent agency that provides essential retail water and wastewater services to over 600,000 residents and businesses, 16.6 million annual visitors, and 700,000 people who are employed in the District of Columbia. DC Water also provides wholesale wastewater conveyance and treatment services to more than 1.6 million residents in Prince Georges and Montgomery Counties in Maryland, and Fairfax and Loudoun Counties in Virginia.

Governed by an 11 member regional board of directors, DC Water maintains and operates the water distribution system, sanitary and combined sewage systems, and Blue Plains, the largest advanced wastewater treatment plant in the world. Since DC Water's formation in 1996, it has successfully undertaken significant efforts to improve its financial position and operations, a critical part of which has been the development and implementation of a ten-year capital improvement program. The capital program will enable DC Water to meet its key goals of providing the best service possible to its retail and wholesale customers, reducing long-term operating costs, meeting all regulatory requirements, and continuing its activities as an environment steward.

DC Water's FY 2011 - FY 2020 ten-year capital improvement program (CIP), adopted by its board of directors in January 2012, totals \$3.8 billion on a cash disbursements basis. This year's CIP is approximately the same as the last two year's disbursements budget, and reflects the continuation of major capital asset investment in programs and projects that will improve the condition of our local water ways, create clean energy and reduce operating costs in future years. This CIP includes all mandated projects as well as rehabilitation of assets required to meet permit requirements and all service needs. Further, the plan implements most of the water and sanitary sewer investments adopted by the Board to replace our aging infrastructure. These replacements are scheduled to ramp up to the full adopted plan by FY 2015 and additional projects will continue to be incorporated in future years as called for by the 2009 Facility Plan.

### **Ten-Year Capital Improvement Program and Financial Plan**

DC Water's enabling legislation requires a five-year financial planning period. However, because DC Water operates under a regulatory and capital project-driven environment, the agency uses a ten-year planning horizon for capital improvement projects. In addition, DC Water annually develops a ten-year financial plan that integrates the impact of the capital improvement program with DC Water's board policy goals of maintaining strong bond ratings, implementing rate increases on a gradual and predictable basis, streamlining operations in order to lower operating costs over the next several years, and providing better service to customers.

The development and adherence to a ten-year capital improvement program and ten-year financial plan have been critical factors in the strong bond ratings DC Water has received. DC Water has also been commended for its strong financing and rate-setting policies, its policy of gradual and predictable rate increases, high liquidity levels, diverse customer base, strong management emphasis on long-term financial planning, and track record of addressing costly capital improvements while efficiently managing its finances. DC Water's credit ratings were reaffirmed in October 2010 at the "AA" level, the second highest rating category available to state and local issuers, by Fitch Ratings and Standard and Poor's Corporation and Moody's Investors Service reaffirmed DC Water's Aa2 senior bond rating. These favorable ratings help reduce the interest rates DC Water pays on its debt borrowings, resulting in lower bills for customers.

## Capital Financing and Reserve Policies

DC Water's solid financial performance has been in large part due to the Board's strong financing and reserves policies. DC Water's financing policies are as follows:

1. DC Water will maintain financial practices and policies that result in high quality investment grade bond ratings so as to ensure the lowest practical cost of debt necessary to finance DC Water's long-term capital program.
2. DC Water will maintain strong levels of operating cash reserves, equivalent to approximately 120 calendar days of budgeted operations and maintenance costs, calculated on an average daily balance basis or a target of \$125,000,000, whichever is greater. The annual reserve amount will be formally approved by the Board as part of its annual approval of the operating and capital budgets and ten-year plan. The operating reserve will, at a minimum, include any reserve requirements contained in DC Water's master trust indenture as follows, excluding any debt service reserve funds and the rate stabilization fund:
  - a) Operating Reserve – equivalent to operating costs for sixty days.
  - b) Renewal & Replacement Reserve - \$35 million. This reserve requirement will be evaluated every five years by DC Water's independent rate consultant in conjunction with the indenture-required system assessment.
  - c) District of Columbia General Obligation Debt Reserve – equivalent to 10 percent of DC Water's share of subsequent year's District general obligation bond debt service.
  - d) DC Water will maintain senior debt service coverage of 140 percent, in excess of DC Water's indenture requirement of 120 percent. Senior debt service coverage will be calculated in accordance with DC Water's indenture.
3. In general, DC Water will utilize operating cash in excess of the Board's reserve requirement and any other significant one-time cash infusions for capital financing or for repayment of higher cost debt.
4. DC Water will whenever possible use the least costly type of financing for capital projects based on a careful evaluation of capital and operating requirements and financial position for each year.
5. DC Water will attempt to match the period of debt repayment, in total, with the lives of the assets financed by any such debt. DC Water's capital improvement program is financed from the following sources:
  - a) Revenue Bonds/Commercial Paper – 59 percent;
  - b) Payments from Wholesale Customers – 24 percent;
  - c) Paygo Financing (Transfer from Operations) - 8 percent;
  - d) EPA Grants – 8 percent; and
  - e) Interest Income on Bond Proceeds – 1 percent.

