# (UC0) OFFICE OF UNIFIED COMMUNICATIONS

#### MISSION

The mission of the Office of Unified Communications (OUC) is to provide accurate, professional and expedited to the citizens and visitors of the District of Columbia. This service is performed by a team that handles emergency and non-emergency calls that are received when individuals dial 911 and 311 in Washington, DC. OUC also provides centralized, District-wide coordination and management of public safety voice radio technology and other public safety communication systems and resources to District government agencies and several local, state, and federal partners.

#### CAPITAL PROGRAM OBJECTIVES

In support of the Mayor's Safer, Stronger, Brighter DC initiative, and to enhance customer service delivery, the OUC seeks to improve public safety communications, including emergency dispatch and call-taking, and city service request management by maintaining and upgrading technology systems to meet the highest industry standards for all public safety communications activities.

In the coming fiscal years, the OUC will be working on:

- Public Safety Communications Center (PSCC) Infrastructure Improvements: The OUC will upgrade or replace the PSCC's critical systems and components which are at the end of their useful life.
- Electrical Power Redundancy at UCC Building: The OUC, in coordination with DGS, will upgrade the UCC's
  electrical system configuration to a true 2N design.
- Integrated Console Replacements for Call Takers and Dispatchers The OUC will replace integrated consoles to improve overall workstation performance.
- 911 / 311 Hardware Replacement The OUC will pursue key
- 911/311 systems hardware replacement initiatives following IT best practices.
- 911 / 311 Software / Application Replacement The OUC will upgrade its existing 911 / 311 software applications following IT best practices.
- Radio Replacement for FEMS and MPD In alignment with the OUC's equipment replacement schedule, the agency will replace all radios for FEMS and MPD users.

#### Elements on this page of the Agency Summary include:

- Funding Tables: Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- Additional Appropriations Data (\$000): Provides a summary of the budget authority over the life of the project. The table can be read as follows:
  - Original 6-Year Budget Authority: Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
  - Budget Authority Through FY 2026: Represents the lifetime budget authority, including the 6-year budget authority for FY 2021 through FY 2026.
  - FY 2021 Budget Authority Revisions: Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
  - 6-Year Budget Authority Through FY 2026: This is the total 6-year authority for FY 2021 through FY 2026 including changes from the current fiscal year.
  - Budget Authority Request Through FY 2027: Represents the 6-year budget authority for FY 2022 through FY 2027.
  - Increase (Decrease): This is the change in 6-year budget requested for FY 2022 FY 2027 (change in budget authority is shown in Appendix A).
- Estimated Operating Impact: If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- FTE Data (Total budget in FTE Table might differ from actual budget due to rounding): Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency's capital plan, and the percentage of the agency CIP budget from either expense category.
- Facility Location Map: For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

## UC0-UC304-911/311 RADIO CRITICAL INFRASTRUCTURE

Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)Implementing Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)

Project No: UC304

Ward:

**Location:** DISTRICT-WIDE

Facility Name or Identifier: COMMUNICATION INFRASTRUCTURE

Status: Ongoing Subprojects

**Useful Life of the Project:** 5

Estimated Full Funding Cost: \$16,736,000

## **Description:**

This project supports infrastructure upgrades to the District's unified communications facilities and infrastructure, such as the Unified Communications Center (UCC), Public Safety Communications Center (PSCC), and radio sites, including but not limited to the following types of improvements: Electrical system upgrades; environmental and HVAC upgrades; building alarm system upgrades; Uninterrupted Power Supply (UPS) replacement batteries; space reconfigurations, assessments, and site work (e.g., road widening, site drainage, roof repairs, sprinkler system and generator upgrades; Radio Site Upgrades; equipment for call centers (such as lighting, chairs, audio/visual displays) and other projects; and design and project management services.

#### Justification:

This project supports timely upgrades to ensure that the District's communications facilities and infrastructure can effectively support the operations and mission of the Office of Unified Communications, which provides essential services to first responders and District residents.

#### **Progress Assessment:**

Ongoing project.

#### **Related Projects:**

UC303C—MPD/FEMS RADIO REPLACEMENT, UC302C-MDC REPLACEMENT FOR MPD & FEMS, DWB02C-IT SOFTWARE (911/311 APPLICATIONS), AFC02C-IT HARDWARE 911/311 SYSTEMS, DR018C-DISASTER RECOVERY & COOP IMPLEMENTATION, N2518 DATA CENTER RELOCATION

## UC0-UC2TD-IT AND COMMUNICATIONS UPGRADES

Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)Implementing Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)

Project No: UC2TD

Ward:

**Location:** DISTRICT-WIDE

Facility Name or Identifier: IT & COMMUNICATION INFRASTRUCTURE

Status: Ongoing Subprojects

**Useful Life of the Project:** 5

Estimated Full Funding Cost: \$37,225,000

#### **Description:**

Comprised of the following sub-projects:

- Upgrade to Radio Communication & Data Center Sites environmental and power equipment including HVAC, Generator and UPS (12 sites).
- · Connecting the security cameras and systems in the city to the CAD system for use by both dispatchers/call takers as well as units in the field.
- Mobile Data Terminal Upgrades and Licenses
- Consists of procuring new MDC hardware and associated application licenses to replace end of service devices currently in use by the DC Public Safety fleet (MPD, FEMS...etc.) and Implementation of Next Generation 911
- involves implementing Next Generation 9-1-1 call taking to include the ability to receive text messages and video in emergency situations from callers.
- Design and Coordination of Public Safety wireless Network
- This project consists of supporting the design and coordination for implementing a public safety dedicated broadband network in collaboration with FCC and Commerce Department thru FirstNet
- Upgrade of power backup system at communications sites
- consists renewing aging radio communication sites backup power equipment including Generator and UPS (10 sites)
- PSCC reconfiguration/enhancements.
- In FY2021 and FY2022, this project includes the replacement of the 4D Howard Hughes radio tower and the demolition of the existing towers at the site. This project will also replace aging power equipment at the District's 12 public safety radio towers, including in FY 2023 and FY 2026.

#### **Justification:**

These upgrades will help our first-responders stay efficient and able to deliver and receive information quickly while in the field. The 4D Howard Hughes tower is critical infrastructure that supports multiple federal, District, and commercial communication systems. The tower in its current form fails to meet the new TIA-222-G standard for tower structural integrity. DGS and OUC have determined that replacement and demolition is the best and most cost effective solution.

## UC0-AFC02-IT HARDWARE 911/311 SYSTEMS

Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)Implementing Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)

Project No: AFC02

Ward:

**Location:** DISTRICT-WIDE

Facility Name or Identifier: COMMUNICATION INFRASTRUCTURE

**Status:** In multiple phases

**Useful Life of the Project:** 15

**Estimated Full Funding Cost:** \$8,785,000

## **Description:**

This project is to replace, enhance and upgrade critical 911 and 311 hardware components such as the telephony system, next generation 9-1-1 call processing hardware (VIPER), system licensing, servers, switches and firewall. The agency facilitates centralized public safety communications which requires a 99.999% up-time for all critical systems. Scheduled upgrades are required on the OUC's hardware to ensure 911 / 311 systems are consistently secure, resilient and fully operational.

#### Justification:

The UCC receives and processes calls to 911 and the District's customer service line, 311. During major emergencies, the center becomes the District's Emergency Operations Center.

# UC0-DWB02-IT SOFTWARE (911/311 APPLICATIONS)

 Agency:
 OFFICE OF UNIFIED COMMUNICATIONS (UC0)

 Implementing Agency:
 OFFICE OF UNIFIED COMMUNICATIONS (UC0)

Project No: DWB02

Ward:

**Location:** DISTRICT-WIDE

Facility Name or Identifier: INFORMATION TECHNOLOGY

**Status:** In multiple phases

**Useful Life of the Project:** 10

**Estimated Full Funding Cost:** \$2,954,000

## **Description:**

This project will upgrade OUC's existing 911/311 software applications following IT best practices. Specifically, it will provide for the bi-annual Radio System Software upgrade and every 5 year major 911 Computer Aided Dispatch software upgrade. In FY 2019, OUC's 911 services received nearly 1.3 million calls, and 311 services received approximately 1.7 million calls and processed over 680,000 service requests for 82 District Government agencies. OUC also serves as the custodian of all 911 and 311 communications records.

#### Justification:

OUC's 911/311 applications provide a reliable operational environment where critical functions can be performed quickly and efficiently. Scheduled software application upgrades are required to ensure optimal 911/311 performance. This project funds major system upgrades to the Computer Aided Dispatch (CAD) system every five years.

# UC0-UC302-MDC REPLACEMENT FOR MPD & FEMS

Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)Implementing Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)

Project No: UC302

Ward:

**Location:** DISTRICT-WIDE

Facility Name or Identifier: INFORMATION TECHNOLOGY

**Status:** In multiple phases

**Useful Life of the Project:** 5

Estimated Full Funding Cost: \$21,272,000

**Description:** 

This project budget supports the cost of replacing Mobile Data Computers (MDCs) for MPD and FEMS as well as the Mobile VPN Server.

Justification:

This project will fund a complete MDC hardware refresh every five years. OUC is responsible for providing and maintaining MDCs for both MPD and FEMS. MDCs are devices used in emergency vehicles to communicate with OUC dispatchers that display mapping and other information relevant to emergency response which enhance situational awareness and safety.

## **Progress Assessment:**

Progressing in multiple phases

## UC0-UC303-MPD/ FEMS RADIO REPLACEMENT

Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)Implementing Agency:OFFICE OF UNIFIED COMMUNICATIONS (UC0)

Project No: UC303

Ward:

**Location:** DISTRICT-WIDE

Facility Name or Identifier: COMMUNICATION INFRASTRUCTURE

**Status:** In multiple phases

**Useful Life of the Project:** 10

Estimated Full Funding Cost: \$48,483,000

## **Description:**

This project consists of replacing all radios for Fire and Emergency Medical Services Department (FEMS) and the Metropolitan Police Department (MPD) to the newest state of the art version. The radios FEMS and MPD use are specific to their role as first responders.

#### Justification

The OUC policy is to provide redundancy and backup on all core systems, and 99.9% reliability. It is imperative that the OUC invest in replacing MPD and FEMS radios to fulfill this policy.

## **Progress Assessment:**

Progressing in multiple phases