In November 2010 DC Water issued \$300 million Public Utility Subordinate Lien Revenue Bonds, Series 2010A (Federally Taxable- Issuer Subsidy – Build America Bonds) (“Series 2010A Bonds”). The proceeds of the Series 2010A Bonds will be used to provide funds for capital projects, including the Digester Project, pay for financing costs, and fund capitalized interest on the portion of the bonds issued to fund the Digester Project. The true interest costs (“TIC”) of the bonds was 3.59% after reflecting the 35% federal subsidy. This results in the lowest yield DC Water has ever obtained on a long-term bond issue.

Currently, DC Water maintains a \$225 million Commercial Paper (CP) Program. The program consists of three series – Series A \$100 million tax-exempt, Series B \$50 million tax-exempt and Series C \$75 million taxable for purposes of interim financing designed to provide flexibility between longer term bond issuances cycles. Under this program, DC Water issues fixed rate, short-term (no greater than 270 days) notes to provide liquidity and credit support for the notes. DC Water has entered into an irrevocable letter of credit (LOC) with J. P. Morgan for Series A and B and with U.S. Bank for Series C.

## **Water System Program**

DC Water distributes safe, clean drinking water to customers throughout Washington, DC, and continues to comply with all federal and local regulations. Capital projects in the Water Service Area are designed to maintain water quality through an adequate and reliable potable water supply to customers, as well as providing fire suppression support for the District of Columbia government. Categories of water projects include rehabilitation/ replacement of water pumping stations and water quality projects, including dead-end elimination, water main rehabilitation and replacement, and valve replacement. This area also includes water service line and meter replacement.

The water distribution system includes appurtenances necessary for proper system operation, inspection, and repair. DC Water's system includes approximately 1,300 miles of pipe and over 36,000 valves of various sizes. A variety of valve types allow flow control, prevent air entrapment, allow watermain draining, permit flow in only one direction, and allow water transfer between service areas during emergencies. The system also includes more than 9,000 hydrants in public space maintained on behalf of the Government of the District of Columbia in support of the DC Fire and Emergency Services. The cost of the fire hydrant maintenance is reimbursable and does not affect rate adjustments for customers in the District.

The lifetime budget for the Water Service Area (including Meter Replacement/AMR) is approximately \$1.5 billion, an increase of \$52.4 million from last year's CIP. This is primarily driven by the continuing ramping-up through FY 2015 of the Water Facility Plan that was completed in FY 2009 to achieve the replacement of one percent of the small diameter water main infrastructure per year.

Major water projects include upgrades to the Ft. Reno Pumping Station, rehabilitation of the Crosstown water main, small diameter water main replacements, as well as fire hydrant and large valve replacements.

## **Wastewater Treatment Program**

DC Water operates the Blue Plains Advanced Wastewater Treatment Plant, which provides wastewater treatment services to over 2 million people in its service area. The service area includes residents of the District and significant portions of Montgomery and Prince George's Counties in Maryland and Fairfax and Loudoun Counties in Virginia. Wastewater treatment facilities at Blue Plains process liquids from sanitary wastewater flows as well as peak storm flows from the sanitary and combined sewer systems. Blue Plains also has solids processing facilities that treat the residual solids removed by the liquids processing facilities. DC Water's wastewater treatment plant is rated for an average flow of 370 million gallons per day (MGD), and is required by its National Pollutant Discharge Elimination System permit to treat a peak flow rate of 740 MGD through the complete treatment process for up to four hours, and continuous peak complete treatment flows of 511 MGD thereafter. The plant treats these flows to a level that meets one of the most stringent National Pollutant Discharge Elimination System discharge permits in the United States. Additionally, up to 336 MGD storm water flow must receive partial treatment, resulting in a total plant capacity of 1,076 MGD.

## **Liquids Processing Projects**

DC Water's ten-year capital improvement plan includes projects to upgrade and rehabilitate facilities involved in handling flows from the sanitary and combined sewer systems. These flows progress sequentially through the plant processes to ultimate discharge of the treated effluent into the Potomac River. Liquid treatment systems include headwork's facilities that screen and pump the wastewater flows, grit facilities that remove sand and grit particles, primary treatment facilities that remove solids by sedimentation, secondary treatment facilities that remove organic pollutants using a biological process, nitrification/denitrification facilities that remove nitrogen using a biological process, and effluent filtration, disinfection, and dechlorination facilities.

## **Solids Processing Projects**

Biosolids processing involves reductions in volume along with treatment to meet federal or state and local requirements, as applicable, for the ultimate disposal method. Treatment is provided by a system of processing facilities that include gravity thickening of primary sludge, floatation thickening of the biological waste sludges produced by the secondary and nitrification/denitrification processes, planned digestion of all biosolids streams, dewatering by centrifuge or belt press and lime stabilization. Dewatered biosolids are conveyed to the Dewatered Sludge Loading

Facility for outloading to tractor-trailers for hauling to offsite land application sites and land reclamation sites. Solids processing facilities are required to produce a biosolids product that can be reused or disposed of in an economical and environmentally acceptable manner.

Under DC Water's Biosolids Management Plan ("BMP", originally adopted by the Board in 1999), a number of options were evaluated for long-term biosolids processing and disposal, and identified full biosolids digestion as a common element of all long-term approaches. However, based on market conditions in FY 2006, the DC Water Board of Directors re-evaluated a wider range of biosolids processing options. A combination of thermal hydrolysis and anaerobic digestion was selected and included in the capital budget. This recommended option will have the potential to decrease electric purchases by up to one third through the generation of energy on-site, reduce biosolids operating costs, and reduce DC Water's carbon footprint. The current budget further reduces the impact on DC rate payers through financing options that match the debt service with the realization of reduced operating costs.

## **Plant-Wide Projects**

Several significant plant-wide projects are included in DC Water's capital plan. This program provides for upgrading, rehabilitating, or installing support systems and facilities that are required for both the liquid processing and solids processing programs. Systems include a Process Control System (PCS) for monitoring and control of all processes and facilities, upgrades to city and plant water systems, chemical systems, electrical power and distribution systems upgrade, telephone service, and data highway infrastructure for process, safety, security and information needs. Facilities comprise chemical receiving, storage, transmission and feed systems for chemicals used throughout the liquid and solids processes, including metal salts, polymers, sodium hypochlorite, and sodium bisulfite. Support facilities projects include the rehabilitation of the Central Operations Facility and the Central Maintenance Facility.

## **Combined Sewer Program**

Similar to many older communities in the Mid-Atlantic, Northeast, and Midwest portions of the country, approximately one-third of the District, mostly in the downtown and older parts of the city, is served by a combined sewer system. A combined sewer system merges the conveyance of both stormwater and wastewater within one system. In dry weather, the system delivers wastewater to the Blue Plains Wastewater Treatment Plant. In wet weather, storm water also enters the system, and if the conveyance capacity of the system is exceeded, the excess flow spills into the waterways of the District. This discharge is called Combined Sewer Overflow (CSO).

Along with a few smaller CSO projects, DC Water is currently engaged in implementing the DC Clean Rivers Project (aka Long -Term Control Plan) for CSOs that discharge to the Anacostia River, Rock Creek and the Potomac River. The schedule for completing the DC Clean Rivers Project spans a 20-year period that ends in 2025 and is included in a Federal Consent Decree between the United States, the District and DC Water. The benefits of the twenty-year plan are significant. When fully implemented, combined sewer overflows will be reduced by a projected average of 96 percent (98 percent on the Anacostia River) resulting in improved water quality and a significant reduction in debris on our national capital's waterways. In addition, DC Water's clean-up efforts on the Anacostia River are a cornerstone of the District's plan to redevelop both sides of the river.

The federal consent decree was entered by the court in March 2005. Projects to control CSOs to the Anacostia River are at the top of the court ordered schedule and DC Water has completed the final Facility Plan for these projects. The Facility Plan includes a Summary Report and detailed implementation schedule which DC Water has submitted to EPA as required by the consent decree. DC Water is now moving forward in the design and construction phases of the Anacostia River projects according to the detailed implementation schedule submitted to EPA.

The plan, described in more detail on DC Water's web site at [www.DCWater.com](http://www.DCWater.com), includes a variety of improvements planned throughout the District to improve the quality of the Anacostia and Potomac Rivers and Rock Creek. DC Water has already invested nearly \$200 million in construction projects that has resulted in 40 percent of the planned 96 percent overflow reduction under the federal CSO Nine Minimum Controls program. It will take an additional \$2.4 billion (for a total investment of about \$2.6 billion) to achieve the final goals of the federally mandated Clean Rivers Project. In 2009, DC Water hired a new CSO director and awarded two program consultant contracts that now form a program consultant's organization to implement the Clean Rivers Project. In addition, the work to separate four

drainage areas in the Rock Creek watershed and a combined sewer separation project in the Anacostia watershed are complete. DC Water has procured design services for hydraulic facilities associated with CSOs 15, 16, 17 and 19, has executed a design-build contract for the Blue Plains Tunnel and is procuring a design-build contractor for the Anacostia Tunnel.

The Clean Rivers Project includes a variety of improvements throughout the District:

- \$1.7 billion to construct a ten-mile main tunnel system to control Anacostia River overflows, three miles of branch tunnels to relieve surface flooding and a tunnels dewatering pumping station, with project completion in FY 2025;
- \$419 million to construct a three-mile tunnel system to control Potomac River overflows and a lift station, with facility planning to begin in FY 2015 and project completion in FY 2025; and
- \$70 million to construct a mile long tunnel system to control Piney Branch/Rock Creek overflows, with facility planning to begin in FY 2016 and project completion in FY 2025.

## **Sanitary Sewer Program**

DC Water is responsible for wastewater collection and transmission in the District, including operation and maintenance of the sanitary sewer system. DC Water's sanitary sewer system includes approximately 600 miles of large interceptor sewers and smaller gravity collection sewers. DC Water is also responsible for sewer lateral connections from the sewer mains to the property lines of residential, government, and commercial properties. In addition, DC Water is responsible for the 50 mile long Potomac Interceptor System, which provides conveyance of wastewater from areas in Virginia and Maryland to Blue Plains. The existing sanitary sewer system in the District dates back to 1810, and includes a variety of materials such as brick and concrete, vitrified clay, reinforced concrete, ductile iron, plastic, steel, brick, cast iron, cast-in-place concrete, and even fiberglass.

In 2009, DC Water completed the Sewer System Facility Plan and in FY 2010 began to ramp up the recommendations contained therein with full program implementation in FY 2015. DC Water will continue the evaluation of the sewer system as an ongoing program to determine its condition, verify adequate capacity, and prioritize and develop new capital projects, as appropriate. The projects selected to be included in the CIP were based on inspections performed on approximately 80 miles of the District's most critical sewer segments. The criticalities of these sewers were developed based on several factors including size, age, historical problems, and locations such as under buildings.

Since FY 2002, an average of \$13 million per year has been disbursed from the CIP for sewer projects and the comprehensive sewer system assessment and the proposed CIP includes a ramp up to an average of more than \$40 million a year to replace all aging sanitary infrastructure.

## **Stormwater Program**

Over 34 miles of rivers and streams in and around the District do not support swimming and aquatic life. Stormwater runoff from separated and combined sewers is the primary source of pathogens that cause impairments to the District's local waterways. The District's stormwater system includes both separate and combined sewers, has approximately 600 miles of storm sewer pipes, catch basins, inlets, special structures and related facilities. DC Water is responsible for the stormwater management in areas served by combined sewers (approximately one-third of the City) and maintenance and replacement of certain public facilities supporting the combined system.

The District Government is responsible for operation, some capital replacement and management of the separate stormwater system under a MS4 (stormwater management) permit issued by the federal government. The central responsibility for managing system lies with the District's Department of the Environment (DDOE). Since 2007, DDOE has been responsible for the separate storm water system and compliance with the Clean Water Act as the stormwater administrator. Among other things, DDOE coordinates the MS4 task force, making recommendations regarding stormwater priorities, goals and recommendations on the adequacy of funding mechanisms for stormwater management activities.

While roles and responsibilities for capital replacements are not clearly defined, DC Water's ten-year budget for the Stormwater Service Area is \$16.3 million. Projects include rehabilitation of certain storm sewer systems that have experienced structural deterioration, relocation of storm sewers as appropriate when related to sanitary sewers, and studies and analysis primarily requested and paid for by other agencies or federal governmental entities. DC Water has continued to support stormwater management in the District of Columbia through catch basin cleaning in the combined sewer area (per our Blue Plains NPDES permit and an important component of storm water pollution control efforts) and through coordination of cleaning activities throughout the District (along with DC Public Works) as a member of the taskforce and an agency that values the design and implementation of environmentally responsible policies and programs. As new technologies for water quality catch basin and best management practices become available and are installed by DC Department of Transportation, DC Water has pledged to support stormwater efforts through expeditious review and approval, as appropriate, of proposals and providing catch basin cleaning and maintenance of new technologies utilizing available funding under the MS4 program. In addition, DDOE has, from time to time, identified areas within the District that may require additional study of stormwater impact. DC Water has the expertise available to support this research as required to enable evaluation of alternatives and best practices for future decision making. This work in support of DDOE has no impact to District rate payers.

## **Washington Aqueduct**

The Washington Aqueduct, managed by the U.S. Army Corps of Engineers, provides wholesale water treatment services to DC Water and its partners in Northern Virginia, Arlington County and Falls Church. DC Water purchases approximately 75 percent of the water produced by the Aqueduct's two treatment facilities, the Dalecarlia and McMillan treatment plants, and thus is responsible for nearly 75 percent of the Aqueduct's operating and capital costs. Under federal legislation and a memorandum of understanding enacted in 1997, DC Water and its Northern Virginia partners have a much greater role in oversight of the Aqueduct's operations and its capital improvement program. DC Water's ten-year expenditure budget for its share of the Washington Aqueduct capital projects totals \$107.1 million, or \$3.7 million less than last year's 10-year plan.

## **Capital Equipment**

DC Water's Capital Equipment budget totals approximately \$98.7 million for FY 2011 – FY 2020 plan, a decrease of approximately \$6 million compared to the last ten-year plan. Approximately 55 percent of spending in the capital equipment area continues to be on major information technology projects, including the network system renewal (budget of \$5 million) and the asset management system (budget of \$6.3 million). DC Water continues its commitment to scheduled replacement of its vehicle fleet with a budget of \$12.2 million, representing more than twelve percent of the ten-year plan. Finally, maintenance of large equipment at the Blue Plains and in the major water and sewer pumping stations totals \$9.9 million, or ten percent of the ten-year plan.

**FY 2013 Congressional Capital Authority Request**

As part of DC Water’s enabling legislation, Congressional appropriations authority is required before any capital design or construction contract can be entered into. DC Water’s FY 2013 request totals \$752.5 million, and reflects the following:

**DC Water Fiscal Year 2013 Capital Authority Request (Dollars in thousands)**

<u>Program Area</u>	<u>Authority Request</u>
Blue Plains Wastewater Treatment	\$72,035
Sanitary Sewer System	56,798
Combined Sewer Projects	513,853
Stormwater	1,343
Water System	78,279
Washington Aqueduct (DC Water share)	17,672
Capital Equipment	12,500
<b>Total</b>	<b><u>\$752,480</u></b>
